Consent > Questionnaire > Section 3 - Job attributes - Decision Activities > table_list_30								
generated_table_list_label_207	3.1 On the table are labels describing job attributes. I would like you to convey how important the attributes are for you. I will now give you 20 beans. The more beans you put on top of each label, the more important that attribute is for you. You can leave labels without beans, you can put all the beans on one label, or you can distribute them as you wish. <i>Please take time to explain this to the respondent. ENUMERATOR, LAY THE LABELS ON A FLAT SURFACE AND GIVE THE 20 BEANS TO THE RESPONDENT. Labels should be positioned in random sequence and in a circular fashion, as shown in the MANUAL.</i>

note_6	Section 6 – Social Norms Exercise																	
Consent > Questionnaire > Section 6 – Social Norms Exercise																		
note_6a	Now, we are going to do an exercise where the objective is for you to guess how socially acceptable other midwives will find a certain length of service in a primary health centre as the one you worked in SURE-P. In this exercise, you will have the chance to win ₦ 10,000. However, before starting the exercise for real, let me start with an example to make sure that you will know how to do the real exercise later on. You cannot win money for this first example, but you will be able to win it for the ones that come later on. <i>Please take time to explain this to the respondent.</i>																	
note_6b	The example is the following: Suppose we ask 100 people in your state for how long will it be socially appropriate to wait for a taxi in the capital of the state? What do you think the most popular answer was? Suppose 60 people say '30 min', 30 people say '15 min' and 10 people say '60 min'. The answer '30 min' is the most popular in this example. Thus, if this exercise had been for real and you had answered '30 min' then you would have guessed the most popular answer. Because you would have guessed correctly, your name would then be put in a bag together with the names of all SURE-P midwives we interviewed back in 2013 that also answered b). Finally, the name of a midwife would be taken, at random, out of the bag. That midwife (it could be you) would win ₦ 10,000, paid into her bank account.																	
note_6c	Now, we start the exercise for real. We will do this exercise with all SURE-P midwives we interviewed back in 2013. Now, we will ask you to guess what these midwives think about a few questions described below. Your objective is to guess what the most popular answer is amongst them. In a couple of months, when the answers given by midwives are known, we will select at random one of the situations listed below. If you guess correctly the question which was randomly chosen, your name will be put in a bag together with the names of other midwives that also guessed correctly. Finally, the name of a midwife will be taken, at random, out of that bag. That midwife (it can be you) will win ₦ 10,000, paid into her bank account.																	
note_q1	Jamila is a midwife who started working in the same PHC where you worked for SURE-P in 2013. In addition to her midwife salary, for each 3 months she stays working in that PHC, she also receives a bonus of ₦ 30,000. The other midwives from other PHCs are aware of this.

		2 b. People's misfortunes result from the mistakes they make.
trust_2 <i>(required)</i>	14.2.2 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. In the long run people get the respect they deserve in this world
		2 b. Unfortunately, an individual's worth often passes unrecognized no matter how hard he tries
trust_3 <i>(required)</i>	14.2.3 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. Becoming a success is a matter of hard work, luck has little or nothing to do with it.
		2 b. Getting a good job depends mainly on being in the right place at the right time.
trust_4 <i>(required)</i>	14.2.4 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. The average citizen can have an influence in government decisions.
		2 b. This world is run by the few people in power, and there is not much the little guy can do about it.
trust_5 <i>(required)</i>	14.2.5 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. Who gets to be the boss often depends on who was lucky enough to be in the right place first.
		2 b. Getting people to do the right thing depends upon ability. Luck has little or nothing to do with it.
trust_6 <i>(required)</i>	14.2.6 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. Most people don't realize the extent to which their lives are controlled by accidental happenings.
		2 b. There really is no such thing as "luck."
trust_7 <i>(required)</i>	14.2.7 I am NOW going to show you and read to you two statements. Please tell me which one best describes how you feel	1 a. With enough effort we can wipe out political corruption.
