Section 6. Household Expenditures & Income

I would now like to ask you about your household's typical spending at stores and markets and other cash outlays.

Q.1	How much did your household spend in the last week on?	Amount (NZ\$)
a.	Groceries and food consumed at home	<input type="text"/>
b.	Food and drinks consumed outside the home	<input type="text"/>
c.	Other daily needs (bus fares, newspapers, etc)	<input type="text"/>
Q.2	How much did your household spend last month on:	
a.	Housing (rent, taxes, maintenance, water bills)	<input type="text"/>
b.	Fuel and Light (electricity, kerosene, wood, gas, match, candles, batteries)	<input type="text"/>
c.	Non-durable household goods (personal care products and cleaning)	<input type="text"/>
d.	Health expenses (doctor and hospitals fees and medicines)	<input type="text"/>
e.	Vehicle expenses (petrol, diesel, repairs)	<input type="text"/>
f.	Communication (telephone, cell phones, internet, post)	<input type="text"/>
g.	Recreation and entertainment (cinema, books, travel, lottery, pets)	<input type="text"/>
h.	Community obligations (church, village)	<input type="text"/>
i.	Interest payments on loans (interest only, not principal)	<input type="text"/>
j.	Gambling	<input type="text"/>
Q.3	Over the past 6 months, how much did your household spend on:	
a.	Clothing and footwear	<input type="text"/>
b.	Education (school supplies, school fee, donations)	<input type="text"/>
c.	Electronic goods (TVs, VCRs, radios, computers)	<input type="text"/>
d.	Household furnishings (furniture, dishes, rugs, toys)	<input type="text"/>
e.	Household appliances (washing and sewing machines, refrigerators)	<input type="text"/>
f.	Own business investment (fishing, forestry or agriculture tools)	<input type="text"/>
g.	Lending to friends/other family members	<input type="text"/>

HOUSEHOLD INCOME

Q.4	How much income did you and the family members who accompanied you under the Pacific Access Category receive in the last FORTNIGHT from interest, dividends, rental of property, returns from other investments, pensions and national superannuation?	<input type="text"/>
Q.5	How much income did you and the family members who accompanied you under the Pacific Access Category receive in the last FORTNIGHT from Family Support, Unemployment Benefit, Domestic Purposes Benefit, Accommodation Supplement or other welfare payments?	<input type="text"/>

SECTION 8: PRINCIPAL APPLICANT PERSONAL DETAILS

Please ask the PAC Principal Applicant to answer this section

Person ID from Roster of person answering this section

Q.1 Please indicate which of the following years you entered the Pacific Access Category (PAC) ballot?

Circle each year that you entered the ballot:

2002 2003 2004 2005 2006 2007

Q.2 Did you ever win the PAC ballot but were unable to migrate (e.g. if no job offer?)

1= Yes 2 = No

Q.3 Where were you born?

1 = New Zealand, 2 = Nuku'alofa 3 = Rest of Tongatapu, 4 = Outer Islands, 5 = Other

Q.4 Before coming in the Pacific Access Category, had you ever been to New Zealand?

1= Yes 2 = No → Q.6

Q.5 In what month and year did you first come to New Zealand?

Month _____ Year _____

Q.6 What is your religion?

1 = Church of Tonga, 2 = Free Wesleyan Church, 3 = Catholic, 4 = Methodist, 5 = Mormon,
6 = Seventh Day Adventist, 7 = Assembly of God, 8 = Free Church of Tonga, 9 = Other, 10 = None

Q.7 Have you ever had a paid job or business?

1=Yes 2 = No → Q10

Q.8 Have you changed your main occupation in the last FIVE YEARS?

1=Yes 2 = No → Q10

Q.9 Describe your main occupation or job title BEFORE you changed occupation, and for your current job.

[Interviewer: prompt for specific occupations e.g. "taxi driver", "cleaner", "receptionist"].

(your previous occupation/job title)

(your current occupation/job title)

Q.10 Please imagine a 10-step ladder where on the bottom, the first step, stand the poorest people and on the highest step, the tenth, stand the rich. On which step are you today?

1 2 3 4 5 6 7 8 9 10

Code

Q.11 And now please imagine another 10-step ladder where on lowest step are people who are absolutely not respected and on the highest step stand those who are very respected. On which step of this ladder are you?

1 2 3 4 5 6 7 8 9 10

Code

Q.12 I am now going to ask you some questions about whether you would prefer to receive a sum of money TODAY or in ONE YEAR'S time

a. Would you prefer to receive NZ\$1000 today, or NZ\$900 one year from today?

1= NZ\$1000 today
2 = NZ\$900 one year from today → Q.13

Code

b. Would you prefer to receive NZ\$1000 today, or NZ\$1000 one year from today?

1= NZ\$1000 today
2 = NZ\$1000 one year from today → Q.13

Code

c. Would you prefer to receive NZ\$1000 today, or NZ\$1100 one year from today?

1= NZ\$1000 today
2 = NZ\$1100 one year from today → Q.13

Code

d. Would you prefer to receive NZ\$1000 today, or NZ\$1500 one year from today?

1= NZ\$1000 today
2 = NZ\$1500 one year from today

Code

Q.13 Suppose that you are the only income earner in your family, and you have a good job guaranteed to give you your current (family) income for life. You are given the opportunity to take a new job, with a 50-50 chance it will double your current income, and a 50-50 chance that it will cut your income by 20 percent. Would you take the new job?

1= Yes 2 = No

1=Yes, 2=No

Q.14 I am now going to ask you some questions about whether you would prefer to receive a sum of money NEXT YEAR or THE YEAR AFTER

a. Would you prefer to receive NZ\$1000 on Christmas Day 2014, or NZ\$900 on Christmas Day 2015?

1= NZ\$1000 on Christmas Day, 2014
2 = NZ\$900 one year later, on Christmas Day, 2015 → Q.15

Code

b. Would you prefer to receive NZ\$1000 on Christmas Day 2014, or NZ\$1000 on Christmas Day 2015?

1= NZ\$1000 on Christmas Day, 2014
2 = NZ\$1000 one year later, on Christmas Day, 2015 → Q.15

Code

c. Would you prefer to receive NZ\$1000 on Christmas Day 2014, or NZ\$1100 on Christmas Day 2015?

1= NZ\$1000 on Christmas Day, 2014
2 = NZ\$1100 one year later, on Christmas Day, 2015 → Q.15

Code

d. Would you prefer to receive NZ\$1000 on Christmas Day 2014, or NZ\$1500 on Christmas Day 2015?

1= NZ\$1000 on Christmas Day, 2014
2 = NZ\$1500 one year later, on Christmas Day, 2015 → Q.15

Code

Q.15 How do you see yourself: Are you generally a person who is fully prepared to take risks (of any sort) or do you try to avoid taking risks?

[Interviewer: show the respondent the line below and let them circle the number closest to where they feel they are. Then note in the box which number it is].

Code

0.....1.....2.....3.....4.....5.....6.....7.....8.....9.....10

Unwilling to
take risks

Fully prepared to
take risks

Now I would like to ask you your opinions about life in general. Please note that these should reflect your own current views rather than the views of others, and that there are no right or wrong answers.

Q.16 Do you believe that it is possible to be successful on your own or is a large group that supports each other necessary for success?

1= It is possible to be successful on your own.
2 = A large group is necessary to be successful.

Code

Q.17 Do you believe that having money is important to being happy?

1= It is indispensable to being happy.
2 = It is very important to being happy.
3 = It is important to being happy.
4 = It is not important to being happy.

Code

Q.18 Do you believe, that in general, people who put effort into working end up much better off, better off, worse off or much worse off than those who do not put in an effort.

1= Much better off than those who do not put in an effort.
2= Better off than those who do not put in an effort.
3= Worse off than those who do not put in an effort.
4= Much worse off than those who do not put in an effort.

Code

Q.19 In general, in our country, would you say that one can trust other people or that people cannot be trusted?

1= You can trust others.
2 = You cannot trust others.

Code

Section 9. Financial Decision Making

Please ask the PAC Principal Applicant to answer this section

Person ID from Roster of person answering this section

Q.1 Now, I would like to offer you the opportunity to play a game, which lets you earn a little bit of money. It is very simple and takes only a couple of minutes.
 I would like you to choose between several different businesses which you could be the owner of – you should choose ONE business, from the list below, of A through H. Each business differs in terms of how many Pa’anga per day it pays out in a good month and how much it pays per day in a less good month, but in other regards the businesses are the same.
 I will toss a coin at the end of this question, and you will receive the amount of money in the Grey area (the daily pay out in the less good month) if it comes up heads. If instead, the coin comes up tails, you will earn the amount of money in the White area (the daily pay out in the better month). The amount you win depends on which business you choose, but you must make your choice and tell it to me before I toss the coin.

Business	Heads	Tails
A	10	10
B	9	19
C	8	24
D	7	25
E	6	30
F	4	32
G	2	38
H	0	40

INTERVIEWER:

1. Please make sure to explain this game in detail and ask if there are any questions
2. Please write down the letter for the business that the respondent chooses:
3. Now toss the coin, and make the payment

Q.2 Please could you indicate which of the options below best describes the time period that is most important to you when you are making financial decisions about saving and spending.

- a. The next week
- b. The next few months
- c. The next year
- d. The next 2 to 4 years
- e. The next 5 to 10 years
- f. More than 10 years ahead

Write the letter for the closest option into the box.

Q.3 Please could you indicate which of the options below best describes the approach to financial decision making in your household.
 For each of the types of decisions, please put a cross in the box that best describes WHO it is that makes decisions on each of these issues. **MARK ONLY ONE BOX PER ROW**

	Always made by myself	Usually made by myself	Shared between myself and someone else in this household in NZ	Shared between myself and my extended family in New Zealand	Shared between extended family in Tonga (or other country) and myself
Managing day-to-day spending and paying bills	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Making large household purchases (e.g. a car)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Making large donations (e.g. to church or feasts)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Employment and small business activities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Savings, investment, and borrowing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Section 10. Household Decision Making

Please ask the PAC Principal Applicant to answer this section

Person ID from Roster of person answering this section

I would like to offer you the opportunity to play another set of games, with one of your relatives. At the end of these games both you and your relative can choose a number between 0 and 99, and we will roll some dice. If the number from either of you is rolled, the money from one version of the games will actually be paid out, according to decisions made in the game. So even though it is a game, we would like you to think very carefully about the choices, since you may be playing it for real. The aim of the game is to help us to understand how people make economic decisions.

First, we would like to identify the other player for the game. This can be either your mother, your father, an elder sister or an elder brother. Do any of these relatives live in Tonga, and if so can you tell me the name of the first person on the list of the types of relatives.

Name of person: _____ Relation to PAC Applicant: _____

Interviewer: This should be the same person listed on the front cover after questions 1-4.

If none of your mother, father, elder sister or elder brother are currently living in Tonga, the interview is now finished and we thank you for your help.

Assuming that one of these types of relatives is in Tonga, we will play your part of the game today, and contact them to play their part either by phone right now, or in the next day or so.

Was the Other Player contacted by phone during the interview? YES NO

Interviewer: Please circle to indicate whether the other player was contacted during the interview.

Before we start playing the game, I would like to ask you a few questions about your interactions with your relative, who we will call the *Other Player*.

- Q.1 How frequently do you normally communicate with *Other Player*?
1 = Daily, 2 = Several times a week 3 = Weekly, 4 = Once or twice a month, 5 = Less than monthly
- Q.2 Do you know how much *Other Player* earns from work each month?
1 = Yes, 2 = No
- Q.3 Does the *Other Player* know how much you earn from work each month?
1 = Yes, 2 = No
- Q.4 How frequently do you normally give money to *Other Player*?
1 = At least monthly, 2 = Several times a year, 3 = Once a year, 4 = Less than yearly or never
- Q.5 How frequently does *Other Player* normally give money to you?
1 = At least monthly, 2 = Several times a year, 3 = Once a year, 4 = Less than yearly or never
- Q.6 Do you typically consult with *Other Player* before making financial decisions?
1 = Yes, 2 = No
- Q.7 Does *Other Player* typically consult with you before making financial decisions?
1 = Yes, 2 = No
- Q.8 If you lent one of your possessions to *Other Player*, do you trust that they would return it without you having to ask repeatedly for it to be returned?
1 = Yes, 2 = No
- Q.9 Do you and *Other Player* own any of the following together?
A = Bank account, B = Land, C = Livestock, D = Household business

Write the letters of all that apply

We would like you to play three versions of this game (A, B, and C), which differ in how money is divided between players and in the information available to each player.

Interviewer: Please play the three versions of the game in this order: _____

A Assume you receive a windfall of 300 pa'anga. There are then three stages to this game.
 Stage 1: You decide how much of the 300 pa'anga to keep for yourself, and how much you would like to transfer to the other player.
 Stage 2: The other player then decides how much of the money you sent them to keep for themselves, and how much money to put into the **BONUS POT**. **The other player knows your windfall was 300 Pa'anga, and how much of that you have chosen to send to them.**
 Stage 3: We then roll a 4-sided dice and multiply the money put into the bonus pot by the number that comes up on the dice. All the money in the bonus pot goes **to you**, along with what you kept in Stage 1.

Interviewer: Show the **GREEN** example card for game A and check that they understand it.

<p><i>This Player (eldest PAC Principal Applicant)</i></p> <p>a. how much of the 300 will you keep? _____</p> <p>b. how much will you give to Other Player? _____</p> <p>c. how much do you think the other player will put into the bonus pot? _____</p>	<p><i>Other Player (phone now or soon after)</i></p> <p>d. how much of what is received is kept? _____</p> <p>e. how much is transferred to bonus pot? _____</p>
---	--

Interviewer: Roll the 4-sided dice, and multiply the one number that shows on all faces by the amount in (e). Write down this number here: _____. This amount plus that in (a) goes to the PAC Applicant player.

B Assume you receive a windfall of 300 pa'anga. There are then three stages to this game.
 Stage 1: You decide how much of the 300 pa'anga to keep for yourself, and how much you would like to transfer to the other player.
 Stage 2: The other player then decides how much of the money you sent them to keep for themselves, and how much money to put into the **BONUS POT**. **The other player knows your windfall was 300 Pa'anga, and how much of that you have chosen to send to them.**
 Stage 3: We then roll a 4-sided dice and multiply the money put into the bonus pot by the number that comes up on the dice. All the money in the bonus pot goes **to the OTHER PLAYER**, along with what they kept in Stage 2.

Interviewer: Show the **RED** example card for game B and check that they understand it.

<p><i>This Player (eldest PAC Principal Applicant)</i></p> <p>a. how much of the 300 will you keep? _____</p> <p>b. how much will you give to Other Player? _____</p> <p>c. how much do you think the other player will put into the bonus pot? _____</p>	<p><i>Other Player (phone now or soon after)</i></p> <p>d. how much of what is received is kept? _____</p> <p>e. how much is transferred to bonus pot? _____</p>
---	--

Interviewer: Roll the 4-sided dice, and multiply the one number that shows on all faces by the amount in (e). Write down this number here: _____. This amount plus that in (d) goes to the Other Player.

Interviewer: In version C of the game, the PAC Applicant player draws a number from a hat, which is either 100, 300 or 500. This is the amount of windfall (**W**) for this game. The other player is not told how much **W** is.

C Assume you receive a windfall of **W** pa'anga. There are then three stages to this game.
 Stage 1: You decide how much of the **W** pa'anga to keep for yourself, and how much you would like to transfer to the other player.
 Stage 2: The other player then decides how much of the money you sent them to keep for themselves, and how much money to put into the **BONUS POT**. **The other player only knows your windfall was somewhere between 100 and 500 Pa'anga but not the exact amount.**
 Stage 3: We then roll a 4-sided dice and multiply the money put into the bonus pot by the number that comes up on the dice. All the money in the bonus pot goes **to YOU**, along with what you kept in Stage 1.

Interviewer: Show the **BLUE** example card for game C and check that they understand it.

<p><i>This Player (eldest PAC Principal Applicant)</i></p> <p>a. how much of the W will you keep? _____</p> <p>b. how much will you give to Other Player? _____</p> <p>c. how much do you think the other player will put into the bonus pot? _____</p>	<p><i>Other Player (phone now or soon after)</i></p> <p>d. how much of what is received is kept? _____</p> <p>e. how much is transferred to bonus pot? _____</p>
--	--

Interviewer: Roll the 4-sided dice, and multiply the one number that shows on all faces by the amount in (e). Write down this number here: _____. This amount plus that in (a) goes to the PAC Applicant Player.

Now please select a number between 0-99 and write it down: PAC Player _____, Other Player _____

Interviewer: Roll the two 10-sided dice, and if either number written down comes up, one version of the game has been for real. If the sum of the two numbers written down is <67, it is Game A, if 68-133 Game B, and if >133 Game C.
