intro_ref_old_int	Can you provide a reference from your old internship? References are people, such as supervisors, who can testify about your character, skills and abilities. These checks serve as an indicator of your performance to your prospective employer. The reference should be someone who supervised your work, will remember you and can speak about your performance on the internship. Please don't list people you have only a personal relationship with. We might be calling the reference you provide to verify your employment.
