Additional information

2.1. None of the variables had labels, therefore I labelled them. Data for question 81 was mislabelled at 84, this also caused 82-84 to be mislabelled. These labels were corrected to match the questionnaire.

2.2. No value labels existed, therefore all were labeled.

3.2. In order to correct errors, likely imputational, the following corrections had to be made to follow skip patterns from the questionnaire.
