General Household Survey 2006

The General Household Survey 2006 data is in four files. The files are flat, ASCII, fixed field files, with one line of given length per record. This format was chosen so as to make the data usable with as many statistical programs as possible, and thus accessible to as wide a range of people as possible.

Users can also access, explore and download the microdata in various formats, i.e. SAS, SPSS, Stata, etc. as well as the metadata from StatsOnline at www.statssa.gov.za. Click on 'Interactive'.

Other important information for users is found in the:
♦ Questionnaire
♦ Additional code lists (occupation, industry, place names)
♦ Relevant publications
♦ Web-site (www.statssa.gov.za)

THE DATA FILES

The files and the corresponding sections of the questionnaire are as follows:
PERSON: Data from Flap and Section 1
WORKER: Data from Section 2
TOURISM: Data from Section 3
HOUSE: Data from Section 4

The files also contain some derived variables.

The information in each file contains the following:
• Nature of records in the file and population covered
• Description of variables

Description of variables

The description of the variables comprises the following information:

Descriptive name: This is a short English description plus the variable name in the original file used by Stats SA to construct the ASCII file.

Position of the variable: The position of the data within the record, recorded in the format (@xxx y.). "@xxx" indicates that the data begins at position (i.e. column) xxx and "y." indicates that it is y digits wide. All data is numeric. All data is right justified.

Source: This is either the question in the questionnaire or, for derived variables, the method of derivation. Derived variables are usually found towards the end of a record.

Valid range: The range of valid values for the variable. For continuous variables this reflects the upper and lower limits as found in the data.

Not applicable: The code for not applicable is provided for each variable. These are now numeric.

Missing value: A code for "missing"/unspecified values is given for each variable.

Notes: Specific observations to be noted by users.

Most questions in the General Household Survey questionnaire are pre-coded, i.e. there is a set number of choices from which one or more must be selected. For open-ended 'write-in' questions, the description will note that post-coding occurred and explain how this was done. Most variables have been pre-coded from the questionnaire and are not repeated

in the variable description. Where the coding is not apparent, the description either provides the codes or indicates where code lists are to be found.

Linking files

The data from different files can be linked on the basis of a record identifier. The record identifier is the first field/s in each file. Each record contains a number (UqNr), which constitutes a unique household identifier. All records with a given household identifier, no matter which file they are in, belong to the same household. For individuals, a further two digits constitute the Person number (PersonNr). When these are added to the household identifier, a unique individual identifier is created. Again, these can be used to link records from the PERSON and WORKER files. The syntax needed to merge information from different files will differ according to the statistical package used.

METHODOLOGY

Sample design

Enumeration Areas (EAs) that had a household count of less than twenty-five were omitted from the census frame that was used to draw the sample of PSUs for the Master Sample. Other omissions from the frame included all institution EAs except workers' hostels, convents and monasteries. EAs in the census database that were found to have less than sixty dwelling units during listing were pooled.

The Master Sample is a multi-stage stratified sample. The overall sample size of PSUs was 3 000. The explicit strata were the 53 district councils. The 3 000 PSUs were allocated to these strata using the power allocation method. The PSUs were then sampled using probability proportional to size principles. The measure of size used was the number of households in a PSU as counted in the census.

The sampled PSUs were listed with the dwelling unit as the listing unit. From these listings systematic samples of dwelling units per PSU were drawn. These samples of dwelling units form clusters. The size of the clusters differs depending on the specific survey requirements. The GHS uses one of the clusters that contain ten dwelling units.
.

Weighting the GHS of July 2006

A two-stage weighting procedure was done on the GHS 2006. The PSU inclusion probability is given by

$$P_{PSU} = \frac{n_{PSU}}{N_{PSU}} . n_S ,$$

where n_{PSU} is the number of households constituting the selected PSU during census fieldwork, n_S is the number of PSUs per stratum, and N_{PSU} is the number of households constituting the selected stratum during census fieldwork. The household inclusion probability per PSU is given by

$$P_{HH} = \frac{n_{HH}}{H_{HH}} ,$$

where n_{HH} is the number of selected dwelling units per PSU, H_{HH} is the number of dwelling units in the PSU in question at a particular time different from the census time.

The household weight adjusted for non-response is given by $\frac{1}{P_{HH} . r_{HH}}$

where r_{HH} is the response rate and is given by $r_{HH} = \frac{n_{RESP}}{n_T}$ where n_{RESP} is the number of responding households and n_T is the total number of visited households per PSU. The adjusted sample weights are now given by

$$W_{HH} = \frac{1}{P_{PSU} . P_{HH} . r_{HH}}$$

A SAS macro called CALMAR was used to benchmark W_{HH} to the mid-year estimates. The mid-year estimates were adjusted to give population estimates for July 2006 (when survey fieldwork took place).

Comment [P1]: Should be replaced

Coverage

The target population is private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

DEFINITIONS OF TERMS

The population of working age – people aged 15–65 years.

Comment [P2]: Should be replaced

Not economically active population includes people who are not available for work, such as full-time scholars and students, full-time homemakers, those who are retired and those who are unable or unwilling to work.

Economically active population includes people aged 15–65 who are employed and those not employed.

Official and expanded definition of unemployment
Statistics South Africa (Stats SA) uses the following definition of unemployment as its official definition. The *unemployed* are those people within the economically active population who: (a) did not work during the seven days prior to the interview, (b) want to work and are available to start work within two weeks of the interview, and (c) have taken active steps to look for work or start some form of self-employment in the four weeks prior to the interview. The expanded definition of unemployment excludes criterion (c).

Workers include the self-employed, employers and employees.

Formal dwellings include a house on a separate stand, a flat or apartment in a block of flats, a townhouse, a room in a backyard, and a room or flatlet on a shared property.

Informal dwellings include shacks or shanties in informal settlements or in backyards.

Piped water in dwelling or on site refers to piped water inside the household's own dwelling or in their yard. It excludes water from a neighbour's tap or a public tap that is not on site.

Clean water refers to piped water (regardless of from where) and water from a water carrier/tanker.

Electricity for cooking, heating and/or lighting refers to electricity from the public supplier.

Hygienic toilet facility refers to a flush toilet, chemical toilet or pit latrine with a ventilation pipe.

Table A: Contents of the GHS 2006 questionnaire

Section	Number of questions	Details of each section
Cover page		Household information, response details, field staff information, result codes, etc.
Flap	6	Demographic information (name, sex, age, population group, etc.)
Section 1	41	Biographical information (education, health, disability, welfare)
Section 2	19	Activities related to work and unemployment
Section 3	17	Trips undertaken in the 12 months prior to the survey interview
Section 4	86	Household information (type of dwelling, ownership of the dwelling and other assets, electricity, water and sanitation, environmental issues, services, transport, expenditure, etc.)
All sections	169	Comprehensive coverage of living conditions

DATA FILE: PERSON

Unique number (UqNr) (@1 14.)
Unique Household Identifier
Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

Person number (PersonNR) (@15 2.)
Person (respondent) number within Household
Valid range: 1 – 23
Note: The two fields above (unique number and personnr number) create a 16-digit unique person identifier, which can be used to link data from this file with data for the same individuals from other files.

Primary sampling unit (PSU) (@17 3.)
Valid range: 001 - 089

Province (Prov) (@20 1.)
South African provinces
Derived variable: Derived from the first digit of the Unique Number.

Final code list
1 = Western Cape
2 = Eastern Cape
3 = Northern Cape
4 = Free State
5 = KwaZulu-Natal
6 = North West
7 = Gauteng

9 = Limpopo

Stayed Nights (B_4Night) (@21 1.)

B	**Has ...... stayed here** (in this household) **for at least four nights on average per week during the last four weeks?**
	1 = YES
	2 = NO →*End of questions for this person*

Note to users
This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered "No" in this question. It is through this question where household members are identified within the selected dwelling.

Universe
Every person who normally resides in this household at least four nights a week.

Final code list
1 = Yes
2 = No

Gender (Gender) (@22 1.)

C	Is ...... a male or a female?
	1 = Male
	2 = Female

Note to users
This question is asked for each household member, to determine his or her gender. This question is only applicable if there is a "Yes" in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

Universe
Every person who normally resides in this household at least four nights a week.

Final code list
1 = Male
2 = Female
9 = Unspecified

Age (Age)   *(@23   3.)*

D	**How old is......?** *(In completed years - In whole numbers)*
	Less than 1 year = 00.

Note to users
This question is asked to find out the ages of the household members. This is asked for each member of the household. The instruction is to write the years in whole numbers and not in words. Moreover, these years must be completed, thus if a person is two years and six months, the instruction is to write the two completed years. For those children who are less than a year, the instruction is to write 00.

Universe
Every person who normally resides in this household at least four nights a week.

Final code list
Less than 1 year = 0
Valid range: 0 - 108
Unspecified: 999

Age group (Agegrp)   *(@26   2.)*

Final code list
01 = 00 - 04 years
02 = 05 - 09 years
03 = 10 - 14 years
04 = 15 - 19 years
05 = 20 - 24 years
06 = 25 - 29 years
07 = 30 - 34 years
08 = 35 - 39 years
09 = 40 - 44 years
10 = 45 - 49 years
11 = 50 - 54 years
12 = 55 - 59 years
13 = 60 - 64 years
14 = 65 - 69 years
15 = 70 - 74 years
16 = 75 +

Population group (Popgrp)   *(@28   1.)*

E	**What population group does .... belong to?**

	1 = AFRICAN/BLACK
	2 = COLOURED
	3 = INDIAN/ASIAN
	4 = WHITE
	5 = OTHER, *specify*

Note to users

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions, which may be influenced by his observation or using people's names during the interview. This question may seem very sensitive to some respondents especially in this post apartheid era, but it is really important to find out the composition of the South African population.

Universe

Every person who normally resides in this household at least four nights a week.

Final code list

1 = African/Black

2 = Coloured

3 = Indian/Asian

4 = White

9 = Other and unspecified

SECTION 1

Relationship to the head (Q11relshh) (@29   2.)

1.1	**What is ……'s relationship to the head of the household?** *(i.*e. to the person in column 1)
	1 = Mark the head/acting hea*d*
	2 = HUSBAND/WIFE/PARTNER
	3 = SON/DAUGHTER/STEPCHILD/ADOPTED CHILD
	4 = BROTHER/SISTER/STEP BROTHER/STEP SISTER
	5 = FATHER/MOTHER/STEP FATHER/STEP MOTHER
	6 = GRANDPARENT/GREAT GRANDPARENT
	7 = GRANDCHILD/GREAT GRANDCHILD
	8 = OTHER RELATIVE (E.G. IN-LAWS OR AUNT/UNCLE)
	9 = NON-RELATED PERSONS

Note to users

This question is asked for each member of the household to determine their relationship to the head of the household. The respondent is asked to give the information on how each member is related to the head of the household. The enumerator is instructed to cross check the information in this question with the one on the flap, especially on the head or acting head of the household.

Universe

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview

Final code list

01 = Mark the head/acting head

02 = Husband/wife/partner

03 = Son/Daughter/Stepchild/Adopted child

04 = Brother/Sister/Step brother/Step sister

05 = Father/Mother/Step father/Step mother

06 = Grandparent/Great grandparent

07 = Grandchild/Great grandchild

08 = Other relative (e.g. in-laws or aunt/uncle)

09 = Non-related persons

99 = Unspecified

Marital status (Q12amari) (@31   1.)

1.2.a	What is ……'s present marital status?

1 = MARRIED
2 = LIVING TOGETHER LIKE HUSBAND AND WIFE
3 = WIDOW/WIDOWER
4 = DIVORCED OR SEPARATED → *Go to Q 1.3.a*
5 = NEVER MARRIED

Note to users

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question.

If the response is widow/widower, divorced or separated and never married the enumerator is instructed to go to Q 1.3.a, which is on mortality for households.

Universe

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview

Final code list

1 = Married
2 = Living together like husband and wife
3 = Widow/Widower
4 = Divorced or Separated
5 = Never married
9 = Unspecified

Spouse/partner (Q12bspou)   *(@32   1.)*

1.2.b	Does ……'s spouse/partner live in this household?

1 = YES
2 = NO   → *Go to Q 1.3.a*

Note to users

This question is only applicable for those people who indicated that they are "Married or living together as husband and wife" (Q1.2.a). If the response is "NO" the enumerator is instructed to skip to Q1.3a which is on mortality for households.

Universe

Only those people who are married or living together as husband and wife.

Final code list

1 = Yes
2 = No
8 = Not applicable
9 = Unspecified

Spouse number (Q12cpsnn)   *(@33   2.)*

1.2.c	Which person is the spouse/partner of ……?
	Give person number

Note to users

This question is only applicable for those people who said "Yes" in (Q 1.2.a), thus "Married or living together as husband and wife". It comfirms the information on the previous question, which seeks to determine whether couples within the visited household live together or not.

Universe

Only applicable to those living with their spouses in the same dwelling unit.

Final code list

Valid range: 1 – 11
Not applicable: 88
Unspecified: 99

Father alive (Q13afath)   *(@35   1.)*

1.3.a	Is …… 's biological father still alive?
	1 = YES
	2 = NO → *Go to Q 1.4.a*
	3 = DON'T KNOW

Note to users

This question wants to find out if the father is still alive or has passed away. The father does not necessarily have to be member of the household. That means one's father may be alive but living somewhere outside the selected dwelling unit. For codes 2 and 3 the instruction is to go to Q 1.4.a.

Universe

This is applicable to each member of the household.

Final code list

1 = Yes
2 = No
3 = Don't know
9 = Unspecified

Father part of the household (Q13bfpar)   *(@36   1.)*

1.3.b	Is ……'s biological father part of the household?
	1 = YES
	2 = NO → *Go to Q 1.4.a*

Note to users

This is a follow up question to the previous one (Q 1.3.a), but interested on whether the father is the member of the visited household or not. The instruction is that for those who said "No" the interview must proceed to question Q 1.4.a.

Universe

Only for those with "Yes" in the previous question (1.3.a).

Final code list

1 = Yes
2 = No
8 = Not applicable
9 = Unspecified

Father person number (Q13cfpsn)   *(@37   2.)*

1.3.c	Which person is ……'s biological father?
	Give person number

Note to users

This is a follow up question, to the previous question (Q 1.3.b) to verify whether the father is part of the household or not. The answer to this question can be cross-checked with (Q 1.1) to find out about the status of the father.

Universe

Only for those who said "Yes" in the previous questions (1.3.a and 1.3.b).

Final code list

Valid range: 1 – 10
Not applicable: 88
Unspecified: 99

</table>

1 = Yᴇꜱ	
2 = Nᴏ	→ *Go to Q 1.6.a*

Note to users
This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. Even if a person can spent as little time as possible to collect water per week, as long as the minutes add up to one hour per week she/he qualifies. The instruction in this question is that the water that is collected should not be for sale. If the answer is "No" a person should skip to Q 1.6.a.

	1 = Yᴇꜱ
	2 = Nᴏ → *Go to Q 1.7*

Note to users
This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. Even if a person can spent as little time as possible to collect wood/dung per week, as long as the minutes add up to one hour per week she qualifies. The instruction in this question is that the wood/dung collected should not be for sale. If the answer is "No" a person should skip to Q 1.8.

	3 = University
	4 = Technikon
	5 = College
	6 = Adult basic education and training/literacy classes
	7 = Other adult educational classes
	8 = Other than any of the above

Note to users
This question is only applicable to those who answered "Yes" in question Q 1.11. Both distance and correspondence education are included in this question. The enumerators are instructed not to make assumptions by taking people's ages with the level of education, but rather consider what the respondent gives.

Universe
Only members of the household who are currently attending an educational institution.

Final code list
01 = Pre-school (including day care, crèche, pre-primary)

	1 = LESS THAN 15 MINUTES
	2 = 15 - 30 MINUTES
	3 = MORE THAN 30 MINUTES
	4 = DON'T KNOW

Note to users

The interest in this question is the time taken by people currently attending school/educational institution. This is used as a proxy for distance because respondents tend to relate it well in terms of time rather than in meters or kilometres. The most important thing to note is the reference period that is usually taken using normal mode of transport.

Universe

All household members who are currently attending any educational institution.

Note to users

This question is applicable to all household members aged 15 and above, regarding their involvement with the economic activities in the last seven days. This is part of the questionnaire where there would be a differentiation between economically active population and those who are not economically active. The instruction to the enumerators is that these activities must be for at least one hour within the seven days. In order to be certain that the categories have been answered there should either be "Yes" or "No" in all of them. Most importantly, is that if there is "Yes" to any part of this question there should be skip to Q 2.5. If all the categories are "No" there should be a continuation to the next question.

Temporary absence but have a job (Q23HaveW)   *(@37   1.)*

2.3	*If* "No" *to all parts of Question 2.1*
	Even though …… did not do any of these activities in the last seven days, does he/she have a job, business, or other economic or farming activity that he/she will definitely return to?
	For agricultural activities, the off season in agriculture is not a temporary absence.
	1 = Yes
	2 = No →*Go to Q 2.12*

This question is meant to identify persons temporarily absent from their income earning and own production activities. The most common group of people included here are those on annual leave. They did not work in the last seven days, but they have a job to go back to and should be recorded as active in their usual job as they are still part of the labour force. There is no time limit given, which for example, allows women on maternity leave to be recorded as temporarily absent. It is relatively easy to identify people temporarily absent from wage jobs. It is more difficult when the person is self-employed in a business activity or working on his/her own farm.

Note that a person not working because of the off-season in agriculture or other seasonal industries is not to be regarded as temporarily absent. If we recorded such persons as temporarily absent we would miss any measure of seasonal unemployment. If the answer is 'No', Go to Q2.12 and ask the unemployment and non-economic activity questions.

2.6	**What were ……'s <u>main</u> tasks or duties in this job?** *Example: Selling fruit, repairing watches, keeping accounts, feeding and watering cattle*

Note to users
This question is applicable to household members who have been performing certain economic activities in the seven days prior the interview. The instruction to the enumerator is to give person's occupation/job title even if the activity was performed just an hour before the interview. It is important that the occupation is in English as the occupational codes are only in this language.

	Examples: Repairing cars, Selling commercial real estate, Sell food wholesale to restaurants, Retail clothing shop, Manufacture electrical appliances, Bar/ restaurant, Primary Education, Delivering newspapers to homes.

Note to users
This question is applicable to household members who have been performing certain economic activities in the seven days prior to the interview. It is important that the service or main goods are in English as the industry codes are only in this language. Although a person may have certain roles and responsibilities within the company she/he is working with, the enumerator is instructed to record the main goods or services produced by the company.

Questions 2.7 and 2.8 were written-in. The responses to these two questions were used to determine the industry. The industry was coded to three digits on the basis of the International Standard Industrial Classification of all Economic activities

	12 = RETRENCHED
	13 = OTHER REASON

Note to users

This is applicable to all household members aged 15 and above who did not work and did not have a job to return to in the seven days prior the interview. The intention of this question is to find out the reasons people were not working in the seven days prior to the interview. For any other reason that is not specified in the given categories there is provision to specify it. However, if the person has found a job and is supposed to start at a definite date in the future, there should be a skip to Q 2.17.

Universe

All household members aged 15 and above who did not work and did not have a job to return to in the seven days prior to the interview.

Final code list

01 = Has found a job, but is only starting at a definite date in the future
02 = Scholar or student and prefers not to work
03 = Housewife/homemaker and prefers not to work
04 = Retired and prefers not to seek formal work

2.14	**If a suitable job is offered, will …… accept it?**
	1 = YES
	2 = NO
	3 = DON'T KNOW } → ***Go to Q 2.17***

This is applicable to all household members aged 15 and above who did not work and were absent from work in the last seven days. The interest in this question is to determine whether people can accept suitable job if given. For those who answered "No" and "Don't know" there should be a skip to Q 2.17.

Universe
All household members aged 15 and above who did not work in the last seven days and did not have job to return to.

2.15	How soon can …… start work?
	1 = WITHIN A WEEK
	2 = WITHIN TWO WEEKS
	3 = WITHIN FOUR WEEKS
	4 = LATER THAN FOUR WEEKS FROM NOW
	5 = DON'T KNOW

Note to users
This question is only applicable if a person is prepared to accept a suitable job offer as reflected in the previous question. The interest is to determine within which period a person would resume the given job.

Universe
All household members who would accept a suitable job if offered.

Final code list
1 = Within a week

Taken any action

2.16	During the past four weeks, has …… taken any action
	1 = to look for any kind of work
	2 = to start any kind of business

Note to users
This question is only applicable if a person is prepared to accept a suitable job offer as reflected in question (Q 2.14). The interest is to find out whether a person has taken any action to look for a job in the past four weeks. The instruction to the numerator is to complete both given categories with either a "Yes" or "No" answer.

Universe
All household members who have taken action to look for work in the past four weeks.

	08 = 1 YEAR - LESS THAN 2 YEARS
	09 = 2 YEARS - LESS THAN 3 YEARS
	10 = 3 YEARS OR MORE
	11 = DON'T KNOW

Note to users
The interest in this question is to find out for how long a person has worked in the last job he/she occupied. The instruction to the enumerator is to probe for more information, as people in this caliber are usually uncertain of the required information.

Universe
All household members who are currently not working but have worked before.

Note to users
This question Q3.10 is focused on money spent on things which were not included in the package. The idea behind items included in the package is to unpack whatever has been paid for which was not included in the package trip, hence a person has to state amounts spent/consumed or used. That means you only supply the amount spent/consumed on other things not included in the package.
