Sampling

SAMPLING PROCEDURE

From March to June 2021, 780 stakeholders of the WBG in Lao PDR were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the Office of the President/Prime Minister; offices of Ministers; offices of Parliamentarians; employees of ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; independent government institutions; the judiciary; state-owned enterprises; bilateral and multilateral agencies; private sector organizations; the financial sector and private banks; private foundations; NGOs and community-based organizations; faith-based groups; youth groups; academia/research institutes/think tanks; and the media.

RESPONSE RATE

The response rate was 67%

WEIGHTING

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'18 (response rate was 40%, N=360). Comparing responses across Country Surveys reflect changes in attitudes over time, but also changes in respondent samples and changes to the survey instrument itself. To reduce the influence of the latter factor, only those questions with similar response scales/options were analyzed. To reduce the influence of the former, the samples from FY 2018 and FY 2021 would normally be weighted to have equivalent stakeholder groupings, allowing for more statistically reliable comparisons. However, in this case, more than half of the sample in both the years are respondents from government institutions, mainly employees of ministries, such that weighting the other groups to be equivalent would result in less statistical reliability. Hence, the year comparisons for FY 2018 and FY 2021 Country Surveys used the original respondent samples.
