STUDY TYPE
Enterprise Survey [en/oth]

SERIES INFORMATION

As part of its strategic goal of building a climate for investment, job creation, and sustainable growth, the World Bank has promoted improving business environments as a key strategy for development, which has led to a systematic effort in collecting enterprise data across countries. The Enterprise Surveys are an ongoing World Bank project in collecting both objective data based on firms' experiences and enterprises' perception of the environment in which they operate.

An Enterprise Survey is a firm-level survey of a representative sample of an economy's private sector. Firm-level surveys have been conducted since 1998 by different units within the World Bank. Since 2005-2006, most data collection efforts have been centralized within the Enterprise Analysis Unit. The Enterprise Surveys are conducted across all geographic regions and cover small, medium, and large companies. The surveys are administered to a representative sample of firms in the non-agricultural formal private economy. Data are used to create indicators that benchmark the quality of the business and investment climate across countries.

The World Bank Enterprise Surveys (WBES) collect both objective data based on firms' day-to-day experiences, and perceptions of enterprises regarding the business environment in which they operate. The WBES currently cover over 180,000 firms in 154 countries with a total of 306 surveys since 2006. The WBES are also used to build a panel of enterprise data that will make it possible to track changes in the business environment over time.

ABSTRACT

The World Bank Enterprise Survey (WBES) is a firm-level survey of a representative sample of an economy's private sector. The surveys cover a broad range of topics related to the business environment including access to finance, corruption, infrastructure, competition, and performance.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

The primary sampling unit of the study is the establishment. An establishment is a physical location where business is carried out and where industrial operations take place or services are provided. A firm may be composed of one or more establishments. For example, a brewery may have several bottling plants and several establishments for distribution. For the purposes of this survey an establishment must make its own financial decisions and have its own financial statements separate from those of the firm. An establishment must also have its own management and control over its payroll.

Scope

NOTES

The 2023 West Bank and Gaza World Bank Enterprise Survey covered the following topics:

- General information of a firm/ establishment
- Infrastructure and services
- Sales and supplies

- Commercial disputes
- Management practices
- Degree of competition
- Innovation
- Capacity
- Land and permits
- Green economy
- Finance
- Business-Government relations
- Labor
- Business environment
- Performance

Coverage

GEOGRAPHIC COVERAGE

National coverage

UNIVERSE

The universe of inference includes all formal (i.e., registered) private sector businesses (with at least 1% private ownership) and with at least five employees. In terms of sectoral criteria, all manufacturing businesses (ISIC Rev 4. codes 10-33) are eligible; for services businesses, those corresponding to the ISIC Rev 4 codes 41-43, 45-47, 49-53, 55-56, 58, 61-62, 69-75, 79, and 95 are included in the Enterprise Surveys. Cooperatives and collectives are excluded from the Enterprise Surveys. All eligible establishments must be registered with the registration agency. In the case of West Bank and Gaza, the definition of registration was determined by registration with the Ministry of Finance.

Sampling

SAMPLING PROCEDURE

The WBES use stratified random sampling, where the population of establishments is first separated into non-overlapping groups, called strata, and then respondents are selected through simple random sampling from each stratum. The detailed methodology is provided in the Sampling Note

(https://www.enterprisesurveys.org/content/dam/enterprisesurveys/documents/methodology/Sampling_Note-Consolidated-2-16-22.pdf). Stratified random sampling has several advantages over simple random sampling. In particular, it:

- produces unbiased estimates of the whole population or universe of inference, as well as at the levels of stratification
- ensures representativeness by including observations in all of those categories
- produces more precise estimates for a given sample size or budget allocation, and
- may reduce implementation costs by splitting the population into convenient subdivisions.

The WBES typically use three levels of stratification: industry classification, establishment size, and subnational region (used in combination). Starting in 2022, the WBES bases the industry classification on ISIC Rev. 4 (with earlier surveys using ISIC Rev. 3.1). For regional coverage within a country, the WBES has national coverage.

Note: Refer to Sampling Structure section in "The West Bank and Gaza 2023 World Bank Enterprise Survey Implementation

Report" for detailed methodology on sampling.

RESPONSE RATE

Overall survey response rate was 72.4%.

WEIGHTING

Since the WBES uses stratified random sampling, individual observations should be properly weighted when making inferences about the population, since unweighted estimates are biased unless sample sizes are proportional to the size of each stratum. For each WBES, special care is given to correctly compute sampling weights. Whenever the Universe is used to draw the sample (i.e., Sampling Frame is the same as the Universe) it is imperative to accurately adjust the universe within each stratum to account for the presence of ineligible establishments (e.g., the firm discontinued businesses, or is deemed ineligible due to its business activity or having fewer than five employees). Proper treatment of panel establishments is also crucial. Details about how the WBES sampling weights are calculated are given in the Sampling Note section of "The West Bank and Gaza 2023 World Bank Enterprise Survey Implementation Report".

Three versions of sampling weights are calculated, depending on the assumptions that determine eligibility of establishments to be counted towards the WBES universe.

Data collection

DATES OF DATA COLLECTION

2023-06	2023-08

DATA COLLECTION MODE

Face-to-face [f2f]

DATA COLLECTION NOTES

Detailed information on the WBES methodology and data collection is provided in the Enterprise Surveys Manual and Guide (<https://www.enterprisesurveys.org/content/dam/enterprisesurveys/documents/methodology/Enterprise-Surveys-Manual-and-Guide.pdf>). The interviews for the West Bank and Gaza 2023 WBES were conducted between June 2023 and August 2023. The interviews were conducted in Arabic. For monetary variables, the currency was Israeli Shekel (ILS).

Apart from the challenges with participation and call-backs that are standard for all surveys, the West Bank and Gaza 2023 WBES faced few noteworthy challenges.

The fieldwork for the West Bank and Gaza 2023 WBES was implemented by the Palestinian Central Bureau of Statistics (PCBS).

questionnaires

QUESTIONNAIRES

The standard WBES questionnaire covers several topics regarding the business environment and business performance. These topics include general firm characteristics, infrastructure, sales and supplies, management practices, competition, innovation, capacity, land and permits, finance, business-government relations, exposure to bribery, labor, and performance. Information about the general structure of the questionnaire is available in the Enterprise Surveys Manual and Guide (<https://www.enterprisesurveys.org/content/dam/enterprisesurveys/documents/methodology/Enterprise-Surveys-Manual-and-Guide.pdf>).

The questionnaire implemented in the West Bank and Gaza 2023 WBES included additional questions tailored for the Business Ready Report covering infrastructure, trade, government regulations, finance, labor, and other topics.

data_processing

METHODOLOGY NOTES

The WBES datafiles are organized in ways that reflect the corresponding questionnaire. The variables that are standard

across countries have the first letter in their name correspond to the questionnaire section where the variable belongs in the questionnaire, i.e., a1 denotes section A. All variables are numeric with the exception of those variables with an "x" at the end of their names. The suffix "x" denotes that the variable is alpha-numeric.

The WBES datafiles contain two establishment identifiers, idstd and id. The former is a global unique identifier of each establishment, while the latter is unique identifier within each survey. The variable idstd can be used to match the WBES establishment one-to-one across databases. The variables wweak, wmedian, and wstrong corresponding to sampling weights based on, respectively, weak, median, and strong assumptions about eligibility (see Section III.6 of "The West Bank and Gaza 2023 World Bank Enterprise Survey Implementation Report"). The variable strata corresponds to the stratum of each observation.

Additionally, the WBES datafiles contain many standard variables. The variable d1a2_v4 denotes the main activity of the establishment, as obtained during the WBES interview, coded in the four-digit ISIC Rev. 4. Users should note that this activity may differ from the industry classification given in the Sampling Frame, a4a. Users are generally advised to use industry categories based on the realized information in d1a2_v4. Additional sampling information is contained in variables a2 (region) and a6a (size). The variable panel identifies panel establishments, i.e., those that participated in the West Bank and Gaza 2019 WBES. The combination of a4a, a2, a6a, and panel forms stratum of each establishment, which is contained in variable strata.

The last complete fiscal year for each establishment is contained in variables a20m (last month of last complete fiscal year) and a20y (last complete fiscal year).

Note that when an entry in the WBES database is empty, this means that the question was not asked to the corresponding respondent. This happens when the question is deemed inapplicable, due to skip patterns or other reasons. In cases when the question was posed, some entry is provided, including don't know, which is an example of item non-response.

V125	d30b	How Much of An Obstacle: Customs And Trade Regulations?	
V126	o1	In the last three years, establishment had any commercial dispute?	
V127	o2	Use of courts, arbitration etc. to (or attempt to) resolve commercial dispute?	

ID	Name	Label	Question
V128	o3a	Reliable alternative to courts for resolving commercial disputes: Arbitration?	
V129	o3b	Reliable alternative to courts for resolving commercial disputes: Mediation etc.?	
V130	r1	What Happened When Problem In The Production Process/Services Provision Arose?	
V131	r2	Did This Establishment Monitor Any Production/Service Performance Indicators?	
V132	r3	How Many Production/Service Provision Performance Indicators Were Monitored?	
V133	r4	Did This Establishment Have Production/Service Provision Targets?	
V134	r5	What Best Describes The Time Frame of Production/Service Provision Targets?	
V135	r6	How Easy To Achieve Its Production/Service Provision Targets?	
V136	r7	Who Was Aware of The Production/Service Provision Targets At This Establishment?	
V137	r8	Was There Performance Bonuses Based On Production/Service Provision Targets?	
V138	r9	What Were Managers' Performance Bonuses Usually Based On?	
V139	r10	What Was The Primary Way Non-Managers Were Promoted?	
V140	r11	When Was An Under-Performing Non-Manager Reassigned or Dismissed?	
V141	e1	In Last FY, Main Market For Establishment'S Main Product	
V142	e2b	Competitors For The Main Product/Service In The Main Market	
V143	e31a	Market share of largest competitor in the last fiscal year	
V144	e31b	Market share of largest competitor in the last fiscal year	
V145	e6	Do You Use Technology Licensed From A Foreign-Owned Company?	
V146	e11	Does This Establishment Compete Against Unregistered or Informal Firms?	
V147	e32	Change in competition in the last year?	
V148	e33	Establishment can increase prices more than competitors without losing customers	
V149	e34	SOEs operating in the establishment's main market?	
V150	e35	How SOE affects ability to grow and expand?	
V151	e30	How Much of An Obstacle: Practices of Competitors In Informal Sector?	
V152	h1	New Products/Services Introduced Over Last 3 Yrs	
V153	h2	New Products/Services Also New For Thr Establishment'S Main Market	
V154	h3x	Describe In Detail The Main New or Significantly Improved Product or Service	
V155	h4x	Describe How The Main New/Significantly Improved Product or Service Is Different	
V156	h5	During Last 3 Yrs, Establishment Introduced New/Significantly Improved Process	
V157	h6x	Describe Main New/Significantly Improved Process This Establishment Introduced	
V158	h7x	How The Main New/Significantly Improved Process Is Different	
V159	h8	During Last Fiscal Year, Establishment Spent On R&D (Excl Market Research)?	
V160	h9	How Much Spent On R&D, Either In-House or External?	
V161	f1	In Last FY, What Was The Capacity Utilization (%) of This Establishment?	
V162	g2	Applic. To Obtain A Construction-Related Permit Submitted Over The Last 2 Years	
V163	g3	How Many Days Did It Take For You To Obtain A Construction-Related Permit?	
V164	g4	Informal Gift/Payment Expected or Requested For A Construction-Related Permit	
V165	g31	In last 2 years, establishment applied for occupancy permit	
V166	g32	Wait for occupancy permit	
V167	g33	Cost of occupancy permit	
V168	g5a	What Is The Total Selling Area In This Establishment?	
V169	g5b	The Area Is Measured In:
