Kazakhstan	KAZ

STUDY TYPE

Enterprise Survey [en/oth]

ABSTRACT

As part of the efforts of the World Bank Group to understand the impact of COVID-19 on the private sector, the Enterprise Analysis unit is conducting follow-up surveys on recently completed Enterprise Surveys (ES) in several countries. These short surveys follow the baseline ES and are designed to provide quick information on the impact and adjustments that COVID-19 has brought about in the private sector.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Enterprise

Scope

NOTES

The survey covers the following topics:

- Sales
- Production
- Labor
- Finance
- Policies
- Expectations
- Information on permanently closed establishments

Coverage

GEOGRAPHIC COVERAGE

National coverage

UNIVERSE

The universe of inference is all registered establishments with five or more employees that are engaged in one of the following activities defined using ISIC Rev. 3.1: manufacturing (group D), construction (group F), services sector (groups G and H), transport, storage, and communications sector (group I) and information technology (division 72 of group K)

Sampling

SAMPLING PROCEDURE

The follow-up surveys re-contact all establishments sampled in the standard ES using stratified random sampling (https://www.enterprisesurveys.org/content/dam/enterprisesurveys/documents/methodology/Sampling_Note.pdf). Total sample target: 1446

RESPONSE RATE

Response rate is 83.8%.

WEIGHTING

The dataset contains three weight variables. The baseline weights are denoted `wmedian_ES` and are used to compute the indicators that project to the baseline universe (e.g. exit rates). To account for non-response in the follow-up, these sampling weights are adjusted by cell of stratification (combination of size, sector, and location). The resulting variable `wmedian_COVID` - recommended to be used for analysis and used to compute all other indicators - assumes that businesses that could not be re-contacted (unobtainable) have exited the market. The variable `wweak_COVID` assumes that unobtainable businesses continue to exist. Establishments that have closed permanently are interviewed using a short questionnaire which is also available in the dataset.

Data collection

DATES OF DATA COLLECTION

Start	End	Cycle
2021-01-25	2021-03-26	Round 1
2022-05-26	2022-08-01	Round 2

DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

DATA COLLECTORS

Probe Market Research

questionnaires

QUESTIONNAIRES

The questionnaires contain the following modules:

- Control information and introduction
- General information
- Sales
- Production
- Labor
- Finance
- Policies
- Expectations
- Information on permanently closed establishments
- Interview protocol

Access policy

CITATION REQUIREMENTS

The use of this dataset must be acknowledged using a citation which would include:

- the identification of the Primary Investigator (including country name)
- the full title of the survey and its acronym (when available), and the year(s) of implementation
- the survey reference number
- the source and date of download (for datasets disseminated online)

Example:
