

# Domestic Tourism Survey 2020

**Statistics South Africa**

report\_generated\_on: August 12, 2025

visit\_data\_catalog\_at: <https://microdata.worldbank.org/index.php>

## Identification

---

SURVEY ID NUMBER  
ZAF\_2020\_DTS\_v01\_M

TITLE  
Domestic Tourism Survey 2020

ABBREVIATION OR ACRONYM  
DTS 2020

COUNTRY/ECONOMY

Name	Country code
South Africa	ZAF

STUDY TYPE  
Household Survey

ABSTRACT  
The DTS is a large-scale household survey aimed at collecting accurate statistics on the travel behaviour and expenditure of South African residents travelling within the borders of the country. Such information is crucial when determining the contribution of tourism to the South African economy, as well as helping with planning, marketing, policy formulation, and the regulation of tourism-related activities.

KIND OF DATA  
Sample survey data

UNIT OF ANALYSIS  
Households and individuals

## Version

---

VERSION DESCRIPTION  
Version 01: Edited, anonymised dataset for public distribution

VERSION DATE  
2020

VERSION NOTES  
Version 1 was downloaded from Stats SA in April 2023.

## Scope

---

NOTES  
The following information was collected: Domestic day and overnight trips undertaken; trips undertaken by respondents and trips by other household members without the respondent accompanying them; the profile of the most recent day/overnight domestic trips undertaken both by the respondent and other household members (detailing information on destination, trip length, purpose of visit, accommodation, transport, activities, trip expenditure, etc.) and socio-demographic information.

## Coverage

---

GEOGRAPHIC COVERAGE  
National coverage

GEOGRAPHIC UNIT

The lowest level of geographic aggregation covered by the data is municipality.

#### UNIVERSE

The target population of the survey consists of all private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, oldage homes, hospitals, prisons and military barracks, and is therefore only representative of non-institutionalised and non-military persons or households in South Africa.

## Producers and sponsors

#### PRIMARY INVESTIGATORS

Name	Affiliation
Statistics South Africa	Government of South Africa

## Sampling

#### SAMPLING PROCEDURE

The sample design for the DTS 2020 was based on a Master Sample (MS) that has been designed for all household surveys conducted by Statistics South Africa.

The Master Sample used a two-staged, stratified design with probability-proportional-to-size (PPS) sampling of PSUs from within strata, and systematic sampling of dwelling units (DUs) from the sampled primary sampling units (PSUs). A self-weighting design at provincial level was used. Stratification was done in two stages: Primary stratification was defined by metropolitan and non-metropolitan geographic area type. During secondary stratification, the Census 2011 data were summarised at PSU level. The following variables were used for secondary stratification: household size, education, occupancy status, gender, industry and income.

#### WEIGHTING

Sampling weights are constructed for the 12 reference months. These included both full sample and replicate weights for each of the 12 reference months. The full sample and replicate weights are calibrated using the population control totals for the cells defined by the cross-classification Age-Group x Population-Group x Gender at the national level, and broad Age Groups at the province level.

## Data collection

#### DATES OF DATA COLLECTION

Start	End
2020	2020

#### DATA COLLECTION MODE

Computer Assisted Telephone Interview

#### DATA COLLECTION NOTES

The DTS 2020 data was collected using Computer-Assisted Telephone Interviews (CATI) due to COVID-19. The questionnaire was reviewed, shortened amid COVID-19 and options for some questions were reduced or collapsed according to the manual International Recommendations for Tourism Statistics (IRTS, 2008) of the United Nations World Tourism Organization (UNWTO). Please see the DTS2020 Report for more details.

## Access policy

#### ACCESS CONDITIONS

Public access data for use under a Creative Commons CC-BY (Attribution-only) License
