ABSTRACT

This dataset is the fourth round of UNHCR's Survey of Intentions and Perspectives of Internally Displaced Persons (IDPs) in Ukraine, implemented in partnership with Ipsos SA. Data collection was conducted between July and August 2024 and includes approximately 4,700 IDP households across Ukraine. The survey includes a longitudinal component with part of the sample having participated in previous rounds. A mixed methodological approach was used, combining face-to-face and remote interviews with a stratified probability and respondent-assisted sampling design. The anonymized dataset includes household- and individual-level data and informs inter-agency planning and response related to internal displacement, return intentions, and durable solutions in Ukraine.
