ABSTRACT  
UNHCR conducts protection monitoring on an ongoing basis to analyze protection trends and the risks that forcibly displaced and stateless persons are facing. Protection monitoring has also the purpose of identifying people who are in need for specific services, support, or information and refer them so that they can receive assistance accordingly to their needs.

UNHCR conducted at national level interviews with refugee households to elicit their feedback on the overall protection environment in Lebanon. The purpose of the collection was to use the feedback from refugees to inform UNHCR's advocacy and programmatic interventions with the aim of improving refugees' access to protection and essential services, assistance and information.
