SERIES INFORMATION
The UCTSAD series provides annual administrative microdata on applications submitted to the University of Cape Town. This dataset covers application cohorts from 2012 to 2014.

ABSTRACT
The UCT Student Admissions Data (UCTSAD) 2012-2014 dataset records all applications submitted to the University of Cape Town (UCT) that belong to the 2012 to 2014 student application cohort. UCT's Information and Communication Technology Services (ICTS) extracted the source data from the UCT student administration SQL database and made it available to DataFirst for curation and dissemination. The dataset comprises four files for the 2012-2014 cohort: an application-form file recording every stage of every application process; a person file recording biographical and demographic characteristics of each applicant; a secondary-school-subject file recording the school subjects and results that applicants reported on their applications; and a tertiary-education file recording any prior tertiary study that applicants declared.

Between 2012 and 2014, UCT Admissions Office planned to revise their undergraduate admissions policy. For this reason, they included a supplementary research section (Section K) in the application form for information on education disadvantage. This information was solely for policy review purposes and was not used in admission decisions for the 2012/2014 intake. Because the application form differed for these years the data has been kept separate from that of the other years.

KIND OF DATA
Administrative records data [adm]

UNIT OF ANALYSIS
Student application

Version

VERSION DESCRIPTION
Version 1.1: Edited data, for use in DataFirst's secure Remote Access Data Enclave.

VERSION DATE
2026-06-01

VERSION NOTES
This is version 1.1 of the cleaned annualised files for the 2012 to 2014 UCT application cohort.

Coverage

GEOGRAPHIC COVERAGE NOTES

The dataset covers only applications submitted to the University of Cape Town. Geographic variables within the dataset, such as home address, reflect applicants' self-reported information and are not independently verified.

UNIVERSE

All persons who submitted an application to the University of Cape Town and whose earliest application-process date falls in the calendar years 2012 to 2014.

Data collection

DATES OF DATA COLLECTION

Start	End
2012	2014

DATA COLLECTION MODE

Self-administered web forms and hard-copy forms

DATA COLLECTION NOTES

Section K of the admissions application form comprised a set of voluntary research questions designed to support a planned revision of UCT's undergraduate admissions policy. Applicants were explicitly informed that their responses to this section would not influence admission decisions for the 2012/2013 academic year, and that their names would not be linked to their answers.

Participation was voluntary, though strongly encouraged. The questions collected information across five thematic areas:

- Educational disadvantage: Whether the applicant considered themselves to have been educationally disadvantaged by apartheid.
- School fee status: Whether the applicant's last school was a no-fee State school, and whether they received a fee reduction.
- Parental/guardian education: Whether the applicant's mother, father, grandparent, or primary guardian/caregiver held a university degree.

- State support: Whether the applicant received any child support grant and whether their family rely on a social pension from the State.
- Mother or primary guardian first language
