## Identification

### SURVEY ID NUMBER

MLI\_2024\_DIEM-HS-R8\_v01\_M\_v01\_A\_ESS

### TITLE

Data in Emergencies Monitoring System - Household Survey 2024

### SUBTITLE

Round 8

### ABBREVIATION OR ACRONYM

DIEM-HS-R8 2024

### COUNTRY/ECONOMY

Name	Country code
Mali	MLI

### STUDY TYPE

Agricultural Survey [ag/oth]

### ABSTRACT

The Food and Agriculture Organization of the United Nations (FAO) has developed a monitoring system in 26 food crisis countries to better understand the impacts of various shocks on agricultural livelihoods, food security and local value chains. The Monitoring System consists of primary data collected from households on a periodic basis (more or less every four months, depending on seasonality). FAO conducted the eighth round of DIEM-Monitoring household level data collection in Mali between 4 June and 9 July 2024, during the dry and pastoral lean season, to assess agricultural livelihoods and food security. Data were collected by computer-assisted telephone interviews reaching 1404 households in Gao, Kayes, Koulikoro, Ménaka, Mopti, Ségou, Sikasso and Tombouctou regions. The survey estimates are representative at regional level.

For more information, see <https://data-in-emergencies.fao.org/pages/monitoring>.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Scope

### NOTES

The survey collected information on the following areas:

- HOUSEHOLD: household information
- INCOME SOURCES, SHOCKS: income changes, shocks experienced by households
- CROP PRODUCTION: crops planted, area planted, area harvested, crop production difficulties
- CROP MARKETING: crop sale difficulties, crop sale price
- LIVESTOCK PRODUCTION: types of livestock present on holding, number of livestock, livestock production difficulties
- LIVESTOCK MARKETING: livestock sale, livestock sale difficulties, livestock sale price
- FISHERIES PRODUCTION: fish activity, comparison of fish production
- FISHERIES MARKETING: fish sale, fish sale difficulties, fish sale price
- FOOD SECURITY AND CONSUMPTION: food consumption, food utilization, coping strategies
- NEEDS ASSISTANCE: open questions on the needs for assistance

## Sampling

### SAMPLING PROCEDURE

Data were collected by computer-assisted telephone interviews reaching 1404 households in Gao, Kayes, Koulikoro, Ménaka, Mopti, Ségou, Sikasso and Tombouctou regions. As in the seventh round, the quota of households required in Kidal could not be met due to the security situation. The survey estimates are representative at regional level. The sample consisted of panel respondents, while additional respondents were identified through random digit dialing (RDD) to reach the sample size targets.

### WEIGHTING

The weights used for this survey were:

- base weights
- wealth weights, using access to electricity as a proxy
- wealth weights, using education level of the head of household at administrative level 1 as a proxy

In this round, the baseline information for Menaka was insufficient for one of the education variables; and for Koulikoro, there were 2 households that were 'responsible' for extreme final weights (92). Therefore, it was decided to recode the following education levels together: primary school, secondary school, and higher education. Therefore, there are 3 groups of education levels: head of households with no education, with formal education, and with religious education.

## Data collection

### DATES OF DATA COLLECTION

Start	End
2024-06-04	2024-07-09

### DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

## questionnaires

### QUESTIONNAIRES

A link to the questionnaire has been provided in the documentations tab.

## data\_processing

### DATA EDITING

The datasets have been edited and processed for analysis by the Food and Agriculture Organization of the United Nations, Data in Emergencies (DIEM) Hub at the Office of Emergencies and Resilience, with some dashboards and visualizations produced. For more information, see <https://data-in-emergencies.fao.org/pages/countries>.

### \*\*STATISTICAL DISCLOSURE CONTROL (SDC)\*\*

The dataset was anonymized by the Food and Agriculture Organization of the United Nations, Data in Emergencies (DIEM) Hub and reviewed by the Statistics Division, using Statistical Disclosure methods in accordance with FAO Corporate Statistical Disclosure Control Protocol. All direct identifiers have been removed prior to data submission. For more information, see <https://openknowledge.fao.org/server/api/core/bitstreams/833ee200-0484-4f87-8f5c-b3fed4a3722b/content>.

## Access policy

### CONTACTS

Name	Affiliation	Email	URL
Data in Emergencies Hub, Office of Emergencies and Resilience	Food and Agriculture Organization of the United Nations	DIEM-Hub-List@fao.org	<a href="#">Link</a>

### CONFIDENTIALITY

The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO.

### ACCESS CONDITIONS

Micro datasets disseminated by FAO shall only be allowed for research and statistical purposes. Any user which requests access working for a commercial company will not be granted access to any micro dataset regardless of their specified purpose. Users requesting access to any datasets must agree to the following minimal conditions:

- The micro dataset will only be used for statistical and/or research purposes;
- Any results derived from the micro dataset will be used solely for reporting aggregated information, and not for any specific individual entities or data subjects;
- The users shall not take any action with the purpose of identifying any individual entity (i.e. person, household, enterprise, etc.) in the micro dataset(s). If such a disclosure is made inadvertently, no use will be made of the information, and it will be reported immediately to FAO;
- The micro dataset cannot be re-disseminated by users or shared with anyone other than the individuals that are granted access to the micro dataset by FAO.
