ABSTRACT

This study aims to evaluate the impact of a safe-space based life skills training program and a combination of life skills and digital literacy training programs on adolescent girls' empowerment, education, economic, and reproductive health outcomes. The interventions form two sub-components of the Adolescent Girls' Initiative for Learning and Empowerment project. The sample covered randomly selected secondary school girls between the ages of 17 and 22 in rural and semi-urban schools that were eligible for the safe space-based life skills and digital skills trainings. The midline data was collected through face-to-face interviews with 8,191 adolescents and 269 school principals across Kaduna, Kano and Katsina States. Interviews were attempted with all 8,223 adolescents girls interviewed at baseline in 2023. The field data collection occurred simultaneously across the three States and lasted between February and March, 2025. Enumerators collected data with tablets containing programmed questionnaires on SurveyCTO platform.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals, schools

Scope

NOTES

The survey covers the following topics:

- Background characteristics of adolescent girl
- Agency, goal setting, and aspirations
- School engagement
- Knowledge on reproductive health, menstruation, hygiene, climate change, gender-based violence, and digital tools
- Financial and digital literacy
- Socio-emotional skills
- Health behaviors
- Experience of school-related gender-based violence
- Time use

Coverage

GEOGRAPHIC COVERAGE

The study sample is comprised of senior secondary 3rd year adolescent girls and school principals from Kaduna (28%), Kano (32%), and Katsina (40%) in Nigeria.

UNIVERSE

The study sample consists of 8,191 senior secondary 3rd year adolescent girls, and 269 schools across Kaduna, Kano and Katsina in Nigeria.

Computer Assisted Personal Interview [capi]

DATA COLLECTION NOTES

Survey data was collected face-to-face by enumerators at the school or home. Survey responses were recorded on a tablet using SurveyCTO. The survey was translated from English to local languages.

questionnaires

QUESTIONNAIRES

This midline survey was designed to capture indicators on the following:

- Background characteristics of adolescent girl
- Agency, goal setting, and aspirations
- School engagement
- Knowledge on reproductive health, menstruation, hygiene, climate change, gender-based violence, and digital tools
- Financial and digital literacy
- Socio-emotional skills
- Health behaviors
- Experience of school-related gender-based violence
- Time use
- Intervention take-up

Access policy

CITATION REQUIREMENTS

Use of the dataset must be acknowledged using a citation which includes:

- The identification of the primary investigators
- The title of the survey (including country, acronym, and year of implementation)
- The survey reference number
- The source and date of download
