Agro-Processing, Productivity Enhancement and Livelihood Improvement Support - Socioemotional Skills Facilitators Impact Evaluation 2020

SUBTITLE

Baseline Survey

ABBREVIATION OR ACRONYM

APPEALS-SESIE-BL 2020

COUNTRY/ECONOMY

Name	Country code
Nigeria	NGA

STUDY TYPE

Enterprise Survey [en/oth]

ABSTRACT

Socioemotional skills (SES) programs are widely used to promote economic empowerment, yet their returns may depend on the type of skills targeted and social context. The impact evaluation measures the effect of different types of SES using a randomized controlled trial (RCT) among 4,500 aspiring agribusiness entrepreneurs in Nigeria within a large-scale government program. Participants were randomly assigned to an interpersonal-skills curriculum, a combined interpersonal and intrapersonal-skills curriculum of the same length, or a control group. This dataset contains survey responses from the agribusiness owners (men and women) conducted over the phone prior to the implementation of the socioemotional skills intervention.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals from Lagos, Kaduna, Kogi, Cross River, Enugu and Kano states in Nigeria.

Scope

NOTES

The survey covered the following topics:

- Demographic characteristics
- Economic activities, employment and business outcomes
- Household welfare
- Socioemotional skill measures
- Gender norms and decision-making
- Well-being measures

Coverage

GEOGRAPHIC COVERAGE

Lagos, Kaduna, Kogi, Cross River, Enugu and Kano states

Sampling

SAMPLING PROCEDURE

The baseline sample is comprised of 4,500 agribusiness owners (2,250 men and 2,250 women) within Lagos, Kaduna, Kogi, Cross River, Enugu and Kano states in Nigeria. The sample was defined by sampling from applicant database of the APPEALS WYEP program. Baseline surveys were conducted over the phone prior to the implementation of the socioemotional skills training.

Data collection

DATES OF DATA COLLECTION

Start	End	Cycle
