SERIES INFORMATION

The World Bank Group Country Opinion Survey Program systematically measures and tracks the perceptions of the World Bank Group's clients, partners, and other stakeholders in client countries across the globe. Country Opinion Surveys provide systematic feedback on stakeholders' familiarity with and perceptions of the World Bank Group, its relevance and effectiveness, its development priorities, instruments, knowledge work, engagement, collaboration, and communications. Nearly all World Bank Group client countries are surveyed within a recurring multi-year cycle.

ABSTRACT

The Country Opinion Survey in Guyana assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Guyana perceive the WBG. It provides the WBG with systematic feedback from government institutions, Parliament, bilateral and multilateral agencies, civil society organizations, the private sector, academia and research centers, and the media in Guyana on: 1) their overall views of the WBG, including its relevance, effectiveness, and trustworthiness; 2) the WBG's work on development priorities and WBG-supported projects and initiatives; 3) the WBG's instruments, including its financial support, knowledge work, and advisory role; 4) the WBG's engagement and collaboration with stakeholders; 5) communications and outreach; and 6) the WBG's future role and priorities in Guyana.

Sampling

SAMPLING PROCEDURE

From March to May 2026, 492 stakeholders in Guyana were invited to provide their opinions on the World Bank Group's work by participating in a Country Opinion Survey. The list of potential participants was compiled by the World Bank Group country team and supplemented by the independent fielding agency. Participants were drawn from government institutions, Parliament, bilateral and multilateral agencies, civil society organizations, the private sector, academia and research centers, and the media. A total of 191 stakeholders participated in the survey. Respondents received an email containing a link to the questionnaire and completed the survey online.

RESPONSE RATE

The response rate was 39%
The FY26 Country Opinion Survey results were compared with results from the FY21 Country Opinion Survey, which had a response rate of 37% and 111 respondents. Comparisons across Country Opinion Surveys reflect changes in stakeholder attitudes over time, as well as changes in respondent samples, methodology, and the survey instrument. To reduce the influence of changes to the survey instrument, only questions with similar response scales and response options were analyzed.

Compared with FY21, the FY26 survey included a larger proportion of respondents from the offices of Parliamentarians and from academia, and a smaller proportion from civil society and the private sector. These differences in stakeholder composition should be considered when interpreting comparisons between the two survey years.

Not all questions were asked of every respondent in FY26. Some questions, particularly those requiring more in-depth knowledge of World Bank Group projects and operations, were presented only to a subset of stakeholders. Consequently, some FY21 means used for year-to-year comparisons are based only on respondents who received comparable questions in FY26 and may differ from means published in the original FY21 report.

Survey instrument

QUESTIONNAIRES

The survey was conducted in English. The English-language questionnaire is provided as related material.
