Sampling

Sampling Procedure

MICRODATA SOURCE: Central Agency for Public Mobilisation and Statistics

SAMPLE DESIGN: Sample of households and collective dwellings drawn by Egyptian statistical office. Sample method unknown.

SAMPLE UNIT: Household

SAMPLE FRACTION: 10%

SAMPLE SIZE (person records): 7,282,434

Weighting

Self-weighting (expansion factor=10)

Questionnaires

Overview

Household and Housing Characteristics Questionnaire

Data Collection

Data Collection Dates

Start	End	Cycle
2006-11-21	2006-12-06	N/A

Time Periods

Start	End	Cycle
2006-11-21	2006-11-21	N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

De facto, CENSUS DAY: November 20/21, 2006, FIELD WORK PERIOD: 15 days starting from November 21, 2006

SUPERVISION

Direct enumeration

File Description

Variable List

EGY2006-H-H

Content	Household records
Cases	0
Variable(s)	96
Structure	Type: relational Keys: SERIAL(Household serial number)
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	RECTYPE	Record type	discrete	character	
V2	SERIAL	Household serial number	contin	numeric	
V3	YEAR	Year	discrete	numeric	
V4	SAMPLE	IPUMS sample identifier	discrete	numeric	
V5	URBAN	Urban-rural status	discrete	numeric	
V6	REGIONW	Continent and region of country	discrete	numeric	
V7	PERSONS	Number of person records in the household	contin	numeric	
V8	SUBSAMP	Subsample number	discrete	numeric	
V9	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V10	PHONE	Telephone availability	discrete	numeric	
V11	CELL	Cellular phone availability	discrete	numeric	
V12	SEWAGE	Sewage	discrete	numeric	
V13	WATSUP	Water supply	discrete	numeric	
V14	AIRCON	Air conditioning	discrete	numeric	
V15	VCR	Videocassette recorder	discrete	numeric	
V16	AUTOS	Automobiles available	discrete	numeric	
V17	TV	Television set	discrete	numeric	
V18	RADIO	Radio in household	discrete	numeric	
V19	FREEZER	Food freezer	discrete	numeric	
V20	WASHER	Clothes washing machine	discrete	numeric	
V21	REFRIG	Refrigerator	discrete	numeric	
V22	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V23	TOILET	Toilet	discrete	numeric	

ID	Name	Label	Type	Format	Question
V24	ROOMS	Number of rooms	discrete	numeric	
V25	BATH	Bathing facilities	discrete	numeric	
V26	UNREL	Number of unrelated persons	discrete	numeric	
V27	HEADLOC	Head's location in household	contin	numeric	
V28	HHTYPE	Household classification	discrete	numeric	
V29	NFAMS	Number of families in household	discrete	numeric	
V30	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V31	EG2006A_0001	Dwelling number	contin	numeric	Dwelling number
V32	EG2006A_0006	Number of persons in household	discrete	numeric	Number of persons in household
V33	EG2006A_0016	Dwelling created by splitting apart a large dwelling or household	discrete	numeric	Dwelling created by splitting apart a large dwelling or household
V34	EG2006A_0018	Number of persons in large household before it was split	discrete	numeric	Number of persons in large household before it was split
V35	EG2006A_0021	Governorate	discrete	numeric	Governorate ____
V36	EG2006A_0031	Urban/rural	discrete	numeric	Urban/rural
V37	EG2006A_0032	Public housing type	discrete	numeric	Public housing type
V38	EG2006A_0033	Number of household members (males)	discrete	numeric	Number of household [members] _ _ Male _ _ Female _ _ Total
V39	EG2006A_0034	Number of household members (females)	discrete	numeric	Number of household [members] _ _ Male _ _ Female _ _ Total
V40	EG2006A_0035	Number of household members (total)	discrete	numeric	Number of household [members] _ _ Male _ _ Female _ _ Total
V41	EG2006A_0036	Dwelling type	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Dwelling type [] 1 Apartment [] 2 More than one apartment [] 3 Villa/house [] 4 Rural house [] 5 One room or more in unit [] 6 Free standing room [] 7 Tent or hut [] 8 Cemetery [] 9 Others
V42	EG2006A_0037	Ownership status	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Ownership status [] 1 Rent (old law) [] 2 Rent (new law) [] 3 Furnished rent [] 4 Owned, totally paid for [] 5 Owned, paying installments [] 6 Grant [] 7 Fringe benefits [] 8 Others
V43	EG2006A_0038	Source of water	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Source of water [] 1 Public network [] 2 Pump [] 3 Well [] 4 Other
V44	EG2006A_0039	Access to water	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Home connection to water utility [] 1 Tap inside home [] 2 Tap inside the building [] 3 No connection with the utility

ID	Name	Label	Type	Format	Question
V45	EG2006A_0040	Lighting	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Home connection to sewage authority [] 1 Connected to public network [] 2 Private network [] 3 Cesspit [] 4 Not connected
V46	EG2006A_0041	Sewage	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Main lighting system [] 1 Electricity [] 2 Kerosene [] 3 Gasoline [] 4 Other
V47	EG2006A_0042	Number of rooms	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Number of rooms including living room _ _
V48	EG2006A_0043	Monthly rent in Egyptian pounds	contin	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Monthly rent in Egyptian Pounds _ _ _ _
V49	EG2006A_0044	Kitchen	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Utilities Kitchen [] 1 Private [] 2 Shared [] 3 Not available
V50	EG2006A_0045	Separate bathroom	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Utilities Separate bathroom [] 1 Private [] 2 Shared [] 3 Not available
V51	EG2006A_0046	Bathroom with toilet	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Utilities Bathroom with toilet [] 1 Private [] 2 Shared [] 3 Not available
V52	EG2006A_0047	Separate toilet	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Utilities Separate toilet [] 1 Private [] 2 Shared [] 3 Not available
V53	EG2006A_0048	Fuel and energy used: propane	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Used fuel and energy Several answers are accepted. [] Propane [] 1 Private [] 2 Shared [] 3 None
V54	EG2006A_0049	Fuel and energy used: natural gas	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Used fuel and energy Several answers are accepted. [] Natural gas [] 1 Private [] 2 Shared [] 3 None
V55	EG2006A_0050	Fuel and energy used: kerosene	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Used fuel and energy Several answers are accepted. [] Kerosene [] 1 Private [] 2 Shared [] 3 None
V56	EG2006A_0051	Fuel and energy used: electricity	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Used fuel and energy Several answers are accepted. [] Electricity [] 1 Private [] 2 Shared [] 3 None
V57	EG2006A_0052	Fuel and energy used: other	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Used fuel and energy Several answers are accepted. [] Other [] 1 Private [] 2 Shared [] 3 None
V58	EG2006A_0053	Number of private cars owned	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Owned transportation tools Several answers are accepted [] Private car [] Motorcycle [] Bicycle [] Others [] Nothing
V59	EG2006A_0054	Number of motorcycles owned	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Owned transportation tools Several answers are accepted [] Private car [] Motorcycle [] Bicycle [] Others [] Nothing

ID	Name	Label	Type	Format	Question
V60	EG2006A_0055	Number of bicycles owned	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Owned transportation tools Several answers are accepted [] Private car [] Motorcycle [] Bicycle [] Others [] Nothing
V61	EG2006A_0056	Number of other means of transportation owned	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Owned transportation tools Several answers are accepted [] Private car [] Motorcycle [] Bicycle [] Others [] Nothing
V62	EG2006A_0057	No means of transportation	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Owned transportation tools Several answers are accepted [] Private car [] Motorcycle [] Bicycle [] Others [] Nothing
V63	EG2006A_0058	Number of radios	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V64	EG2006A_0059	Number of televisions	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V65	EG2006A_0060	Number of video players	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V66	EG2006A_0061	Number of satellite dishes	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V67	EG2006A_0062	Number of refrigerators	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing

ID	Name	Label	Type	Format	Question
V68	EG2006A_0063	Number of deep freezers	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V69	EG2006A_0064	Number of non-automatic washing machines	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V70	EG2006A_0065	Number of automatic washing machines	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V71	EG2006A_0066	Number of dishwashers	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V72	EG2006A_0067	Number of stoves	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V73	EG2006A_0068	Number of water heaters	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V74	EG2006A_0069	Number of vacuum cleaners	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing

ID	Name	Label	Type	Format	Question
V75	EG2006A_0070	Number of air conditioners	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V76	EG2006A_0071	Number of computers	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V77	EG2006A_0072	Number of fans	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V78	EG2006A_0073	Number of internet connections	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V79	EG2006A_0074	Number of land-line phones	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V80	EG2006A_0075	Number of cellular phones	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V81	EG2006A_0076	No household appliances	discrete	numeric	Table 2: Housing characteristics [Questions in table 2 are asked of all persons, except for the question on educational status] Consumer durable goods Several answers are accepted [] Colored TV [] Black and white TV [] Video player [] Satellite dish [] Refrigerator [] Deep freezer [] Manual washing machine [] Automatic washing machine [] Dishwasher [] Stove [] Water heater [] Vacuum cleaner [] Air-conditioner [] Computer [] Iron [] Internet connection [] Fan [] Land-line phone [] Mobile phone [] Nothing
V82	EG2006A_0077	Strata	contin	numeric	Strata
V83	HHWT	Household weight	contin	numeric	

ID	Name	Label	Type	Format	Question
V84	GEO1_EG	Egypt, Governorate 1996 - 2006 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V85	GEO2_EGX	Egypt, District 1996 - 2006 [Level 2; inconsistent boundaries, harmonized by name]	discrete	numeric	
V86	NCOUPLES	Number of married couples in household	discrete	numeric	
V87	NMOTHERS	Number of mothers in household	discrete	numeric	
V88	NFATHERS	Number of fathers in household	discrete	numeric	
V89	COUNTRY	Country	discrete	numeric	
V90	ELECTRIC	Electricity	discrete	numeric	
V91	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V92	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V93	FUELCOOK	Cooking fuel	discrete	numeric	
V94	INTERNET	Internet access	discrete	numeric	
V95	COMPUTER	Computer	discrete	numeric

Record type (RECTYPE)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: character	Invalid: 0
Width: 1	

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Household serial number (SERIAL)
File: EGY2006-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 10	
Decimals: 0	

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
Colombia 1993, 2005
Costa Rica 1984, 2000
Cuba 2002
Dominican Republic 1981, 2002, 2010
Ecuador 1990, 2001
Germany 1971
Hungary 1980, 1990, 2001
Jamaica 1982, 1991, 2001
Malaysia 1970, 1991, 2000
Mexico 1995, 1990, 2000, 2005
Nigeria 2006
Panama 2000
Peru 1993, 2007
Portugal 1981, 1991, 2001
Spain 1991
Uruguay 2011
Venezuela 1990, 2001
Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Year (YEAR)
File: EGY2006-H-H

Year (YEAR)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1960-2011	

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	
Range: 32197001-894201001	

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Urban-rural status (URBAN)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

URBAN indicates whether the household was located in a place designated as urban or as rural.

Continent and region of country (REGIONW)
File: EGY2006-H-H

Overview

Continent and region of country (REGIONW)
File: EGY2006-H-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 11-54

Valid cases: 0
Invalid: 0

Description

REGIONW identifies the continent and region of each country.

Number of person records in the household (PERSONS)
File: EGY2006-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)
File: EGY2006-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)
File: EGY2006-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

Group quarters (collective dwelling) status (GQ)
File: EGY2006-H-H

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Telephone availability (PHONE)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

PHONE indicates the availability of a telephone in the dwelling.

Cellular phone availability (CELL)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

CELL indicates the availability of a cellular phone in the household.

Sewage (SEWAGE)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

SEWAGE indicates whether the household has access to a sewage system or septic tank.

Water supply (WATSUP)
File: EGY2006-H-H

Water supply (WATSUP)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

Air conditioning (AIRCON)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

This variable indicates whether the household had air conditioning.

Videocassette recorder (VCR)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

VCR indicates whether the household had a videocassette recorder or similar device.

Automobiles available (AUTOS)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

AUTOS records whether a member of the household owned or had use of a vehicle and, in many samples, the number of such vehicles.

Television set (TV)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

TV indicates whether the household had a television.

Radio in household (RADIO)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

RADIO indicates whether the household had a radio.

Food freezer (FREEZER)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

FREEZER indicates whether the household had a food freezer separate from a refrigerator.

Clothes washing machine (WASHER)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

WASHER indicates whether the household had a clothes washing machine.

Refrigerator (REFRIG)
File: EGY2006-H-H

Refrigerator (REFRIG)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description	

REFRIG indicates whether the household had a refrigerator.

Kitchen or cooking facilities (KITCHEN)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description	

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

Toilet (TOILET)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description	

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Number of rooms (ROOMS)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description	

ROOMS indicates the number of rooms occupied by the housing unit.

Bathing facilities (BATH)
File: EGY2006-H-H

Bathing facilities (BATH)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

BATH indicates whether the household had access to bathing facilities and, in most cases, whether it had exclusive access.

Number of unrelated persons (UNREL)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Head's location in household (HEADLOC)
File: EGY2006-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

Household classification (HHTYPE)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

HHTYPE is a constructed variable that describes the composition of households.
HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Number of families in household (NFAMS)
File: EGY2006-H-H

Number of families in household (NFAMS)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 6	
Decimals: 0	
Range: 32002-894010	

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Dwelling number (EG2006A_0001)
File: EGY2006-H-H

Interviewer instructions

c. Census household definition
Is an individual or group of Egyptian or foreign individuals connected with or without a blood relationship, sharing food and residence, and spending together the night of the enumeration.

According to this definition, the following are included among household members:

1. The original household members residing at the residence on the enumeration night (civilians and military).
2. Original household members that are temporarily absent on the night of enumeration and it is difficult to enumerate them somewhere else like those:

a. Who works in night shifts, night shift factory workers, fishermen and others who spent the night of the enumeration at work.
b. Who are absent from their families because of domestic travel and spent the night of enumeration on the road.

3. All types and levels of the armed forces members (worker, soldier, etc.) who are absent on the night of enumeration and are residing inside the country.
4. Servants and alike residing within the household.
5. Visitors who spend the night of the enumeration with the household (except visitors of the armed forces who are always enumerated among their household members)
6. Egyptians working at Egyptian or non-Egyptian means of transportation (planes, ships, etc.) who are residing on the night of the enumeration in or outside the territorial borders, as long as they don't have any other residence outside the country.

Note: Men who are married to more than one spouse and have more than one place of residence are enumerated at the place they are residing on the night of enumeration.

The following are not included among family members:
1. Members of the household who are temporarily or permanently absent and are enumerated as residents of public housing or visitors of other households.
2. Members of the household who are living abroad.

Private households

Literal question

Ownership status (EG2006A_0037)
File: EGY2006-H-H

Table 2: Housing characteristics
[Questions in table 2 are asked of all persons, except for the question on educational status]

Ownership status

[] 1 Rent (old law)
[] 2 Rent (new law)
[] 3 Furnished rent
[] 4 Owned, totally paid for
[] 5 Owned, paying installments
[] 6 Grant
[] 7 Fringe benefits
[] 8 Others

Interviewer instructions

Table 2: Housing characteristics
Mark the correct response number in the square or squares allotted for answering each question. The answer also must be recorded in words beside the square for the questions on dwelling type and ownership type.

Type of ownership

1. Rented (old law)
2. Rented (new law)
3. Rented, furnished (housing has furniture)
4. Owned (inherited, purchased, constructed); ownership is for the whole dwelling
5. Owned; ownership of one housing unit as a part of the dwelling
6. Gift (from a relative, for example)
7. In kind privilege/fringe benefit (from a business owner, for example)
8. Other

Source of water (EG2006A_0038)
File: EGY2006-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the source of water.

Universe

Private households

Literal question

Table 2: Housing characteristics
[Questions in table 2 are asked of all persons, except for the question on educational status]

Source of water

[] 1 Public network
[] 2 Pump
[] 3 Well
[] 4 Other

Interviewer instructions

Source of water (EG2006A_0038)
File: EGY2006-H-H

Table 2: Housing characteristics
Mark the correct response number in the square or squares allotted for answering each question. The answer also must be recorded in words beside the square for the questions on dwelling type and ownership type.

Source of drinking water
Record the number of the correct answer inside the square as follows:

1. Public network
2. Pump
3. Well
4. Other

Access to water (EG2006A_0039)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates the household's access to water.

Universe

Private households

Literal question

Table 2: Housing characteristics
[Questions in table 2 are asked of all persons, except for the question on educational status]

Home connection to water utility

[] 1 Tap inside home
[] 2 Tap inside the building
[] 3 No connection with the utility

Interviewer instructions

Table 2: Housing characteristics
Mark the correct response number in the square or squares allotted for answering each question. The answer also must be recorded in words beside the square for the questions on dwelling type and ownership type.

Dwelling connection to water supply
Record the number of the correct answer inside the square as follows:

1. Tap inside the residential unit
2. Tap inside the dwelling
3. No connection to water supply

Note: Answers (1) and (2) mean the dwelling is connected to a water supply facility, and this must be taken into account when completing the summary table at the bottom of the form.

Lighting (EG2006A_0040)
File: EGY2006-H-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	**Invalid:** 0

Number of video players (EG2006A_0060)
File: EGY2006-H-H

Table 2: Housing characteristics
Mark the correct response number in the square or squares allotted for answering each question. The answer also must be recorded in words beside the square for the questions on dwelling type and ownership type.

Household appliances
There are 18 items. The answer requires the knowledge of how many of these appliances are available at the household, in order to know the living standard of the household. The following must be taken into consideration:

In case the household doesn't have any of these appliances, sign (X) is placed inside the square in front of the word "Not available".

If the household has some of the appliances and not others, the answer will be marked as follows:

The number of each appliance is placed inside the square in front of each appliance available at the household.

The squares are left blank for the appliances that are not available.

The appliances are considered available if they are used now or are set for future use.

Number of satellite dishes (EG2006A_0061)

In case the household doesn't have any of these appliances, sign (X) is placed inside the square in front of the word "Not available".

If the household has some of the appliances and not others, the answer will be marked as follows:

The number of each appliance is placed inside the square in front of each appliance available at the household.

The squares are left blank for the appliances that are not available.

The appliances are considered available if they are used now or are set for future use.

Strata (EG2006A_0077)
File: EGY2006-H-H

Overview

Type: Continuous   Valid cases: 0
Format: numeric   Invalid: 0
Width: 6
Decimals: 0

Strata (EG2006A_0077)
File: EGY2006-H-H

Description

This variable is the strata identifier for the sample. Strata is a constructed variable that captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

Universe

All households

Literal question

Strata

Household weight (HHWT)
File: EGY2006-H-H

Overview

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Egypt, Governorate 1996 - 2006 [Level 1; consistent boundaries, GIS] (GEO1_EG)
File: EGY2006-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 818001-818035

Valid cases: 0
Invalid: 0

Description

GEO1_EG identifies the household's governorate (geographical area) within Egypt in all sample years. Governorates are the first level administrative units of the country. GEO1_EG is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1_EG can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Egypt can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Egypt. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Egypt, District 1996 - 2006 [Level 2; inconsistent boundaries, harmonized by name] (GEO2_EGX)
File: EGY2006-H-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	**Invalid:** 0
Width: 4	
Decimals: 0	
Range: 101-3599	

Description

GEO2_EGX identifies the household's district (qism/markaz) within Egypt in all sample years. Districts are the second level administrative units of the country, after governorates. GEO2_EGX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Egypt can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Egypt. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Number of married couples in household (NCOUPLES)
File: EGY2006-H-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	**Invalid:** 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)
File: EGY2006-H-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	**Invalid:** 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)
File: EGY2006-H-H

Number of fathers in household (NFATHERS)
File: EGY2006-H-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)
File: EGY2006-H-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 32-894	

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)
File: EGY2006-H-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

ELECTRIC indicates whether the household had access to electricity.

Ownership of dwelling [general version] (OWNERSHIP)
File: EGY2006-H-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Cooking fuel (FUELCOOK)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

FUELCOOK indicates the predominant type of fuel or energy used for cooking.

Internet access (INTERNET)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

INTERNET indicates whether or not the household had an internet connection.

Computer (COMPUTER)
File: EGY2006-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

COMPUTER indicates whether the household had a personal computer.

Strata identifier (STRATA)
File: EGY2006-H-H

Overview

Type: Continuous
Format: numeric
Width: 12
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

Person number (PERNUM)
File: EGY2006-P-H

Overview	

Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description	

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Age (AGE)
File: EGY2006-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description	

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Sex (SEX)
File: EGY2006-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description	

SEX reports the sex (gender) of the respondent.

Country of citizenship (NATION)
File: EGY2006-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 0-99999	

Description	

NATION indicates the person's country of citizenship.

Citizenship (CITIZEN)
File: EGY2006-P-H

Citizenship (CITIZEN)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

CITIZEN indicates the person's citizenship status within the country in which they were enumerated.

Occupation, ISCO general (OCCISCO)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

Probable stepfather (STEPPOP)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-3	

Description

STEPPOP indicates whether a person's father, as identified by POPLOC , was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

0 = Biological father or no father of this person present in household.
1 = Child reports father is deceased.
2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

Probable stepmother (STEPMOM)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-6	

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

0 = Biological mother or no mother of this person present in household.
1 = Mother has no children borne or surviving.
2 = Child reports mother is deceased.
3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
4 = Mother reports no children in the home.
5 = Age difference between mother and child was less than 12 or greater than 54 years.
6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Woman is second or higher order wife (POLY2ND)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-1	

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Family unit membership (FAMUNIT)
File: EGY2006-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	

Description

Family unit membership (FAMUNIT)
File: EGY2006-P-H

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membebership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Age, grouped into intervals (AGE2)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-98	

Description

AGE2 gives computed years of age grouped into intervals.

Governorate of birth, Egypt (BPLEG)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

Governorate of birth, Egypt (BPLEG)
File: EGY2006-P-H

BPLEG indicates the person's governorate of birth within Egypt.

Literacy (LIT)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

School attendance (SCHOOL)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

SCHOOL indicates whether or not the person attended school at the time of the census or within some specified period of time prior to the census.

Status in employment (class of worker) [general version] (CLASSWK)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Status in employment (class of worker) [detailed version] (CLASSWKD)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Sector of employment (EMPSECT)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

EMPSECT indicates the economic sector in which the person was employed. Economic sector is defined in terms of ownership or control of the enterprise in which the person worked.

Father's location in household (POPLOC)
File: EGY2006-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Rule for linking spouse (SPRULE)
File: EGY2006-P-H

Rule for linking spouse (SPRULE)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Spouse's location in household (SPLOC)
File: EGY2006-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Mother's location in household (MOMLOC)
File: EGY2006-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Rule for linking parent (PARRULE)
File: EGY2006-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-52	

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Man with more than one wife linked (POLYMAL)
File: EGY2006-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-1	

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Polygamous union (POLYGAM)
File: EGY2006-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

POLYGAM indicates whether the respondent was in a polygamous union and, in some samples, the number of wives or the rank order of the wife.

Relationship to household head [general version] (RELATE)
File: EGY2006-P-H

Overview

Relationship to household head [general version] (RELATE)
File: EGY2006-P-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1000-9999

Valid cases: 0
Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Marital status [general version] (MARST)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

Marital status [detailed version] (MARSTD)
File: EGY2006-P-H

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Activity status (employment status) [general version] (EMPSTAT)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Governorate of previous residence, Egypt (MIGEG)
File: EGY2006-P-H

Overview

Governorate of previous residence, Egypt (MIGEG)
File: EGY2006-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

MIGEG indicates the person's governorate of previous residence in Egypt. The migration could have occurred at any time in the past.

Employment disability (DISEMP)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

DISEMP indicates if the respondent was economically inactive because of disabilities.

Educational attainment, Egypt (EDUCEG)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

EDUCEG indicates the person's educational attainment in terms of the level of schooling completed.

Industry, general recode (INDGEN)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

Occupation, unrecoded (OCC)
File: EGY2006-P-H

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0

Valid cases: 0
Invalid: 0

Description

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Occupation, ISCO-1988, 3-digit (ISCO88A)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 10-999

Valid cases: 0
Invalid: 0

Description

ISCO88A provides the 3-digit occupation code for the respondent using the ISCO-1988 occupation classification.

Industry, unrecoded (IND)
File: EGY2006-P-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

Person number (within household) (EG2006A_0003)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-30

Valid cases: 0
Invalid: 0

Description

This variable indicates the person number within the household.

Universe

Person number (within household) (EG2006A_0003)

Literal question

Person number (within household)

Relationship to household head (EG2006A_0401)
File: EGY2006-P-H

Overview

Type: Discrete

Format: numeric

Width: 2

Decimals: 0

Range: 1-11

Valid cases: 0

Invalid: 0

Description

This variable indicates the relationship of the person to the household head.

Universe

All persons

Literal question

Table 1: Family characteristics
[Questions 1-7 for all persons]

[Questions in table 1 can be answered for up to 7 people]

2. Relationship to household head

[] 1 Household head
[] 2 Husband/wife
[] 3 Son/daughter
[] 4 Daughter-in-law/son-in-law
[] 5 Grandson/granddaughter
[] 6 Father/mother
[] 7 Brother/sister
[] 8 Other relatives
[] 9 No relation
[] 10 Servants
[] 11 Visitors

Interviewer instructions

Table 1: Household characteristics

2. Relationship to household head
Number (1) is written in the first two squares in front of the household head while also writing the verbal response.

Number (2) is written in case there is a spouse on the second line.

The number of the correct relationship with the household head is to be written along with the code number inside the two squares while also writing the verbal response that expresses the relationship of the member to the household head.

Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the marital status of the person.

Universe

Males age 18+ and females age 16+

Literal question

[Questions 15-20 for all persons]

15. Marital status

[For males 18 years or older]
[For females 16 years or older]

[] 1 Under age
[] 2 Never married
[] 3 Contractually married
[] 4 Married
[] 5 Divorced
[] 6 Widowed

Interviewer instructions

Marital status (EG2006A_0407)
File: EGY2006-P-H

Table 1: Household characteristics

7. Marital status
[For males 18 years or older and females 16 years or older]

There is one square to write one of the following answers according to the status of each member. There is also a line below the square to write the verbal responses.

1. Below age: for the previously specified age categories that have never been married. If they were married, like what happens in some villages, their answer would be (4) "Married".
2. Has never been married: for males 18 years or older and females 16 years or older that have never been married.
3. Contractually married: for members who have been contractually married but haven't had a wedding yet.
4. Married
5. Divorced
6. Widowed

Number of wives (EG2006A_0408)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates the number of wives currently married male has.

Universe

Currently married males

Literal question

[Questions 15-20 for all persons]

16. Number of current wives ____

Interviewer instructions

Table 1: Household characteristics

8. Number of wives currently married to
This question is filled only for married men of all religions.

There is one square to write a number from (1) to (4) only, since it is logical that he doesn't have more than (4) wives for Muslims and not more than (1) for non-Muslims.

Educational level (main code) (EG2006A_0409)
File: EGY2006-P-H

Overview	

Educational level (main code) (EG2006A_0409)
File: EGY2006-P-H

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

Description

This variable indicates the educational level of the person.

Universe

Persons age 10 and older

Literal question

7. Education status, or the highest education certificate

[Age 10 or older]

[] 1 Under age
[] 2 Illiterate
[] 3 Read and write without certificate
[] 4 Primary
[] 5 Preparatory
[] 6 Intermediate degree
[] 7 Above intermediate degree
[] 8 University degree
[] 9 Above university degree (specify the highest degree and specialization) _____

Interviewer instructions

Table 1: Household characteristics

9. Educational level or the highest degree (for those 10 years and older)
There are 2 squares on the right, and 4 squares on the left.

Fill only the 2 squares on the right, leaving the rest of the squares to be coded by the Information Technology sector.

One of the following answers is written:

1. Member is below age
2. Member is illiterate
3. Member who can read and write with no certificate
4. Illiteracy eradication: for the member who was enrolled in illiteracy eradication classes and completed his/her studies and got an illiteracy eradication certificate
5. Member who obtained elementary school certificate (general / azhari)
6. Member who obtained preparatory certificate (general / industrial / agricultural / commercial)
7. Intermediate degree (general / commercial / industrial / agricultural)
8. Above intermediate degree
9. University degree
10. Higher diploma
11. Masters degree
12. Doctorate degree

If the member has a degree, the correct code is written inside the square on the right, and the highest scientific degree he/she obtained and his/her specialization are written below the squares. Nothing will be written in the four squares on the left so that the Information Technology sector can code the degree.

[Example has been omitted.]

If number (7) or (8) is marked, then the degree and specialization are written on the line below the squares, for example: (general secondary certificate - vocational secondary; commerce - vocational secondary; industry - 2 years post-secondary; commerce - vocational institute; 2 years post secondary - industry vocational institute, etc.) and the 4 squares on the left are blank to be coded by the Information Technology sector.

[] 5 Currently in school (for 4 and 5, specify stage and year)

_Stage (1-4)

_Year (1-6)

Interviewer instructions

Table 1: Household characteristics

10. School dropout: for members 6-18 years only
There are 3 squares; the answer to the question is written as follows:

One of the following answers is recorded in the right square:

1. For members younger than 6 years.
2. For members older than 18 years
3. Currently enrolled in school and his/her age is now between 6 to 18 years, or he/she was enrolled and never dropped out from basic education as he/she completed at least preparatory school.
4. He/she has never enrolled in school.
5. For the member who enrolled in school and dropped out and hence didn't complete his/her studies. This applies to basic education, which consists of elementary and preparatory stages only.

In the case the answer was (5), enrolled and dropped out, the middle square is filled with stage information and the left square is filled with class information as follows:

The middle square: (about the schooling stage) for basic education only, one of two answers is written:

Elementary stage
Preparatory stage and what level

The left square: (about the school grade) a number is written (from 1 to 6) according to the grade the member dropped out from, writing the verbal response below the squares of the stage and class.

[] 12 Oldster and does not work
[] 13 Disabled
[] 14 Does not want to work
[] 15 Others

Interviewer instructions

Table 1: Household characteristics

11. Member employment status (during the previous week of the enumeration day)

The data regarding the nature of work, for members aged 6 years and older, should be selected from field number (1) to field number (16). There are 2 squares to code one of the correct answers in, writing the verbal response below the squares:

1. Member below age (less than 6 years).
2. Business owner who hires others.
3. Member who works for himself/herself and doesn't hire anyone.
4. Member who works for a wage for others or for family.
5. Member who works for family without wage.
6. Member who works for others without wage.
7. Unemployed who has worked before.
8. Unemployed who has never worked before.
9. Full-time student.
10. Full-time housewife
11. Retired who is less than 65 years and doesn't work
12. Member who is 65 years or above and doesn't work
13. Disabled
14. Doesn't want to work although he/she can work because he/she has enough income.
15. Other, for a male member who is between 6 to below 15 years, who is not enrolled in school and doesn't work.

Place of work (EG2006A_0415)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the place of this person's work. It indicates whether the person works inside or outside the establishment.

Universe

Persons age 6 and older who are economically active

Literal question

[Questions 8-14 were asked of persons age 6 and older]

10. Establishment name

[] 1 Under age
[] 2 Inside ____
[] 3 Outside establishment
[] 4 Not affiliated

Interviewer instructions

Table 1: Household characteristics

12. Name of the establishment where he/she works
There is one square; one of the following numbers is marked, writing the verbal response below the squares.

1. Below age: for the member who is below 6 years of age.
2. For the member who is 6 years or older and works at an inside establishment; in this case, the name of the establishment is written below the square.
3. For the member who is 6 years or older and works at an outside establishment (outside household).
4. For the member who is 6 years or more and works at an outside establishment (inside household).
5. Not affiliated: for members who are 6 years or older and do not work, like a housewife or full-time student. They are those who answered the employment status question with code number (8) to code number (15).

Note: An unemployed member who has previously worked is categorized according to the last job he/she worked at before becoming unemployed.

Universe

Persons age 6 and older who are economically active

Literal question

Primary occupation, 3-digit (EG2006A_0432)
File: EGY2006-P-H

[Questions 8-14 were asked of persons age 6 and older]

13. Main occupation for persons (in details) _____

Interviewer instructions

Table 1: Household characteristics

14. The primary profession for members

There are 6 squares for this question which should be left blank to be coded by the Information Technology sector.

The enumerator will write the primary profession for the working member in detail (whose answer in the employment status question was from (2) to (7) on the line below the squares, for example: Door and window carpenter, Arabic language teacher, internal medicine doctor, etc.)

Note: The profession is also to be completed on this line for an individual whose employment status is (7), "a worker who became unemployed", based on the last profession the individual was practicing before becoming unemployed.

For members who are younger than 6 years, "below age" must be recorded for them on the line below the squares.

For the rest of the household members who don't work or are unemployed and never have worked before, "not working" must be recorded for them on the line below the squares.

Industry, 3-digit (EG2006A_0433)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 11-999

Valid cases: 0
Invalid: 0

Description

This variable indicates the industry in which the person works.

Universe

Persons age 6 and older who are economically active

Literal question

[Questions 8-14 were asked of persons age 6 and older]

12. Main economic activity (in details) _____

Interviewer instructions

Industry, 3-digit (EG2006A_0433)
File: EGY2006-P-H

Table 1: Household characteristics

15. Economic activity for the establishment
This question is to be completed as follows:

First: for members (6 years or older) who are working or who are currently unemployed but have previously worked (codes (2) to (7) for employment status):

a. There are (6) squares to be left blank for coding by the Information Technology sector.
b. The economic activity is written out on the line located below the squares.

Second: for the rest of the members (6 years or older) who are not in the work force or the unemployed who have never worked before (codes (8) to (15) for employment status), "not working" is recorded on the line below the squares.

Third: for members who are younger than 6 years, "below age" is recorded on the line below the squares.

Job stability (EG2006A_0419)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates the person's job stability.

Universe

Persons age 6 and older who are economically active

Literal question

[Questions 8-14 were asked of persons age 6 and older]

14. Job stability

[] 1 Under age
[] 2 Permanent
[] 3 Temporary
[] 4 Seasonal
[] 5 Casual
[] 6 Not working

Interviewer instructions

Job stability (EG2006A_0419)
File: EGY2006-P-H

Table 1: Household characteristics

16. Job stability

Note: Work nature is to be completed for members who are currently working or who are currently unemployed but have worked before -- using the last job he/she practiced (employment status (7).

There is one square; one of the following numbers is marked, writing the verbal response below the squares:

1. Below age: for members who are younger than 6 years.
2. Permanent: for the member who works permanently, like an employee.
3. Temporarily: for the member who work temporarily, like a fresh graduate who works on a temporary contract.
4. Seasonal: for the member who work seasonally, like an agricultural worker who works during cotton harvest season.
5. Casual: for the member who work on intermittent days, like a construction worker who works per day.
6. Not affiliated: for the rest of members who don't work and those who are unemployed and have never worked before.

Disability status (EG2006A_0420)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-2	

Description

This variable indicates the physical status of the person.

Universe

All persons

Literal question

[Questions 15-20 for all persons]

17. Physical status (Has any household member been suffering from a physical, medical, or mobility problem for a long period (6 months or more) that prevents from independently performing daily life activities easily?)

[] 1 Normal
[] 2 Disabled (go to table 3)

Interviewer instructions

Disability status (EG2006A_0420)
File: EGY2006-P-H

Table 1: Household characteristics

17. Physical status (for all household members)
There is one square; one of the following numbers is marked.

1. For the member who is able bodied (normal) and psychologically, mentally and physically able.
2. For the member who has a physical, mental or sensual disability, or he/she has one type of disability mentioned in (Table 3: special needs).

Important note:
a. The enumerator should ask about special needs members using the following format:
Is there a member in the household that has had a physical, sensory or mental problem for a long time (6 months or more) that disable him/her of living his/her life independently in a normal way?

Infants who are not yet 6 months old are exempted from the duration criteria.

b. If there are more than 7 household members, complete the table for the special needs member on the same form where his/her name and number were recorded.

Governorate of birth (EG2006A_0421)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the governorate in which the person was born.

Universe

All persons except visitors

Literal question

[Questions 15-20 for all persons]

19. Place of birth

_ _City/district/markaz
_ _Governorate

Interviewer instructions

Governorate of birth (EG2006A_0421)
File: EGY2006-P-H

Table 1: Household characteristics

18. Place of birth
It consists of 3 columns as follows:

First column: Write the verbal response on the line below the 2 squares according to town / urban district (qism) / rural district (markaz) where the member was born; the squares are left blank for coding by the Information Technology sector.

Second column: Write the verbal response on the line below the 3 squares according to the governorate of birth (inside Egypt) or the name of the country (outside Egypt) where the member was born; the squares are left blank for coding by the Information Technology sector.

Third/Last column: Specify the place of birth in the one square provided. Mark code (1) if the place was urban or code (2) if it was rural. Do not write the verbal response.

District of birth (EG2006A_0422)
File: EGY2006-P-H

Overview

Duration of stay at place of residence, in years (EG2006A_0424)
File: EGY2006-P-H

Overview	

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

Description

This variable indicates the person's duration of stay at current place of residence.

Universe

All persons except visitors

Literal question

[Questions 15-20 for all persons]

20. Duration in years of residing at the current address _ _

Interviewer instructions

Duration of stay at place of residence, in years (EG2006A_0424)
File: EGY2006-P-H

Table 1: Household characteristics

19. Duration of continuous stay at the current place of residence
It is completed for the duration of stay of the member in the same town or district, in years.

Note:

1. The age of the member must be taken into account given that it is not logical that the duration of stay would be larger than age.

2. If the member moved from one urban district to another inside the same town or urban governorate, such as the Governorate of Cairo, the duration of stay must be summed up; however, if the member moved from an urban district to a rural district or vice versa inside any rural governorate, only the last duration of stay is recorded.

3. As for a foreigner, his/her duration of stay is calculated since his/her date of arrival to Egypt, regardless of his/her domestic migration.

Previous governorate of residence (EG2006A_0425)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the person's previous governorate of residence.

Universe

Non-visitors who changed governorate of residence

Literal question

[Questions 21-22 were asked of persons who changed their residency location]

21. Previous residence address

_ _City/district/markaz
_ _Governorate

Interviewer instructions

Previous governorate of residence (EG2006A_0425)
File: EGY2006-P-H

Table 1: Household characteristics

20. Previous place of residence (for those who changed residence)
It consists of 3 columns as follows:

Write the verbal response on the line below the 2 squares according to town / urban district (qism) / rural district (markaz) of the member's previous place of residence; the squares are left blank for coding by the Information Technology sector.

Second column: Write the verbal response on the line below the 3 squares according to the governorate (inside Egypt) or the name of the country (outside Egypt) of previous place of residence; the squares are left blank for coding by the Information Technology sector.

Third/Last column: Specify the previous place of residence in the one square provided. Mark code (1) if the place was urban or code (2) if it was rural. Do not write the verbal response.

Note: A member who moved from one urban district to another is not considered as someone who changed his/her place of residence.

Literal question

Urban/ rural status of residence for guests and/or visitors

Person weight (PERWT)
File: EGY2006-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 8	
Decimals: 2	

Description

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Disability status (DISABLED)
File: EGY2006-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

DISABLED indicates whether the person reported a disability of any kind.

Years residing in current locality (MIGYRS1)
File: EGY2006-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGYRS1 indicates how many years the person has resided in their current locality of residence.

Reason for migration (MIGCAUSE)
File: EGY2006-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGCAUSE indicates the reason why the person moved from their previous place of residence.

Migration status, previous residence (MIGRATEP)
File: EGY2006-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

MIGRATEP indicates whether the person's most recent move (if any) was between minor administrative units, major units, or countries.

Educational attainment, international recode [general version] (EDATTAIN)
File: EGY2006-P-H

Overview	
Type: Discrete	**Valid cases:** 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

Educational attainment, international recode [general version] (EDATTAIN)
File: EGY2006-P-H

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIND)
File: EGY2006-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999
