

Morocco - General census of Population and Housing 1982 - IPUMS Subset

Statistics Directorate, Minnesota Population Center - University of Minnesota

Report generated on: May 3, 2018

Visit our data catalog at: <http://microdata.worldbank.org>

Sampling

Sampling Procedure

MICRODATA SOURCE: Statistics Directorate

SAMPLE DESIGN: Systematic sample of every 20th household, drawn by the National Statistical Office

SAMPLE UNIT: Household

SAMPLE FRACTION: 5%

SAMPLE SIZE (person records): 1,012,873

Weighting

Self-weighting (expansion factor=20)

Questionnaires

Overview

Questionnaire for dwelling unit and household

Data Collection

Data Collection Dates

Start	End	Cycle
1982-09-03	1982-09-18	N/A

Time Periods

Start	End	Cycle
1982-09-03	1982-09-03	N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

De jure, CENSUS DAY: September 3, 1982, FIELD WORK PERIOD: 15 days

SUPERVISION

Direct interview

Data Processing

No content available

Data Appraisal

No content available

File Description

Variable List

MAR1982-H-H

Content	Household records
Cases	0
Variable(s)	51
Structure	Type: relational Keys: SERIAL(Household serial number)
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	WATSUP	Water supply	discrete	numeric	
V9	ROOMS	Number of rooms	discrete	numeric	
V10	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V11	TOILET	Toilet	discrete	numeric	
V12	WALL	Wall or building material	discrete	numeric	
V13	ROOF	Roof material	discrete	numeric	
V14	NFAMS	Number of families in household	discrete	numeric	
V15	HEADLOC	Head's location in household	contin	numeric	
V16	BATH	Bathing facilities	discrete	numeric	
V17	HHTYPE	Household classification	discrete	numeric	
V18	REGIONW	Continent and region of country	discrete	numeric	
V19	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V20	UNREL	Number of unrelated persons	discrete	numeric	
V21	MA1982A_0001	Dwelling number	contin	numeric	Dwelling number
V22	MA1982A_0006	Number of persons in household	discrete	numeric	Number of persons in household
V23	MA1982A_0028	Absent status (household head)	discrete	numeric	Q04: Residence status [] 1 R.P. -- Resident present [] 2 R.T.A. -- Resident temporarily absent

ID	Name	Label	Type	Format	Question
V24	MA1982A_0050	Dwelling occupancy	discrete	numeric	24. Mode of occupancy of the dwelling unit [] 1 Dwelling occupied by a household resident at time of the census [] 2 Dwelling occupied by a household temporarily absent at time of the census [] 3 Dwelling empty / vacant [] 4 Secondary or seasonal dwelling [] 5 Other
V25	MA1982A_0051	Dwelling type	discrete	numeric	25. Type of construction [This question was asked of households in urban areas.] [] 1 Villa, or flat in a villa [] 2 Apartment, flat [] 3 Moroccan traditional house [] 4 Room in an institution [] 5 Construction not designed for housing [] 6 Other cases
V26	MA1982A_0052	Material of the walls	discrete	numeric	26. Wall material [] 1 Stone or bricks, with cement [] 2 Stone, with dried earth [] 3 Stone, without cement or earth [] 4 Adobe [] 5 Wood, iron sheets, branches, reeds [] 6 Other material
V27	MA1982A_0053	Roof	discrete	numeric	26. Roof material [] 1 Flat concrete roof [] 2 Wood, branches, reeds, covered with earth [] 3 Wood, branches, reeds, not covered with earth [] 4 Iron sheets [] 5 Wood planks and tiles [] 6 Other material
V28	MA1982A_0054	Kitchen	discrete	numeric	27a. Kitchen [] 0 No [] 1 Yes, private [] 2 Yes, shared
V29	MA1982A_0055	Water closet / toilet	discrete	numeric	27b. Toilet/WC inside the dwelling [] 0 No [] 1 Yes, private [] 2 Yes, shared
V30	MA1982A_0056	Modern bathroom / shower	discrete	numeric	27c. Modern bathroom or shower inside the dwelling [] 0 No [] 1 Yes, private [] 2 Yes, shared
V31	MA1982A_0057	Traditional bathroom	discrete	numeric	27d. Traditional Moroccan bathroom inside the dwelling [] 0 No [] 1 Yes, private [] 2 Yes, shared
V32	MA1982A_0058	Public water supply connection	discrete	numeric	27e. Is the dwelling connected to a public water supply network? [] 0 No [] 1 Yes
V33	MA1982A_0059	Other water supply (spring, well)	discrete	numeric	27f. Water from a spring or from a well inside the dwelling? [] 0 No [] 1 Yes, private [] 2 Yes, shared
V34	MA1982A_0060	Electricity	discrete	numeric	27g. Is the dwelling connected to a public network of electricity distribution, or supplied with an electric generator? [] 0 No [] 1 Yes
V35	MA1982A_0061	Lighting (non-electric source)	discrete	numeric	28. Source of lighting (for households not supplied with electricity) [] 1 Petrol lamp [] 2 Gas lamp (butane) [] 3 Traditional lamp (kandyle) [] 4 Candle [] 5 Other cases
V36	MA1982A_0062	Dwelling ownership	discrete	numeric	29. Tenancy status of the dwelling [] 1 Landlord or owner [] 2 In process of becoming owner [] 3 Tenant [] 4 Under mortgage [] 5 Housing provided by employer [] 6 Free lodging [] 7 Other cases
V37	MA1982A_0063	Number of rooms	discrete	numeric	30. Number of rooms occupied by the household ____
V38	MA1982A_0065	Number of persons in household	discrete	numeric	1. Province or prefecture 2. Cercle 3. Municipality or centre autonome or commune rurale 3. Centre 4. Fraction 5. Douar 6. Census track [district de recensement] 7. Dwelling unit number [numro du logement] 8. Number of households in the dwelling unit 9. Household number [numro du mnage] 10. Number of questionnaires filled for this household 11. Does the household head have a vital registration booklet? 12. If yes, year of issue of this booklet 13. Number of resident household members (not counting the visitors) Moroccan __ Foreigner __ Total __ 14. Precise address of the dwelling unit 15. Name of the census enumerator 16. Name of the respondent 17. Date of interview 18. Name of the supervisor 19. Date of the supervision in the office ____ in the field ____ 20. Signature of the supervisor 21. Observations

ID	Name	Label	Type	Format	Question
V39	HHWT	Household weight	contin	numeric	
V40	GEOLEV2	2nd subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V41	GEO1_MA	Morocco, Region 1982 - 2004 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V42	GEO1_MA1982	Morocco, Region 1982 [Level 1, GIS]	discrete	numeric	
V43	GEO2_MA	Morocco, Province 1982 - 2004 [Level 2; consistent boundaries, GIS]	discrete	numeric	
V44	GEO2_MA1982	Morocco, Province 1982 [Level 2, GIS]	discrete	numeric	
V45	NCOUPLES	Number of married couples in household	discrete	numeric	
V46	NMOTHERS	Number of mothers in household	discrete	numeric	
V47	NFATHERS	Number of fathers in household	discrete	numeric	
V48	COUNTRY	Country	discrete	numeric	
V49	ELECTRIC	Electricity	discrete	numeric	
V50	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V51	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	

MAR1982-P-H

Content	Person records
Cases	0
Variable(s)	78
Structure	Type: relational Keys: PERNUM(Person number), SERIAL(Household serial number [person version])
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V52	PERNUM	Person number	contin	numeric	
V53	MOMLOC	Mother's location in household	contin	numeric	
V54	POPLOC	Father's location in household	contin	numeric	
V55	SPLOC	Spouse's location in household	contin	numeric	
V56	PARRULE	Rule for linking parent	discrete	numeric	
V57	SPRULE	Rule for linking spouse	discrete	numeric	
V58	STEPMOM	Probable stepmother	discrete	numeric	
V59	STEPPOP	Probable stepfather	discrete	numeric	
V60	FAMUNIT	Family unit membership	contin	numeric	
V61	FAMSIZE	Number of own family members in household	discrete	numeric	
V62	NCHILD	Number of own children in household	discrete	numeric	
V63	NCHLT5	Number of own children under age 5 in household	discrete	numeric	
V64	ELDCH	Age of eldest own child in household	discrete	numeric	
V65	YNGCH	Age of youngest own child in household	discrete	numeric	
V66	RELATE	Relationship to household head [general version]	discrete	numeric	
V67	RELATED	Relationship to household head [detailed version]	discrete	numeric	
V68	AGE	Age	discrete	numeric	
V69	AGE2	Age, grouped into intervals	discrete	numeric	
V70	SEX	Sex	discrete	numeric	
V71	MARST	Marital status [general version]	discrete	numeric	
V72	MARSTD	Marital status [detailed version]	discrete	numeric	

ID	Name	Label	Type	Format	Question
V73	CHBORN	Children ever born	discrete	numeric	
V74	CHSURV	Children surviving	discrete	numeric	
V75	CITIZEN	Citizenship	discrete	numeric	
V76	NATION	Country of citizenship	discrete	numeric	
V77	CLASSWK	Status in employment (class of worker) [general version]	discrete	numeric	
V78	CLASSWKD	Status in employment (class of worker) [detailed version]	discrete	numeric	
V79	DISEMP	Employment disability	discrete	numeric	
V80	LIT	Literacy	discrete	numeric	
V81	EMPSTAT	Activity status (employment status) [general version]	discrete	numeric	
V82	EMPSTATD	Activity status (employment status) [detailed version]	discrete	numeric	
V83	EDUCMA	Educational attainment, Morocco	discrete	numeric	
V84	OCCISCO	Occupation, ISCO general	discrete	numeric	
V85	OCC	Occupation, unrecoded	contin	numeric	
V86	INDGEN	Industry, general recode	discrete	numeric	
V87	IND	Industry, unrecoded	contin	numeric	
V88	CHDEAD	Number of children dead	discrete	numeric	
V89	POLYMAL	Man with more than one wife linked	discrete	numeric	
V90	POLY2ND	Woman is second or higher order wife	discrete	numeric	
V91	MA1982A_0003	Person number (within household)	discrete	numeric	Person number (within household)
V92	MA1982A_0400	Relationship to head of household	discrete	numeric	Q03: Relationship to the head of household <input type="checkbox"/> 1 Head of household <input type="checkbox"/> 2 Spouse of the household head <input type="checkbox"/> 3 Child (son or daughter) <input type="checkbox"/> 4 Parent (father or mother) <input type="checkbox"/> 5 In-law children (son or daughter in-law) <input type="checkbox"/> 6 Other relative <input type="checkbox"/> 7 Not related by blood
V93	MA1982A_0401	Absent status	discrete	numeric	Q04: Residence status <input type="checkbox"/> 1 R.P. -- Resident present <input type="checkbox"/> 2 R.T.A. -- Resident temporarily absent
V94	MA1982A_0402	Sex	discrete	numeric	Q05: Sex <input type="checkbox"/> 1 Male <input type="checkbox"/> 2 Female
V95	MA1982A_0404	Age (in years)	discrete	numeric	Q06: Date of birth or age (Specify the date of birth or the age, depending on declaration) - Date of birth: (Example: a persons declares being born on February 4, 1967, write down 4 February 1967, in write in the appropriate boxes: 0 2 / 1 9 6 7 MM in months __ YYYY in years ____ - Age: (Example: a persons declares being 47 years of age, write down 47 boxes: 4 7 (For children younger that 1 year of age, write "00") __
V96	MA1982A_0405	Marital status	discrete	numeric	Q07: Marital status <input type="checkbox"/> 1 Single <input type="checkbox"/> 2 Married <input type="checkbox"/> 3 Widowed <input type="checkbox"/> 4 Divorced
V97	MA1982A_0406	Country of citizenship	discrete	numeric	Q08: Nationality <input type="checkbox"/> 01 Moroccan <input type="checkbox"/> 02 Algerian <input type="checkbox"/> 03 Tunisian <input type="checkbox"/> 40 French <input type="checkbox"/> 41 Spanish Other nationality: specify, without coding _____

ID	Name	Label	Type	Format	Question
V98	MA1982A_0410	Years at current residence (commune)	discrete	numeric	Q11: Duration of residence Specify the duration of residence in the place where the person currently lives. For persons who never moved from the place where they are enumerated, write "MRA = same as actual residence". _____
V99	MA1982A_0412	Number of children living in household	discrete	numeric	Life time fertility [For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births] Q13a: Number of children currently living in the household _____ Q13b: Number of children not currently living in the household (living elsewhere) _____ Q13c: Number of children who died _____
V100	MA1982A_0413	Number of children living outside household	discrete	numeric	Life time fertility [For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births] Q13a: Number of children currently living in the household _____ Q13b: Number of children not currently living in the household (living elsewhere) _____ Q13c: Number of children who died _____
V101	MA1982A_0414	Number of children deceased	discrete	numeric	Life time fertility [For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births] Q13a: Number of children currently living in the household _____ Q13b: Number of children not currently living in the household (living elsewhere) _____ Q13c: Number of children who died _____
V102	MA1982A_0415	Number of children born in past 12 months, still alive	discrete	numeric	Life time fertility [For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births] Fertility in the past 12 months Q13d: Number of children still alive _____ Q13e: Number of children who died _____
V103	MA1982A_0416	Number of children born in past 12 months, who died	discrete	numeric	Life time fertility [For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births] Fertility in the past 12 months Q13d: Number of children still alive _____ Q13e: Number of children who died _____
V104	MA1982A_0417	Literacy	discrete	numeric	[Questions 14-17 are for persons age 10 or older] Q14: Literacy (knows to read and write) [] 0 None [] 1 Arabic only [] 2 Arabic and French only [] 3 Arabic, French and other languages [] 4 Arabic and languages other than French [] 5 Other languages, specify _____
V105	MA1982A_0418	Diploma / highest degree completed	discrete	numeric	[Questions 14-17 are for persons age 10 or older] Q15: Highest degree obtained Specify the highest degree obtained in school, university or vocational school _____
V106	MA1982A_0419	Last general education level completed	discrete	numeric	[Questions 14-17 are for persons age 10 or older] Q16: Level of education Highest grade completed in general education system _____ Examples: Kindergarten; Preschool (maternelle); Koranic school; Primary school, third grade (CE2); Secondary school, eight grade (4-me); Medical school, second year; etc.
V107	MA1982A_0420	Employment status	discrete	numeric	Q17: Activity status [] 0 AO -- Active, employed [] 1 CH -- Jobless, never worked [] 2 CH2 -- Jobless, has worked before [] 3 FF -- Housewife [] 4 EC -- Student, pupil [] 5 RET -- Retired, pensioned, or living on private means [] 6 MAL -- Disabled, handicapped, sick person [] 7 JEU -- Too young to work [] 8 AUT -- Other cases
V108	MA1982A_0421	Number of days worked since 7/23/82	discrete	numeric	During the period from the Aid el Fitr festival (July 23, 1982) to the reference date for the census: [For housewives and other inactive persons (other than pupils and students) age 15 or older] [Questions 18-19.] Q18: Have you worked during this period? [] Yes, specify the number of days worked and go to Q20 _ _ _ [] No, write "00" and go to Q19 _ _

ID	Name	Label	Type	Format	Question
V109	MA1982A_0422	Reason for not working	discrete	numeric	During the period from the Aid el Fitr festival (July 23, 1982) to the reference date for the census: [For housewives and other inactive persons (other than pupils and students) age 15 or older] [Questions 18-19.] Q19: Why have you not worked during this period? [] 1 No work available, looked desperately for work [] 2 Busy enough with house work [] 3 Spouse or family opposes it [] 4 Unable to work [] 5 Does not want to work [] 6 Other causes, specify _____
V110	MA1982A_0423	Occupation (2-digit)	discrete	numeric	Q20: Main occupation Ask this question for all active persons, employed or jobless (see detailed instructions), or inactive persons who answered Q18 who worked during the specified reference period. Example: bricklayer, plumber, cereal farmer, stockbreeder, etc. _____
V111	MA1982A_0424	Occupation (3-digit)	discrete	numeric	Q20: Main occupation Ask this question for all active persons, employed or jobless (see detailed instructions), or inactive persons who answered Q18 who worked during the specified reference period. Example: bricklayer, plumber, cereal farmer, stockbreeder, etc. _____
V112	MA1982A_0425	Industry (3-digit)	discrete	numeric	Q21: Branch of economic activity (main activity of the company or the business building where you work) Specify with precision the main activity of the company or the business building where you work, or where you have worked (for persons who answered Q20) _____ Example: shoe factory, wool trade, sheep breeding, etc.
V113	MA1982A_0426	Industry (2-digit)	discrete	numeric	Q21: Branch of economic activity (main activity of the company or the business building where you work) Specify with precision the main activity of the company or the business building where you work, or where you have worked (for persons who answered Q20) _____ Example: shoe factory, wool trade, sheep breeding, etc.
V114	MA1982A_0427	Work status	discrete	numeric	Q22: Employment status [] 1 Employer [] 2 Self-employed, with premises [] 3 Self-employed, at home [] 4 Self-employed, traveling or without premises [] 5 Salaried worker [] 6 Family aid worker [] 7 Apprentice
V115	PERWT	Person weight	contin	numeric	
V116	MIGYRS1	Years residing in current locality	discrete	numeric	
V117	YRSCHOOL	Years of schooling	discrete	numeric	
V118	EDATTAIN	Educational attainment, international recode [general version]	discrete	numeric	
V119	EDATTAIND	Educational attainment, international recode [detailed version]	discrete	numeric	
V120	BIRTHSLYR	Number of births last year	discrete	numeric	
V121	BIRTHSURV	Children surviving from births last year	discrete	numeric	
V122	HOMECHILD	Number of own children in household	discrete	numeric	
V123	AWAYCHILD	Number of own children living elsewhere	discrete	numeric	
V124	NATIVITY	Nativity status	discrete	numeric	
V125	YEARP	Year [person version]	contin	numeric	

ID	Name	Label	Type	Format	Question
V126	SAMPLEP	IPUMS sample identifier [person version]	contin	numeric	
V127	SERIAL	Household serial number [person version]	contin	numeric	
V128	COUNTRYP	Country [person version]	contin	numeric	
V129	RECTYPEP	Record type [person version]	discrete	character	

Record type (RECTYPE)

File: MAR1982-H-H

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 0
Invalid: 0

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Year (YEAR)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1960-2011

Valid cases: 0
Invalid: 0

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 32197001-894201001

Valid cases: 0
Invalid: 0

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g., 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Household serial number (SERIAL)

File: MAR1982-H-H

Household serial number (SERIAL)

File: MAR1982-H-H

Overview

Type: Continuous
Format: numeric
Width: 10
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
Colombia 1993, 2005
Costa Rica 1984, 2000
Cuba 2002
Dominican Republic 1981, 2002, 2010
Ecuador 1990, 2001
Germany 1971
Hungary 1980, 1990, 2001
Jamaica 1982, 1991, 2001
Malaysia 1970, 1991, 2000
Mexico 1995, 1990, 2000, 2005
Nigeria 2006
Panama 2000
Peru 1993, 2007
Portugal 1981, 1991, 2001
Spain 1991
Uruguay 2011
Venezuela 1990, 2001
Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Number of person records in the household (PERSONS)

File: MAR1982-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)

File: MAR1982-H-H

Subsample number (SUBSAMP)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Water supply (WATSUP)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

Number of rooms (ROOMS)

File: MAR1982-H-H

Overview

Number of rooms (ROOMS)

File: MAR1982-H-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

ROOMS indicates the number of rooms occupied by the housing unit.

Kitchen or cooking facilities (KITCHEN)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

Toilet (TOILET)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Wall or building material (WALL)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

This variable indicates the primary material used in the construction of the dwelling, particularly the dwelling's exterior walls.

Roof material (ROOF)

File: MAR1982-H-H

Roof material (ROOF)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the dwelling's predominant roofing material.

Number of families in household (NFAMS)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

Head's location in household (HEADLOC)

File: MAR1982-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

Bathing facilities (BATH)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

BATH indicates whether the household had access to bathing facilities and, in most cases, whether it had exclusive access.

Household classification (HHTYPE)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

HHTYPE is a constructed variable that describes the composition of households. HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Continent and region of country (REGIONW)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 11-54

Valid cases: 0
Invalid: 0

Description

REGIONW identifies the continent and region of each country.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 32002-894010

Valid cases: 0
Invalid: 0

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Number of unrelated persons (UNREL)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Dwelling number (MA1982A_0001)

File: MAR1982-H-H

Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable records the dwelling's occupancy status.

Universe

All households

Literal question

24. Mode of occupancy of the dwelling unit

- ☐ 1 Dwelling occupied by a household resident at time of the census
- ☐ 2 Dwelling occupied by a household temporarily absent at time of the census
- ☐ 3 Dwelling empty / vacant
- ☐ 4 Secondary or seasonal dwelling
- ☐ 5 Other

Interviewer instructions

Status of residence in dwelling: During the census reference date, residents of a dwelling could be present or temporarily absent. A dwelling could be under construction, empty, secondary or seasonal. The following are definitions of these cases.

☐ "Dwelling where residents are present during the census": is about every dwelling usually occupied by one or several households during the census reference date.

☐ "Dwelling where residents are temporarily absent": is about every dwelling usually occupied by one or several households, but absent during census reference date.

☐ "Secondary or seasonal dwelling": is every dwelling used as a secondary residence by the household that has a primary residence. In this category we find also dwellings owned by Moroccan residents abroad but occupied during vacations.

☐ "Empty dwelling": is a non-secondary or residential dwelling not occupied by any household during the census reference date. Only dwellings prepared for residence and not demolished are considered such. In addition, only certain types of dwellings are considered: villa, apartment, Moroccan modern house or Moroccan traditional house. Hence, rural houses and slums are not to be considered.

Dwelling type (MA1982A_0051)

File: MAR1982-H-H

Overview

File: MAR1982-H-H

25. Type of construction

[This question was asked of households in urban areas.]

- ☐ 1 Villa, or flat in a villa
- ☐ 2 Apartment, flat
- ☐ 3 Moroccan traditional house
- ☐ 4 Room in an institution
- ☐ 5 Construction not designed for housing
- ☐ 6 Other cases

Interviewer instructions

Types of dwellings

Villa or flat in a villa according to its normal definition is every building prepared for residence, separated from its architectural stand of point and not over two stories, usually having a garden. A villa could be used for other things than residence during the census period.

Apartment is within a building that is prepared for collective housing and made up of several standalone apartments. It could be used for residential or other purposes.

Moroccan traditional house is an individual building, with traditional architecture or those other than villas and apartments.

Room in an institution is a room or several rooms in an institution (hotel, school, factory, mosque) used for residence during the census period.

Construction not designed for housing is every location that was built for other purposes than residence but it is being used as residence during the census period.

Other cases about other types not mentioned above.

Material of the walls (MA1982A_0052)

File: MAR1982-H-H

Household weight (HHWT)

File: MAR1982-H-H

Overview

Type: Continuous

Format: numeric

Width: 8

Decimals: 2

Valid cases: 0

Invalid: 0

Description

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

2nd subnational geographic level, world [consistent boundaries over time] (GEOLEV2)

File: MAR1982-H-H

Overview

2nd subnational geographic level, world [consistent boundaries over time] (GEOLEV2)

File: MAR1982-H-H

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 32002001-88888888

Valid cases: 0
Invalid: 0

Description

GEOLEV2 indicates the second major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. Second administrative units in GEOLEV2 have been spatio-temporally harmonized to provide spatially consistent boundaries across samples in each country.

Morocco, Region 1982 - 2004 [Level 1; consistent boundaries, GIS] (GEO1_MA)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 504001-504016

Valid cases: 0
Invalid: 0

Description

GEO1A_MA identifies the household's region within Morocco in all sample years. Regions are the first level administrative units of the country. GEO1A_MA is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization. A GIS map (in shapefile format), corresponding to GEO1A_MA can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Morocco can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Morocco, Region 1982 [Level 1, GIS] (GEO1_MA1982)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 1-16

Valid cases: 0
Invalid: 0

Description

GEO1_MA1982 identifies the household's region within Morocco in 1982. Regions are the first level administrative units of the country. A GIS map (in shapefile format), corresponding to GEO1_MA1982 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Morocco can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Width: 6	
Decimals: 0	
Range: 1391-16571	

Description

GEO2_MA1982 identifies the household's province within Morocco in 1982. Provinces are the second level administrative units of the country, after regions. A GIS map (in shapefile format), corresponding to GEO2_MA1982 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Morocco can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Number of married couples in household (NCOUPLES)

File: MAR1982-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 32-894

Valid cases: 0
Invalid: 0

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

ELECTRIC indicates whether the household had access to electricity.

Ownership of dwelling [general version] (OWNERSHIP)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)

File: MAR1982-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Person number (PERNUM)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Mother's location in household (MOMLOC)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Father's location in household (POPLOC)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Spouse's location in household (SPLOC)

File: MAR1982-P-H

Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Rule for linking parent (PARRULE)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-52

Valid cases: 0
Invalid: 0

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Rule for linking spouse (SPRULE)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Probable stepmother (STEPMOM)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

- 0 = Biological mother or no mother of this person present in household.
- 1 = Mother has no children borne or surviving.
- 2 = Child reports mother is deceased.
- 3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
- 4 = Mother reports no children in the home.
- 5 = Age difference between mother and child was less than 12 or greater than 54 years.
- 6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Probable stepfather (STEPPOP)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-3

Valid cases: 0
Invalid: 0

Description

STEPPOP indicates whether a person's father, as identified by POPLOC, was most probably not the person's biological father. Non-zero values of STEPPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPPOP are as follows:

- 0 = Biological father or no father of this person present in household.
- 1 = Child reports father is deceased.
- 2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
- 3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPPOP will always under-represent their actual number in the population.

Family unit membership (FAMUNIT)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 0
Invalid: 0

Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)

File: MAR1982-P-H

Overview

Number of own children under age 5 in household (NCHLT5)

File: MAR1982-P-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Relationship to household head [general version] (RELATE)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

Relationship to household head [general version] (RELATE)

File: MAR1982-P-H

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)

File: MAR1982-P-H

Overview

Type: Discrete

Format: numeric

Width: 4

Decimals: 0

Range: 1000-9999

Valid cases: 0

Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Age (AGE)

File: MAR1982-P-H

Overview

Type: Discrete

Format: numeric

Width: 3

Decimals: 0

Range: 0-999

Valid cases: 0

Invalid: 0

Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Age, grouped into intervals (AGE2)

File: MAR1982-P-H

Overview

Type: Discrete

Format: numeric

Width: 2

Decimals: 0

Range: 1-98

Valid cases: 0

Invalid: 0

Description

AGE2 gives computed years of age grouped into intervals.

Sex (SEX)

File: MAR1982-P-H

Overview

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Sex (SEX)

File: MAR1982-P-H

Description

SEX reports the sex (gender) of the respondent.

Marital status [general version] (MARST)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARSTD describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Children ever born (CHBORN)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

CHBORN reports the number of children ever born to each woman of whom the question was asked. In most samples, women were to report all live births by all fathers, whether or not the child was still living.

Children surviving (CHSURV)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

CHSURV reports the number of children born to a woman who were still living at the time of the census.

Citizenship (CITIZEN)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

CITIZEN indicates the person's citizenship status within the country in which they were enumerated.

Country of citizenship (NATION)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 5
Decimals: 0
Range: 0-99999

Valid cases: 0
Invalid: 0

Description

NATION indicates the person's country of citizenship.

Status in employment (class of worker) [general version] (CLASSWK)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Status in employment (class of worker) [detailed version] (CLASSWKD)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Employment disability (DISEMP)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

DISEMP indicates if the respondent was economically inactive because of disabilities.

Literacy (LIT)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

Activity status (employment status) [general version] (EMPSTAT)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Activity status (employment status) [general version] (EMPSTAT)

File: MAR1982-P-H

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Educational attainment, Morocco (EDUCMA)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 100-998

Valid cases: 0
Invalid: 0

Description

EDUCMA indicates the person's educational attainment in terms of the level of schooling completed.

Occupation, ISCO general (OCCISCO)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

Occupation, ISCO general (OCCISCO)

File: MAR1982-P-H

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

Occupation, unrecoded (OCC)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0

Valid cases: 0
Invalid: 0

Description

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Industry, general recode (INDGEN)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

Industry, unrecoded (IND)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

Number of children dead (CHDEAD)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

CHDEAD reports how many of the children ever born to a woman were no longer living at the time of the census. Women were to consider all live births by all fathers; they were to exclude still births.

Man with more than one wife linked (POLYMAL)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Woman is second or higher order wife (POLY2ND)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Literal question

Q03: Relationship to the head of household

- ☐ 1 Head of household
- ☐ 2 Spouse of the household head
- ☐ 3 Child (son or daughter)
- ☐ 4 Parent (father or mother)
- ☐ 5 In-law children (son or daughter in-law)
- ☐ 6 Other relative
- ☐ 7 Not related by blood

Interviewer instructions

3. Relationship to household head:

- ☐ 1 Household head
- ☐ 2 His wife
- ☐ 3 Son or daughter
- ☐ 4 Father or mother
- ☐ 5 Son-in-law or daughter-in-law
- ☐ 6 Other relative to determine
- ☐ 7 No relationship

Absent status (MA1982A_0401)

File: MAR1982-P-H

All persons

Literal question

Q04: Residence status

☐ 1 R.P. -- Resident present☐ 2 R.T.A. -- Resident temporarily absent**Interviewer instructions**

Residence: resident is anyone living in a place or planning to live in it for at least 6 months. In the census context:

☐ "Present resident" is anyone present at his usual place of residence during the census reference date.☐ "Resident temporarily absent" is anyone absent from his usual residence for a period of fewer than 6 months.☐ "Transit individual" is anyone living in a place different than his usual residence for a period fewer than 6 months. Transit individuals, whether living in hotels or ordinary households, are not counted towards the legal population.

4. Status of residence:

☐ 1 "Resident present" is anyone present at his usual place of residence during the census reference date☐ 2 "Resident temporarily absent" is anyone absent from his usual resident for a period shorter than 6 months.

Sex (MA1982A_0402)

Range: 0-98

Valid cases: 0
Invalid: 0

Description

This variable records the age of the respondent (in years).

Universe

All persons

Literal question

Q06: Date of birth or age

(Specify the date of birth or the age, depending on declaration)

- Date of birth:

(Example: a persons declares being born on February 4, 1967, write down 4 February 1967, in write in the appropriate boxes: 0 2 / 1 9 6 7

MM in months __

YYYY in years ____

- Age:

(Example: a persons declares being 47 years of age, write down 47 boxes: 4 7

(For children younger that 1 year of age, write "00")

--

Interviewer instructions

6. Date of birth or age

Show clearly date of birth or age according to declaration.

a. Date of birth example: Declared 9 July 1953, write "07" "1953"

b. Age in years example: Declared [to be] 48 years old. Put "48".

For [persons] younger than 1 year, write "00".

Marital status (MA1982A_0405)

File: MAR1982-P-H

Overview

All persons

Literal question

Q08: Nationality

- ☐ 01 Moroccan
- ☐ 02 Algerian
- ☐ 03 Tunisian
- ☐ 40 French
- ☐ 41 Spanish

Other nationality: specify, without coding _____

Interviewer instructions

8. Nationality:

- ☐ 01 Moroccan
- ☐ 02 Algerian
- ☐ 03 Tunisian
- ☐ 40 French
- ☐ 41 Spanish, other nationality mention but do not code. Coding [will be] applied at later stage of questionnaire processing.

Years at current residence (commune) (MA1982A_0410)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Years at current residence (commune) (MA1982A_0410)

File: MAR1982-P-H

Description

This variable records the number of years spent at the current residence by the respondent.

Universe

All persons

Literal question

Q11: Duration of residence

Specify the duration of residence in the place where the person currently lives.

For persons who never moved from the place where they are enumerated, write "MRA = same as actual residence".

Interviewer instructions

11. Length of residence

Remember the length of the residence in the town or village where the person lives. For people who never changed their town or village of residence, write "MRA".

Number of children living in household (MA1982A_0412)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable records the respondent's number of children who are living in the household.

Universe

Ever-married women age 50 or younger

Literal question

Life time fertility

[For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births]

Q13a: Number of children currently living in the household _____

Q13b: Number of children not currently living in the household (living elsewhere) _____

Q13c: Number of children who died _____

Interviewer instructions

13. For married, widowed, divorced women age 50 or younger, write the total of children born alive (male and female)

During the life span of the mentioned women:

- Who live currently within the household
- Who do not live currently within the household, but lives in Morocco
- Who died

During the last 12 months, write the total of children for women younger than 51:

- Who are still alive
- Who died

Number of children living outside household (MA1982A_0413)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable records the respondent's number of children living elsewhere (outside the household).

Universe

Ever-married women age 50 or younger

Literal question

Life time fertility

[For women who are married, widowed or divorced and age 50 or younger, specify the total number of live births]

Q13a: Number of children currently living in the household _____

Q13b: Number of children not currently living in the household (living elsewhere) _____

Q13c: Number of children who died _____

Interviewer instructions

13. For married, widowed, divorced women age 50 or younger, write the total of children born alive (male and female)

During the life span of the mentioned women:

- Who live currently within the household
- Who do not live currently within the household, but lives in Morocco
- Who died

During the last 12 months, write the total of children for women younger than 51:

- Who are still alive
- Who died

Number of children deceased (MA1982A_0414)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable records the respondent's number of children that are now deceased.

Universe

Ever-married women age 50 or younger

Literal question

Number of children deceased (MA1982A_0414)

[Questions 14-17 are for persons age 10 or older]

Q14: Literacy (knows to read and write)

- ☐ 0 None
- ☐ 1 Arabic only
- ☐ 2 Arabic and French only
- ☐ 3 Arabic, French and other languages
- ☐ 4 Arabic and languages other than French
- ☐ 5 Other languages, specify _____

Interviewer instructions

For persons age 10 or older

14. Read and write:

- ☐ 0 None
- ☐ 1 Only Arabic
- ☐ 2 Arabic and French alone
- ☐ 3 Arabic, French and other languages to be mentioned
- ☐ 4 Arabic and other languages excluding French
- ☐ 5 Other cases to be mentioned

Diploma / highest degree completed (MA1982A_0418)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable records the diploma or highest degree completed by the respondent. It deals with particular named degrees and diplomas, and does not necessarily reflect the respondent's level of general schooling.

Universe

Persons age 10+

Literal question

Diploma / highest degree completed (MA1982A_0418)

File: MAR1982-P-H

[Questions 14-17 are for persons age 10 or older]

Q15: Highest degree obtained

Specify the highest degree obtained in school, university or vocational school

Interviewer instructions

For persons age 10 or older

15. Highest educational degree:

☐ Primary

☐ Secondary

☐ Tertiary or professional

Last general education level completed (MA1982A_0419)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-98

Valid cases: 0
Invalid: 0

Description

This variable records the last year of general education completed by the respondent.

Universe

All persons

Literal question

[Questions 14-17 are for persons age 10 or older]

Q16: Level of education

Highest grade completed in general education system

Examples: Kindergarten; Preschool (maternelle); Koranic school; Primary school, third grade (CE2); Secondary school, eight grade (4-me); Medical school, second year; etc.

Interviewer instructions

For persons age 10 or older

16. Last educational level attained in public school:

Employment status (MA1982A_0420)

Employment status (MA1982A_0420)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

This variable records the respondent's employment status.

Universe

All persons

Literal question

Q17: Activity status

- ☐ 0 AO -- Active, employed
- ☐ 1 CH -- Jobless, never worked
- ☐ 2 CH2 -- Jobless, has worked before
- ☐ 3 FF -- Housewife
- ☐ 4 EC -- Student, pupil
- ☐ 5 RET -- Retired, pensioned, or living on private means
- ☐ 6 MAL -- Disabled, handicapped, sick person
- ☐ 7 JEU -- Too young to work
- ☐ 8 AUT -- Other cases

Interviewer instructions

17. Activity type:

"Actively employed": Considered actively employed are every person, man or woman, age 7 or older who declared at the census reference date that he/she has a professional activity. According to this definition, individuals who have certain jobs (farmers, individuals with periodical jobs), even if they were not practicing their activity during the census period, are considered to be actively employed. Include also individuals with a job but [who were] absent from their job during the census period because of annual leave, sickness, accident.

"Unemployed, never worked before": Active unemployed is anyone no younger than 15 years old, and declared that he/she has no job at the census reference date, but is looking for it. These individuals have worked in the past.

"Unemployed, has worked in the past": Active unemployed is anyone no younger than 15 years old, and declared that he/she has no job at the census reference date, but is looking for it. These individuals never worked before.

"Housewife": Every girl or woman age 15 or older who does not practice any work but takes care of the house and household members (cleaning, cooking). Not all women are to be automatically classified in this category. The enumerator should separate housewives and women that do some activities (weaving, agriculture, servant) for money or in-kind value. These women should be classified in the former categories according to the status during the census.

"Student": Every individual whose primary activity is limited to going to school or a professional training establishment during the 2003-2004 school year, also if he was not planning to attend next year. But the student who finished his schooling is considered active: occupied or unemployed depending on his situation. If a student has a part-time job, even it was paid, he is still considered to be a student. In addition, a student civil servant is considered a student even if receiving salary. However, an employee who is taking night classes or education to improve his skills is considered as actively employed.

"Landlord or retired": He/she is not active. His earnings are from renting out properties (apartment, farmland) or his earnings are from retirement plans from private or government establishments. But, if this person is practicing economical activities, then he/she should be considered actively employed.

"Sick or handicapped" is every person whose handicap/illness prevents him from doing any job.

"Child" [Too young to work]: Age 15 or younger, does not work and is not in school.

"Other cases"

Number of days worked since 7/23/82 (MA1982A_0421)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable records the number of days worked by the respondent since the Eid-al-Fitr festival (on 7/23/1982, 41 days prior to the census date), for those persons age 15+ who are neither students nor economically active.

Universe

Persons age 15+ who are neither economically active nor students

Literal question

During the period from the Aid el Fitr festival (July 23, 1982) to the reference date for the census:
[For housewives and other inactive persons (other than pupils and students) age 15 or older]
[Questions 18-19.]

Q18: Have you worked during this period?

☐ Yes, specify the number of days worked and go to Q20 _ _ _

☐ No, write "00" and go to Q19 _ _

Reason for not working (MA1982A_0422)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable records the respondent's reasons for not working.

Universe

Persons age 15+ who are neither economically active nor students and did not work at all during the reference period

Literal question

During the period from the Aid el Fitr festival (July 23, 1982) to the reference date for the census:
[For housewives and other inactive persons (other than pupils and students) age 15 or older]
[Questions 18-19.]

Q19: Why have you not worked during this period?

☐ 1 No work available, looked desperately for work

☐ 2 Busy enough with house work

☐ 3 Spouse or family opposes it

☐ 4 Unable to work

☐ 5 Does not want to work

☐ 6 Other causes, specify _____

Occupation (2-digit) (MA1982A_0423)

File: MAR1982-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 1-999

Valid cases: 0
 Invalid: 0

Description

This variable records the respondent's occupation (in 2-digit format).

Universe

Economically active persons or those who worked at all during the reference period

Literal question

Q20: Main occupation

Ask this question for all active persons, employed or jobless (see detailed instructions), or inactive persons who answered Q18 who worked during the specified reference period.

Example: bricklayer, plumber, cereal farmer, stockbreeder, etc.

Occupation (3-digit) (MA1982A_0424)

Example: shoe factory, wool trade, sheep breeding, etc.

Work status (MA1982A_0427)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable records the employment status of the respondent.

Universe

Economically active persons or those who worked at all during the reference period

Literal question

Work status (MA1982A_0427)

File: MAR1982-P-H

Q22: Employment status

- ☐ 1 Employer
- ☐ 2 Self-employed, with premises
- ☐ 3 Self-employed, at home
- ☐ 4 Self-employed, traveling or without premises
- ☐ 5 Salaried worker
- ☐ 6 Family aid worker
- ☐ 7 Apprentice

Interviewer instructions

22. Status in primary profession:

- ☐ 1 "Employer": employs at least one salaried worker.
- ☐ 2 "Independent with premises": works for his own and does not employ any salaried persons, although he/she may seek familial aid. This individual works at a specific premise other than his own home. This definition may be difficult to apply for self-employed farmers. We consider each farmer working on his own land within this category.
- ☐ 3 "Independent, work from his home": works for his own and does not employ any salaried persons on a permanent basis, although he/she may seek familial aid or apprentices. This individual works at his own home.
- ☐ 4 "Independent, travelling or without premises": works for his own and does not employ any salaried persons, although he/she may seek familial aid. This individual does not have specific [working] premises.
- ☐ 5 "Salaried employee": works for a salary, in-kind or both. This individual works for the public sector, such as government, local communities, external services of ministries, or for the private sector.
- ☐ 6 "Family appointed [worker]": works for his family members with no salary and lives with them.
- ☐ 7 "Trainee [apprentice]": works for an employer or self-employed in order to learn some skills. He/she may receive some salary.

Person weight (PERWT)

File: MAR1982-P-H

Overview

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Years residing in current locality (MIGYRS1)

File: MAR1982-P-H

Overview

Years residing in current locality (MIGYRS1)

File: MAR1982-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

MIGYRS1 indicates how many years the person has resided in their current locality of residence.

Years of schooling (YRSCHOOL)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YRSCHOOL indicates the highest grade/level of schooling the person had completed, in years. Only formal schooling is counted. YRSCHOOL accounts for the number of years of study, regardless of the track or kind of study. Information on degree and/or technical track is available in EDATTAIN. Years of schooling for Israel, categorized into intervals, are given in YRSCHOOL2.

Users should pay close attention to the top-codes in each sample, as discussed in the comparability section.

Educational attainment, international recode [general version] (EDATTAIN)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIN)

File: MAR1982-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
