Section in medium (German paper)	2	14 (to be deleted, refers to a
Agency source	134	48 = NGO
	18	73 = I-Net
	47	76 = CNS
	92	77 = Inet Bridge
Main theme/topic of article	1	39 (bad code)
Area of focus	2	207.10 = Dublin
	4	401.20 = Los Angeles
	1	602.10 = Baghdad
	857	827.32 = Soweto
	5	827.33 = Robben Island
	10	827.36 = Alexandria (Joburg)
	75	827.37 = Sandton
	31	898.00 = SADC
	16	998 = worldwide
	1	4057.00 = Washington, D.C.

Level of organisation (national party, regional) – runs from values 1 through to 99. What are the labels for these values?

We use that to track certain events or if statements are related to individuals or groups. These are the codes:

- 1 individual**
- 2 US: implied**
- 9 Candidate family member**
- 11 party in general, national organisation**
- 14 Campaign in general, manager, spokesman**
- 12 party in parliament/US: House**
- 13 US: Senate**
- 19 US: Congress in general**
- 21 state party**
- 22 party in state parliament**
- 28 Management Committee (South Africa)**
- 29 other group/section of the party**
- 39 members of the party in general**
- 99 single member of a party**
- Special coding for SA government**
- 81 Imbizo (SA government coding)**

- 82 Letsema (SA government coding)
- 83 State of the Nation (SA government coding)
- 84 Budget speech (SA government coding)
- 85 Cricket World Cup (SA government coding)
- 86 AU (SA government coding)
- 87 Nepad (SA government coding)
- 88 Growth and Development Summit (SA government)
- 89 10 year democracy (SA Government)

Variable	Number of cases	Undefined Value Captured
----------	-----------------	--------------------------

I am not sure what this refers to, I assume that cases and values should be switched around.

Country of origin of source – runs from values 0 through to 8279. What are the labels for these values?

As per the country reference in the how-to-list.

Statement topic – I've copied the output table across, please see undefined values.

I think there is a problem with the query, we would have to re-work that tomorrow in Cape Town.

Possible notes made by analysts – how does one interpret this?

If a general code had to be selected, analysts were required to make a note of what it was about. Not all of them always do...

Alternative newsmaker (subdivision of some newsmakers)

I will have to explain that tomorrow.

Subdivision of some sources making statements

I will also have to explain that

What are the labels for the values in these variables?

Dito.
