I. Objectives

This survey was designed to achieve the following objectives:

- Assist the World Bank in gaining a better understanding of how stakeholders in Angola perceive the Bank;
- Obtain systematic feedback from stakeholders in Angola regarding:
 - Their views regarding the general environment in Angola;
 - Their overall attitudes toward the World Bank in Angola;
 - Overall impressions of the World Bank's effectiveness and results, knowledge and research, and communication and information sharing in Angola; and
 - Perceptions of the World Bank's future role in Angola.
- Use data to help inform the Angola country team's strategy.

II. Methodology

In March-June 2012, 584 stakeholders of the World Bank in Angola were invited to provide their opinions on the Bank's assistance to the country by participating in a country survey. Participants in the survey were drawn from among the office of the President; the office of the Prime Minister; the office of a Minister; the office of a Parliamentarian; employees of a ministry, ministerial department, or implementation agency; consultants/contractors working on World Bank-supported projects/programs; project management units (PMUs) overseeing implementation of a project; local government officials or staff; bilateral and multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs; community-based organizations (CBOs); the media; independent government institutions; trade unions; faith-based groups; academia/research institutes/think tanks; and the judiciary branch. A total of 119 stakeholders participated in the country survey (20%).

Respondents received questionnaires via courier, post or email and returned them accordingly. Respondents were asked about: general issues facing Angola; their overall attitudes toward the Bank; the World Bank's effectiveness and results; the Bank's knowledge; working with the World Bank; the Bank's future role in Angola; and the Bank's communication and information sharing in Angola.

Every country that engages in the Country Survey must include specific indicator questions that will be aggregated for the World Bank's annual Corporate Scorecard. These questions are identified throughout the survey report.

- A. General Issues facing Angola: Respondents were asked to indicate whether Angola is headed in the right direction, what they thought were the top three most important development priorities, and which areas would contribute most to reducing poverty and generating economic growth in Angola.

II. Methodology (continued)

- B. Overall Attitudes toward the World Bank: Respondents were asked to rate their familiarity with the World Bank, the Bank's effectiveness in Angola, the extent to which the Bank meets Angola's needs for knowledge services and financial instruments, and the extent to which the Bank should seek or does seek to influence the global development agenda. Respondents were also asked to rate their agreement with various statements regarding the Bank's work and the extent to which the Bank is an effective development partner. Furthermore, respondents were asked to indicate the sectoral areas on which it would be most productive for the Bank to focus its resources, the Bank's greatest values and greatest weaknesses in its work, the most and least effective instruments in helping to reduce poverty in Angola, with which groups the Bank should collaborate more, and to what reasons respondents attributed failed or slow reform efforts.
- C. World Bank Effectiveness and Results: Respondents were asked to rate the extent to which the Bank's work helps achieve sustainable development results in Angola, and the Bank's level of effectiveness across thirty-five development areas, such as economic growth, public sector governance, basic infrastructure, social protection, and others.
- D. The World Bank's Knowledge: Respondents were asked to indicate the areas on which the Bank should focus its research efforts, and to rate the effectiveness and quality of the Bank's knowledge/research, including how significant of a contribution it makes to development results, its technical quality, and the Bank's effectiveness at providing linkage to non-Bank expertise.
- E. Working with the World Bank: Respondents were asked to rate their level of agreement with a series of statements regarding working with the Bank, such as the World Bank's "Safeguard Policy" requirements being reasonable, the Bank imposing reasonable conditions on its lending, disbursing funds promptly, and increasing Angola's institutional capacity.
- F. The Future Role of the World Bank in Angola: Respondents were asked to rate how significant a role the Bank should play in Angola's development in the near future, and to indicate what the Bank should do to make itself of greater value in Angola.
- G. Communication and Information Sharing: Respondents were asked to indicate where they get information about economic and social development issues, how they prefer to receive information from the Bank, their access to the Internet, and their usage and evaluation of the Bank's websites. Respondents were asked about their awareness of the Bank's Access to Information policy, past information requests from the Bank, and their level of agreement that they use more data from the World Bank as a result of the Bank's Open Data policy. Respondents were also asked to indicate their level of agreement that they know how to find information from the Bank and that the Bank is responsive to information requests.
- H. Background Information: Respondents were asked to indicate their current position, specialization, whether they professionally collaborate with the World Bank, their exposure to the Bank in Angola, and their geographic location.

When possible, responses from respondents completing this year's country survey were compared to responses from the 103 respondents (22% response rate) who completed the country survey in FY 2009. Notations and/or charts are included when these comparisons were possible.

III. Demographics of the Sample

Current Position

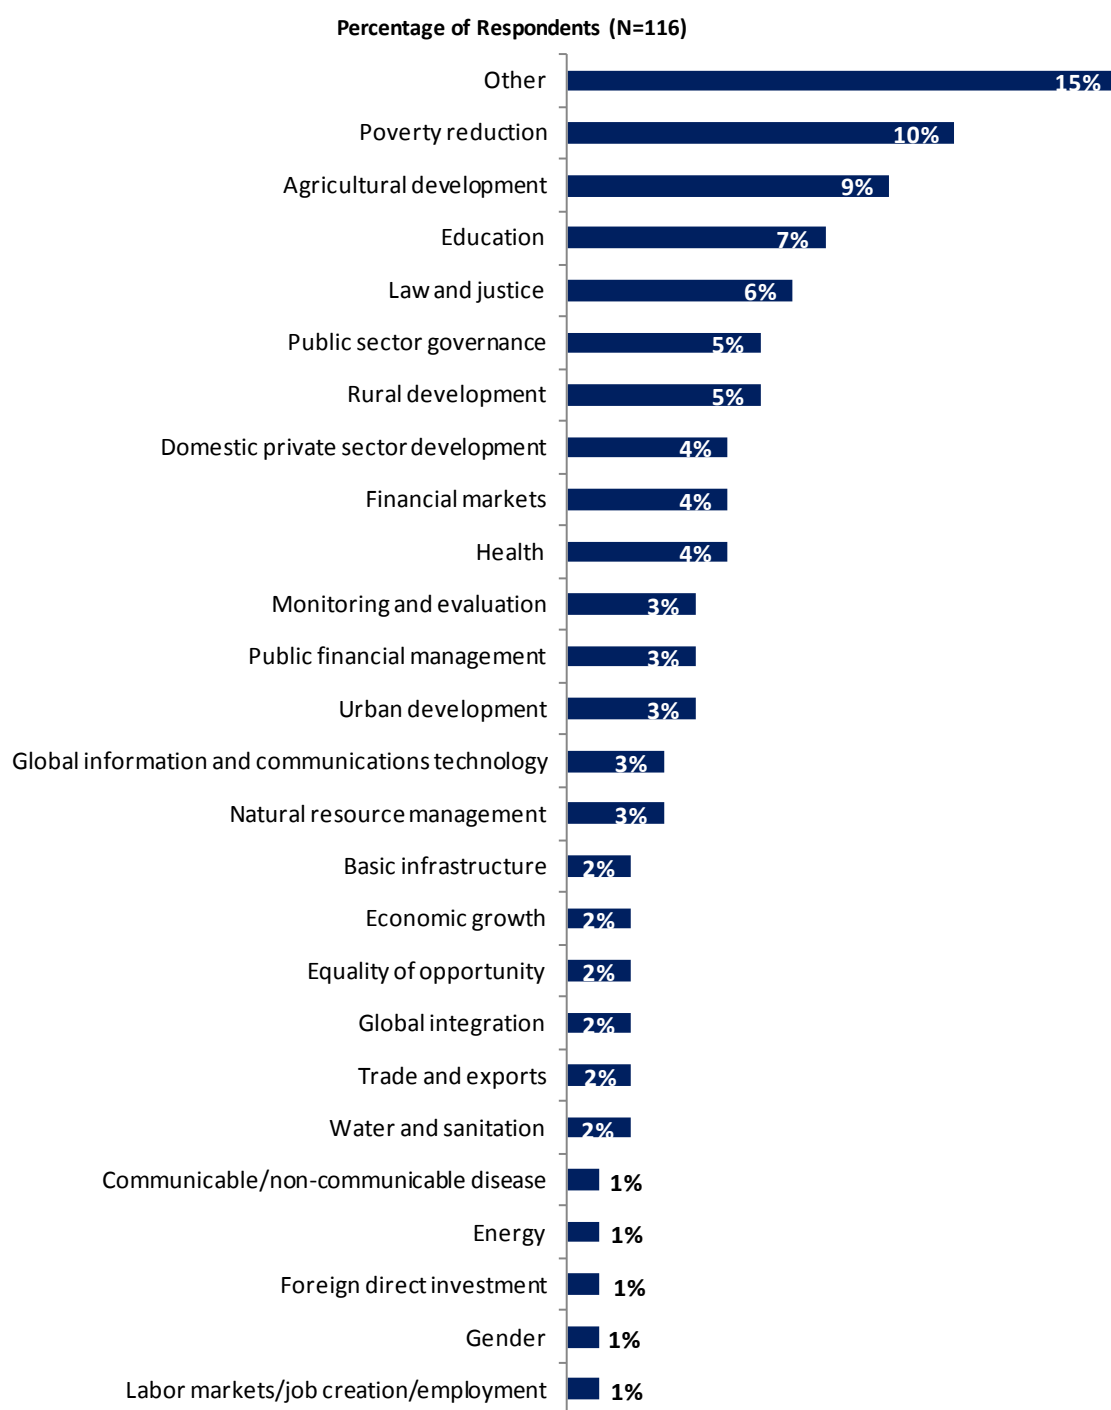

- For further analyses, the small number of respondents from the office of the President and the office of the Prime Minister were combined with respondents from the office of Minister; respondents from multilateral agencies were combined with those from bilateral agencies; respondents from the financial sector and private banks were combined with those from private sector organizations; and the few respondents from the office of Parliamentarian, local government, independent government institutions, and the judiciary branch were included in the “Other” category. Note that respondents from NGOs, community based organizations, private foundations, and faith-based groups were combined under the “CSO” category. There were no respondents from PMUs and trade unions.

“Which of the following best describes your current position?” (Respondents chose from a list.)

III. Demographics of the Sample (continued)

Area of Primary Specialization

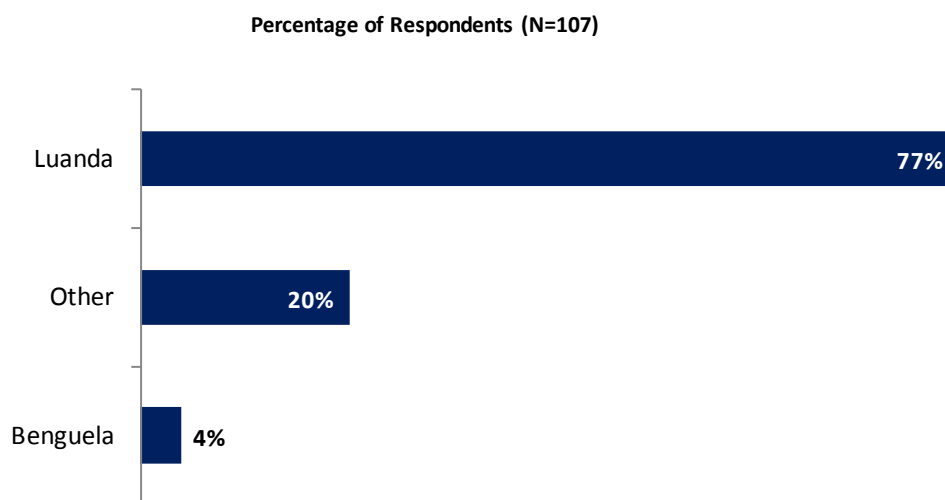

"Please identify the primary specialization of your work." (Respondents chose from a list.)

III. Demographics of the Sample (continued)

Geographic Location

- The vast majority of respondents indicated that they were located in Luanda. Because of the small number of respondents from Benguela, they were included in the “Other” category for all further analyses. Note that there were no respondents from Huambo.
- Responses across both geographic locations for all country survey questions can be found in the Appendix C (see page 79). Only significant differences between geographic locations in response to indicator questions will be discussed in the body of this report.

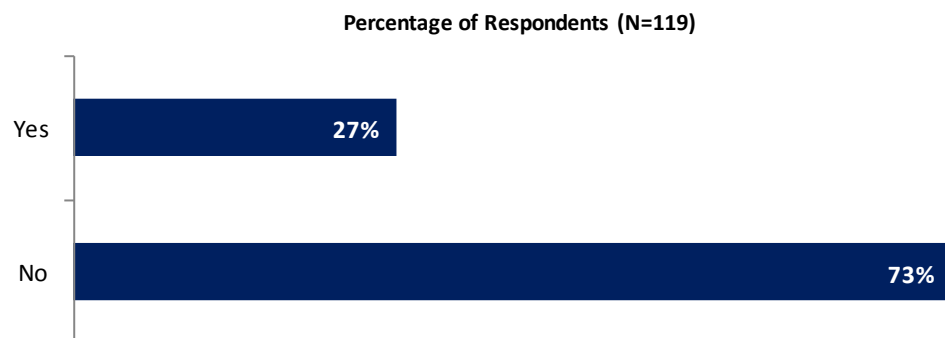

“Which best represents your geographic location?” (Respondents chose from a list.)

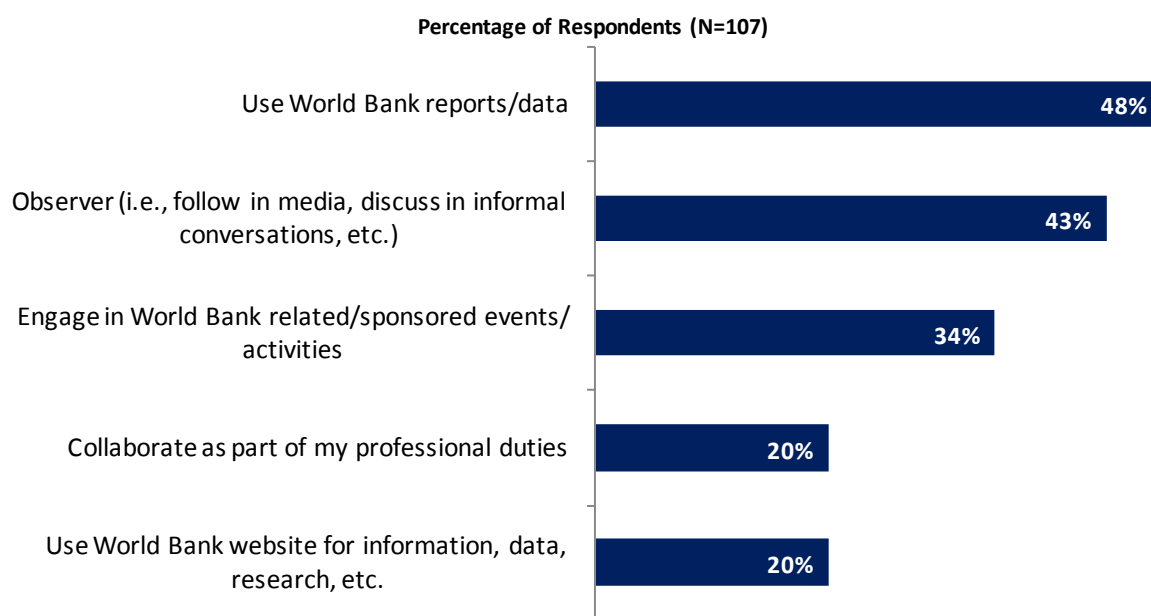

III. Demographics of the Sample (continued)

Collaboration with and Exposure to the World Bank

- Differences in responses to the indicator questions, based on levels of collaboration and exposure to the World Bank in Angola, can be found in the Appendix E (see page 100). Please note that where these two factors appear to have a significant relationship with overall views of the Bank, it is highlighted in yellow in that table.

"Currently, do you professionally collaborate/work with the World Bank in your country?"

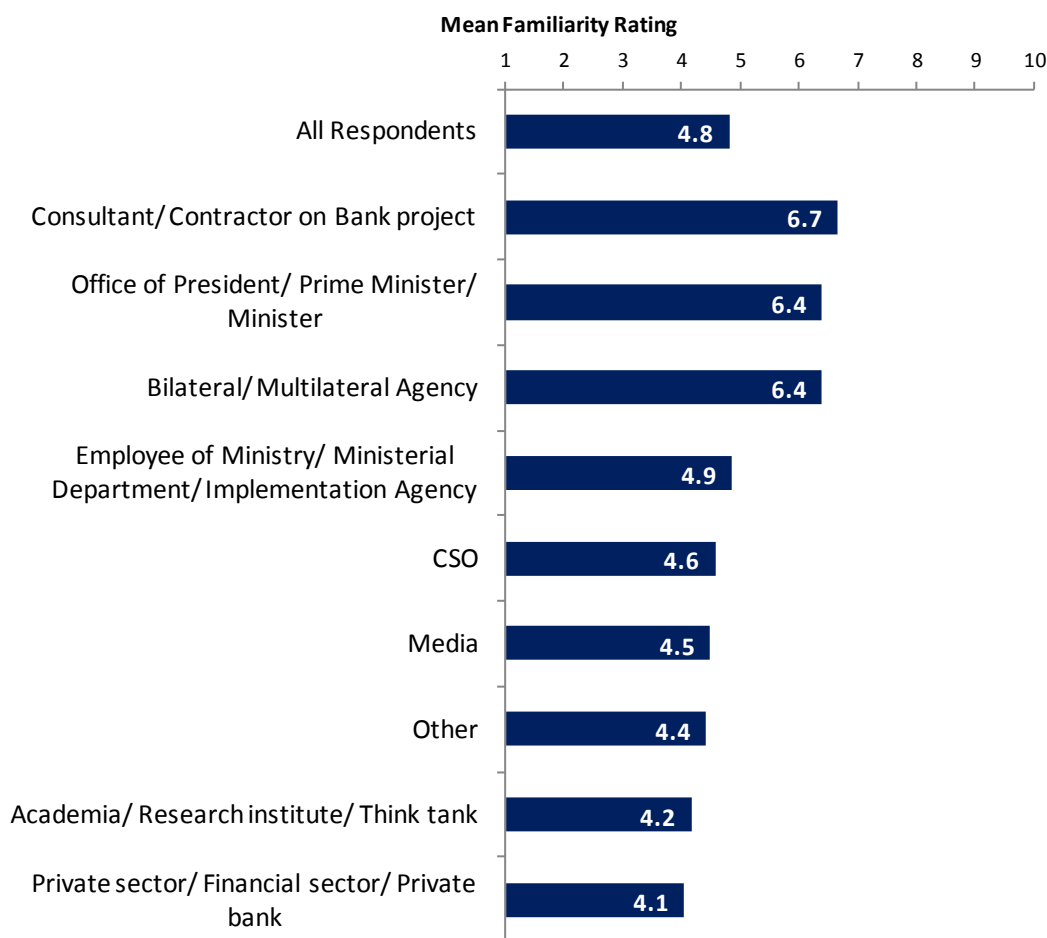

"Which of the following describes most of your exposure to the World Bank in Angola? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

III. Demographics of the Sample (continued)

Familiarity with the World Bank

- Across all respondents, familiarity with the World Bank received a mean rating of 4.8; this was statistically similar to the mean ratings received in the FY '09 country survey (4.8).
- It should be noted that respondents' ratings of familiarity with the Bank were significantly, strongly correlated with their perceptions of the Bank's overall effectiveness in Angola and the Bank's ability to help achieve sustainable development results; respondents' ratings of familiarity with the Bank were also significantly, moderately correlated with their perceptions of the Bank's relevance to Angola's development.

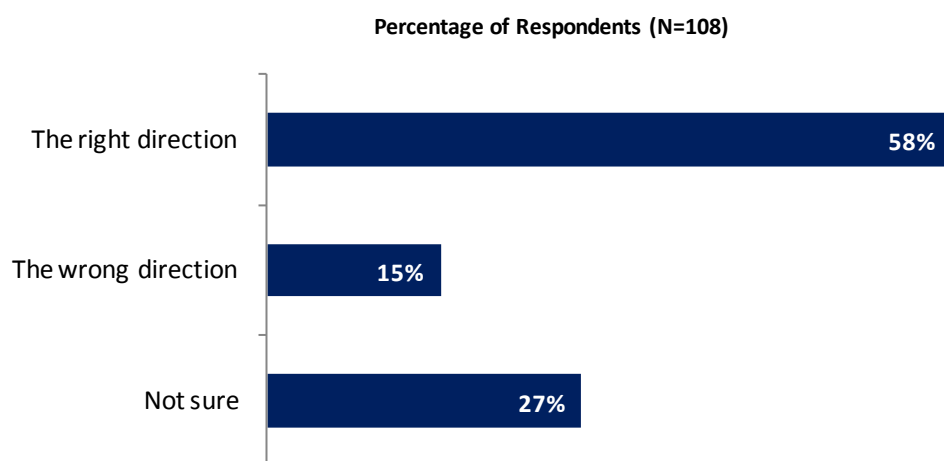

"How familiar are you with the work of the World Bank in Angola on a ten-point scale?"
 (1 - "Not familiar at all", 10 - "Extremely familiar")

IV. General Issues Facing Angola

Headed in the Right Direction

- A majority of respondents from the office of the President/Prime Minister/Minister and employees of ministries/ministerial departments/implementation agencies indicated that Angola was headed in the right direction. Respondents from CSOs, the media, and private sector organizations/financial sector/private banks were more likely to indicate that Angola was headed in the wrong direction. Consultants/contractors on Bank supported projects and respondents from academia/research institutes/think tanks tended to indicate that they were not sure whether Angola was headed in the right or wrong direction.

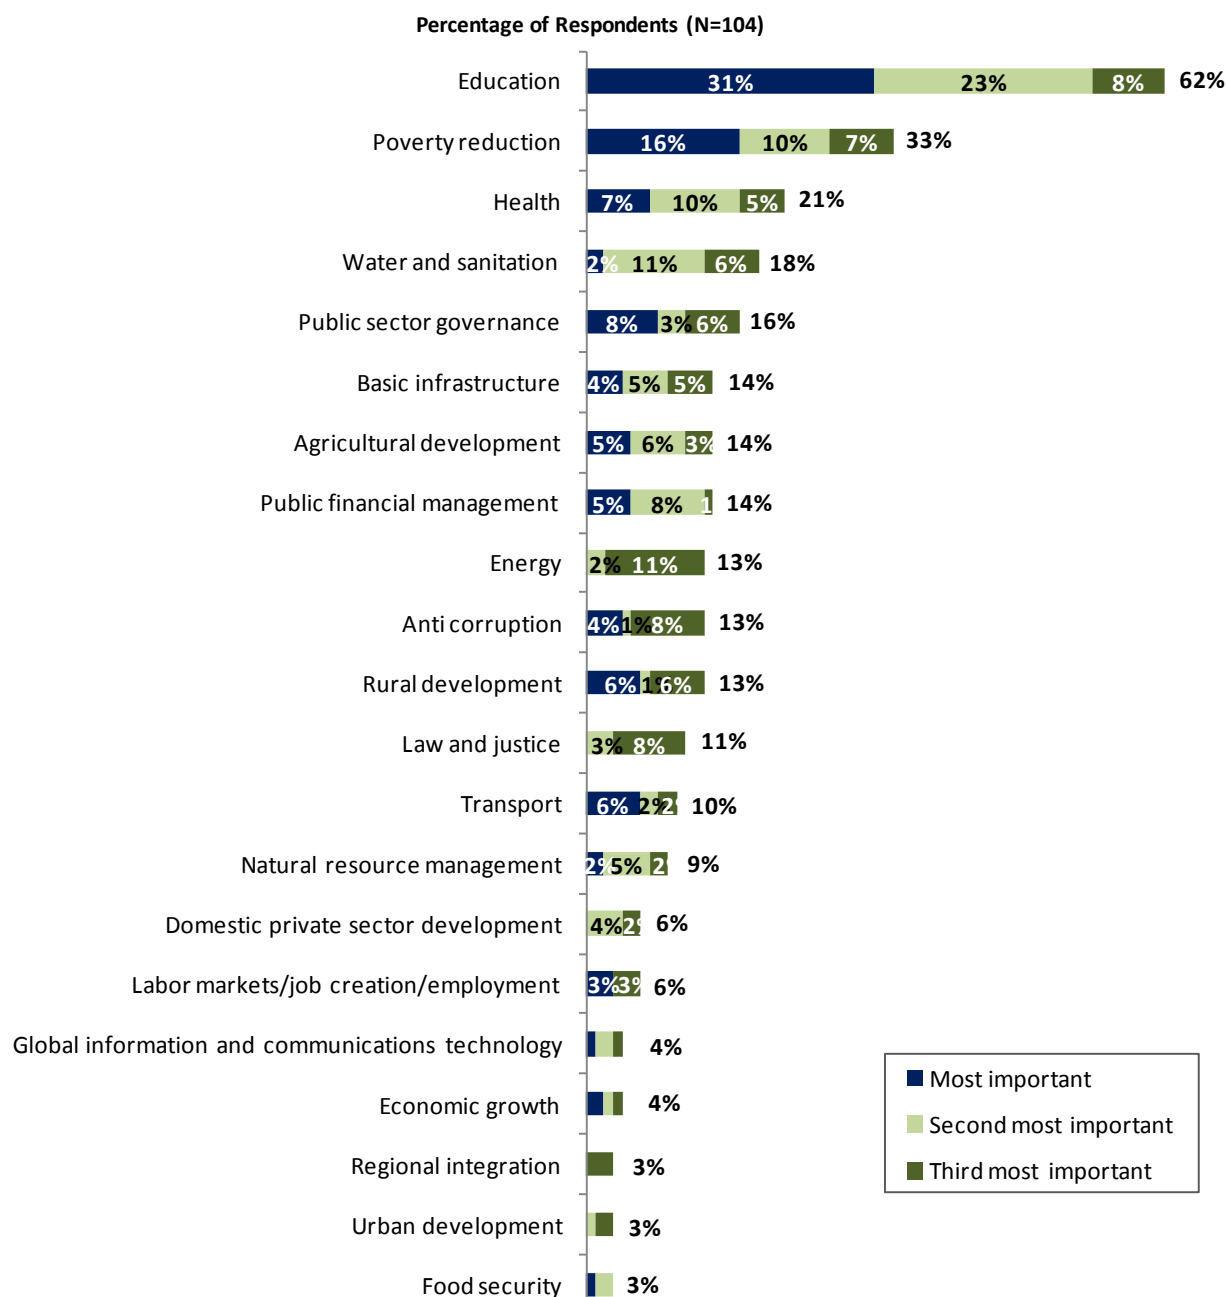

"In general would you say that Angola is headed in ... ?" (Respondents chose from a list.)

IV. General Issues Facing Angola (continued)

Development Priority

- Respondents in the FY '09 country survey* indicated that government effectiveness/governance (36%) and reducing corruption (33%) were the most important development priorities for Angola.

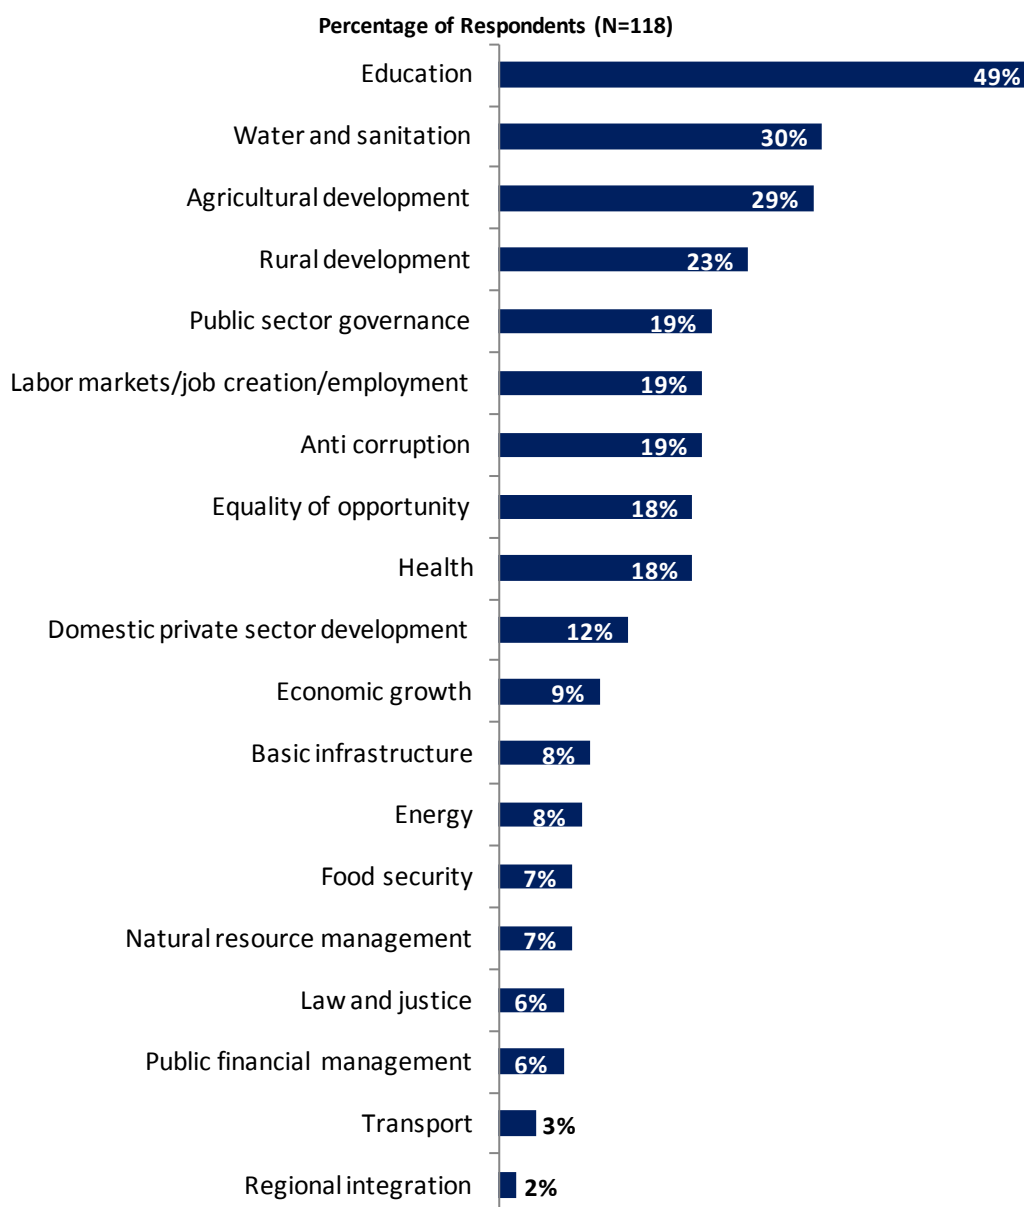

Listed below are a number of development priorities in Angola. Please identify which of these you consider the 1st, 2nd, and 3d most important development priority. (Respondents chose from a list.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

IV. General Issues Facing Angola (continued)

What Would Contribute Most to Reducing Poverty

- Respondents in the FY '09 country survey* indicated that agriculture development (49%) and education (35%) would contribute most to poverty reduction in Angola.

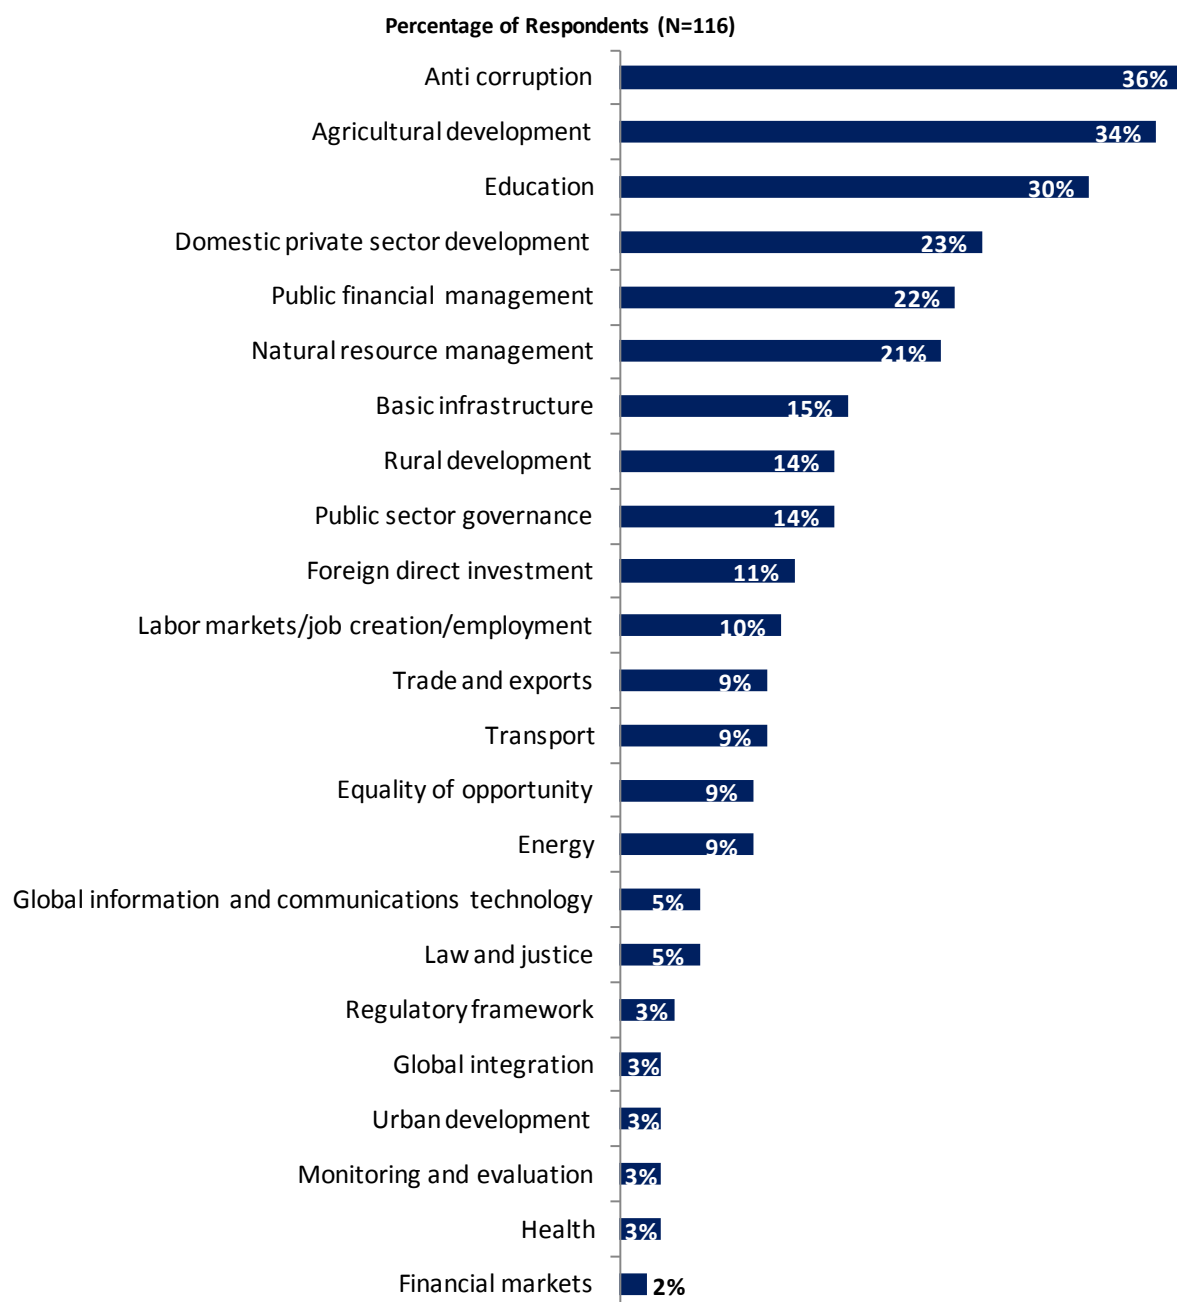

"Poverty reduction is a broad term that encompasses work in many different areas. Which THREE areas of development listed below do you believe would contribute most to reducing poverty in Angola? (Choose no more than THREE)" (Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

IV. General Issues Facing Angola (continued)

What Would Contribute Most to Generating Economic Growth

- Respondents in the FY '09 country survey* indicated that increasing agricultural productivity (53%) and diversifying economy (37%) would contribute most to generating economic growth in Angola.

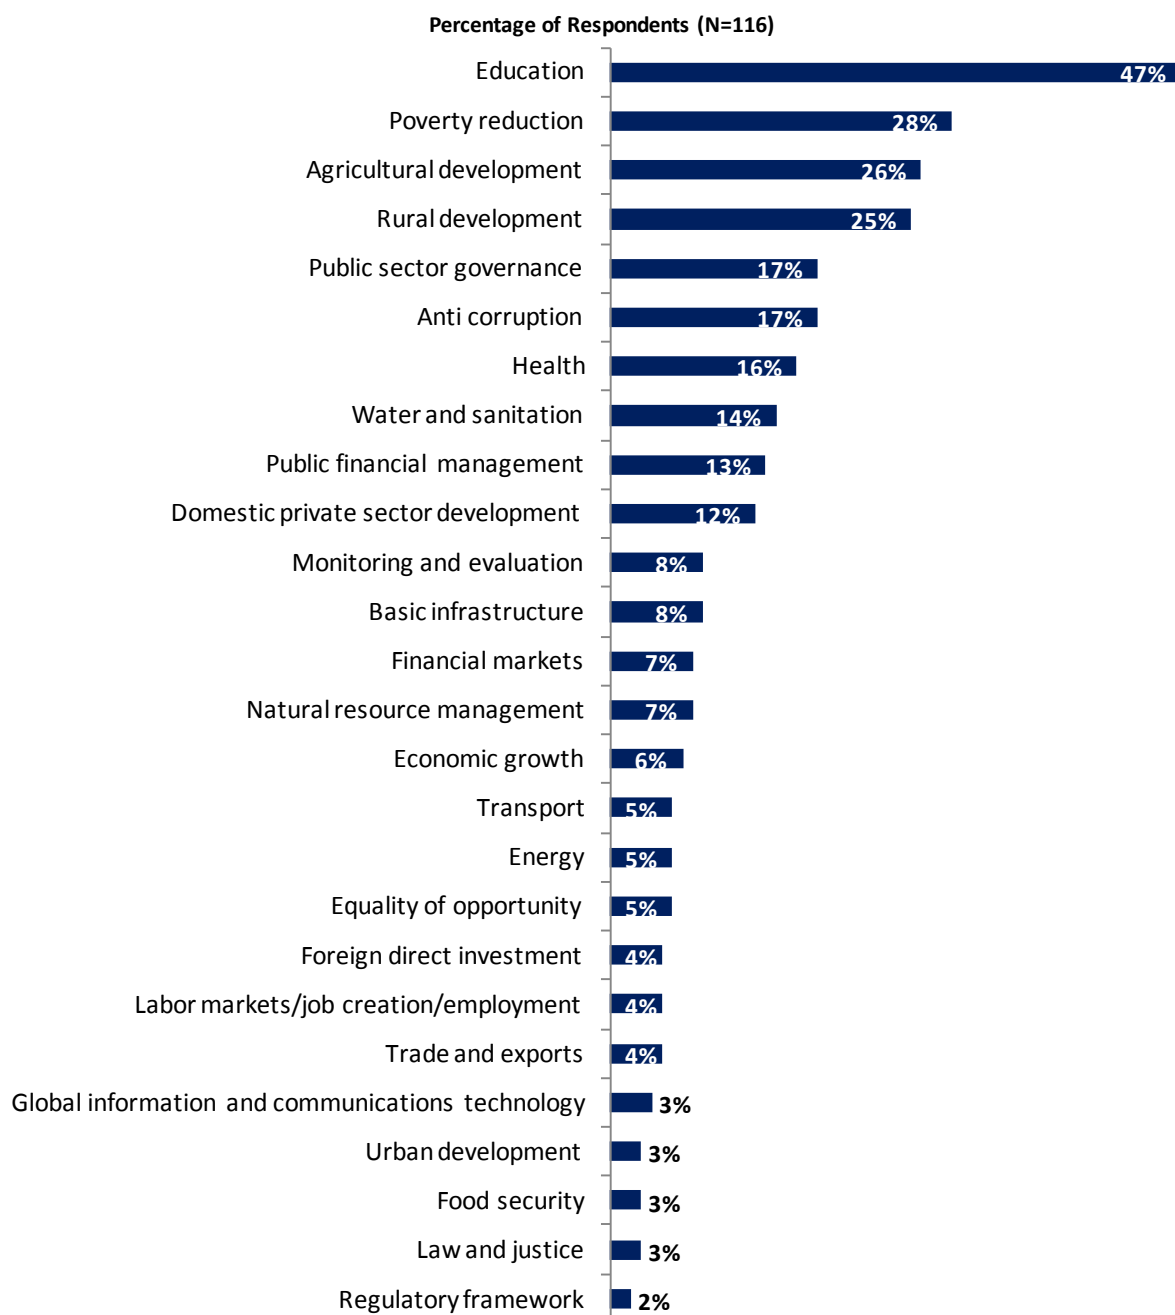

"Economic growth can be driven by a number of factors. Which THREE areas below do you believe would contribute most to generating economic growth in Angola? (Choose no more than THREE)"
(Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

V. Overall Attitudes toward the World Bank

Where the World Bank Should Focus its Resources

- Respondents in the FY '09 country survey* indicated that it would be most productive for the Bank to focus most of its resources on agriculture development (25%), increasing access to/quality of education (22%), and reducing poverty (20%) in Angola.

"When thinking about how the World Bank can have the most impact on development results in Angola, in which sectoral areas do you believe the World Bank should focus most of its attention and resources in Angola? (Choose no more than THREE)" (Respondents chose from a list. Responses combined.)

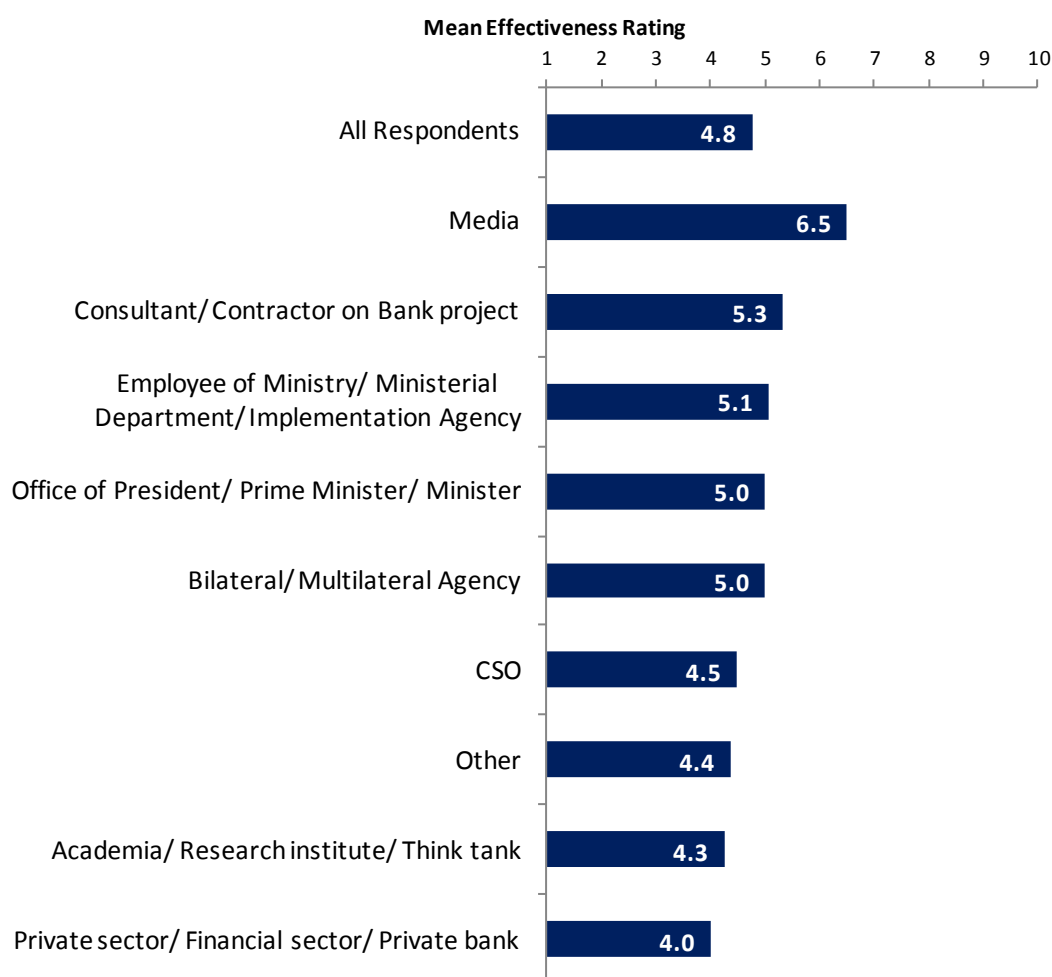

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

V. Overall Attitudes toward the World Bank (continued)

As noted in the “Methodology” section, the indicator questions referred to throughout the survey report are questions that are asked in every country that engages in the Country Survey. These will be aggregated for the Bank’s annual Corporate Scorecard.

The World Bank’s Overall Effectiveness (*Indicator Question*)

- Across all respondents, ratings of the World Bank’s overall effectiveness in Angola received a mean rating of 4.8; this was significantly *lower* compared to the mean ratings received in the FY ’09 country survey (6.0).
- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for the World Bank’s overall effectiveness in Angola.

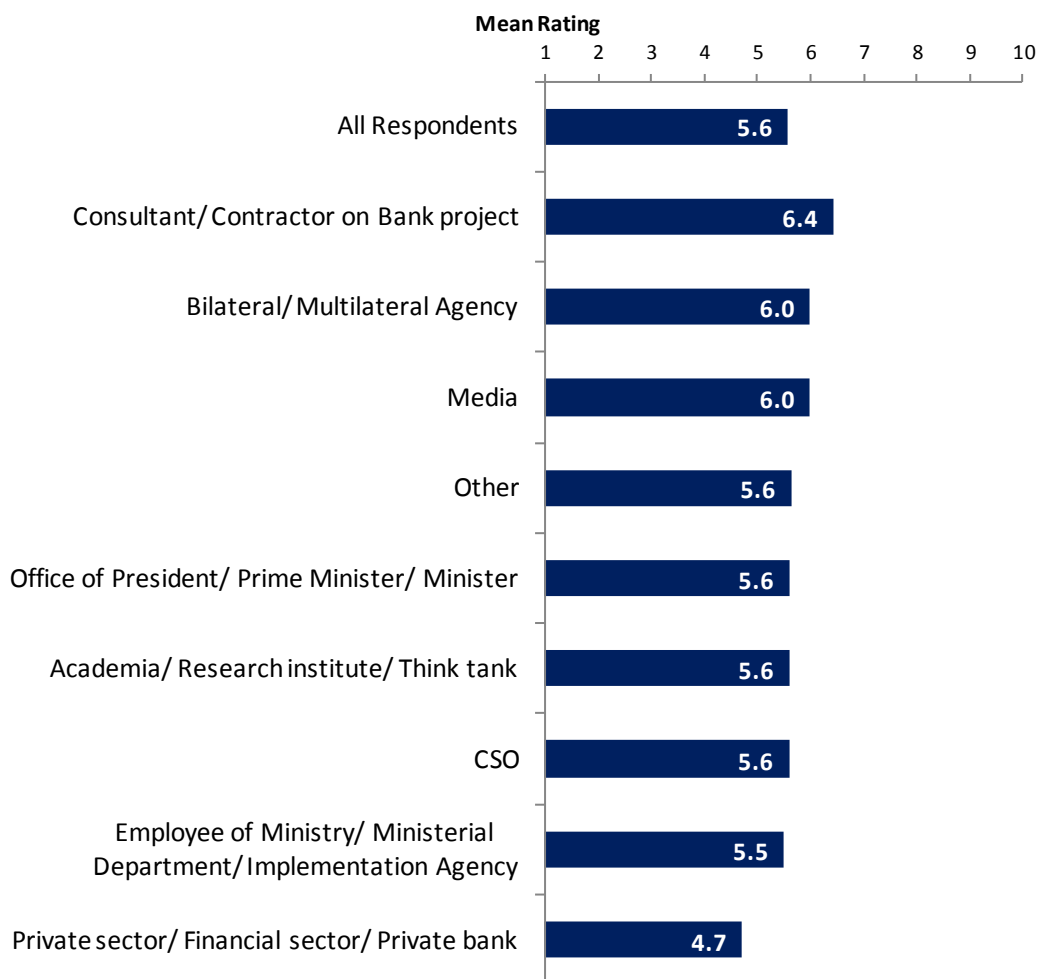

“Overall, please rate your impression of the World Bank’s effectiveness in Angola, on a ten point scale.” (1-“Not effective at all”, 10-“Very effective”)

V. Overall Attitudes toward the World Bank (continued)

Achieving Sustainable Development Results (*Indicator Question*)

- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for the World Bank helping achieve sustainable development results in Angola.

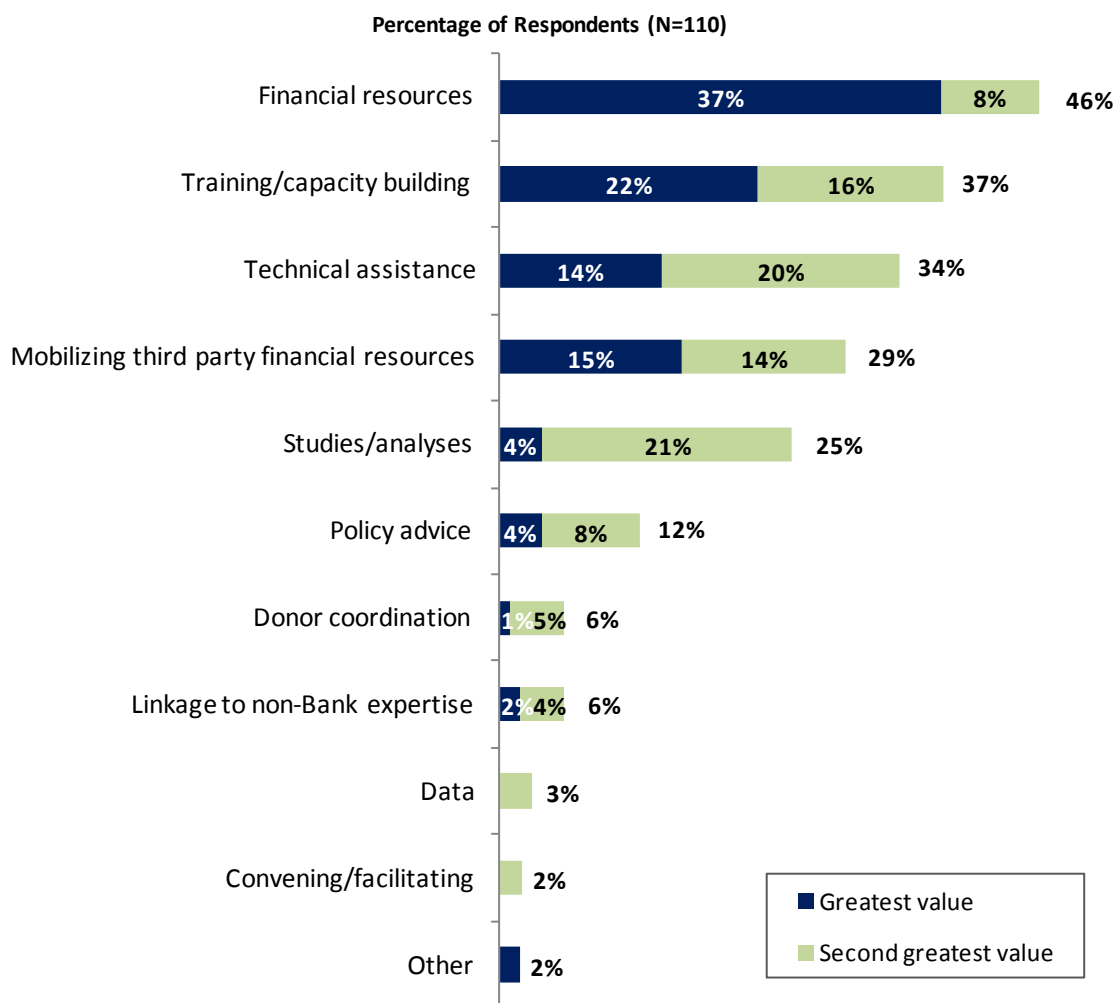

"To what degree does the World Bank's work help achieve sustainable development results in Angola, on a ten point scale?" (1-"To no degree at all", 10-"To a very significant degree")

V. Overall Attitudes toward the World Bank (continued)

Greatest Value

- Respondents in the FY '09 country survey* indicated that the World Bank's greatest values to Angola were policy and economic advice (32%) and technical advice (31%).

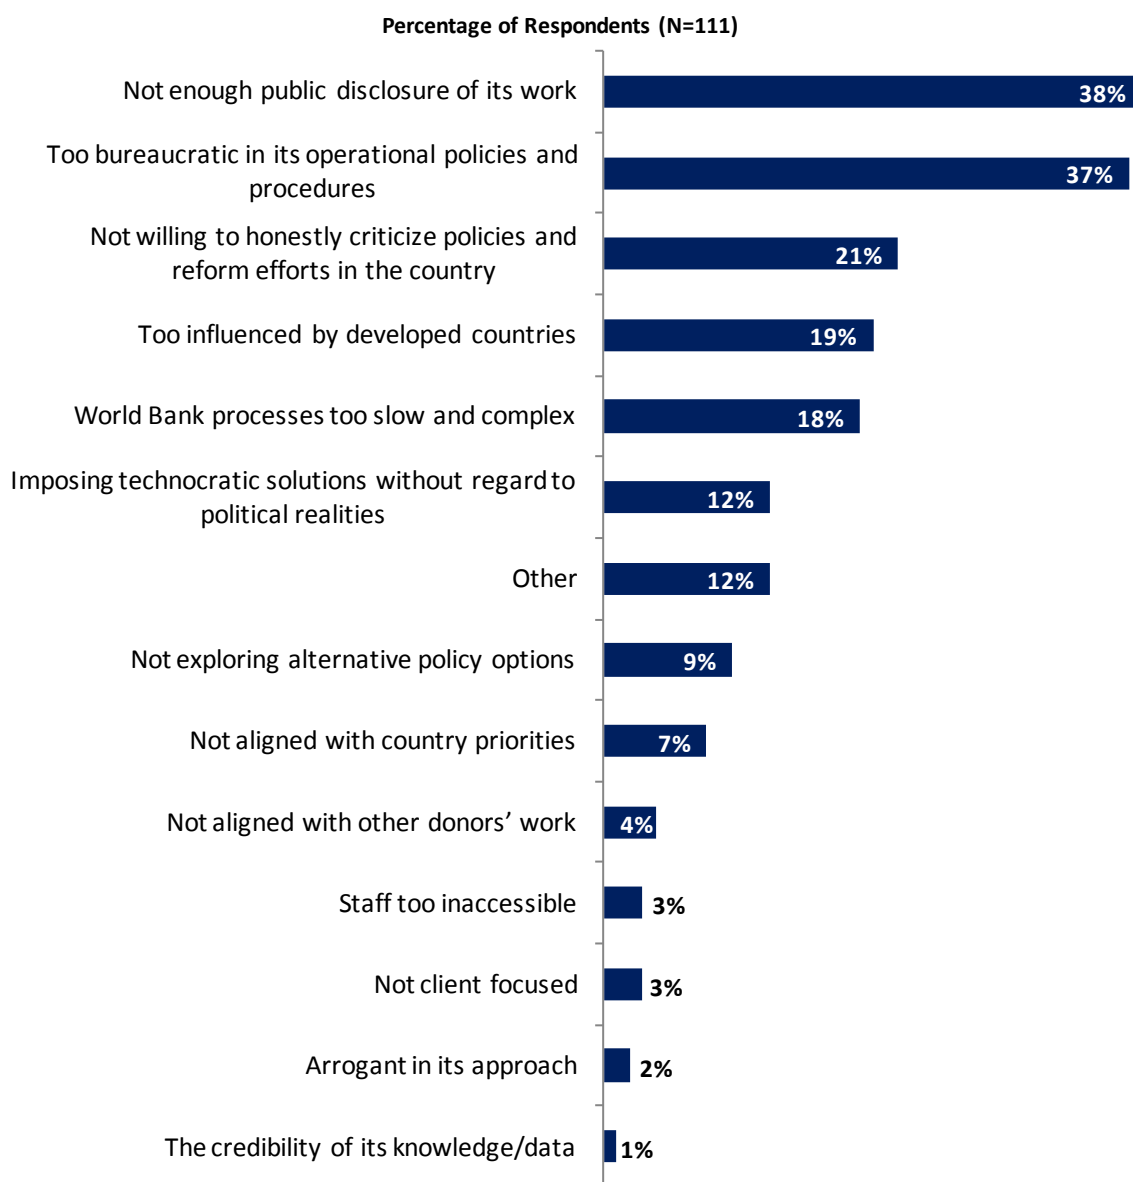

"When thinking about the World Bank's role, which activity do you believe is of greatest VALUE and which activity is of second greatest value in Angola?" (Respondents chose from a list.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

V. Overall Attitudes toward the World Bank (continued)

Greatest Weakness

- Respondents in the FY '09 country survey* indicated that the World Bank's greatest weaknesses in Angola were being too bureaucratic in its operational policies and procedures (35%) and not exploring alternative policy options (35%).

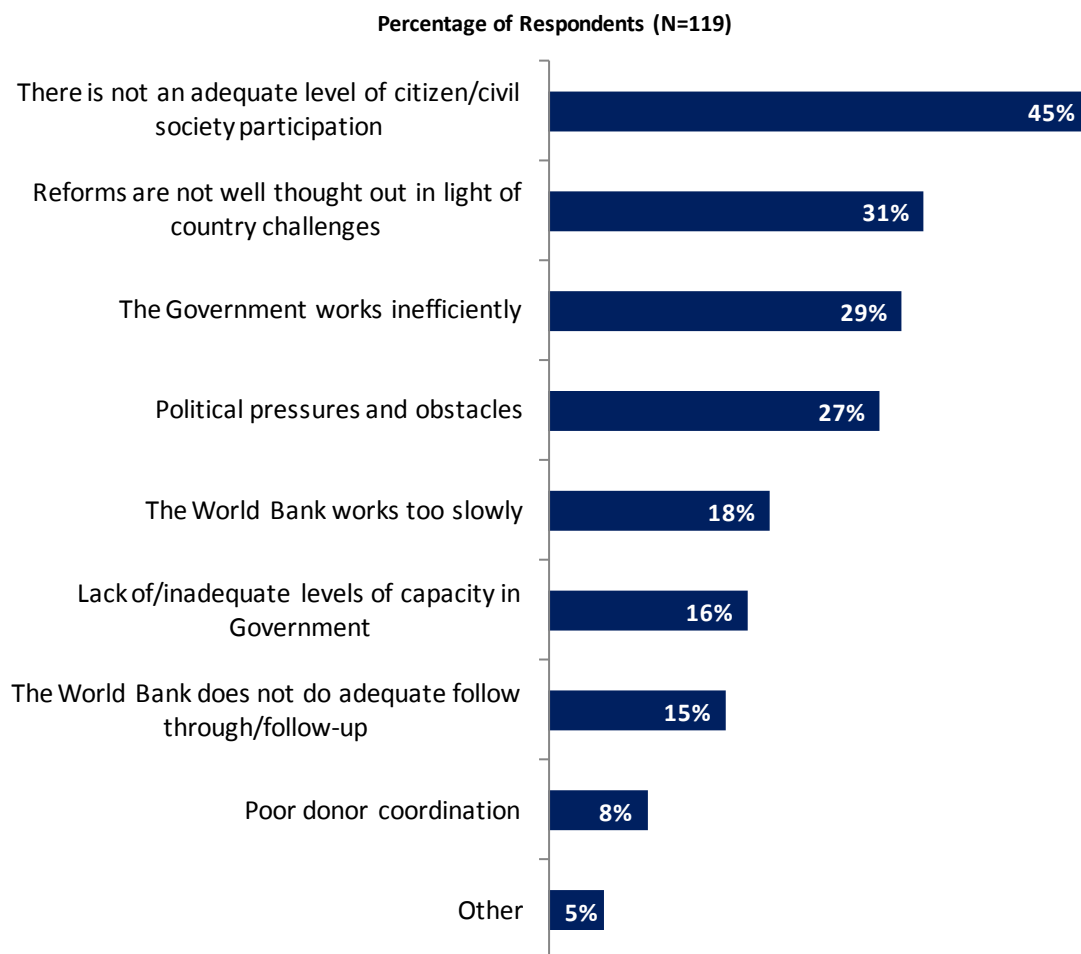

"Which of the following do you identify as the World Bank's greatest WEAKNESSES in its work in Angola?
(Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

V. Overall Attitudes toward the World Bank (continued)

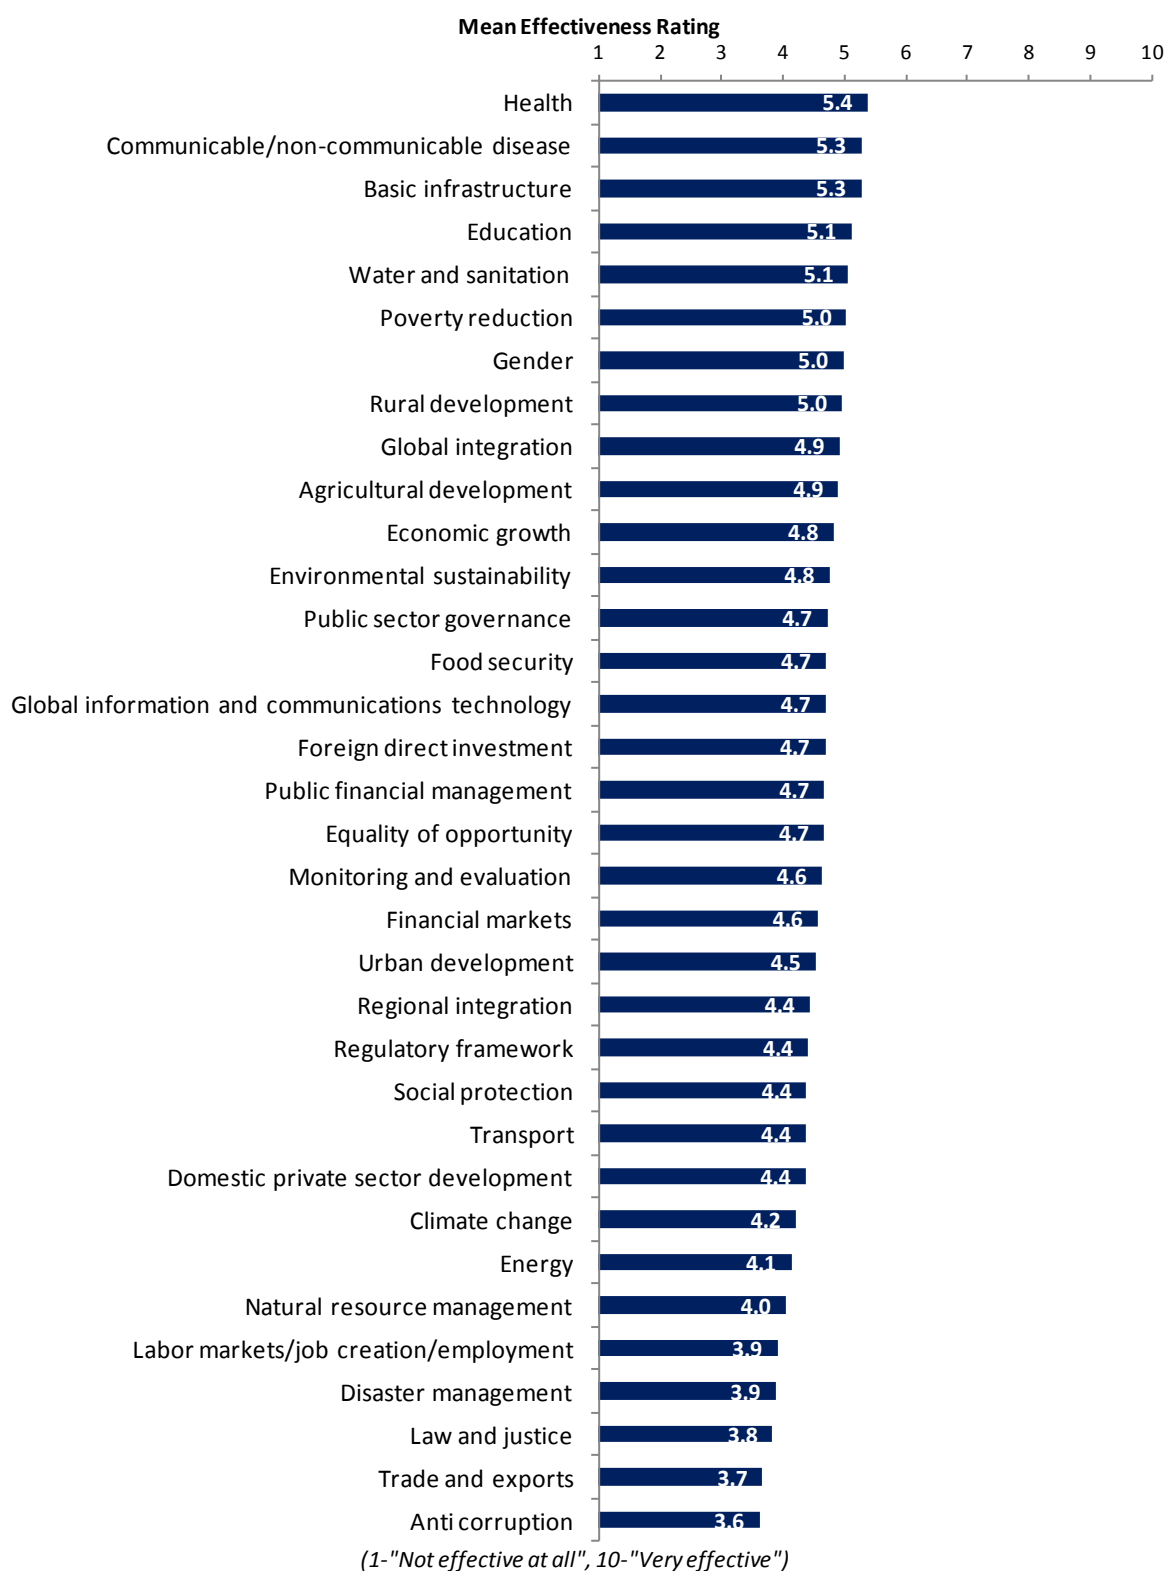

Attributing Slow or Failed Reform Efforts

"When World Bank assisted reform efforts fail or are slow to take place, which of the following would you attribute this to? (Choose no more than TWO)"
(Respondents chose from a list. Responses combined.)

VI. Sectoral Effectiveness

Specific Areas of Effectiveness

VI. Sectoral Effectiveness (continued)

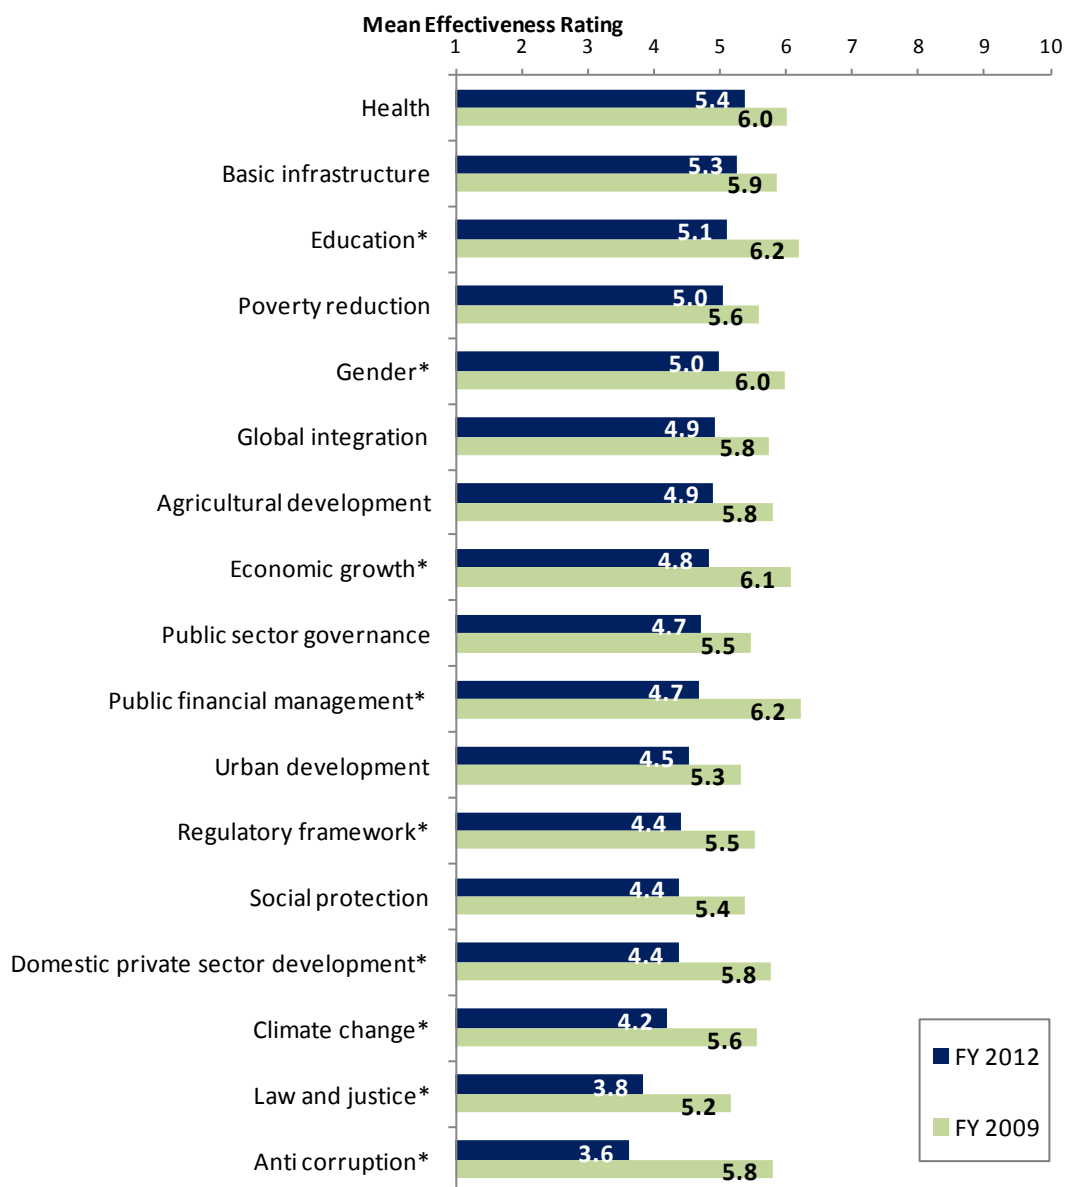

Specific Areas of Effectiveness (continued)

- There were significant stakeholder differences in their ratings of the Bank's effectiveness across two of these thirty-four areas. Consultants/contractors on Bank supported projects and respondents from CSOs had the highest ratings across these areas whereas respondents from private sector organizations/financial sector/private banks tended to have significantly lower ratings for the Bank's effectiveness across these areas. Those areas with significant stakeholder group differences were:
 - "Environmental sustainability"; and
 - "Climate change".
- There were significant differences between geographic locations across six of these thirty-four areas. In all six instances, respondents from Luanda had significantly lower ratings for the Bank's effectiveness across these areas than respondents from other locations. Those areas with significant differences were:
 - "Health";
 - "Global information and communications technology";
 - "Monitoring and evaluation";
 - "Financial markets";
 - "Energy"; and
 - "Labor markets/job creation/employment".
- Responses across all stakeholder groups, geographic locations, and country surveys can be found in the Appendix.

VI. Sectoral Effectiveness (continued)

Specific Areas of Effectiveness (continued)

- Respondents in this year's country survey gave significantly *lower* ratings for the Bank's effectiveness in the following areas: education, gender, economic growth, public financial management, regulatory framework, domestic private sector development, climate change, law and justice, and anti corruption compared to respondents in the FY'09 country survey.

(*FY 2012 significantly different from FY 2009.)

VI. Sectoral Effectiveness (continued)

Drivers of Effectiveness

To determine the key drivers of respondents' ratings of the Bank's overall effectiveness and ratings of its ability to help achieve sustainable development results in Angola, bivariate correlational analyses were conducted using respondents' ratings of the thirty-four specific areas of effectiveness.

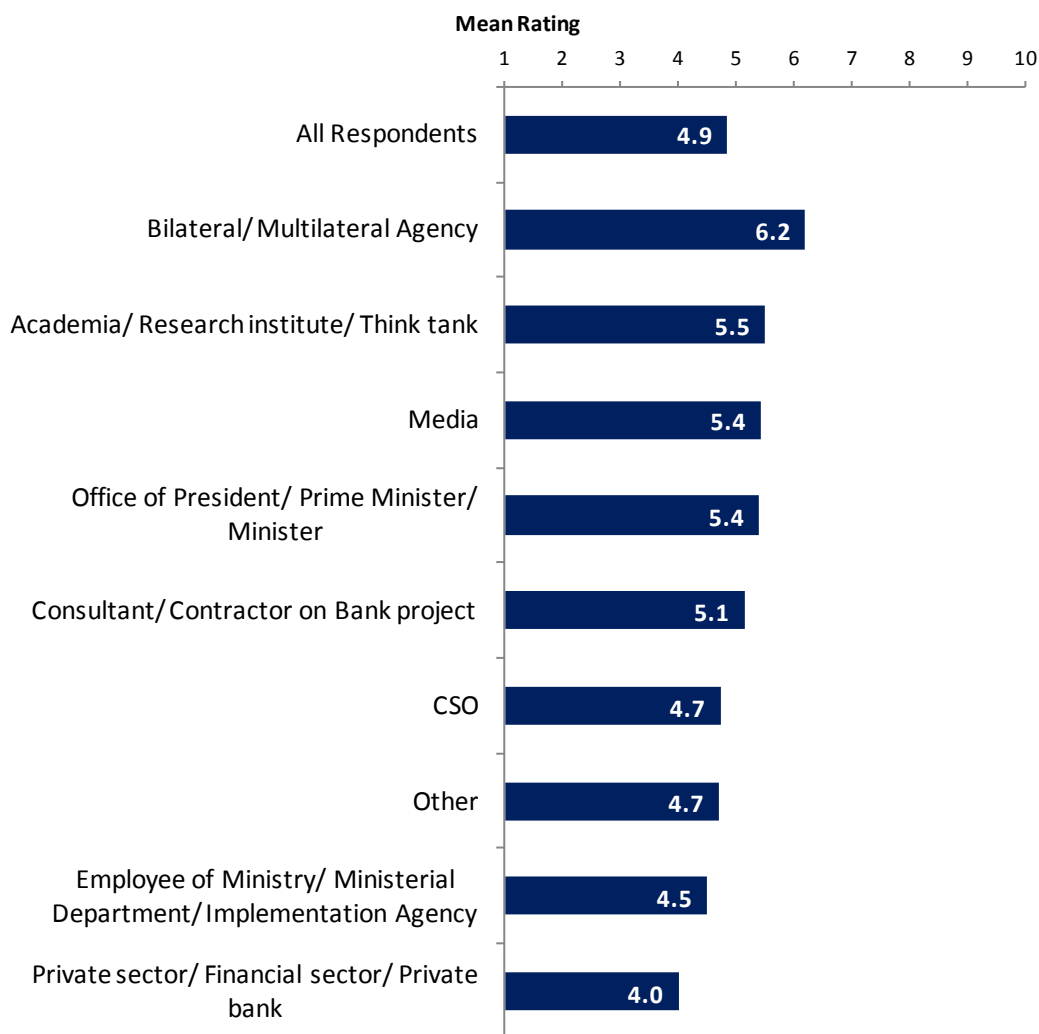

Correlational analyses, however, are not able to tell us exactly what is causing respondents' ratings of the Bank's overall effectiveness or ratings of its ability to help achieve sustainable development results. Rather, these analyses tell us that as ratings of effectiveness in one area increase, respondents' ratings of the Bank's overall effectiveness increase, or as ratings of effectiveness in one area increase, ratings of the Bank's ability to help achieve sustainable development results increase. Thus, it can be inferred that respondents' perceptions of effectiveness in one specific area are related to, or drive, respondents' perceptions of the Bank's overall effectiveness or perceptions of the Bank's ability to help achieve sustainable development results.

- Overall Effectiveness: Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the Bank's overall effectiveness, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the Bank's overall effectiveness in Angola. The areas determined to be key drivers from these analyses were:
 - Labor markets/job creation/employment;
 - Domestic private sector development;
 - Equality of opportunity;
 - Global integration; and
 - Law and justice.
- Achieving Sustainable Development Results: Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the Bank's ability to help achieve sustainable development results in Angola, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the Bank's ability to help achieve sustainable development results. The areas determined to be key drivers from these analyses were:
 - Equality of opportunity;
 - Economic growth; and
 - Education.

VII. World Bank Knowledge and Instruments

Knowledge: Meeting Angola's Knowledge Needs (*Indicator Question*)

- Respondents across all stakeholder groups and geographic locations had statistically similar ratings for the Bank's knowledge services meeting the needs of Angola.

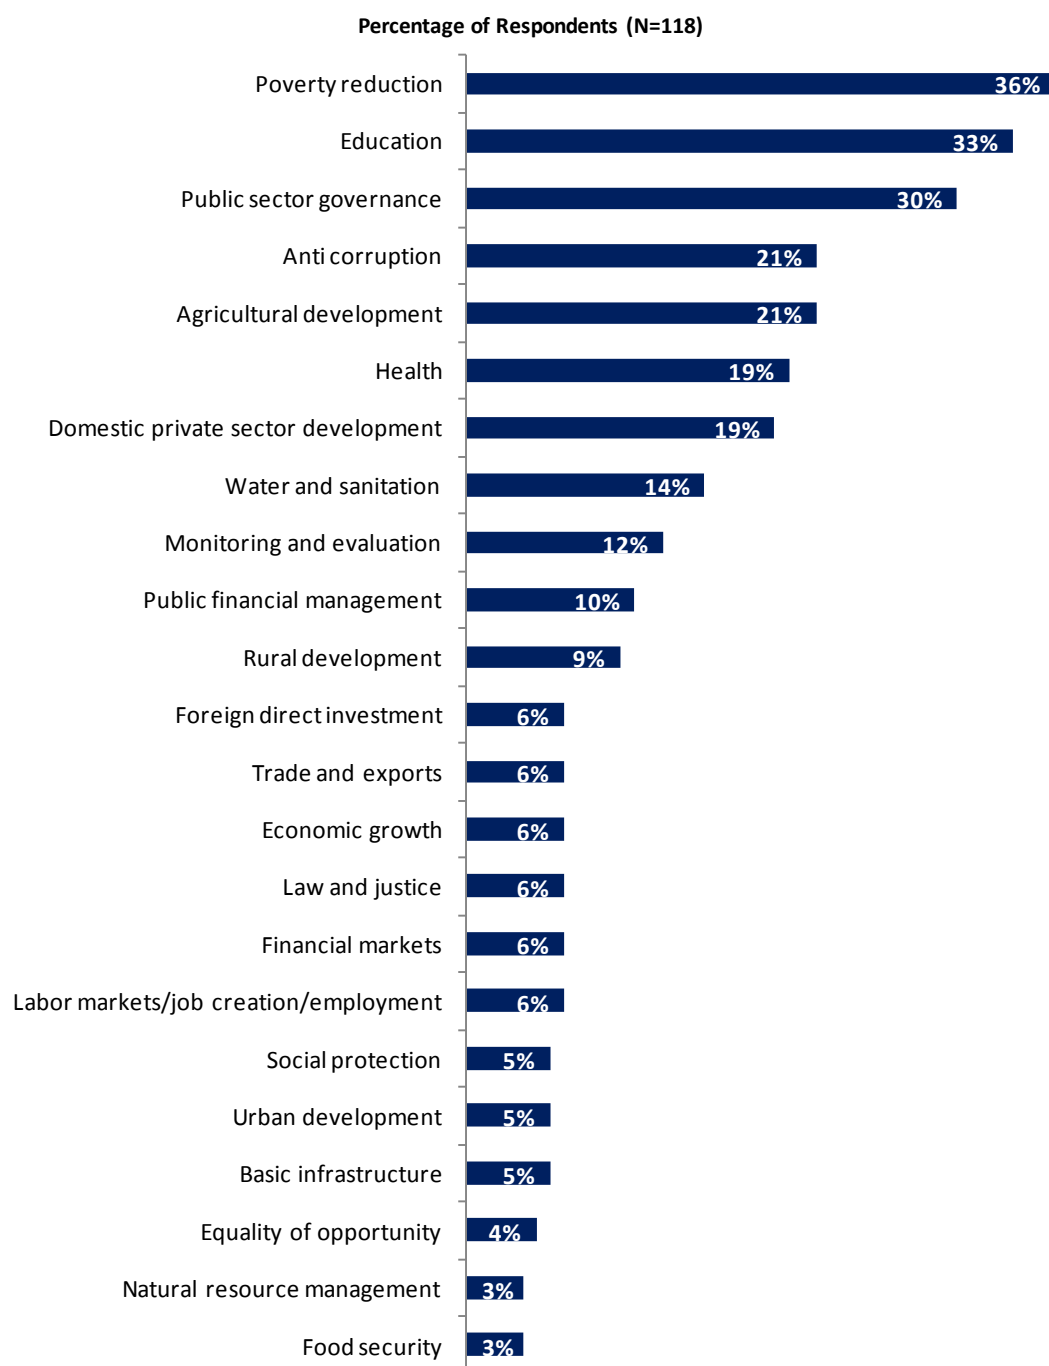

"To what extent do you believe the World Bank meets Angola's needs for knowledge services (e.g., research, analysis, technical assistance), on a ten point scale?"
 (1- "To no degree at all", 10 - "To a very significant degree")

VII. World Bank Knowledge and Instruments (continued)

Knowledge: Focusing Bank Research

- Respondents in the FY '09 country survey* indicated that it would be most valuable for the Bank to focus its research efforts on education (42%) and health (25%).

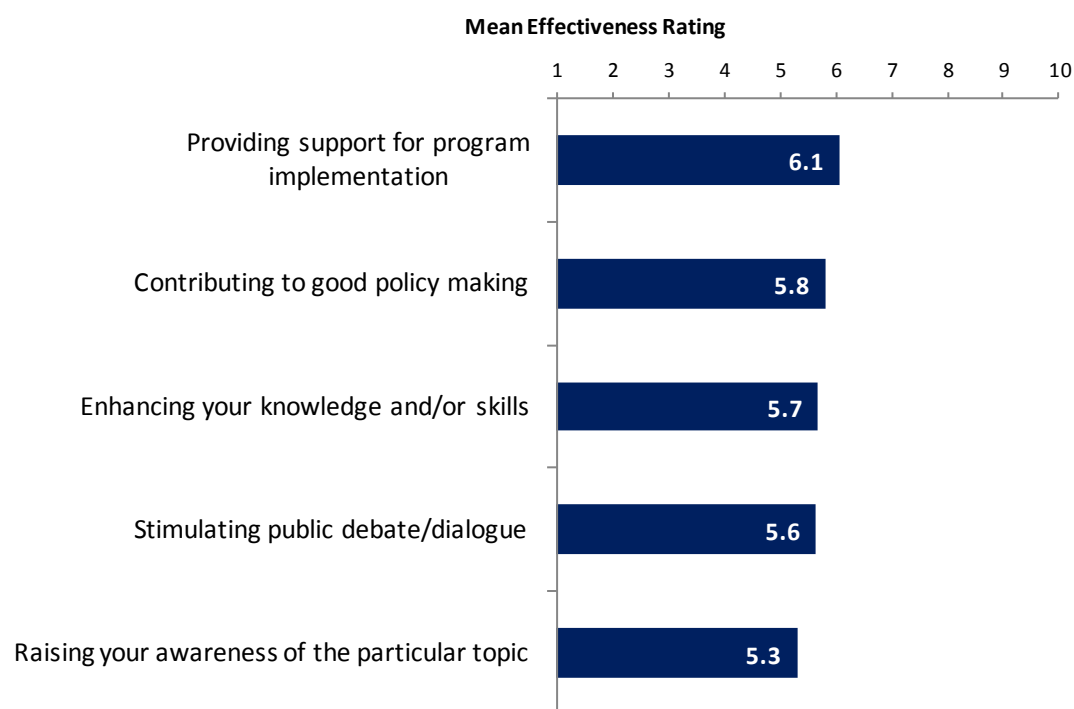

“When thinking about the development challenges in Angola, where do you believe it would be most valuable for the World Bank to focus its research and knowledge efforts in the next few years? (Choose no more than THREE)” (Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

VII. World Bank Knowledge and Instruments (continued)

Knowledge: Effectiveness

- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for the World Bank's knowledge and research effectiveness at all of these aspects

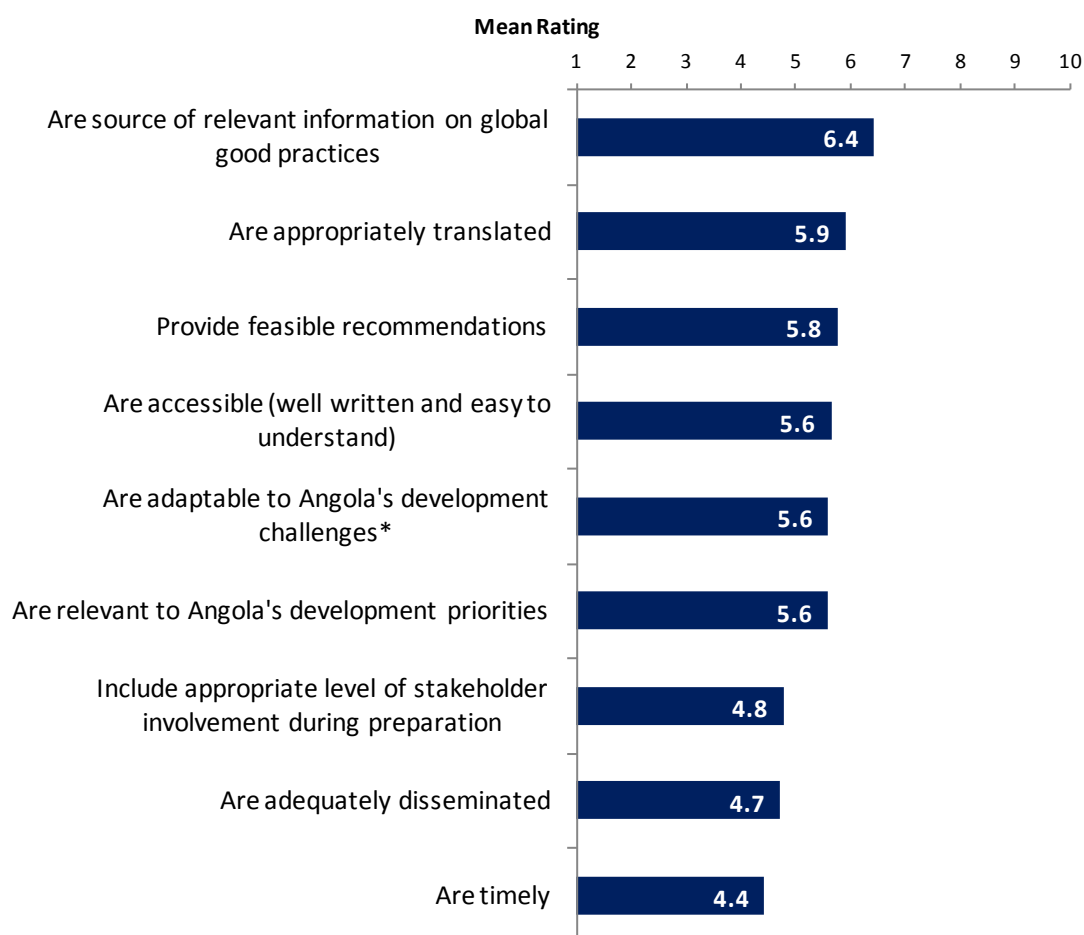

"How effective do you believe the World Bank's knowledge and research are at ... in Angola?"
(1-"Not effective at all", 10-"Very effective")

VII. World Bank Knowledge and Instruments (continued)

Knowledge: Qualities

- Respondents in this year's country survey gave statistically similar ratings (5.6) for the Bank's knowledge and research being adaptable to Angola's development challenges compared to respondents in the FY '09 country survey (6.3).
- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for all of these qualities of the World Bank's knowledge and research.

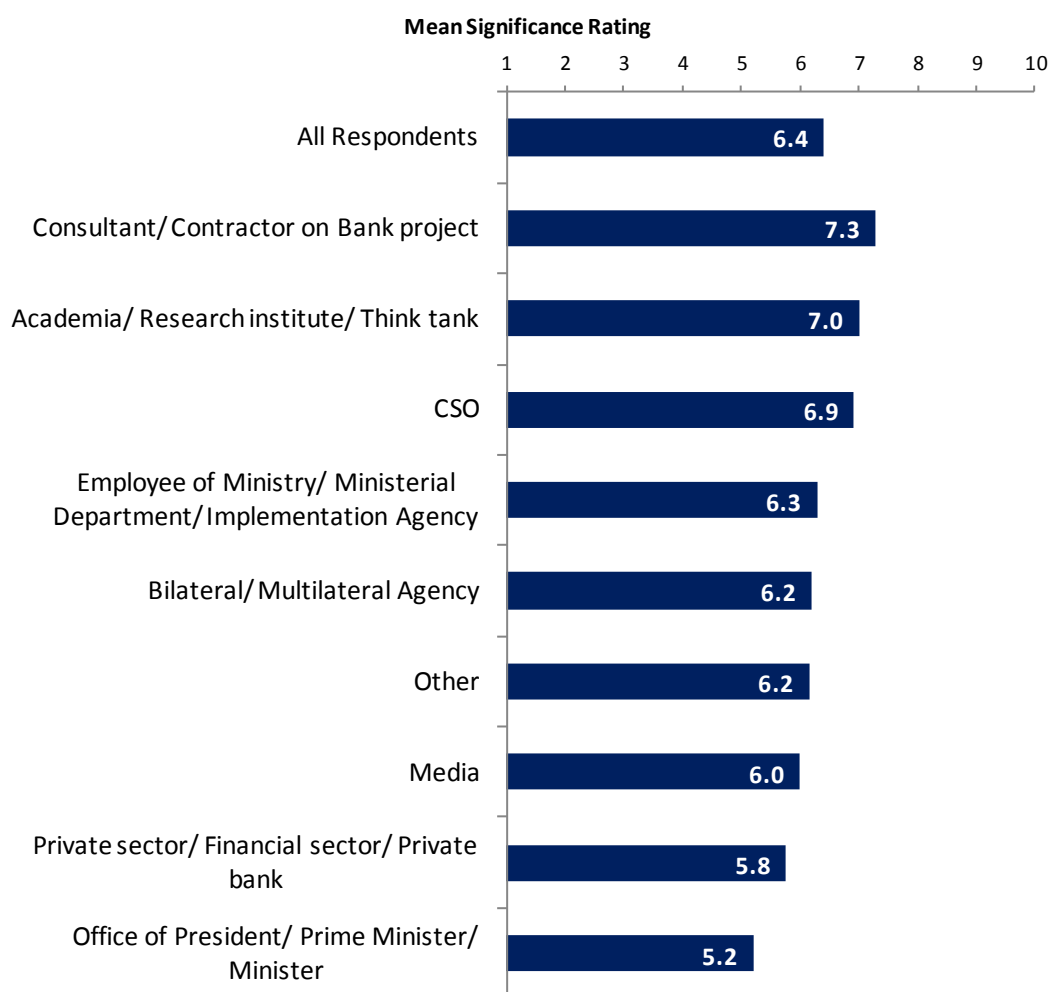

"To what extent do you believe that the World Bank's knowledge and research ... in Angola?"
 (1-"To no degree at all", 10-"To a very significant degree") ***Indicator Question**

VII. World Bank Knowledge and Instruments (continued)

Knowledge: Contribution (*Indicator Question*)

- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for the significance of the contribution that the World Bank's knowledge and research make to development results in Angola.

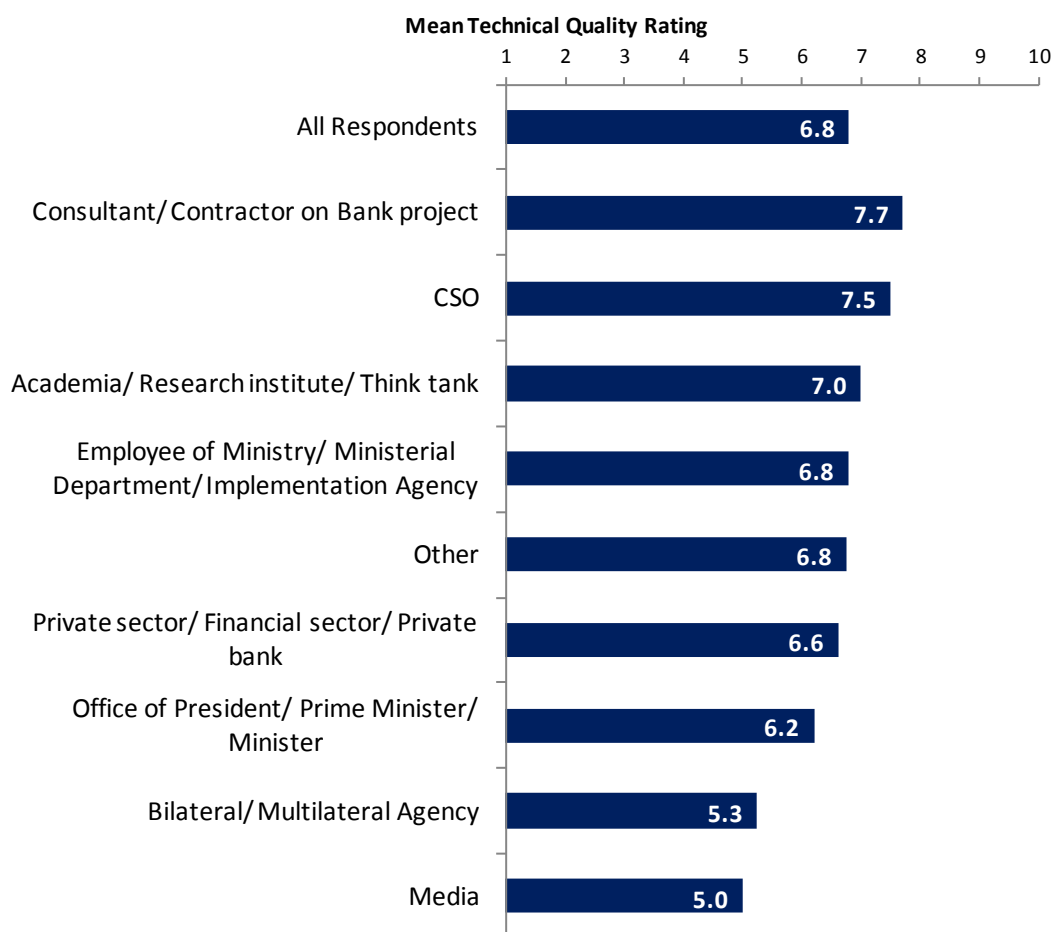

"Overall, how significant a contribution do you believe the World Bank's knowledge and research make to development results in your country, on a ten point scale?
(1-"Not significant at all", 10-"Very significant")

VII. World Bank Knowledge and Instruments (continued)

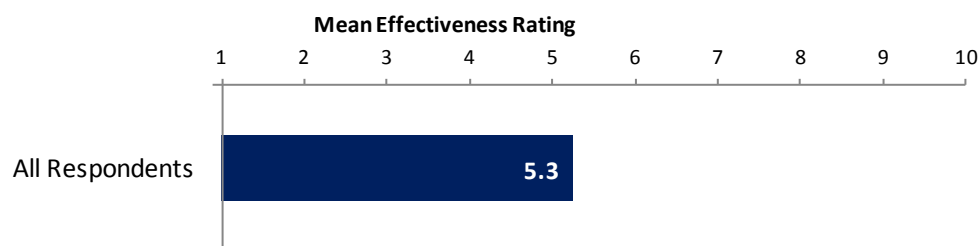

Knowledge: Technical Quality (*Indicator Question*)

- Respondents across all stakeholder groups and geographic locations gave statistically similar ratings for the technical quality of the World Bank's knowledge and research.

"Overall, how would you rate the technical quality of the World Bank's knowledge/research, on a ten point scale?" (1-"Very low technical quality", 10-"Very high technical quality")

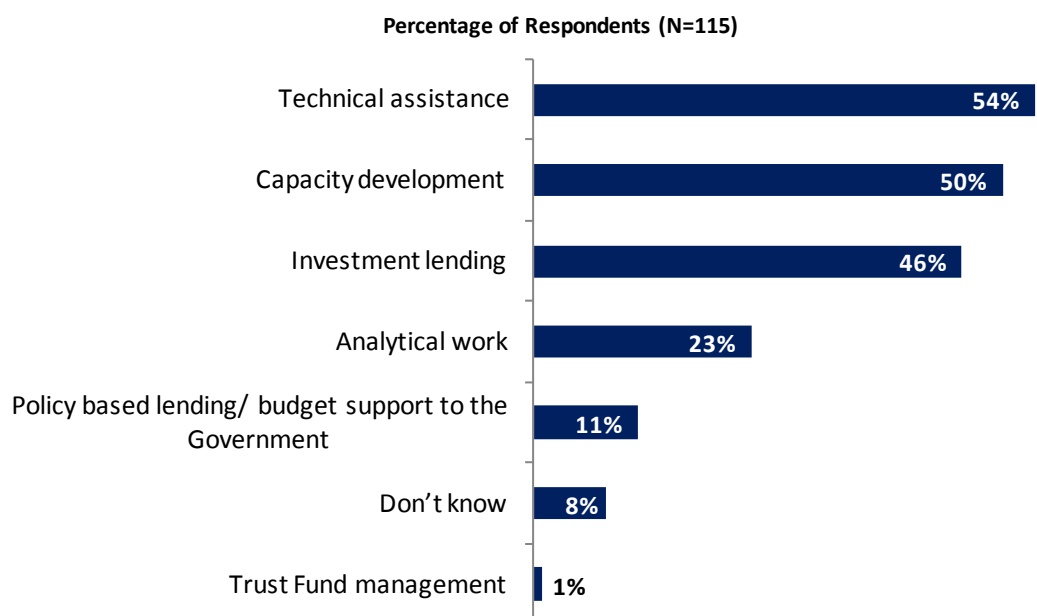

Knowledge: Linkage to Non-Bank Expertise

"Overall, how effective is the World Bank at providing linkage to non-Bank expertise (i.e., South-South knowledge sharing, etc.), on a ten point scale?" (1-"Not effective at all", 10-"Very effective")

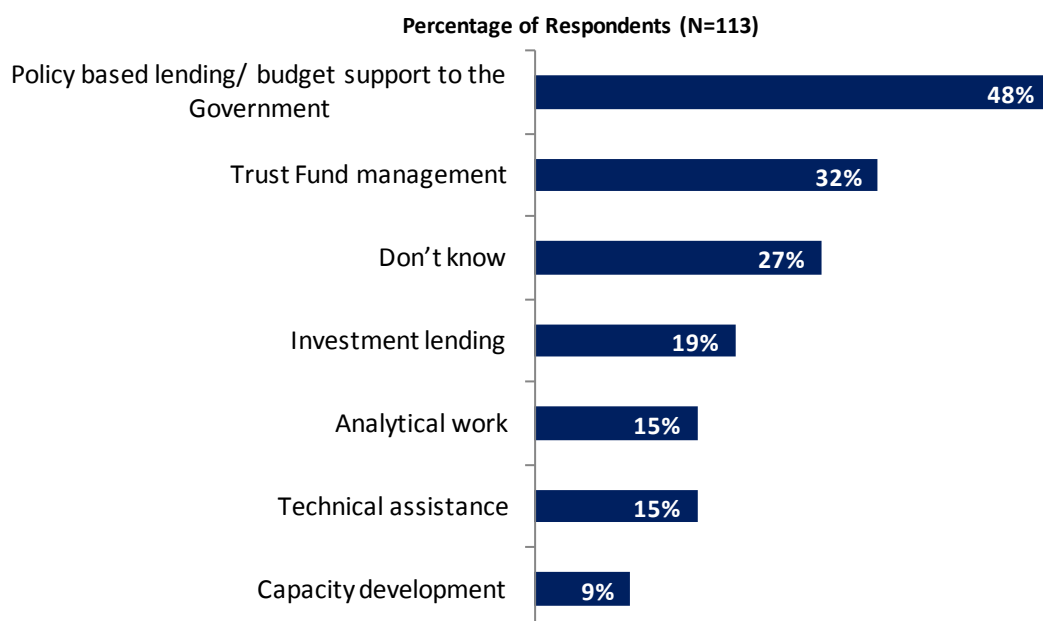

VII. World Bank Knowledge and Instruments (continued)

Instruments: Most Effective

"Which World Bank instruments do you believe are the MOST effective in reducing poverty in Angola? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

Instruments: Least Effective

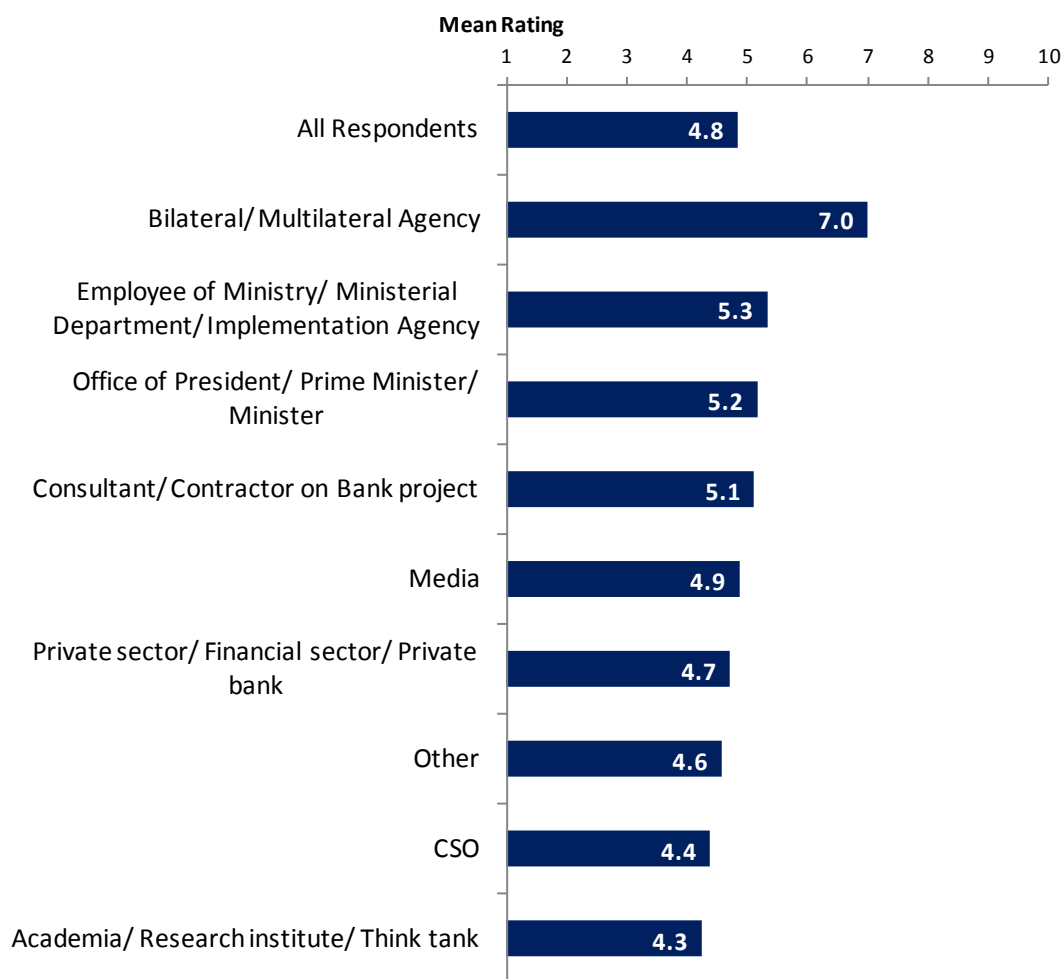

"Which World Bank instruments do you believe are LEAST effective in helping to reduce poverty in Angola? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

VII. World Bank Knowledge and Instruments (continued)

Instruments: Meeting Angola's Needs (*Indicator Question*)

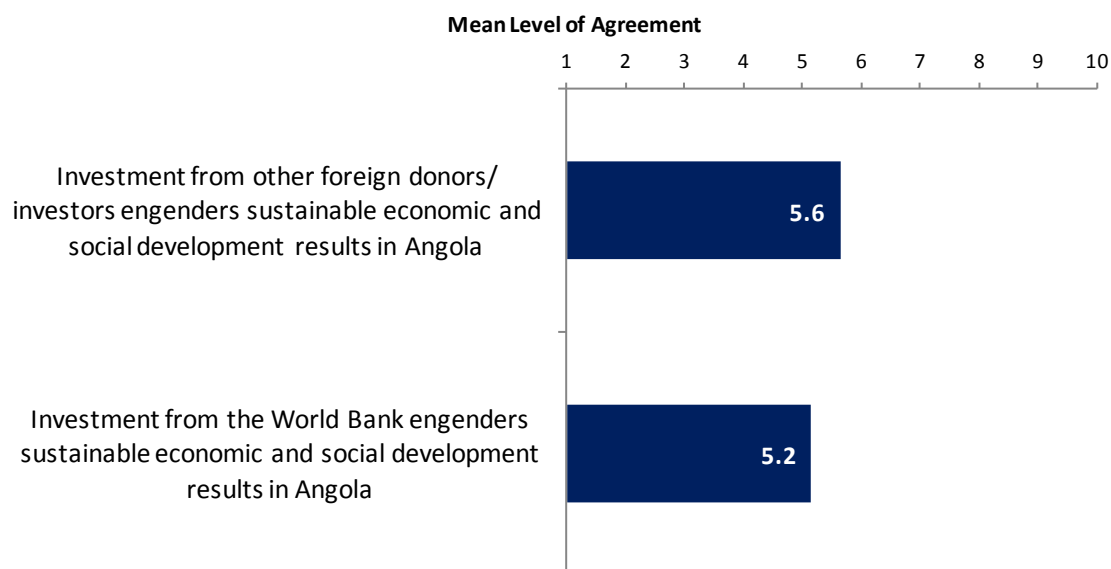

- Respondents across all stakeholder groups and geographic locations had statistically similar ratings for the Bank's financial instruments meeting the needs of Angola.

"To what extent do you believe the World Bank's financial instruments (e.g., development policy lending, investment lending, technical assistance) meet the needs of Angola, on a ten point scale?" (1-"To no degree at all", 10 - "To a very significant degree")

VII. World Bank Knowledge and Instruments (continued)

Instruments: World Bank Investments vs Investments from Other Donors

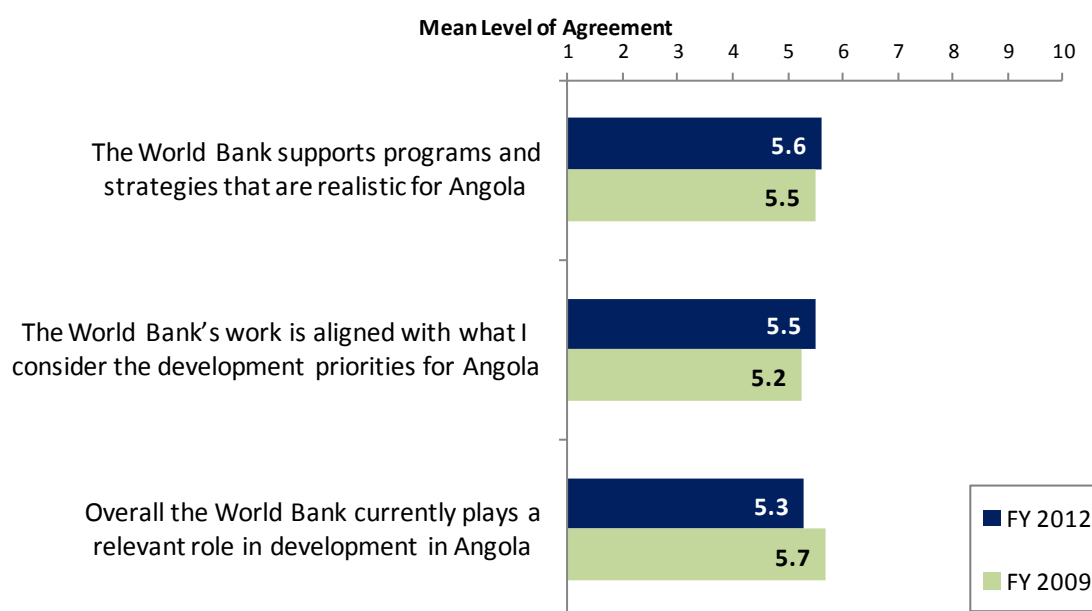

"When thinking about the World Bank's lending in Angola as compared to other international players in the country, to what extent do you agree with the following statements, on a ten point scale?"

(1-"Strongly disagree", 10-"Strongly agree")

VIII. How the World Bank Operates

The World Bank's Work in Angola

- Respondents in this year's country survey had statistically similar levels of agreement with all of these statements about the World Bank's work in Angola compared to respondents in the FY '09 country survey.
- Respondents across all stakeholder groups had statistically similar levels of agreement regarding all of these aspects of the Bank's work.
- There were significant differences between geographic locations. Respondents from Luanda had significantly lower levels of agreement that the World Bank supports programs and strategies that are realistic for Angola than respondents from other locations.

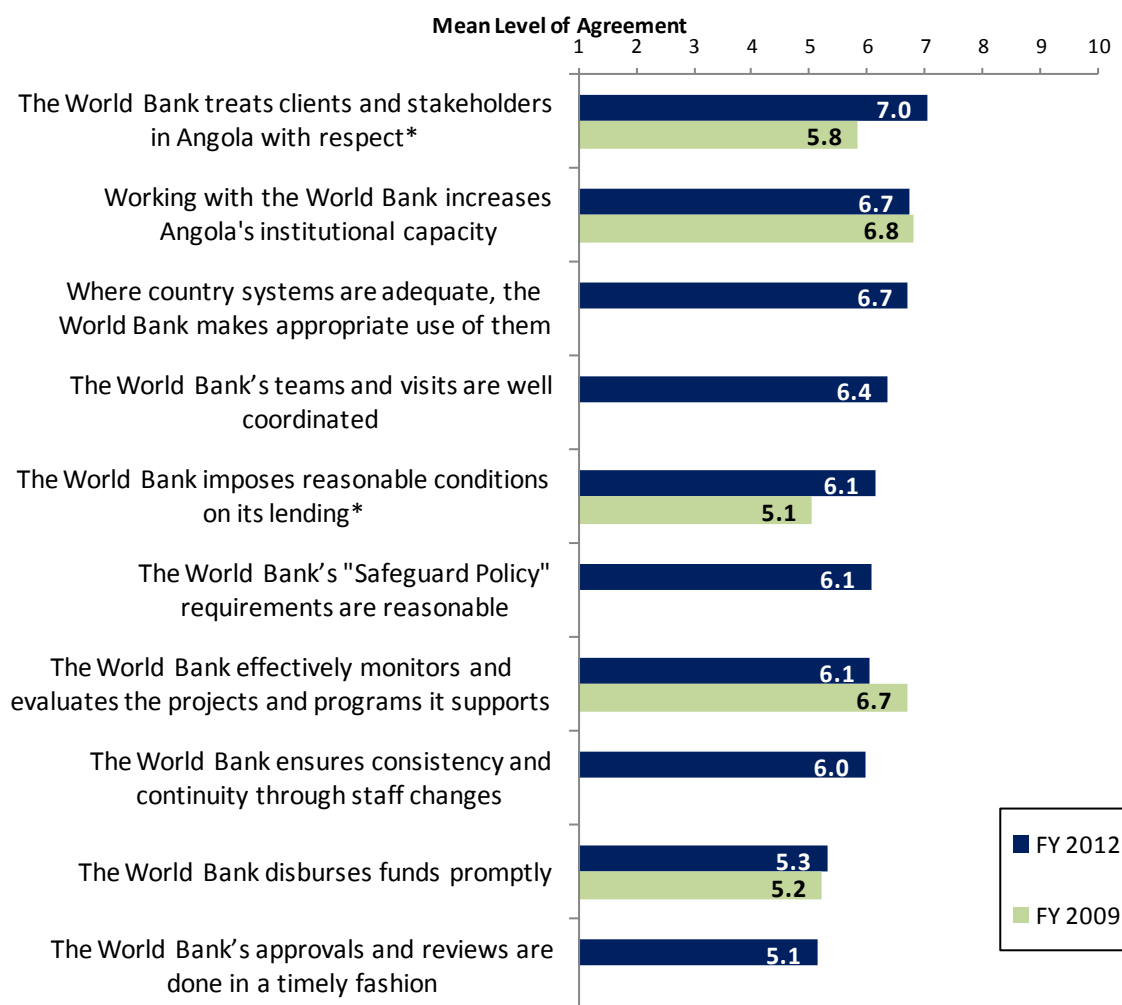

"To what extent do you agree with the following statements about the World Bank's work in Angola, on a ten point scale?" (1-"Strongly disagree", 10-"Strongly agree")

VIII. How the World Bank Operates (continued)

Overall Perceptions

- Respondents in this year's country survey had significantly *higher* levels of agreement that the World Bank treats clients and stakeholders in Angola with respect and that it imposes reasonable conditions on its lending compared to respondents from the FY '09 country survey.
- Respondents across all stakeholder groups had statistically similar levels of agreement regarding all of these aspects of how the Bank operates.
- There were significant differences between geographic locations across three of these aspects: "Where country systems are adequate, the World Bank makes appropriate use of them"; "The World Bank's teams and visits are well coordinated"; and "The World Bank's "Safeguard Policy" requirements are reasonable". Respondents from Luanda had significantly lower levels of agreement with these statements than respondents from other locations.

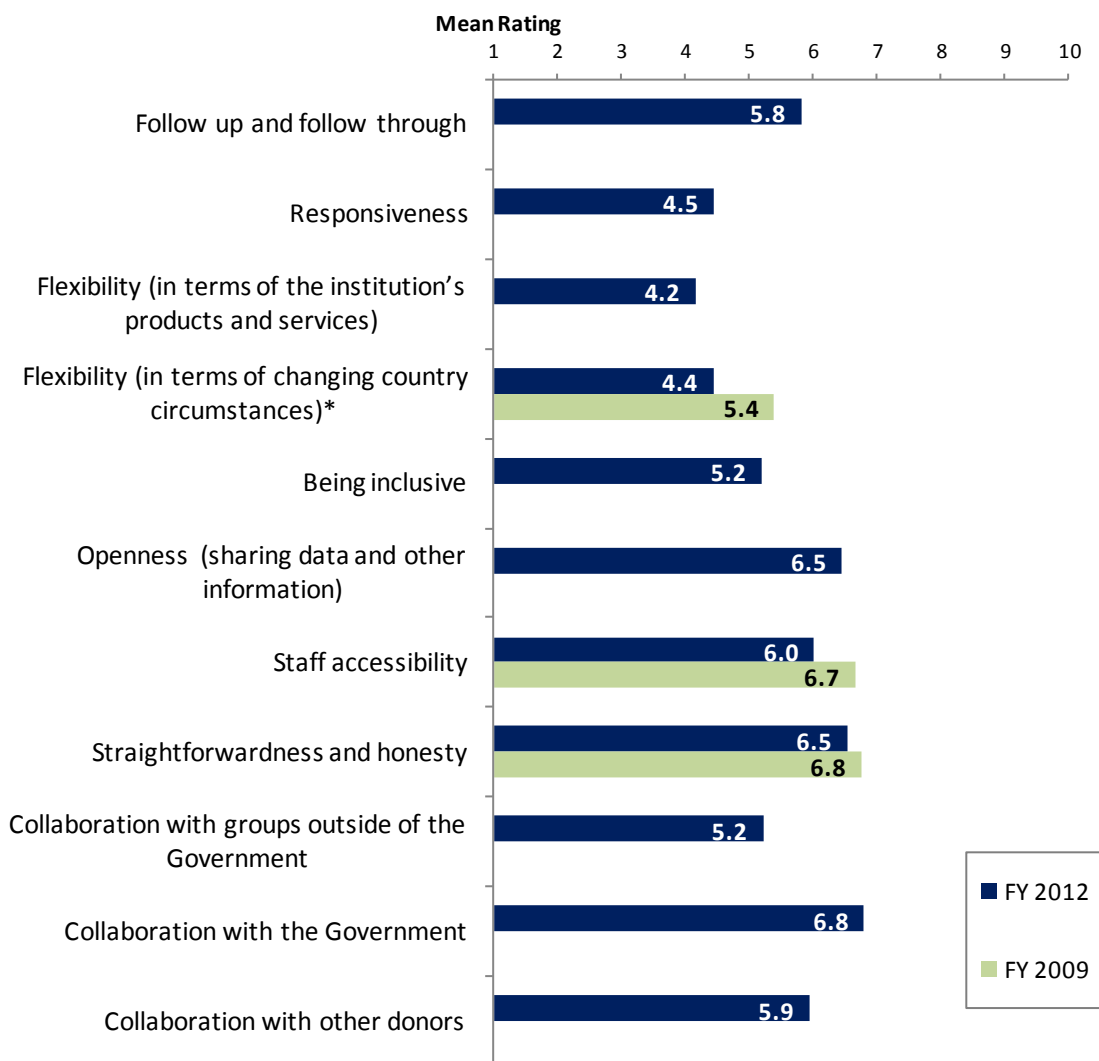

"To what extent do you agree/disagree with the following statements, on a ten point scale?"
 (1-"Strongly disagree", 10-"Strongly agree") (* FY 2012 significantly different from FY 2009)

VIII. How the World Bank Operates (continued)

The World Bank as an Effective Development Partner

- Respondents in this year's country survey had significantly *lower* ratings for the World Bank's flexibility in terms of changing country circumstances compared to respondents from the FY '09 country survey.
- Respondents across all stakeholder groups and geographic locations had statistically similar ratings for the World Bank being an effective development partner across all of these aspects.

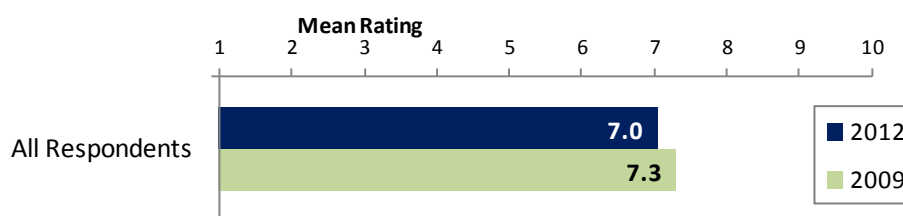

"To what extent is the World Bank an effective development partner in Angola in terms of ..., on a ten point scale?" (1-"To no degree at all", 10-"To a very significant degree")

(* FY 2012 significantly different from FY 2009)

IX. The Future Role of the World Bank in Angola

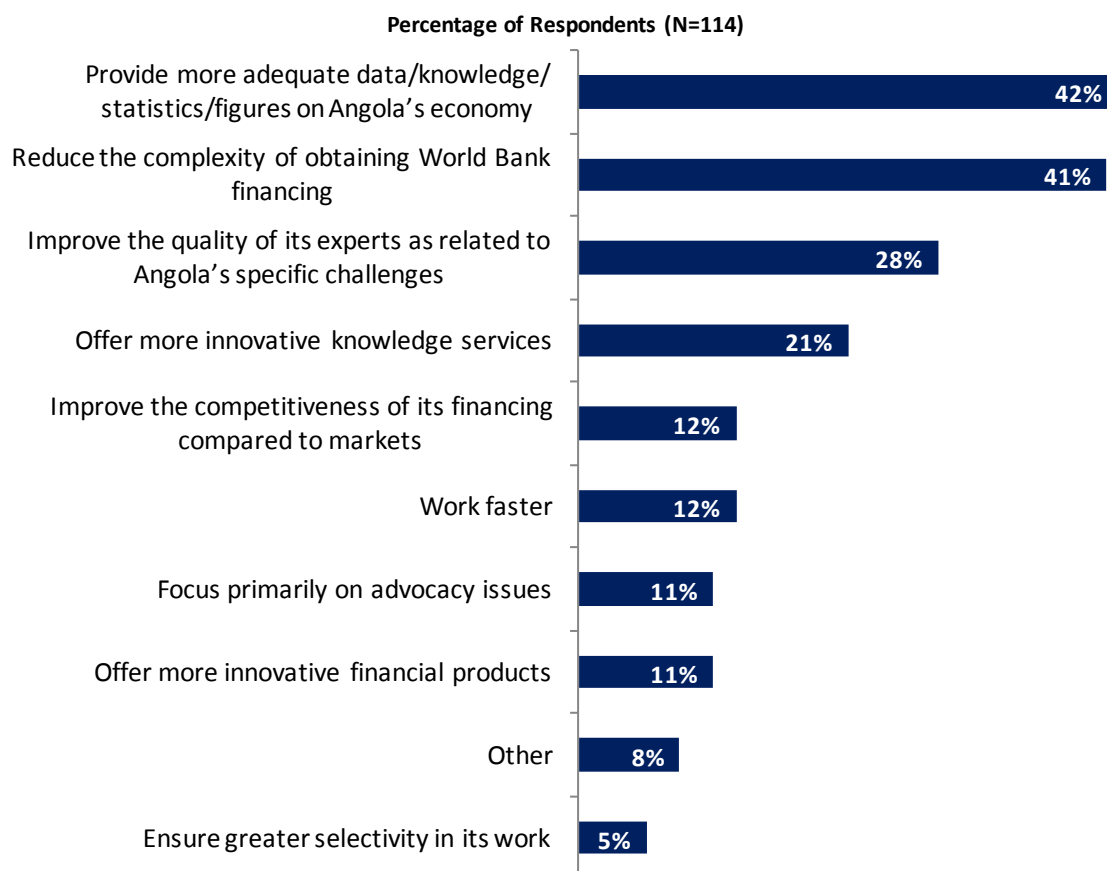

Role Significance

"How significant a role do you believe the Bank SHOULD play in Angola's development over the medium term in the near future, on a ten point scale?" (1- "Not significant at all", 10- "Very significant role")

Making the World Bank of Greater Value

- Respondents in the FY '09 country survey* indicated that the World Bank should reduce the complexity of obtaining its financing (34%) and improve the quality of its experts as related to Angola's specific challenges (32%) to make itself of greater value in Angola.

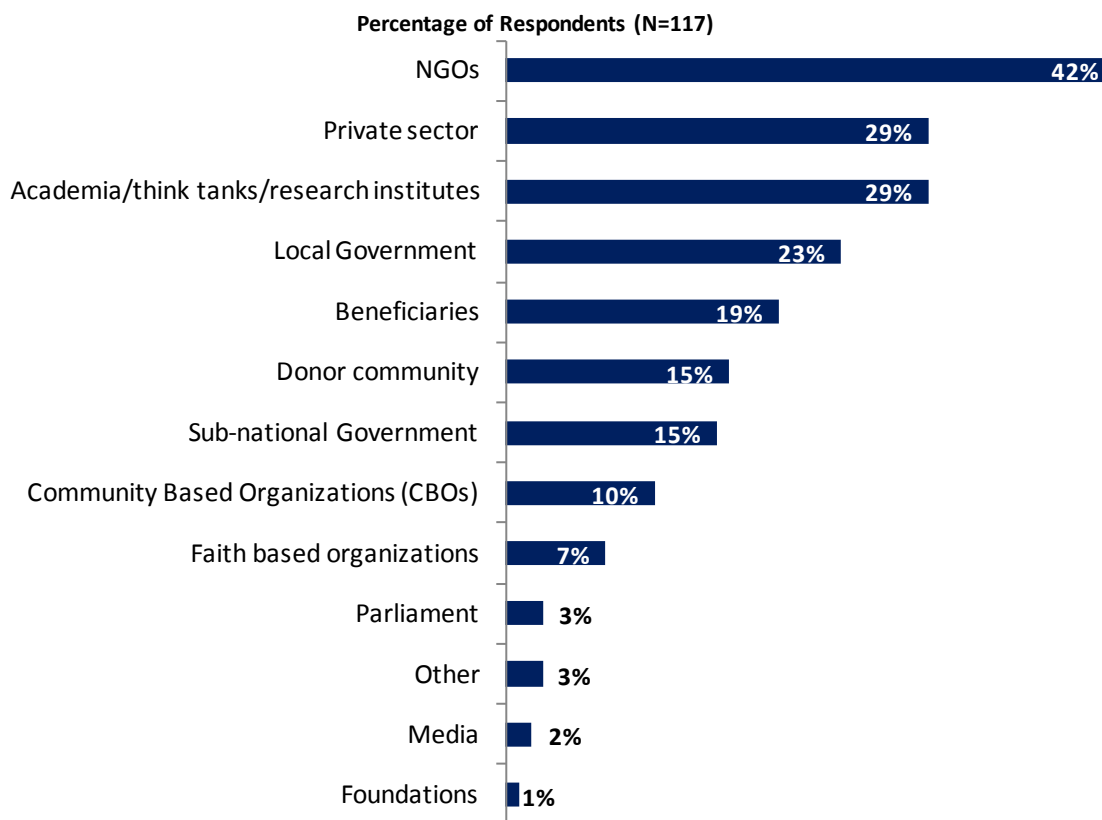

"Which of the following SHOULD the World Bank do to make itself of greater value in Angola? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

IX. The Future Role of the World Bank in Angola (continued)

Collaborating with Stakeholders in Angola

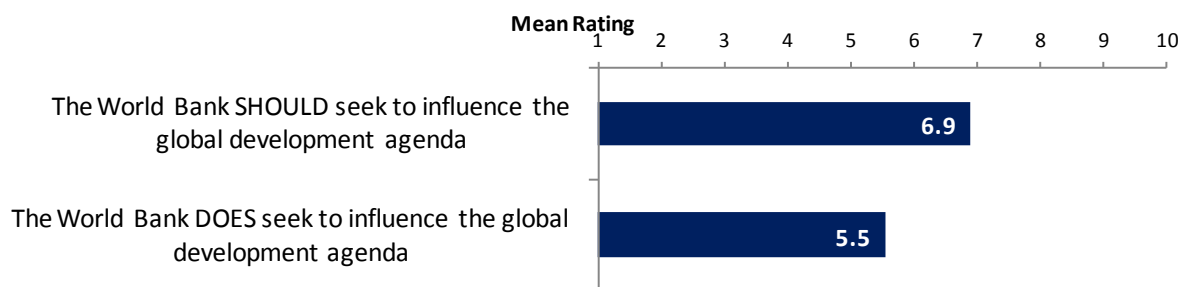

- Respondents in the FY '09 country survey* indicated that the World Bank should work more with local government (32%), private sector (31%), NGOs (28%), and CBOs (24%) to ensure better development results in Angola.

"In addition to the regular relations with the national government as its main interlocutor, which TWO of the following groups should the World Bank collaborate with more in your country to ensure better development results there? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

*Not all of the response options provided in the FY '12 survey were provided in the FY '09 survey.

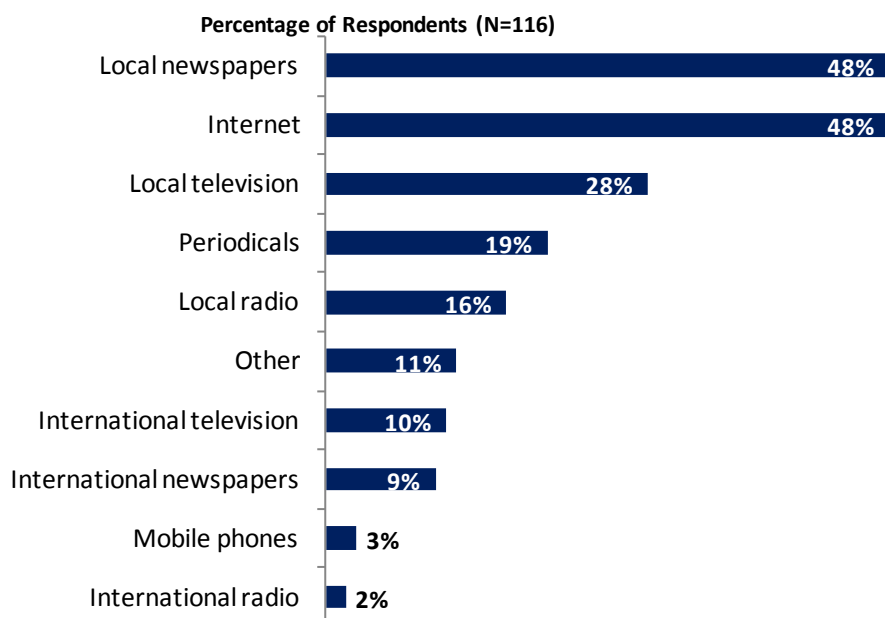

Influencing the Global Development Agenda

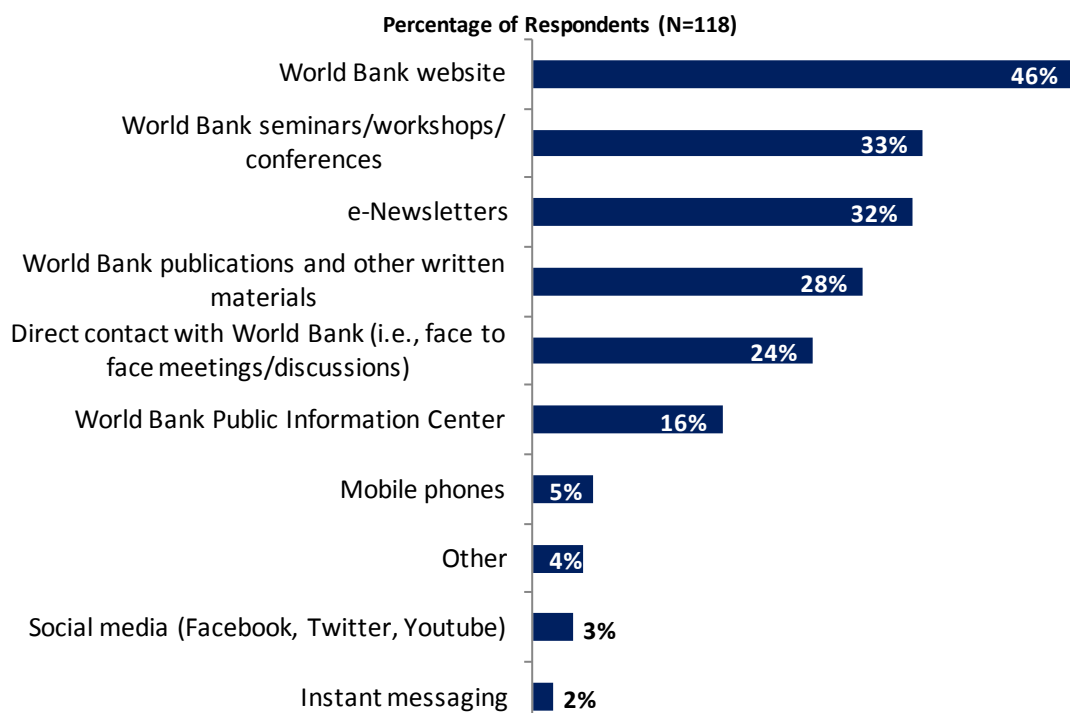

"To what extent do you believe ..., on a ten point scale?" (1 - "To no degree at all", 10 - "To a very significant degree")

X. Communication and Openness

Information Sources

"Where do you get most of your information about economic and social development issues in Angola? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

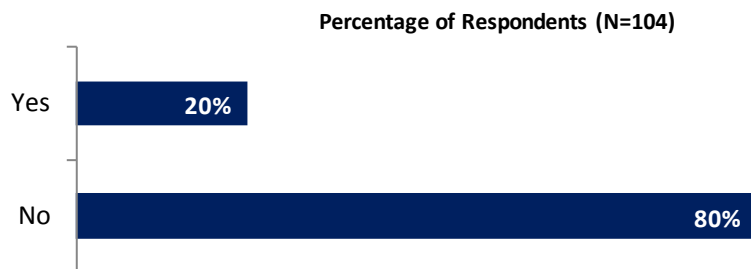

"How would you prefer to receive information from the World Bank? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

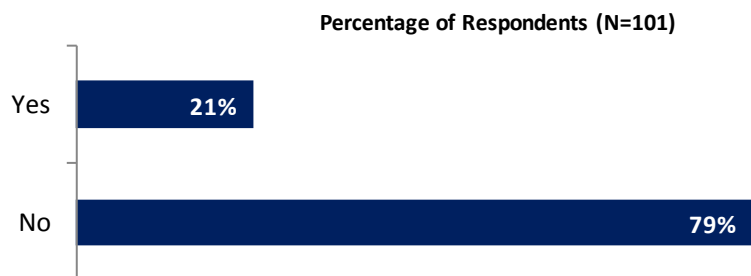

X. Communication and Openness (continued)

Access to Information

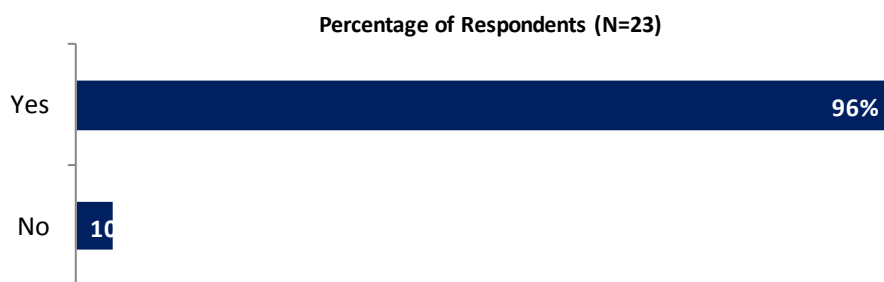

- Although respondents from bilateral/multilateral agencies and academia/research institutes/think tanks were significantly more likely to be aware of the Bank's Access to Information Policy compared to respondents from other stakeholder groups, respondents across all stakeholder groups had statistically similar rates of requesting information from the World Bank in the past year and obtaining their requested information.

"Are you aware of the World Bank's Access to Information Policy under which the Bank will now disclose any information in its possession that is not on a list of exceptions?"

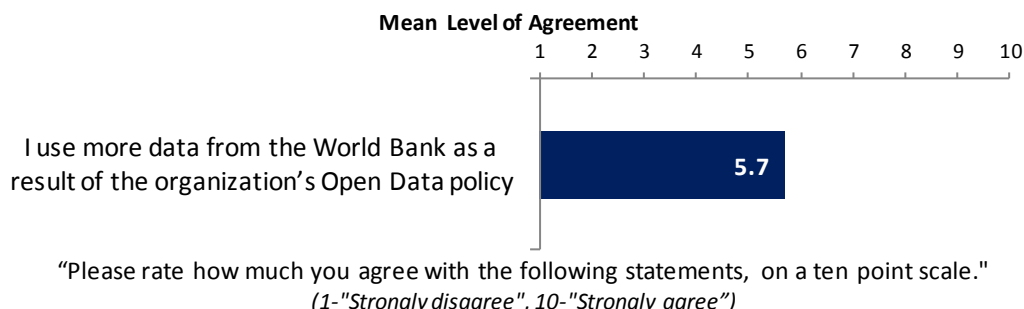

"Have you requested information from the World Bank on its activities in the past year?"

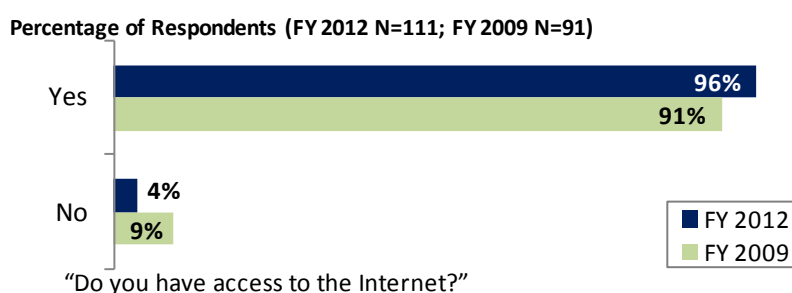

"Were you able to obtain this information?"

X. Communication and Openness (continued)

Access to Information (continued)

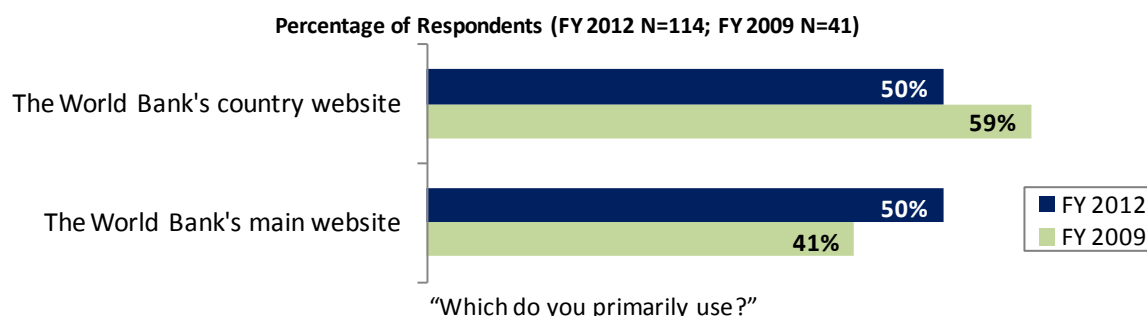

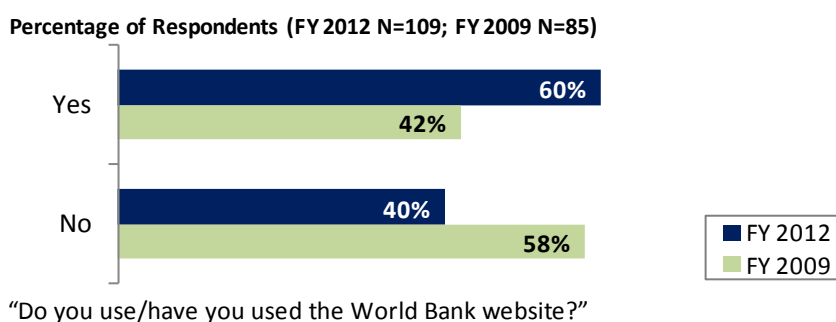

Internet Access

Website Usage

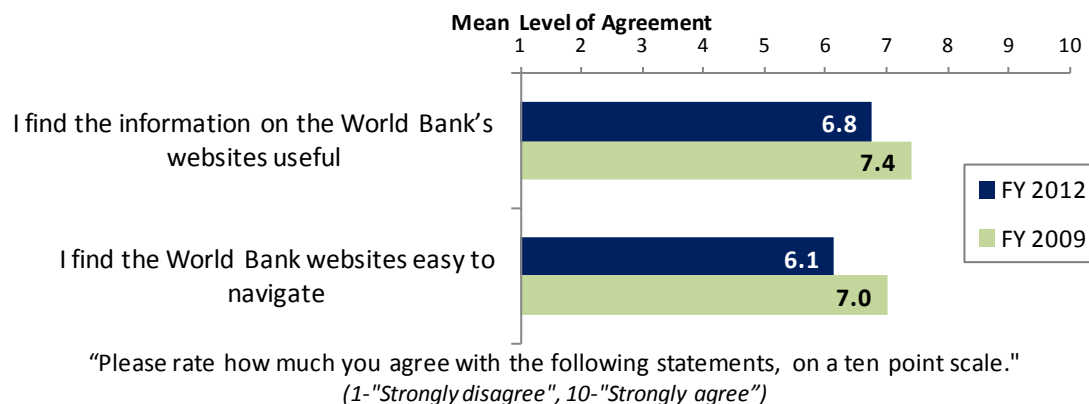

- Significantly more respondents in this year's survey indicated that they use/have used the World Bank website compared to respondents in the FY '09 country survey.
- Significantly more respondents from Luanda indicated that they use/have used the World Bank website compared to respondents from other geographic locations.

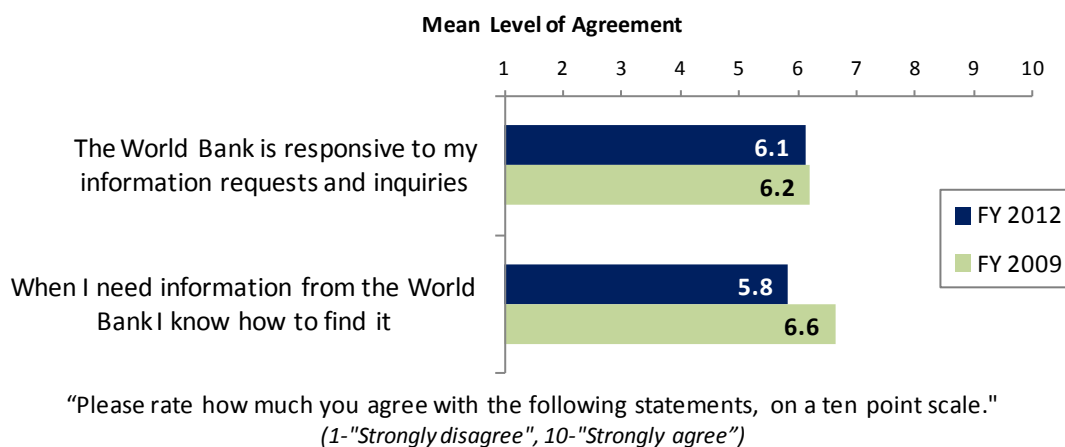

X. Communication and Openness (continued)

Website Evaluation

- Respondents from the office of the President/Prime Minister/Minister and consultants/contractors on Bank supported projects had the highest levels of agreement that the information on the World Bank's websites is useful and that the Bank websites are easy to navigate whereas respondents from the media and academia/research institutes/think tanks had significantly lower levels of agreement.

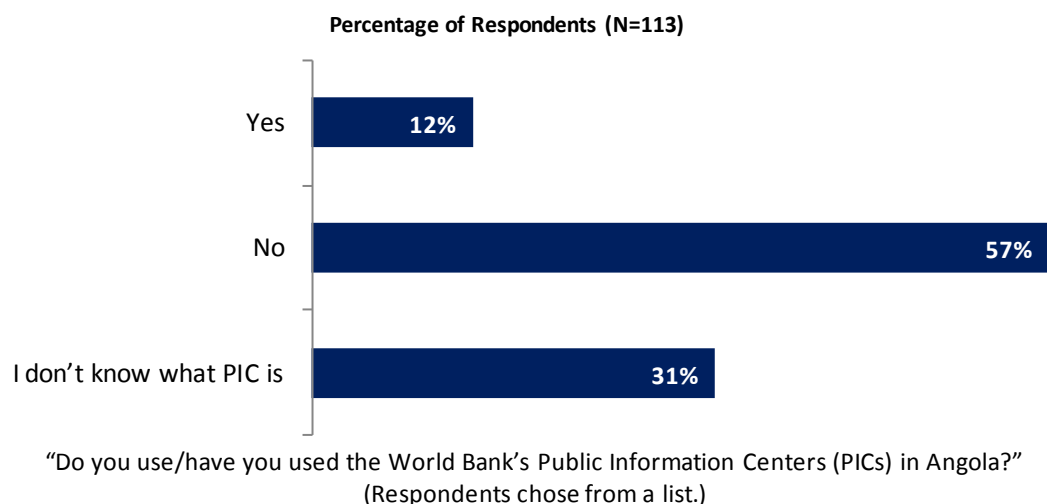

Information Sharing

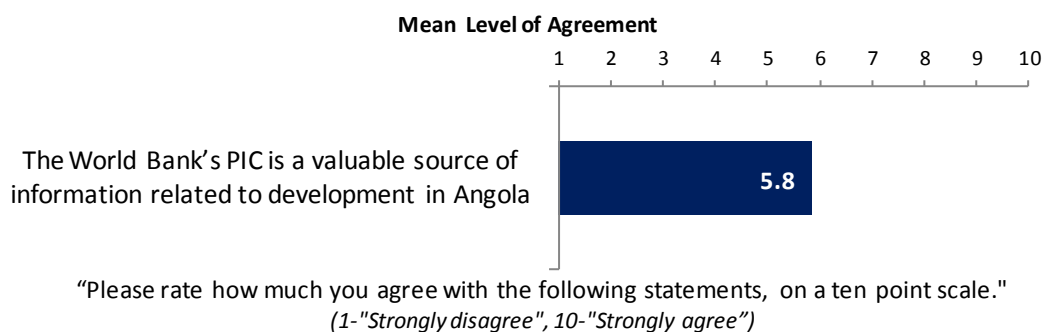

X. Communication and Openness (continued)

Public Information Services

- Consultants/contractors on Bank supported projects and respondents from CSOs had the highest levels of agreement that the World Bank's PIC is a valuable source of information related to development in Angola whereas respondents from the media and private sector organizations/financial sector/private banks had significantly lower levels of agreement.

Appendix F: Angola FY 2012 Questionnaire

World Bank Country Survey FY12 – Angola

The World Bank is interested in gauging the views of clients and partners who are either involved in development in Angola or who observe activities related to social and economic development. The following survey is meant to give the World Bank's team that works in Angola, more in-depth insight into how the Bank's work is perceived. This is one tool the World Bank uses to assess the views of its critical stakeholders. With this understanding, the World Bank hopes to develop more effective strategies, outreach and programs that support development in Angola. The World Bank commissioned an independent firm to oversee the logistics of this effort in Angola. This ensures anonymity and confidentiality. We hope you'll be candid. To complete the survey, please circle the number that most accurately reflects your answer. **If you prefer not to answer a question, please leave it blank.**

PLEASE NOTE: IN SOME CASES THE SURVEY WILL ASK FOR A SPECIFIC NUMBER OF RESPONSES. PLEASE DO NOT CHOOSE ANY MORE THAN REQUESTED. IF MORE RESPONSES ARE CHOSEN, DATA CANNOT BE INCLUDED IN ANALYSIS.
