Sampling

Sampling Procedure

The Peru panel was built on a nationally representative sample of 1,500 households. The sample was based on the sampling frame for the National Household Survey (ENAHO) conducted by the Peruvian National Statistics Office (INEI) every three months.

In Peru, the sample selection was guided by the following criteria: (i) the sample should be representative nationally, and in urban and rural areas, and (ii) households close to poverty line should be oversampled because policy decisions in time of crises need to be especially mindful of the poor and vulnerable. For the purposes of this project, "close to poverty line" was defined as 40 percent of consumption distribution that symmetrically band the national poverty line: 20 percent above and 20 percent below. In 27 percent of Peruvian households monthly per capita consumption was below the moderate poverty line in 2010 (ENAHO). Those households whose monthly per capita consumption falls between 7 and 47 percent of the national distribution were oversampled.

The L2L sample frame comprises all the panel conglomerados from the fourth trimester of ENAHO 2010, or 281 conglomerados.

Detailed information about the sampling procedure is available in "Listening to LAC: Using Mobile Phones for High Frequency Data Collection, Final Report" (p. 65-69) and "The World Bank Listening to LAC (L2L) Pilot Project Sample Design for Peru."

Deviations from Sample Design

A number of restive communities in Peru did not allow Gallup's interviewers to enter the area. Where possible, these were replaced following INEI's standard methodology. When confronted with a problem in a particular location, INEI moves to the next "Centro Poblado" in the same "Conglomerado."

Response Rate

In Peru, 67 percent of recruited households failed to answer the first round of follow-up surveys. Attrition slightly increased with each wave of the survey (between 1 and 3 percentage points per wave), reaching 75 percent in wave 6.

As part of the survey administration process Gallup implemented a number of mechanisms to maximize the response rate and panelist retention. The following strategies were applied to respondents who did not replay first time:

- The surveys were left open for responses for up to 2 weeks after the original transmission of the survey (from original call in the case of IVR and CATI).
- First reminder was sent within 72 hours of first attempt (SMS and IVR).
- Second reminder was sent within 144 hours of first attempt (SMS and IVR).
- Call backs were made within 72 and 144 hours of first attempt (CATI); or
- Up to 2 call backs were made per appointment with respondent (CATI).

Also, in order to minimize non-response, three types of incentives were given. First, households that did not own a mobile phone were provided one for free. Approximately 200 phones were donated in Peru. Second, all communications between the interviewers and the households were free to the respondents. Finally, households were randomly assigned to one of three incentive levels: one-third of households received US\$1 in free airtime for each questionnaire they answered, one-third received US\$5 in free airtime, and one-third received no financial incentive (the control group).

Weighting

The sample design overrepresented conglomerates where household income was close to the poverty line (20% above or 20% below it) versus all other conglomerates. The oversample needed to be corrected by accounting for the sample selection probability by creating a base weight. The National Household Survey (ENAHO) data on the size of the conglomerates that made up the 2 L2L strata was used to create targets for the size of the L2L strata.

Using the ENAHO data, Gallup created targets for the distribution of the age of the head of household, and the highest level of education of the head of household. The L2L data were trimmed so as to balance bias (how close the demographics of the weighted data align to the targets) and efficiency (the size of the design effect from weighting). Then the data were renormalized so that the sum of the weights equals the number of observations.

Questionnaires

Overview

The following survey instruments were used in the project:

1) Initial face-to-face questionnaire

In Peru, the starting point was the ENAHO (National Household Survey) questionnaire. Step-wise regressions were done to select the set of questions that best predicted consumption. For the purposes of robustness, the regressions were also done with questions that best predicted income, which yielded the same results.

The survey gathered information on households' demographics, household infrastructure, employment, remittances, income, accidents, food security, self-perceptions on poverty, Internet access and cellphones use.

2) Monthly questionnaires (SMS, IVR, CATI)

The questionnaires were worded exactly the same way, regardless of the mode, which meant short questions, since SMS is limited to 160 characters. A maximum of 10 questions had to be chosen for the monthly questionnaire. In addition, two questions sought to ensure the validity of the responses by testing if the respondent was a member of the household. Most questions were time-variant and each questionnaire was repeated to observe if answers changed over time. All questions related to variables that strongly affect household welfare and are likely to change in times of crisis.

A maximum of 10 questions was chosen for the monthly questionnaire. In addition, two questions sought to ensure the validity of the responses by testing if the respondent was a member of the household. To accomplish this, the first two questions in each monthly questionnaire asked the respondent for their gender and year of birth, and the answers were compared to the household roster obtained during the face-to-face interview.

3) Final face-to-face questionnaire

Gallup conducted face-to-face closing surveys among 700 panelists. The researchers asked about issues the respondents had with mobile phones and coverage during the test. Panelists were also asked what would motivate them to keep on participating in a project like this in the future.

DATA COLLECTION NOTES

In Peru, households were randomly assigned to a communication mode (SMS, IVR, CATI), which stayed constant for all six waves of the survey.

Through a competitive bidding process, Gallup won the contract to implement L2L on the ground. Working with affiliates in Peru and Honduras, Gallup successfully completed the initial face-to-face interviews, monthly or bi-monthly surveys using mobile phones, and a final face-to-face interview of a sub-group of the initial sample. Gallup completed the face-to-face interviews as well as the IVR and CATI interviews in-house, and subcontracted the SMS interviews to an SMS aggregator.

Despite extensive planning by the World Bank and Gallup teams, no SMS messages went out during the week of April 23 due to an error by the SMS aggregator, which simply forgot to program the system to send out messages that week. However, in this case, the messages went out the next week and the response rates did not suffer as a result.

Name	Abbreviation	Affiliation
Gallup		

SUPERVISION

On average, 20 interviewers and 5 supervisors were trained in each country.

Gallup conducted a total of 12 training sessions with all its operational partners prior to launching the project. The training included:

- Survey methodology workshop aimed at identifying and reflecting on the most common sources of survey errors typically encountered in projects like the L2L
- Review of the L2L project's objectives and methodology
- Panel recruitment and management workshop, including incentive administration and other attrition containment strategies
- Detailed review of (and hands on training on) the L2L face-to-face questionnaire and recruitment protocol
- Live SMS survey self-administration session
- Live IVR survey self-administration session
- Pilot face-to-face survey administration followed by a simulated recruitment for the panel among a group of actual households.

V122	Q40	Q40. How many hours did you work on all your work activities last week(Main and Secondary)	discrete	numeric	

ID	Name	Label	Type	Format	Question
V123	Q41	Q41 [Enaho 505]. What was the main activity you performed last week	discrete	numeric	
V124	Q42	Q42 [Enaho 506]. What does the business, institution or company in which you work as your main activity last week do	discrete	numeric	
V125	Q43	Q43 [Enaho 507]. Thinking about last week, you performed at your main work or occupation as	discrete	numeric	
V126	Labor1_00	Labor1_00 [Q44]. During last month, did you or a member of your household lose his job	discrete	numeric	
V127	Labor2_00	Labor2_00 [Q45]. During last month, did you or a member of your household get a job	discrete	numeric	
V128	Q46	Q46. Thinking about last month, could you tell me if anyone in this household receive any remittances from relatives or friends who live out of the city or abroad or not	discrete	numeric	
V129	Q47	Q47. The remittances received in this household do mainly come from people who live in another city in the country or from people who live abroad	discrete	numeric	
V130	Q48	Q48. What is the approximate value of the remittances received per month in this household	discrete	numeric	
V131	Q49	Q49. Could you tell me, approximately, out of the total income earned per month in this household, what would be the percentage of remittances	discrete	numeric	
V132	NoChildren1_00	NoChildren1_00 [Q50]. Thinking about last month, did your household receive more, less or the same amount of remittances than last month, or you did not receive any	discrete	numeric	
V133	Education1_00	Education1_00 [Q51]. Now, thinking about last month, did anyone in your household has been absent from school due to lack of money	discrete	numeric	
V134	Education2_00	Education2_00 [Q52]. During last month did any member of your household has been absent from school due to sickness	discrete	numeric	
V135	NoChildren2_00	NoChildren2_00 [Q53]. In the last month, has any member of your household received less income due to sickness	discrete	numeric	
V136	Security1_00	Security1_00 [Q54]. During last month did any member of your household have a personal accident that resulted in an expense greater than 20 percent of the monthly income of your household	discrete	numeric	
V137	Security2_00	Security2_00 [Q55]. In the last month, has a member of you household been robbed	discrete	numeric	
V138	EconOutlook1_00	EconOutlook1_00 [Q56]. Would you say that the income of your household during last month was greater, less or the same as last month	discrete	numeric	
V139	Food2_00	Food2_00 [Q57]. Now I would like you to think about the last 3 months, did you ever not have any food due to lack of money or other resources	discrete	numeric	
V140	Q58_1	Q58_1. Has any of the following situations happened to a member of your household in the last three years (1st response)	discrete	numeric	
V141	Q58_2	Q58_2. Has any of the following situations happened to a member of your household in the last three years (2nd response)	discrete	numeric	
V142	Q58_3	Q58_3. Has any of the following situations happened to a member of your household in the last three years (3rd response)	discrete	numeric	
V143	Q58_4	Q58_4. Has any of the following situations happened to a member of your household in the last three years (4th response)	discrete	numeric	
V144	Q58_5	Q58_5. Has any of the following situations happened to a member of your household in the last three years (5th response)	discrete	numeric	
V145	Q59	Q59. During the last three years, that is, from 2008 to 2012, did you change your city of residence	discrete	numeric	

ID	Name	Label	Type	Format	Question
V146	Q59_place	Q59_place. Where did you live before	discrete	numeric	
V147	Q60	Q60. Do you plan to change your residence in the next 6 months	discrete	numeric	
V148	Q61	Q61. Excuse me if I have already asked you this question, do you have a cell phone	discrete	numeric	
V149	Q61A	Q61A. How many cell phones	discrete	numeric	
V150	Q62	Q62. Is your cell phone service pre-paid or post-paid	discrete	numeric	
V151	Q62A	Q62A. What kind of Post-paid	discrete	numeric	
V152	Q63_A	Q63_A. Approximately how much do you spend on your cell phone(s) per month (Soles)	discrete	numeric	
V153	Q63_B	Q63_B. Approximately how much do you spend on your cell phone(s) per month (Dollars)	discrete	numeric	
V154	Q64	Q64. Could you tell me which company provides you the cell phone service	discrete	numeric	
V155	Q65	Q65. Could you tell me how many cell phones are there in this household	discrete	numeric	
V156	Q65A	Q65A. Is there a cell phone in the household that has a different mobile network operator from the one your cell phone has	discrete	numeric	
V157	Q65A1_1	Q65A1_1. Which one (1st response)	discrete	numeric	
V158	Q65A1_2	Q65A1_2. Which one (2nd response)	discrete	numeric	
V159	Q65A1_3	Q65A1_3. Which one (3rd response)	discrete	numeric	
V160	Q65B_1	Q65B_1. With which mobile network the cell phones from other members of the household works (1st response)	discrete	numeric	
V161	Q65B_2	Q65B_2. With which mobile network the cell phones from other members of the household works (2nd response)	discrete	numeric	
V162	Q65B_3	Q65B_3. With which mobile network the cell phones from other members of the household works (3rd response)	discrete	numeric	
V163	Q66	Q66. Do you know how to send and receive text messages	discrete	numeric	
V164	Q67	Q67. How often would you say you send text messages? That is, you would say you send text messages	discrete	numeric	
V165	Q68	Q68. If I wanted to get in touch with you through a text message,... what time would you be more likely to read and answer it immediately	discrete	numeric	
V166	Q69	Q69. Is there another person in this household who is over 15 and can read and receive text messages	discrete	numeric	
V167	Q70	Q70. Do you have e-mail	discrete	numeric	
V168	Q70A1	Q70A1. Could you please give me your cell phone number	discrete	numeric	
V169	Q70A1_REASON	Q70A1_REASON. Reason for refusing cell number	discrete	numeric	
V170	INVITATION_FINAL	INVITATION_FINAL. Do you voluntarily accept to participate on this phase of the project, answering the surveys we will be sending you in the next 6 months	discrete	numeric	
V171	NOTE	NOTE. Mrs./Mr. How often in a normal week you go to places where you get mobile signal	discrete	numeric	
V172	NOTE_1	NOTE_1. INTERVIEWER: Register participation summary	discrete	numeric	
V173	PARTICIPATION	PARTICIPATION. Participation	discrete	character	
V174	QR1	QR1. Reasons for not participating in panel	discrete	numeric	
V175	COMPLETE_01	COMPLETE_01. Wave 1 - completed monthly survey	discrete	numeric	
V176	COMPLETE_METHOD_01	COMPLETE_METHOD_01. WAVE 1 - METHOD OF COMPLETED MONTHLY SURVEY	discrete	numeric	

ID	Name	Label	Type	Format	Question
V177	DATE_RESPONDED_01	DATE_RESPONDED_01. Monthly survey, date responded	discrete	character	
V178	Validation1_01	Validation1_01. When were you born (the respondent)?	discrete	numeric	
V179	Validation2_01	Validation2_01. Are you male?	discrete	numeric	
V180	Labor1_01	Labor1_01. In the last month, did you, or a member from your household lose his/her job?	discrete	numeric	
V181	Labor2_01	Labor2_01. In the last month, did you, or a member from your household get a job?	discrete	numeric

PROYECTO LSL PERU identification (UNIQUE_ID)

File: World_Bank_Peru_L2L_HH_Roster

Overview

Type: Discrete	Valid cases: 3042
Format: numeric	Invalid: 0
Width: 4	Minimum: 1
Decimals: 0	Maximum: 1462
Range: 1-1462	

Q1E_AGE_01: Age (1st member of HH) (Q1E_AGE_99)

File: World_Bank_Peru_L2L_HH_Roster

Overview

Type: Discrete	Valid cases: 3042
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Q1E_GEN_01: Gender (1st member of HH) (Q1E_GEN_99)

File: World_Bank_Peru_L2L_HH_Roster

Overview

Type: Discrete	Valid cases: 3042
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-2	

UNIQUE_ID. UNIQUE IDENTIFIER (UNIQUE_ID)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 7	Minimum: 1000001
Decimals: 0	Maximum: 1001658
Range: 1000001-1001658	

**PRIMARY_SURVEY_ID: Primary survey ID (aka survey_ID)
(PRIMARY_SURVEY_ID)**

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 4	Minimum: 1
Decimals: 0	Maximum: 1500
Range: 1-1500	

**SECONDARY_SURVEY_ID: Secondary survey ID (aka sustituto,
letra) (SECONDARY_SURVEY_ID)**

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-4	

PANEL_YN: Panel participant (PANEL_YN)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-2	

CONGLOMERADO. Sample Unit (CONGLOMERADO)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 4	Minimum: 25
Decimals: 0	Maximum: 3391
Range: 25-3391	

METHOD. Methodology (may be updated) (METHOD)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-3	

METHOD_ORIG. Methodology (will always show original) (METHOD_ORIG)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-3	

TOTAL. Total number of persons in HH (TOTAL)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-14	

PERSONS_15. Number of persons 15+ in HH (PERSONS_15)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-12	

INTERVIEWER. Interviewer (INTERVIEWER)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview

Type: Discrete	Valid cases: 1658
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

SUPERVISOR. Supervisor (SUPERVISOR)

File: World_Bank_Peru_L2L_HH_All_Modes

Overview
