Sampling

Sampling Procedure

MICRODATA SOURCE: National Statistical Service of Greece

SAMPLE DESIGN: All the proccessed data (10% of the total) by NSSG

SAMPLE UNIT: Household

SAMPLE FRACTION: 10%

SAMPLE UNIVERSE: Microdata are available for 100% of the population.

SAMPLE SIZE (person records): 923,108

Response Rate

COVERAGE: 100%

Weighting

Self-weighting (expansion factor=10)

Questionnaires

Overview

P1 for private households

Data Collection

Data Collection Dates

Start	End	Cycle
1981-04-05	1981-04-05	N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

De facto, CENSUS DAY: April 5, 1981, FIELD WORK PERIOD: Mapping stage begins three to four months before the Census day. All the households are interviewed during the Census day.

SUPERVISION

Direct enumeration

File Description

Variable List

GRC1981-H-H

Content	Household record
Cases	0
Variable(s)	52
Structure	Type: relational Keys: SERIAL(Household serial number)
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	UNREL	Number of unrelated persons	discrete	numeric	
V9	REGIONW	Continent and region of country	discrete	numeric	
V10	ENUTS1	NUTS1 Region, Europe	discrete	numeric	
V11	ENUTS2	NUTS2 Region, Europe	discrete	numeric	
V12	ENUTS3	NUTS3 Region, Europe	discrete	numeric	
V13	WATSUP	Water supply	discrete	numeric	
V14	SEWAGE	Sewage	discrete	numeric	
V15	ROOMS	Number of rooms	discrete	numeric	
V16	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V17	TOILET	Toilet	discrete	numeric	
V18	BATH	Bathing facilities	discrete	numeric	
V19	HHTYPE	Household classification	discrete	numeric	
V20	NFAMS	Number of families in household	discrete	numeric	
V21	HEADLOC	Head's location in household	contin	numeric	
V22	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V23	GR1981A_0001	Dwelling number	contin	numeric	Dwelling number
V24	GR1981A_0006	Number of persons in household	discrete	numeric	Number of persons in household

ID	Name	Label	Type	Format	Question
V25	GR1981A_0033	Department	discrete	numeric	(Comment: Identification of the dwelling) ___ Nomos ___ _ _ _ _ _ Geographical code ___ Province _ _ _ _ Sector ___ Municipality or commune _ _ Section ___ Locality (town or village) _ _ _ _ Block number ___ Street and number ___ If there is no street, indicate the location and number or the owner and the building's number. _ _ Sequential number of the dwelling (within the section) _ _ Sequential number of the household (within the section) [] 1 Within the locality [] 2 Outside the locality
V26	GR1981A_0017	Municipality	discrete	numeric	(Comment: Identification of the dwelling) ___ Nomos ___ _ _ _ _ _ Geographical code ___ Province _ _ _ _ Sector ___ Municipality or commune _ _ Section ___ Locality (town or village) _ _ _ _ Block number ___ Street and number ___ If there is no street, indicate the location and number or the owner and the building's number. _ _ Sequential number of the dwelling (within the section) _ _ Sequential number of the household (within the section) [] 1 Within the locality [] 2 Outside the locality
V27	GR1981A_0019	Location of dwelling in the locality (town or village)	discrete	numeric	(Comment: Identification of the dwelling) ___ Nomos ___ _ _ _ _ _ Geographical code ___ Province _ _ _ _ Sector ___ Municipality or commune _ _ Section ___ Locality (town or village) _ _ _ _ Block number ___ Street and number ___ If there is no street, indicate the location and number or the owner and the building's number. _ _ Sequential number of the dwelling (within the section) _ _ Sequential number of the household (within the section) [] 1 Within the locality [] 2 Outside the locality
V28	GR1981A_0020	Type of dwelling	discrete	numeric	1. Type of dwelling [] 1 Regular dwelling [] 2 Other building intended for housing (hut, shed, etc.) [] 3 Other building not intended for housing (inhabited shop, etc.) [] 4 Dwelling within collective residence
V29	GR1981A_0021	Type of dwelling 2	discrete	numeric	2. Characteristics of regular dwelling Occupied: [] 1 Main residence [] 2 Second or vacation residence Vacant: [] 3 For rent, for sale, etc. [] 4 Second or vacation residence _ _ Number of regular rooms (except kitchen) _ _ Of these, how many are used exclusively for professional purposes (offices, hairdressing salons, etc.)
V30	GR1981A_0022	Number of rooms	discrete	numeric	2. Characteristics of regular dwelling Occupied: [] 1 Main residence [] 2 Second or vacation residence Vacant: [] 3 For rent, for sale, etc. [] 4 Second or vacation residence _ _ Number of regular rooms (except kitchen) _ _ Of these, how many are used exclusively for professional purposes (offices, hairdressing salons, etc.) _ _ Number of rooms available for the household (including the kitchen)
V31	GR1981A_0023	Number of rooms used for professional purposes (offices etc.)	discrete	numeric	2. Characteristics of regular dwelling Occupied: [] 1 Main residence [] 2 Second or vacation residence Vacant: [] 3 For rent, for sale, etc. [] 4 Second or vacation residence _ _ Number of regular rooms (except kitchen) _ _ Of these, how many are used exclusively for professional purposes (offices, hairdressing salons, etc.)
V32	GR1981A_0024	Kitchen	discrete	numeric	Amenities of regular dwelling. 3. Kitchen: Is there a kitchen? [] Yes Does it meet the requirements of a regular room? [] 1 Yes [] 2 No [] 3 No kitchen available [3]
V33	GR1981A_0025	Electricity	discrete	numeric	Amenities of regular dwelling. 4. Electricity: Is there electricity? [] 1 Yes [] 2 No
V34	GR1981A_0026	Bathing facilities. Is there a bath or shower? (Question A5)	discrete	numeric	Amenities of regular dwelling. 5. Bathing facilities: Is there a bath or shower? [] 1 Yes [] 2 No
V35	GR1981A_0027	Water supply	discrete	numeric	Amenities of regular dwelling. 6. Water supply [] 1 In the dwelling [] 2 Outside the dwelling but in the building [] 3 Outside the building

ID	Name	Label	Type	Format	Question
V36	GR1981A_0028	Central heating	discrete	numeric	Amenities of regular dwelling. 7. Type of heating: Is there central heating? [] 1 Yes [] 2 No
V37	GR1981A_0029	Toilet	discrete	numeric	Amenities of regular dwelling. 8. Toilet With flush toilet: [] 1 Inside the dwelling [] 2 Outside the dwelling With non-flushing toilet: [] 3 Inside the dwelling [] 4 Outside the dwelling [] 5 No toilet available
V38	GR1981A_0030	Sewage disposal system	discrete	numeric	Amenities of regular dwelling. 9. Sewage disposal system [] 1 Sewage network [] 2 Other system (sink, etc.) [] 3 No sewage available
V39	GR1981A_0031	Household owner	discrete	numeric	10. Ownership: The owner of the dwelling is: [] 1 Individual person [] 2 Legal Entity of Private Law (Company, Union, etc.) [] 3 The State or Legal Entity of Public Law (Municipality, Social Insurance Organization, etc.)
V40	GR1981A_0032	Ownership	discrete	numeric	The householder or member of the household occupies the dwelling as: [] 1 Owner [] 2 Renter [] 3 Other
V41	GR1981A_0034	Strata	contin	numeric	Strata
V42	HHWT	Household weight	contin	numeric	
V43	GEO1_GR	Greece, Department 1971 - 2001 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V44	GEO2_GRX	Greece, Municipality 1971-2001 [Level 2; inconsistent boundaries, harmonized by name]	discrete	numeric	
V45	NCOUPLES	Number of married couples in household	discrete	numeric	
V46	NMOTHERS	Number of mothers in household	discrete	numeric	
V47	NFATHERS	Number of fathers in household	discrete	numeric	
V48	COUNTRY	Country	discrete	numeric	
V49	ELECTRIC	Electricity	discrete	numeric	
V50	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V51	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V52	STRATA	Strata identifier	contin	numeric

Variables

ID	Name	Label	Type	Format	Question
V53	PERNUM	Person number	contin	numeric	
V54	MOMLOC	Mother's location in household	contin	numeric	
V55	POPLOC	Father's location in household	contin	numeric	
V56	SPLOC	Spouse's location in household	contin	numeric	
V57	PARRULE	Rule for linking parent	discrete	numeric	
V58	SPRULE	Rule for linking spouse	discrete	numeric	
V59	STEPMOM	Probable stepmother	discrete	numeric	
V60	STEPPOP	Probable stepfather	discrete	numeric	
V61	POLYMAL	Man with more than one wife linked	discrete	numeric	
V62	POLY2ND	Woman is second or higher order wife	discrete	numeric	
V63	FAMUNIT	Family unit membership	contin	numeric	
V64	FAMSIZE	Number of own family members in household	discrete	numeric	
V65	NCHILD	Number of own children in household	discrete	numeric	
V66	NCHLT5	Number of own children under age 5 in household	discrete	numeric	
V67	ELDCH	Age of eldest own child in household	discrete	numeric	
V68	YNGCH	Age of youngest own child in household	discrete	numeric	
V69	RELATE	Relationship to household head [general version]	discrete	numeric	
V70	RELATED	Relationship to household head [detailed version]	discrete	numeric	
V71	ERELATE	Relationship to head, Europe	discrete	numeric	

ID	Name	Label	Type	Format	Question
V72	AGE	Age	discrete	numeric	
V73	AGE2	Age, grouped into intervals	discrete	numeric	
V74	SEX	Sex	discrete	numeric	
V75	MARST	Marital status [general version]	discrete	numeric	
V76	MARSTD	Marital status [detailed version]	discrete	numeric	
V77	EMARST	Marital status, Europe	discrete	numeric	
V78	BIRTHYR	Year of birth	discrete	numeric	
V79	BIRTHMO	Month of birth	discrete	numeric	
V80	CITIZEN	Citizenship	discrete	numeric	
V81	NATION	Country of citizenship	discrete	numeric	
V82	LIT	Literacy	discrete	numeric	
V83	EDUCGR	Educational attainment, Greece	discrete	numeric	
V84	EMPSTAT	Activity status (employment status) [general version]	discrete	numeric	
V85	EMPSTATD	Activity status (employment status) [detailed version]	discrete	numeric	
V86	OCCISCO	Occupation, ISCO general	discrete	numeric	
V87	OCC	Occupation, unrecoded	contin	numeric	
V88	INDGEN	Industry, general recode	discrete	numeric	
V89	IND	Industry, unrecoded	contin	numeric	
V90	CLASSWK	Status in employment (class of worker) [general version]	discrete	numeric	
V91	CLASSWKD	Status in employment (class of worker) [detailed version]	discrete	numeric	
V92	MIGGR2	Department of residence 5 year ago, Greece	discrete	numeric	
V93	ISCO68A	Occupation, ISCO-1968, 3-digit	discrete	numeric	
V94	GR1981A_0003	Person number (within household)	discrete	numeric	Person number (within household)
V95	GR1981A_0400	Person number, within household	discrete	numeric	Person number, within household
V96	GR1981A_0401	Present and temporarily absent members of the household	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 2. Householder (whether present or temporarily absent) and kinship or relation to the householder of other persons being enumerated For person with line number 101-Householder: [] 1 Present [] 0 Absent (temporarily) If temporarily absent, is now: [] In this municipality or Commune Other (indicate): ___ Municipality or commune ___ Province or foreign country ___ Reason for absence

ID	Name	Label	Type	Format	Question
V97	GR1981A_0402	Kinship or relation to the householder	discrete	numeric	B. Data pertaining to the householder Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.)
V98	GR1981A_0403	Sex	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 4. Sex [] 1 Male [] 2 Female
V99	GR1981A_0404	Legal marital status	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 5. Legal Marital Status [] 1 Single [] 2 Married [] 3 Widowed [] 4 Divorced
V100	GR1981A_0405	Year of birth	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 6. Year of birth: Fill in the last three digits of the year of birth. For persons born in 1979, 1980, or 1981, also fill in the month of birth (e.g., for October, fill in "10"; for December, fill in "12") _ _ _ _ Person with line number 101-householder: Year of birth _ _ _ _ Persons with line numbers 102-107 and 201-202: Year of birth _ _ If born in 1979, 1980 or 1981, specify the month of birth
V101	GR1981A_0406	Month of birth	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 6. Year of birth: Fill in the last three digits of the year of birth. For persons born in 1979, 1980, or 1981, also fill in the month of birth (e.g., for October, fill in "10"; for December, fill in "12") _ _ _ _ Person with line number 101-householder: Year of birth _ _ _ _ Persons with line numbers 102-107 and 201-202: Year of birth _ _ If born in 1979, 1980 or 1981, specify the month of birth
V102	GR1981A_0407	Country of citizenship	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 7. Citizenship: If a citizen of Greece and of another country, supply both answers. [] 1 Greece [] 2 Without nationality ___ _ _ Other country (indicate country)
V103	GR1981A_0408	Place of registration	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 8. If a Greek citizen, in which Municipality or Commune is he or she registered? [] 1 This Municipality or Commune Other (indicate): ___ Municipality or Commune __ _ _ _ _ _ _ Province
V104	GR1981A_0409	Municipality of registration	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 8. If a Greek citizen, in which Municipality or Commune is he or she registered? [] 1 This Municipality or Commune Other (indicate): ___ Municipality or Commune __ _ _ _ _ _ _ Province
V105	GR1981A_0410	Place of usual residence in December 1975 (Question C9)	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 9. In which Municipality or Commune was his or her permanent residence in December 1975? Do not answer for children born after January 1, 1976. [] 1 This Municipality or Commune Other (indicate): ___ Municipality or Commune ___ _ _ _ _ _ _ Province or Foreign country

ID	Name	Label	Type	Format	Question
V106	GR1981A_0411	Country or municipality of usual residence in December 1975	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 9. In which Municipality or Commune was his or her permanent residence in December 1975? Do not answer for children born after January 1, 1976. [] 1 This Municipality or Commune Other (indicate): ___ Municipality or Commune ___ _ _ _ _ _ _ Province or Foreign country
V107	GR1981A_0412	Level of education	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. 10. Level of education: Mark an X next to the answer that corresponds to the highest degree attained by the respondent. In addition, in cases 1 or 2, for higher education degrees from a university or other school of higher education, specify: a) the educational institution and b) the department they graduated from. [] 1 Higher education (university) degree ___ (Educational Institution) ___ _ _ _ (Department) [] 2 Higher education other, non-university school degree ___ (Educational Institution) ___ _ _ _ (Department) [] 3 Now attending university or other school of higher education [] 4 Secondary education certificate (6-grade gymnasium) [] 5 Lower secondary school certificate [] 6 Primary school certificate [] 7 Dropped out of primary school but knows how to read and write [] 8 Does not know how to read and write
V108	GR1981A_0413	University or higher education school	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. 10. Level of education: Mark an X next to the answer that corresponds to the highest degree attained by the respondent. In addition, in cases 1 or 2, for higher education degrees from a university or other school of higher education, specify: a) the educational institution and b) the department they graduated from. [] 1 Higher education (university) degree ___ (Educational Institution) ___ _ _ _ (Department) [] 2 Higher education other, non-university school degree ___ (Educational Institution) ___ _ _ _ (Department) [] 3 Now attending university or other school of higher education [] 4 Secondary education certificate (6-grade gymnasium) [] 5 Lower secondary school certificate [] 6 Primary school certificate [] 7 Dropped out of primary school but knows how to read and write [] 8 Does not know how to read and write
V109	GR1981A_0414	Employment status	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 11. What is his/her main activity? Specify working even if the person is only working seasonally for money or pay or if the person is assisting in the family business or farm without pay. Specify job seeking if persons are looking for work, regardless of whether they were dismissed from their work, or the business closed, or they are seeking their first job. If they do not work and are not seeking work, then, then specify: Are they engaged in household activities in their own home? Is the person a pupil or student? Is he a conscript? Etc. Put an X next to only one answer. [] 1 Working [] 2 Job seeker [] 3 Household activities [] 4 Pupil or student [] 5 Conscript ___ [] 6 Other (Indicate)
V110	GR1981A_0415	Occupation	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 12. If he/she was working or seeking work (answer 1 or 2 in question 11) Answers to questions a and b must be specific. For question c, put an X in the appropriate space. If the person was seeking his or her first job, write "new worker" for questions a and b, and do not answer question c. ___ _ _ _ a) What type of work are they doing (or were they doing, the last time they worked)? ___ _ _ _ b) In what type of establishment, enterprise, farm, service, etc. do they work (or did they work, the last time they worked)? c) What is their occupational status in this job (or in the last job that they held)? [] 1 Employer [] 2 Self-employed [] 3 Assistant in the family business or farm [] 4 Employee or wage-earner

ID	Name	Label	Type	Format	Question
V111	GR1981A_0416	Industry	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 12. If he/she was working or seeking work (answer 1 or 2 in question 11) Answers to questions a and b must be specific. For question c, put an X in the appropriate space. If the person was seeking his or her first job, write "new worker" for questions a and b, and do not answer question c. ___ _ _ _ a) What type of work are they doing (or were they doing, the last time they worked)? ___ _ _ _ b) In what type of establishment, enterprise, farm, service, etc. do they work (or did they work, the last time they worked)? c) What is their occupational status in this job (or in the last job that they held)? [] 1 Employer [] 2 Self-employed [] 3 Assistant in the family business or farm [] 4 Employee or wage-earner
V112	GR1981A_0417	Class of worker	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 12. If he/she was working or seeking work (answer 1 or 2 in question 11) Answers to questions a and b must be specific. For question c, put an X in the appropriate space. If the person was seeking his or her first job, write "new worker" for questions a and b, and do not answer question c. ___ _ _ _ a) What type of work are they doing (or were they doing, the last time they worked)? ___ _ _ _ b) In what type of establishment, enterprise, farm, service, etc. do they work (or did they work, the last time they worked)? c) What is their occupational status in this job (or in the last job that they held)? [] 1 Employer [] 2 Self-employed [] 3 Assistant in the family business or farm [] 4 Employee or wage-earner
V113	GR1981A_0418	Hours of weekly employment	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 13. If working (answer 1 in question 11), for how many hours did he/she work during the previous week (8-14 March)? If he/she did not work at all, write the word ZERO. _ _ hours If ZERO or less than 15 hours, the reason was: [] 1 Seasonal work [] 2 Weather conditions [] 3 Leave or sickness [] 4 Other reason ___ (indicate)
V114	GR1981A_0419	Reason for lesser employment	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 13. If working (answer 1 in question 11), for how many hours did he/she work during the previous week (8-14 March)? If he/she did not work at all, write the word ZERO. _ _ hours If ZERO or less than 15 hours, the reason was: [] 1 Seasonal work [] 2 Weather conditions [] 3 Leave or sickness [] 4 Other reason ___ (indicate)
V115	GR1981A_0420	Unemployed for less than one month or more	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 14. If a job seeker (answer 2 in question 11), for how many months was he/she seeking work? [] 1 Up to one month _ _ More, i. e., number of months
V116	GR1981A_0421	Months unemployed if more than one	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. Occupation [Questions 11 to 14] 14. If a job seeker (answer 2 in question 11), for how many months was he/she seeking work? [] 1 Up to one month _ _ More, i. e., number of months
V117	GR1981A_0422	Possess agricultural land	discrete	numeric	The following questions should be answered only by persons born in 1970 or earlier. 15. Is he/she the head of a farm or agricultural enterprise? [] 1 Yes [] 2 No
V118	GR1981A_0423	Age	discrete	numeric	Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.) 6. Year of birth: Fill in the last three digits of the year of birth. For persons born in 1979, 1980, or 1981, also fill in the month of birth (e.g., for October, fill in "10"; for December, fill in "12") _ _ _ _ Person with line number 101-householder: Year of birth _ _ _ _ Persons with line numbers 102-107 and 201-202: Year of birth _ _ If born in 1979, 1980 or 1981, specify the month of birth

ID	Name	Label	Type	Format	Question
V119	PERWT	Person weight	contin	numeric	
V120	MIGRATE5	Migration status, 5 years	discrete	numeric	
V121	EDATTAIN	Educational attainment, international recode [general version]	discrete	numeric	
V122	EDATTAIND	Educational attainment, international recode [detailed version]	discrete	numeric	
V123	EEDATTAIN	Educational attainment, Europe	discrete	numeric	
V124	EEMPSTAT	Activity status (employment status), Europe	discrete	numeric	
V125	ECLASSWK	Status in employment (class of worker), Europe	discrete	numeric	
V126	HRSWORK1	Hours worked per week	discrete	numeric	
V127	HRSWORK2	Hours worked per week, categorized	discrete	numeric	
V128	MIGCTRY5	Country of residence 5 years ago	discrete	numeric	
V129	YEARP	Year [person version]	contin	numeric	
V130	SAMPLEP	IPUMS sample identifier [person version]	contin	numeric	
V131	SERIAL	Household serial number [person version]	contin	numeric	
V132	COUNTRYP	Country [person version]	contin	numeric	
V133	RECTYPEP	Record type [person version]	discrete	character	

Record type (RECTYPE)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: character	Invalid: 0
Width: 1	

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Year (YEAR)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1960-2011	

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	
Range: 32197001-894201001	

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Household serial number (SERIAL)
File: GRC1981-H-H

Household serial number (SERIAL)
File: GRC1981-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 10	
Decimals: 0	

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
Colombia 1993, 2005
Costa Rica 1984, 2000
Cuba 2002
Dominican Republic 1981, 2002, 2010
Ecuador 1990, 2001
Germany 1971
Hungary 1980, 1990, 2001
Jamaica 1982, 1991, 2001
Malaysia 1970, 1991, 2000
Mexico 1995, 1990, 2000, 2005
Nigeria 2006
Panama 2000
Peru 1993, 2007
Portugal 1981, 1991, 2001
Spain 1991
Uruguay 2011
Venezuela 1990, 2001
Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Number of person records in the household (PERSONS)
File: GRC1981-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)
File: GRC1981-H-H

Subsample number (SUBSAMP)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Number of unrelated persons (UNREL)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Continent and region of country (REGIONW)
File: GRC1981-H-H

Overview

Continent and region of country (REGIONW)
File: GRC1981-H-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 11-54

Valid cases: 0
Invalid: 0

Description

REGIONW identifies the continent and region of each country.

NUTS1 Region, Europe (ENUTS1)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 101-9999

Valid cases: 0
Invalid: 0

Description

ENUTS1 identifies the Nomenclature of Territorial Units for Statistics (NUTS) within Europe in which the household was enumerated. NUTS1 is the first level territorial units within countries. NUTS is a standard administrative division of the European Union, and was developed by the EU. The European Free Trade Association extends the NUTS system to several additional countries outside of the EU, and they are also incorporated into this variable.

The code labels include the standard code for the NUTS1 system and the name of the NUTS1 region, separated by a slash.

The full set of geography variables for the countries can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

NUTS2 Region, Europe (ENUTS2)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 111-3407

Valid cases: 0
Invalid: 0

Description

ENUTS2 identifies the Nomenclature of Territorial Units for Statistics (NUTS) within Europe in which the household was enumerated. NUTS2 is the second level territorial units within countries. NUTS is a standard administrative division of the European Union, and was developed by the EU. The European Free Trade Association extends the NUTS system to several additional countries outside of the EU, and they are also incorporated into this variable.

The code labels include the standard code for the NUTS2 system and the name of the NUTS2 region, separated by a slash.

The full set of geography variables for the countries can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

NUTS3 Region, Europe (ENUTS3)
File: GRC1981-H-H

NUTS3 Region, Europe (ENUTS3)

Range: 0-99	

Number of rooms (ROOMS)
File: GRC1981-H-H

Description

ROOMS indicates the number of rooms occupied by the housing unit.

Kitchen or cooking facilities (KITCHEN)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

Toilet (TOILET)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Bathing facilities (BATH)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

BATH indicates whether the household had access to bathing facilities and, in most cases, whether it had exclusive access.

Household classification (HHTYPE)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Household classification (HHTYPE)
File: GRC1981-H-H

Description

HHTYPE is a constructed variable that describes the composition of households.
HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Number of families in household (NFAMS)
File: GRC1981-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

Head's location in household (HEADLOC)
File: GRC1981-H-H

Overview

Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)
File: GRC1981-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 6	
Decimals: 0	
Range: 32002-894010	

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Dwelling number (GR1981A_0001)
File: GRC1981-H-H

Overview

Interviewer instructions

Type of dwelling (GR1981A_0020)
File: GRC1981-H-H

I. Basic definitions useful for the Housing Census

51. Edifice: is an ensemble of buildings or off-hand structures built on the same independent plot, having access to the street, regardless of the number of the plot legal owners (e.g. a block of flats). Consequently, an edifice may include one, two or more buildings, e.g. a farm with the storehouse and stables on the same plot, a factory with many buildings built on the same plot etc.

52. Building: is every permanent and independent structure having walls and roof, composed of one or more rooms or other space (i.e. of area more than 4 m2).
As a rule, buildings are having four (4) walls. But as a building is also considered a permanent structure that may be open in one or two sides as long as it is roofed (e.g. car workshop).

53. Dwelling: is, in general, a place distinct and independent from construction, built or converted in order to be used for housing, or if it were not intended for housing, it was used so during the census taking.

[p. 18]

Places intended for housing, but used during the census taking on the whole for other purposes and not housing, are not to be considered as dwellings.

Consequently, as a dwelling is considered:

a) An occupied or vacant dwelling, flat, room or series of rooms.
b) An occupied hut, shed, rovers' wagon, boat, tent, hotel etc.
c) A storehouse, mill, cave or any other roofed place used for housing during the census taking.

The basic element of a dwelling is its "distinct and independent" characteristic. A space is considered "distinct" if it is surrounded by walls, fences etc. and is covered by a roof, so that the individual or group of persons may be isolated from other persons in order to sleep or prepare and have his meals or be protected from the elements.

A space is considered "independent" if it has a direct entrance from the street, or a common staircase, a passage or arcade, when the inhabitants may come and go without having to go through the space occupied by another household.

54. Dwellings are distinguished as regular, non-regular and collective ones.

55. Regular dwelling: is considered the permanent and independent structure, composed of one regular room at least and intended to be used as a residence of a household.

56. Regular room: is considered the space inside the building that is 2m high and of area 4m2 at least and of shape allowing for a regular bed. In this respect, regular bedrooms, dining rooms, drawing-rooms, habitable basements and attics, servants' rooms, kitchens and other separate spaces used or intended for housing are considered as rooms.

[p. 19]

Corridors, verandas and halls are not considered as rooms. (* Halls that commune (lighted and aired directly from the outside grounds) and satisfy the conditions of a regular room are considered in exemption as rooms).

Spaces intended for laundries, baths, storerooms and toilets are not considered as rooms even if are of area more than 4 sq.m.

57. Non-regular dwellings: the following cases of dwellings are to be included in the census only if they were found to be inhabited during the census taking.

a) Other spaces intended for housing: are considered the structures constructed with off-hand and cheap material, such as huts, sheds, booths, without any preconceived design, in order to be inhabited by a household
b) Other spaces not intended for housing: are considered spaces like stables, barns, mills, garages, storehouses, offices, shops and basements that are not regular dwellings, nor were constructed or converted as such, but were inhabited during the census taking by one or more households.
In this category, the caves that were inhabited during the census taking are included.
c) Mobile home: is a type of lodging whose transport is possible due to its construction (caravan or tent) or it is a mobile unit (ship, yacht, boat, barge or rover's wagon), intended for housing.
Gypsy encampments are included in this category.

58. Collective dwellings: in this category the hotels (a), collective residences (b) and temporary quarters (c) are included.

68. Question 1, Type of dwelling
[Omitted, question 1 is repeated]
The definitions of each type of dwelling are given in paragraphs 53-58.

Type of dwelling 2 (GR1981A_0021)

Type of dwelling 2 (GR1981A_0021)
File: GRC1981-H-H

69. Question 2, Characteristics of regular dwelling

[Omitted, question 2 is repeated]

Occupied regular dwellings

In case 1 of regular occupied dwellings only the main residences will be recorded.

As main residence is considered that where the household resides for the main part of the year and is located as a rule close to the work place of its members.

The main residence is occupied:

a) If on Saturday night to Sunday 14th to 15th of March 1981 were sleeping in it one or more persons and
b) If the residence is occupied in general and its inhabitants did not sleep in it on Saturday night to Sunday 14th to 15th of March, because they were temporarily absent (e.g. on vacation, professional trip, party, night work, illness etc.).

In the cases where the household is using two or more residences for the same more or less period of time, as a main residence is considered the one that they reside during winter and the rest are to be considered as vacation or secondary residences.

[p.27]

In cases where these residences are used at the same time by a multi-member or well-off household and are close are to be considered as a single main residence (e.g. two flats in the same block or two separate dwellings in a single plot used by a single household).

70. In case 2, the answer for vacation or secondary occupied dwellings is to be recorded.

Vacation residence is the regular dwelling located usually far from the main residence of the household (on a mountain, near the sea, etc.) and is used for relaxation during summertime or at intervals during all seasons.

Secondary residence is considered the dwelling that is used at the same time with the main residence and is not a vacation one.

The main types of secondary residences are:

a) Dwelling close to the work place of the household, used continually all year, or at periods or at seasons by a member or members of the household along with the main residence (e.g. businessman's residence close to his business, farm, stock farmer's residence far from the locality of his main residence, summer residence of nomad stock farmer etc.).
b) Residence used by a household or member of the household at a certain period instead of their main residence, e.g. Athens residence of a household having its main residence in the country.

The vacation or secondary residences are considered as occupied if on Saturday night to Sunday 14th to 15th of March 1981 one or more persons were spending the night in them.

Vacant regular dwellings

71. For the vacant dwellings an answer is to be recorded in cases 3 and 4 of question 2.

Vacant is considered the dwelling that was uninhabited during the census taking because:

a) Is intended to let or for sale.
b) The owner immigrated or settled elsewhere.

[p. 28]

c) It is a new building in the stages of finishing or it is repaired and
d) It is used at certain periods as vacation or secondary residence (and there were not any persons spending the night on Saturday the 14th to 15th of March in it).

72. To let or for sale is considered the dwelling that is for these reasons vacant on the day of census taking.

Inhabited dwellings on the day of the census taking but that are soon to be inhabited by other people and are advertised as to be let or sale are to be considered as occupied.

73-74. [Omitted]

75. In the second part of question 2 the number of regular rooms excepting the kitchen of the dwelling is to be recorded in the spaces provided.

In this case there must always be an answer since it is not possible to be a regular dwelling without at least one (1) regular room.
[Omitted, the definition of a regular room is repeated].

If the dwelling has only one regular room that serves at the same time for all needs of the household, i.e. for sleeping, dining etc. this room is to be recorded in this case and in the Question 3 it must be noted that there is no kitchen. If kitchens are regular rooms they are not to be included in the number of regular rooms recorded in question 2, but they must be recorded on the number of rooms of the household in part B of Form P-1 (DATA Pertaining to the Householder).

[p. 29]

76. In the last case of the question, the number of regular rooms that are used exclusively for professional purposes is to be recorded. These rooms must not used at the same time or at are periods for the needs of the household (e.g. for sleeping, dining, or as drawing room, etc,), but only for professional purposes.

Regular rooms are considered to be used exclusively for professional purposes if there is in operation a workshop producing, repairing or assembling goods or it is a services shop (e.g. hairdressing etc.) or they are offices of professionals (of lawyers, engineers, doctors etc.), or where goods are stored or materials needed by the professional.

If there is not a regular room used for professional purposes a - is to be recorded.

File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description
This variable indicates whether the dwelling had a kitchen and if it meets the requirement of a regular room.

Universe
Regular dwellings

Literal question

Amenities of regular dwelling.

3. Kitchen: Is there a kitchen?
[] Yes

Does it meet the requirements of a regular room?
[] 1 Yes
[] 2 No
[] 3 No kitchen available [3]

Interviewer instructions

Kitchen (GR1981A_0024)
File: GRC1981-H-H

77. Question 3, Kitchen
[Omitted, question 3 is repeated]

Kitchen is a separate space, equipped and intended from its construction or renovation to serve for the preparation of the household's meals.

This space must be used for the before mentioned purposes regardless of whether or not is used for other purposes as well, i.e. dining, sleeping etc.

[p. 30]

The space will be considered as equipped if there is a permanent installation for the preparation of meals like a fireplace, electricity, gas.

If, there is a kitchen as described above, an answer on whether it meets the requirements of a regular room must be recorded.

Case 3 will be recorded if there is no kitchen available in the dwelling.

Invalid: 0

Description

This variable indicates if there is a bath or shower present in the dwelling.

Universe

Regular dwellings

Literal question

Amenities of regular dwelling.

5. Bathing facilities: Is there a bath or shower?

[] 1 Yes
[] 2 No

Interviewer instructions

79. Question 5, Bathing facilities

[Omitted, question 5 is repeated]

Yes will be recorded if there is in the dwelling a bath or shower permanently installed and outside the dwelling a hydraulic installation for their water supply as well as the flush toilet's.

Water supply (GR1981A_0027)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the type of water supply for the dwelling.

Universe

Regular dwellings

Literal question

Amenities of regular dwelling.

6. Water supply

[] 1 In the dwelling
[] 2 Outside the dwelling but in the building
[] 3 Outside the building

Interviewer instructions

Water supply (GR1981A_0027)
File: GRC1981-H-H

80. Question 6, Water supply

[Omitted, question 6 is repeated]

The question refers to the household's drinking water regardless of whether its quality.
There must be recorded only one answer even if the enumerated declare that they do not have drinking water.

Case 1 is recorded when there is a tap (hydraulic installation) connected to water supply network, inside the dwelling and not in any other space of the building.

Case 2 is recorded if the tap is outside the dwelling but inside the building, in a communal space of the building, in the courtyard or the building site.

Case 3 is recorded if the tap is on the street, the pavement, the square and in general outside the building.

In this case any other means of supplying water are included, i.e.:

a) Well or spring,
b) River, rivulet or lake (without network),
c) Cistern,
d) Cask

Central heating (GR1981A_0028)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

This variable indicates if the dwelling had central heating.

Universe

Regular dwellings

Literal question

Amenities of regular dwelling.

7. Type of heating: Is there central heating?

[] 1 Yes
[] 2 No

Interviewer instructions

81. Question 7, Type of heating

[Omitted, question 7 is repeated]

[p. 32]

The question refers to the central heating in block of flats, houses or flats.
A dwelling is considered to be centrally heated if heating is provided by a permanent installation found in a certain space of the building, dwelling or flat regardless of the energy source.

Toilet (GR1981A_0029)
File: GRC1981-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the dwelling had a toilet and type of the toilet.

Universe

Regular dwellings

Literal question

Amenities of regular dwelling.

8. Toilet

With flush toilet:
[] 1 Inside the dwelling
[] 2 Outside the dwelling

With non-flushing toilet:
[] 3 Inside the dwelling
[] 4 Outside the dwelling
[] 5 No toilet available

Interviewer instructions

82. Question 8, Toilet

[Omitted, question 8 is repeated]

Toilet is a specially built space so that the sewage is directly disposed in a sink or sewage network.

Cases 1 and 2 refer to flush toilets and cases 3 and 4 to toilets without a hydraulic installation.

In order to be a flush toilet the water supply must be through pipes and the water sewage outside the dwelling.

Case 1 is recorded if there is flush toilet inside the dwelling.

Case 2 is recorded if the flush toilet is outside the dwelling.

The toilet is considered outside the dwelling if it is in any other space inside the building.

Case 3 is recorded if the toilet without flush is inside the dwelling.

Case 4 is recorded if the toilet without flush is outside the dwelling.

[p. 33]

Case 5 is recorded if the household is using a toilet outside the building.

Sewage disposal system (GR1981A_0030)
File: GRC1981-H-H

Overview

Sewage disposal system (GR1981A_0030)
File: GRC1981-H-H

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Description

This variable indicates whether the dwelling had sewage disposal system and type of the system.

Universe

Regular dwellings

Literal question

Amenities of regular dwelling.

9. Sewage disposal system

[] 1 Sewage network
[] 2 Other system (sink, etc.)
[] 3 No sewage available

Interviewer instructions

83. Question 9, Sewage disposal system

[Omitted, question 9 is repeated]

Case 1 is recorded if the sewage disposal system is connected to the sewage network.

Case 2 is recorded if the sewage disposal system is a sink or other system.

Sewage in a sink is when the sink is located away from the toilet but is connected to it by a pipe or it is directly underneath of the toilet (like in some agricultural areas).

In this case, sewage directly to the sea or river is included.

If the sewage does not end to a sink or sewage network or river or sea then case 3 is recorded.

Household owner (GR1981A_0031)
File: GRC1981-H-H

Overview

Type: Discrete

Format: numeric

Width: 1

Decimals: 0

Range: 1-9

Valid cases: 0

Invalid: 0

Description

This variable indicates ownership of the dwelling -- private individual or other entity.

Universe

Regular dwellings

Literal question

10. Ownership: The owner of the dwelling is:

[] 1 Individual person
[] 2 Legal Entity of Private Law (Company, Union, etc.)
[] 3 The State or Legal Entity of Public Law (Municipality, Social Insurance Organization, etc.)

Interviewer instructions

Household owner (GR1981A_0031)
File: GRC1981-H-H

84. Question 10 Ownership

[Omitted, question 10 is repeated]

Case 1 is recorded if the owner of the dwelling is an individual, like the householder or any other member of the household or any other person that is not a member of the household.

Case 2 is recorded if the owner is a Legal Entity or Private Law (e.g. company, union etc.).

[p 34]

Case 3 is recorded if the owner is the State or Legal Entity of Public Law (e.g. Municipality, University, School, Hospital, Asylum, and any legal entity of public law).

Owner of the dwelling is the individual or legal entity that the dwelling belongs to and not the tenant that resides in it paying rent, without leave, or is allowed to use it without paying rent.

Ownership (GR1981A_0032)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description	

This variable indicates ownership status of the household owner identified in GR81A032.

Universe	

All households

Literal question	

The householder or member of the household occupies the dwelling as:

[] 1 Owner
[] 2 Renter
[] 3 Other

Strata (GR1981A_0034)
File: GRC1981-H-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	

Description	

This variable is the strata identifier for the sample. Strata is a constructed variable that captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

Universe	

All households

Literal question	

Strata

Household weight (HHWT)
File: GRC1981-H-H

Overview	

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Greece, Department 1971 - 2001 [Level 1; consistent boundaries, GIS] (GEO1_GR)
File: GRC1981-H-H

Overview	

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 300001-300104

Valid cases: 0
Invalid: 0

Description

GEO1_GR identifies the household's department within Greece in all sample years. Departments are the first level administrative units of the country. GEO1_GR is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1_GR can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Greece can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Greece. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Greece, Municipality 1971-2001 [Level 2; inconsistent boundaries, harmonized by name] (GEO2_GRX)
File: GRC1981-H-H

Overview	

Type: Discrete
Format: numeric
Width: 5
Decimals: 0
Range: 103-10499

Valid cases: 0
Invalid: 0

Description

Greece, Municipality 1971-2001 [Level 2; inconsistent boundaries, harmonized by name] (GEO2_GRX)
File: GRC1981-H-H

GEO2_GRX identifies the household's municipality within Greece in all sample years. Municipalities are the second level administrative units of the country, after departments. GEO2_GRX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Greece can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Greece. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Number of married couples in household (NCOUPLES)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

Number of fathers in household (NFATHERS)
File: GRC1981-H-H

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 32-894	

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

ELECTRIC indicates whether the household had access to electricity.

Ownership of dwelling [general version] (OWNERSHIP)
File: GRC1981-H-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)
File: GRC1981-H-H

Overview

Ownership of dwelling [detailed version] (OWNERSHIPD)
File: GRC1981-H-H

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Strata identifier (STRATA)
File: GRC1981-H-H

Overview

Type: Continuous
Format: numeric
Width: 12
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

Person number (PERNUM)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Mother's location in household (MOMLOC)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Father's location in household (POPLOC)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Spouse's location in household (SPLOC)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Rule for linking parent (PARRULE)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-52

Valid cases: 0
Invalid: 0

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Rule for linking spouse (SPRULE)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Probable stepmother (STEPMOM)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

0 = Biological mother or no mother of this person present in household.
1 = Mother has no children borne or surviving.
2 = Child reports mother is deceased.
3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
4 = Mother reports no children in the home.
5 = Age difference between mother and child was less than 12 or greater than 54 years.
6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Probable stepfather (STEPPOP)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-3

Valid cases: 0
Invalid: 0

Description

STEPPOP indicates whether a person's father, as identified by POPLOC , was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

0 = Biological father or no father of this person present in household.
1 = Child reports father is deceased.
2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

Man with more than one wife linked (POLYMAL)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Woman is second or higher order wife (POLY2ND)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Family unit membership (FAMUNIT)
File: GRC1981-P-H

Overview	

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 0
Invalid: 0

Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)
File: GRC1981-P-H

Overview	

Number of own family members in household (FAMSIZE)
File: GRC1981-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membebership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Age of eldest own child in household (ELDCH)
File: GRC1981-P-H

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)
File: GRC1981-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Relationship to household head [general version] (RELATE)
File: GRC1981-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)
File: GRC1981-P-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1000-9999	

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to head, Europe (ERELATE)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 10-99

Valid cases: 0
Invalid: 0

Description

ERELATE describes for the European samples the relationship of the individual to the head of household -- sometimes called the householder or reference person.

ERELATE has been classified according to the recommendations of the Conference of European Statisticians for the 2010 Population and Housing Censuses.

Age (AGE)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Age, grouped into intervals (AGE2)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-98

Valid cases: 0
Invalid: 0

Description

AGE2 gives computed years of age grouped into intervals.

Sex (SEX)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

SEX reports the sex (gender) of the respondent.

Marital status [general version] (MARST)
File: GRC1981-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)
File: GRC1981-P-H

Overview	
Type: Discrete	**Valid cases: 0**
Format: numeric	Invalid: 0

Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

EMARST describes for the European samples the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. European census instructions generally limit marital status to legal unions, but there are exceptions.

EMARST has been classified according to the recommendations given by the Conference of European Statisticians for the 2010 Population and Housing Censuses.

Year of birth (BIRTHYR)
File: GRC1981-P-H

Year of birth (BIRTHYR)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 0-9999

Valid cases: 0
Invalid: 0

Description

BIRTHYR gives the person's year of birth.

Month of birth (BIRTHMO)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

BIRTHMO indicates the person's month of birth.

Citizenship (CITIZEN)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

CITIZEN indicates the person's citizenship status within the country in which they were enumerated.

Country of citizenship (NATION)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 5
Decimals: 0
Range: 0-99999

Valid cases: 0
Invalid: 0

Description

NATION indicates the person's country of citizenship.

Literacy (LIT)
File: GRC1981-P-H

Literacy (LIT)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

Educational attainment, Greece (EDUCGR)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

EDUCGR indicates the person's educational attainment in terms of the level of schooling completed.

Activity status (employment status) [general version] (EMPSTAT)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)
File: GRC1981-P-H

Overview	

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Employment status is sometimes referred to in other sources as "activity status".

Occupation, ISCO general (OCCISCO)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

Occupation, unrecoded (OCC)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0

Valid cases: 0
Invalid: 0

Description

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Industry, general recode (INDGEN)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

Industry, general recode (INDGEN)
File: GRC1981-P-H

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

Industry, unrecoded (IND)
File: GRC1981-P-H

Overview	
Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	

Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

Status in employment (class of worker) [general version] (CLASSWK)
File: GRC1981-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Universe

All persons

Literal question

Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.)

7. Citizenship: If a citizen of Greece and of another country, supply both answers.

[] 1 Greece
[] 2 Without nationality

___ _ _ Other country (indicate country)

Interviewer instructions

Question 7: "Citizenship". If they are citizen of another country write both answers.

162. Citizenship (nationality) is ascertained by official documents. If not, the respondent's answer is inserted. Married women usually have their spouses citizenship, and the under age lawful children that of their fathers, unlawful children that have not been recognized or adopted that of their mothers.

163. Persons "without nationality" are to be met in cases of immigrants or gypsies. Without nationality are certain other persons -even Greeks- that have been legally deprived of it.

164. Citizenship of two countries may have Greek immigrants -men and women- that returned to Greece, as well as immigrants from other countries that resided permanently in Greece and have both citizenships. These persons are to declare them both.

Place of registration (GR1981A_0408)
File: GRC1981-P-H

Overview

8. If a Greek citizen, in which Municipality or Commune is he or she registered?

[] 1 This Municipality or Commune

Other (indicate):
___ Municipality or Commune
__ _ _ _ _ _ _ Province

Interviewer instructions

Question 8: "If Greek citizen, in which Municipality or Commune is he or she registered"

[p. 55]

166. [Omitted, it applies only to Greek citizens]

167. As a general rule, every Greek citizen, regardless of his sex and age, is registered in a Municipality or Commune, specially:

a. Greek adult citizens, men or women, are registered in a Municipality or Commune, regardless of where they vote.
b. If they are not registered in a Municipality or Commune, they are to be considered as citizens of the place where they voted in the last elections.
c. Those that they did not vote are considered as citizens of the Municipality or Commune of their usual residence, i.e. where their household resides.
d. Married women who have not changed their Municipality or Commune registration after their marriage by application are considered as registered in that Municipality or Commune.
e. Minors regardless of their sex:

i. Lawful children have the citizenship of their father.
ii. Unlawful children have the citizenship of their mother.
iii. Children of unknown parents are considered as registered in the Municipality or Commune of the enumeration place.

168. According to the above the citizenship of the adults is recorded as an answer to the relevant question and not to be ascertained by out of date official documents.

169. [Omitted, how the answers are to be recorded]

Universe

Persons born in or before 1970

Literal question

Employment status (GR1981A_0414)
File: GRC1981-P-H

The following questions should be answered only by persons born in 1970 or earlier.

Occupation [Questions 11 to 14]

11. What is his/her main activity? Specify working even if the person is only working seasonally for money or pay or if the person is assisting in the family business or farm without pay. Specify job seeking if persons are looking for work, regardless of whether they were dismissed from their work, or the business closed, or they are seeking their first job. If they do not work and are not seeking work, then, then specify: Are they engaged in household activities in their own home? Is the person a pupil or student? Is he a conscript? Etc. Put an X next to only one answer.

[] 1 Working
[] 2 Job seeker
[] 3 Household activities
[] 4 Pupil or student
[] 5 Conscript
___ [] 6 Other (Indicate)

Interviewer instructions

Employment status (GR1981A_0414)
File: GRC1981-P-H

Questions 10-15 should only be completed for persons born in 1970 or before

[Omitted, question 11 as in the form]

178. The enumerated is to be considered (by the Enumerator) as working at the day of the census taking if he has a job that provides his or/and the household's livelihood. That is, that the individual is working in order to:

-profit, as in case of a businessman
-pay, i.e. salary, a day's wages, contract work etc.
or finally,
-assist in the family business or agricultural land without pay (apart from his livelihood).

179. The respondent's work during the census taking may be seasonal so that he may be not working that certain period as in the case of a farmer whose work covers a period of 8 months or a manager of a hotel that is closed during the winter months. [p. 58] These individuals are to be considered as working although due to the nature of their jobs were not working at the time of the census taking.

180. As working are to be considered all individuals having a job as was defined in paragraph 178 but during the census taking were not working due to leave, sickness, accident, weather conditions, strike etc. or just started working (employed a few days before the census taking).

181. The individual assisting in the family business without pay (salary or day's wages) is to be considered as working if he is systematically working i.e. daily (except bank holidays) and at least of 1/3 of the business's usual operating time. If the member of the family is working on the agricultural land in order to be considered as working he will have to be working full time for a period of more than three months per year or more than 90 days of work a year.

But the member of the family working in the family or agricultural land occasionally and for less time that the before mentioned is not to be considered as working and on occasion that is active in the household (household activities).

182. Individuals which even the day before the census taking stopped or lost their work e.g. someone who on Friday the 13th March 1981 got his pension or were dismissed from the shop he were working are not to be considered as working.

Finally, those serving in the Army either as conscripts (draftees) or reserves are to be considered as conscripts and not working even if they were working before their conscription and are to go back when dismissed.

In contrast, all permanent personnel of the armed forces either officers or non-commissioned officers or soldiers are considered as working.

[p. 59]

183. The enumerated is to be considered as job seeker (by the Enumerator) if during the census taking is not working and is seeking work, i.e. taking initiatives towards that end.

In this category are included:

a) Individuals that lost their work for any reason (such as an individual who was dismissed or left his work because the working conditions were unprofitable or unhealthy, or his business was closed etc.) and are seeking work.
b) Individuals seeking work for the first time e.g. having just finished school, or their studies or professional training and are seeking work for the first time.

184. In the cases of job seekers the enumerator apart from the fact that they are not working has to find out that they are not only intended to seek work but are making certain efforts to do so and specially for the individuals of case (b).

185. If the respondent is not working or seeking work (as defined before) on the day of the census taking then will be considered as:
Household activities, as in the case of a housewife
or
pupil or student if he is mainly studying
or
conscript serving as conscript or reserve
or finally,
as belonging to any other case when is not working at all or seeking work and has to clarify in this case whether e.g. his main source of likelihood is capital income, or has stopped working due to age, health or any other reasons.

Occupation (GR1981A_0415)
File: GRC1981-P-H

Overview

Invalid: 0

Description

This variable indicates occupation of persons born in and before 1970.

Universe

Persons born in or before 1970 who were working or seeking a job

Literal question

The following questions should be answered only by persons born in 1970 or earlier.

Occupation [Questions 11 to 14]

12. If he/she was working or seeking work (answer 1 or 2 in question 11) Answers to questions a and b must be specific. For question c, put an X in the appropriate space. If the person was seeking his or her first job, write "new worker" for questions a and b, and do not answer question c.

___ _ _ _ a) What type of work are they doing (or were they doing, the last time they worked)?

___ _ _ _ b) In what type of establishment, enterprise, farm, service, etc. do they work (or did they work, the last time they worked)?

c) What is their occupational status in this job (or in the last job that they held)?

[] 1 Employer
[] 2 Self-employed
[] 3 Assistant in the family business or farm
[] 4 Employee or wage-earner

Interviewer instructions

Occupation (GR1981A_0415)
File: GRC1981-P-H

Questions 10-15 should only be completed for persons born in 1970 or before

186. If the respondent is working or seeking work then he has to answer the following questions:

[Omitted, a), b) and c) as in the form]

187. The type of work he is or was doing the last time he worked must be very clear so as to be coded according to the occupational codes.

If his answer is general or vague, e.g. "technician", "employee" or "merchant" or "public servant", more questions are needed so as to clarify e.g. "what kind of technician', "what kind of employee", "what kind of trade, whole sale or retail" etc.

[Bottom of p. 60 and p. 61 omitted]

[p. 62]

190. Question (b) "what is the type of establishment, enterprise, agricultural land, service etc. he works (or was the last time he worked)" refers to the type of economic activity (industry branch) of the establishment, enterprise etc. the enumerated is working or if he is seeking work to the establishment, enterprise etc. he was working last. If seeking work for the first time as before "young" will be recorded.

191. The answer to this question must not be general or vague as e.g. "shop" or "factory" or "company" but must clarify the economic activity of the establishment or service he is working (or was working last). [Examples omitted]

[p. 63 omitted]

[p. 64]

194. Question (c) "occupational status" the enumerated must answer whether he is (or was) employer, self-employed, assistant in the family business or agricultural land, or employee or wage earner.

These categories are clarified as following:

i) Employer is considered the owner of the establishment (either by himself or with partners) and is employing salaried or wage earning staff.
ii) Self-employed is the one that works in his own work without employing salaried or wage earning staff apart maybe a member of his family as unpaid assistant.
iii) Assistant in the family business or agricultural land is the family member working in the family business or agricultural land without pay, except his livelihood, within the time limits defined in paragraph 181.
iv) Employee or wage earner is the person who for his work is having a salary or a day's wage or by contract or percentage on the sales.

195. The employee or wage earner that works on contract but has the materials or is working with percentages on the profits is not to be considered as employee or wage earner. In these cases, he will be considered as employer (if he employs staff) or self-employed (if not employing staff).

Hours of weekly employment (GR1981A_0418)
File: GRC1981-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

Description

This variable indicates hours of work during the previous week.

Hours of weekly employment (GR1981A_0418)
File: GRC1981-P-H

Universe

Persons born in or before 1970 who were working

Literal question

The following questions should be answered only by persons born in 1970 or earlier.

Occupation [Questions 11 to 14]

13. If working (answer 1 in question 11), for how many hours did he/she work during the previous week (8-14 March)? If he/she did not work at all, write the word ZERO.

_ _ hours

If ZERO or less than 15 hours, the reason was:
[] 1 Seasonal work
[] 2 Weather conditions
[] 3 Leave or sickness
[] 4 Other reason ___ (indicate)

Interviewer instructions

Questions 10-15 should only be completed for persons born in 1970 or before

196. Question 13, "how many hours did he work during the previous week (8-14 March)" must be answered only if the answer to question 11 is working.

The actual sum of hours they worked must be recorded. It is considered that the enumerated has worked as many hours as he was present in his work, e.g. the establishment, enterprise, service or/and outside work, regardless of whether or not during this time he did not worked. So, the shopkeeper opening his shop is considered that worked as many hours as the shop were open regardless of whether or not they were any sales during that time.

Possess agricultural land (GR1981A_0422)
File: GRC1981-P-H

Overview	
Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

Description

Possess agricultural land (GR1981A_0422)
File: GRC1981-P-H

This variable indicates whether or not the person owned agricultural land.

Universe

Persons born in or before 1970

Literal question

The following questions should be answered only by persons born in 1970 or earlier.

15. Is he/she the head of a farm or agricultural enterprise?

[] 1 Yes
[] 2 No

Age (GR1981A_0423)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

This variable indicates age in years as of the person's last birthday prior to or on the day or enumeration.

Universe

All persons

Literal question

Questions 1-9 should be completed for all persons, regardless of their age. (Mark the answers by filling in an X in the appropriate space, wherever applicable.)

6. Year of birth: Fill in the last three digits of the year of birth. For persons born in 1979, 1980, or 1981, also fill in the month of birth (e.g., for October, fill in "10"; for December, fill in "12")

_ _ _ _ Person with line number 101-householder: Year of birth
_ _ _ _ Persons with line numbers 102-107 and 201-202: Year of birth
_ _ If born in 1979, 1980 or 1981, specify the month of birth

Person weight (PERWT)
File: GRC1981-P-H

Overview

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

Person weight (PERWT)
File: GRC1981-P-H

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Migration status, 5 years (MIGRATE5)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

MIGRATE5 indicates the person's place of residence 5 years ago. The first digit records movement across major administrative divisions and countries. The second digit reports movement across minor administrative divisions, for samples in which that detail is available.

Educational attainment, international recode [general version] (EDATTAIN)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIND)

Educational attainment, Europe (EEDATTAIN)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

EEDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone) for the European samples. The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary. All education that was relevant to the completion of a level should be taken into account even if it was provided outside of schools and universities.

EEDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EEDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EEDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country.

Hungary 1980 and 1990 also give single years of schooling completed, recorded in YRSCHOOL.

EEDATTAIN has been classified according to the recommendations of the Conference of European Statisticians for the 2010 Population and Housing Censuses. EEDATTAIN presents a less detailed version of EDATTAIN for the European Samples.

Activity status (employment status), Europe (EEMPSTAT)
File: GRC1981-P-H

Overview

Activity status (employment status), Europe (EEMPSTAT)
File: GRC1981-P-H

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EEMPSTAT indicates for the European samples whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EEMPSTAT can also convey further information.

EEMPSTAT has been classified according to the recommendations given by the Conference of European Statisticians for the 2010 Population and Housing Censuses. "Employment Status" is referred to as "Activity Status" in the CES recommendations, but the former term is used to maintain consistency with IPUMS practices.

The economically active population constitutes the total labor force: employed and unemployed persons.

Status in employment (class of worker), Europe (ECLASSWK)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

ECLASSWK refers in European Samples to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker.

ECLASSWK is related to EEMPSTAT (employment status), which is used to define the universe for the variable in many samples.

ECLASSWK has been classified according to the recommendations given by the Conference of European Statisticians for the 2010 Population and Housing Censuses. "Class of worker" is referred to as "Status in Employment" in the CES recommendations. The former term is used to maintain concordance with IPUMS practice.

Hours worked per week (HRSWORK1)
File: GRC1981-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
