Overview

The Questionnaire consists of following sections:

A. General Issues Facing El Salvador: Respondents were asked to indicate whether El Salvador is headed in the right direction, what they thought were the top three most important development priorities in the country, which areas would contribute most to reducing poverty and generating economic growth in El Salvador, and how "shared prosperity" would be best achieved.

B. Overall Attitudes toward the World Bank Group (WBG): Respondents were asked to rate their familiarity with the WBG and other regional development banks, their effectiveness in El Salvador, WBG staff preparedness to help El Salvador solve its development challenges, , their agreement with various statements regarding the WBG's work, and the extent to which the WBG is an effective development partner. Respondents were asked to indicate the WBG's greatest values and weaknesses, the most effective instruments in helping reduce poverty in El Salvador, in which sectoral areas the WBG should focus most of its resources (financial and knowledge services), and to what reasons respondents attributed failed or slow reform efforts. Respondents were also asked to respond to a few questions about capacity building and whether they believe the World Bank Group should have more or less local presence.

C. World Bank Group's Effectiveness and Results: Respondents were asked to rate the extent to which the WBG's work helps achieve development results in El Salvador, the extent to which the WBG meets El Salvador's needs for knowledge services and financial instruments, the importance for the WBG to be involved in thirty one development areas, and the WBG's level of effectiveness across twenty-eight development areas, such as education, crime and violence, public sector governance/reform, poverty reduction, and economic growth.

D. The World Bank Group's Knowledge Work and Activities: Respondents were asked to indicate how frequently they consult WBG's knowledge work and activities and to rate the effectiveness and quality of the WBG's knowledge work and activities, including how significant of a contribution it makes to development results and its technical quality. Respondents were also asked about the WBG reports, including if they read/consulted the most recent LAC Flagship Report, whether they raised substantive new information, and whether they provided them with useful information in terms of work they do.

E. They were also asked to indicate whether they think the World Bank Group takes enough risks.

F. The Future Role of the World Bank Group in El Salvador: Respondents were asked to indicate what the WBG should do to make itself of greater value in El Salvador, and which services the Bank should offer more of in the country. G. Communication and Information Sharing: Respondents were asked to indicate how they get information about economic and social development issues, how they prefer to receive information from the WBG, and their usage and evaluation of the WBG's websites. Respondents were also asked about their awareness of the WBG's Access to Information policy. Respondents were asked to rate WBG's responsiveness to information requests, value of its social media channels, and levels of easiness to find information they needed.
