Sampling

Sampling Procedure

Business Impact Survey (BIS2) sample frame: 486 businesses; 4 partially-overlapping samples from 4 different (though partially overlapping) sampling frames: (1) VAT payers, (2) large (LTO) taxpayers, (3) businesses that obtain licensing and (4) businesses that participate in public procurement.

Focus Group Discussions (Business Registration - VAT Payers) sample: Economic Operators that were registered after 2006 with NRC. Only 1 FG- in Tirana Businesses will vary by size and sector, but we will select only those businesses which have registered by themselves, without hiring an external person. Participants should be the individuals who personally interacted with the NRC to register.

Focus Group Discussions (Small Businesses) sample: small businesses, with an annual turnover of up to 8 million LEK, (proportionately representing ranges: 0-2 million LEK, 2-5 Million LEK, and 2-8 Million LEK, paying local government (simplified tax) recruited through small business association in Korca and RDAs in Korca and Tirana. A mix of those registered before 2006 (with the court system) and after (with NRC). The sample will include representatives of various sectors (retail shops, food outlets, restaurants, service sector, taxi drivers, etc).

Interviews with CSOs sample: Approximately 15 CSOs that were assisted by MCC ATP, but representing a mix: those having been trained/assisted with 1-on-1 capacity building/being part of the Coalition of CSO in support of Administrative Court/being part of the TCC/received monitoring grants (the latter, all 5, will be asked to participate in the interviews). Based on ISC reports we will ensure a mix of CSOs, which had recorded a progress (according to ISC assessment) and have not.

Questionnaires

Overview

Business impact survey (BIS2): The survey covered medium and large businesses (value-added tax [VAT] payers).

Focus group discussions (FGDs): The discussions included small businesses that are exempt from the VAT.

Open-ended and semi-structured key informant interviews (KIIs): KIIs were conducted with government officials, USAID and U.S. Embassy personnel, independent experts, former project staff representatives of consortium members and selected business leaders. Site visits were conducted to project-implementation sites in Tirana and the regions.

GOA data: Data, annual reports, and in-depth interviews were included from GOA agencies working with the ATPs.

Third-party reports and surveys: Findings were used if relevant to assessing project outcomes and impact.
