¹ Women's nutritional status, calculated from anthropometry measurements, is an exception to the 2014 KDHS recommendations for estimation of indicators at the county level. Although anthropometry data were not collected from women in the one-half of households administered the short questionnaire, there are sufficient cases from the one-half of households administered the full questionnaire to calculate county level estimates of women's nutritional status.

INTRODUCTION AND CONSENT

Hello. My name is _____. I am working with the Kenya National Bureau of Statistics. We are conducting a survey about health all over Kenya. The information we collect will help the government to plan health services. Your household was selected for the survey. I would like to ask you some questions about your household. The questions usually take about 30 to 60 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on this card.

INTRODUCTION AND CONSENT

Hello. My name is _____. I am working with the Kenya National Bureau of Statistics. We are conducting a survey about health all over Kenya. The information we collect will help the government to plan health services. Your household was selected for the survey. I would like to ask you some questions about your household. The questions usually take about 30 to 60 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on this card.

INTRODUCTION AND CONSENT

Hello. My name is _____. I am working with the Kenya National Bureau of Statistics. We are conducting a survey about health all over Kenya. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 30 to 60 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time.

Do you have any questions? May I begin the interview now?

SECTION 1. RESPONDENT'S BACKGROUND

INTRODUCTION AND CONSENT

INFORMED CONSENT

Hello. My name is _____. I am working with the Kenya National Bureau of Statistics. We are conducting a survey about health all over Kenya. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 30 to 60 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time.

In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household.

Do you have any questions? May I begin the interview now?

INTRODUCTION AND CONSENT

Hello. My name is _____. I am working with the Kenya National Bureau of Statistics. We are conducting a survey about health all over Kenya. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time.

May I begin the interview now?
