Sampling

Sampling Procedure

In December 2014, 500 stakeholders of the WBG in Afghanistan were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey.

Participants were drawn from the office of the President, the Chief Executive Officer; office of a minister; office of a parliamentarian; ministries/ministerial departments; consultants/contractors working on WBG-supported projects/programs; PMUs; local governments; bilateral and multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs; community based organizations; the media; independent government institutions; trade unions; youth groups; academia/research institutes/think tanks; judiciary branch; and other organizations.

A total of 407 stakeholders participated in the survey (91% response rate).

Response Rate

91%

Weighting

The results in 2015 Country Survey were compared to those in the Country Surveys conducted in FY'12 and FY'08. Data were weighted to reach the same stakeholder composition in three years, which allows for year comparisons. Stakeholder groups which were not present in all three fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, means of the FY' 15 data and the total number of respondents in three years are slightly different from those of the original data reported in appendices A, B, C, D, E, G, and H in the report. For the weighted stakeholder breakdown and year comparison results, please see appendix F (page 152) in the attached report.
