Sampling

Sampling Procedure

From May to July 2015, 386 stakeholders of the WBG in Angola were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey. Participants were drawn from the Office of the President/Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/ programs; local governments; bilateral/multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; non-profit organizations/community based organizations; the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the judiciary branch; and other organizations.

A total of 91 stakeholders participated in the survey (24% response rate).

Response Rate

24 %

Weighting

The results in 2015 Country Survey were compared to those in the Country Survey conducted in FY12 (response rate is 20%, N=119). Data were weighted to reach the same stakeholder composition in two years, which allows for year comparisons. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, means of the FY15 data and the total number of respondents in both years are slightly different from those of the original data reported in appendices A, B, C, D, and F in the report. For the weighted stakeholder breakdown and year comparison results, please see appendix E (page 94) in the attached report.

Literal question

The World Bank Group's "Shared Prosperity" goal captures two key elements, economic growth and equity. It will seek to foster income growth among the bottom 40 percent of a country's population. Improvement in the Shared Prosperity Indicator requires growth and well-being of the less well-off. When thinking about the idea of "shared prosperity" in your country, which of the following TWO best illustrate how this would be achieved in Angola?
