Sampling

Sampling Procedure

From May to June 2015, 495 stakeholders of the WBG in Bulgaria were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the office of the President/Prime Minister, office of a Minister, office of a Parliamentarian, employees of ministries/ministerial departments/implantation agencies, Project Management Units (PMUs) overseeing implementation of a project or consultants working on WBG-supported projects, local governments, bilateral/multilateral agencies, private sector organizations, private foundations, the financial sector/private banks, NGOs/community-based organizations (CBOs), the media, independent government institutions, trade unions, faith-based groups, youth groups, academia/research institutes/think tanks, and the judiciary branch.

A total of 183 stakeholders participated in the survey (37% response rate).

Response Rate

37%

Weighting

The results of 2015 Country Survey were compared to the Country Survey conducted in FY12 (response rate was 43%, N=173). The data were weighted to reach similar stakeholder compositions across the two survey years, allowing for more statistically reliable comparisons. Stakeholder groups which were not present in both fiscal years were not included in these comparisons, nor were respondents who identified themselves as "other" in the stakeholder category options. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY12 Country Survey report and the non-weighted data presented in the attached report. For the weighted stakeholder breakdown and year comparison results, please see appendix E (page 115) in the report.
