# Sampling

## Sampling Procedure

---

From January to April 2015, 312 stakeholders of the WBG in Burundi were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey. Participants were drawn from the office of the President, the office of the Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments; PMUs; consultants/ contractors working on WBG-supported projects/programs; local governments; bilateral/ multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs/community based organizations (CBOs); the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the judiciary branch; and other organizations.

A total of 209 stakeholders participated in the survey (67% response rate).

## Response Rate

---

67%

## Weighting

---

The results of 2015 Country Survey were compared to those in the Country Survey conducted in FY2012 (response rate is 56%, N=325). Data were weighted to reach the same stakeholder composition in two years, which allows for year comparisons. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, means of the FY2015 data and the total number of respondents in both years are slightly different from those of the original data reported in appendices A, B, C, D, and F in the report. For the weighted stakeholder breakdown and year comparison results, please see appendix E (page 103) in the attached report.

### Literal question

The World Bank Group's "Shared Prosperity" goal captures two key elements, economic growth and equity. It will seek to foster income growth among the bottom 40 percent of a country's population. Improvement in the Shared Prosperity Indicator requires growth and well-being of the less well-off. When thinking about the idea of "shared prosperity" in your country, which of the following TWO best illustrate how this would be achieved in Burundi?

Better opportunity for the poor who live in urban areas
