Sampling

Sampling Procedure

From May to June 2015, 763 stakeholders of the WBG in Tunisia were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey. Participants were drawn from the Office of the President, the Office of the Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; bilateral/multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs/community based organizations; the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the judiciary branch; and other organizations. A total of 202 stakeholders participated in the survey.

Response Rate

27%

Weighting

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'12 (response rate is 44%, N=58). As a rule, the COS data are weighted for year comparisons in order to reach the same stakeholder composition in two fiscal years. However, in the case of Tunisia, due to the small number of respondents in the FY'12 Country Survey, weighting would have been statistically unsound. Therefore, only basic comparisons of the unweighted data from the FY'15 and FY'12 Country Surveys are presented in the report and should be considered provisional. For the FY'15 and FY'12 stakeholder breakdown and year comparison results, please see appendix D (page 111) of the report available under the Related Materials tab.

Literal question

The World Bank Group's "Shared Prosperity" goal captures two key elements, economic growth and equity. It will seek to foster income growth among the bottom 40 percent of a country's population. Improvement in the Shared Prosperity Indicator requires growth and well-being of the less well-off. When thinking about the idea of "shared prosperity" in your country, which of the following TWO best illustrate how this would be achieved in Tunisia?

Better quality public services
