# Sampling

## Sampling Procedure

---

Detailed information about sampling is available in "Sampling and Target Sample Size" document, provided in external resources.

# Questionnaires

No content available

## Data Collection

### Data Collection Dates

Start	End	Cycle
2012-02-11	2013-04-04	N/A

### Data Collection Mode

Face-to-face [f2f]

#### DATA COLLECTION NOTES

Six tools were used to gather data and observations during health facility visits: a health facility assessment, health worker interviews/ knowledge tests, observations of labor and delivery and antenatal care visits, patient interviews, simulations of neonatal asphyxia and PPH using NeoNatalie and MamaNatalie anatomical models, and criterion based clinical audits (i.e., review of patient records against WHO-established clinical standards of care).

### Data Collectors

Name	Abbreviation	Affiliation
GORBI	GORBI	

#### SUPERVISION

GORBI team

# Data Processing

## Data Editing

---

The survey firm, GORBI, entered and double-checked the data.

# Data Appraisal
