Q12SEX: Sex of each household member

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=88906 / 54767427.25] [Invalid=0 / 0]
Notes	This question is asked for all household members, to determine their sex. The enumerators were instructed not to assume the sex of household members by just looking at people's names or physical appearances. They were instructed to ask the respondent the sex of each member of the household without any assumptions.

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Male	42155	26777744.0	48.9%
2	Female	46751	27989683.3	51.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q13POPGROUP: Population group of each household member

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=88906 / 54767427.25] [Invalid=0 / 0]
Notes	This question was asked to determine the population group of all persons. The field workers were instructed to ask the question for each member of the household and not to make any assumptions or conclusions, which may be influenced by his/her observation based on people's names during the interview. This question may seem very sensitive to some respondents, especially in this post-apartheid era, but it is important to find out the composition of the South African population.

Value	Label	Cases	Weighted	Percentage (Weighted)
1	African/Black	73095	44048463.5	80.4%
2	Coloured	10485	4822311.4	8.8%
3	Indian/Asian	1499	1358137.8	2.5%
4	White	3827	4538514.6	8.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q14AGE: Age of each household member

Information	[Type= discrete] [Format=numeric] [Range= 0-105] [Missing=*]
Statistics [NW/ W]	[Valid=88906 / 54767427.25] [Invalid=0 / 0]
Notes	This variable was dropped from the file as it gets resolved finally.
