# Sampling

## Sampling Procedure

---

From January to February 2017, 534 stakeholders of the WBG in Tajikistan were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the office of the President/Prime Minister, office of a Minister, office of a Parliamentarian, employees of ministries/ministerial departments/implementation agencies, Project Management Units (PMUs) overseeing implementation of WBG projects or consultants/contractors working on WBG-supported projects/programs, local government office or staff, bilateral/multilateral agencies, private sector organizations, the financial sector/private banks, civil society organizations, the media, independent government institutions, academia/research institutes/think tanks, and the judiciary branch. A total of 362 stakeholders participated in the survey (68% response rate).

## Response Rate

---

68%

## Weighting

---

The results of this year's Country Survey were compared to those in the Country Survey conducted in FY '14 (response rate was 57%, N = 272). The data were weighted to reach similar stakeholder compositions across the two survey years, allowing for more statistically reliable comparisons. Note, there were insufficient numbers of respondents from the office of the President/Prime Minister in FY '14 to be included in these analyses. Also, stakeholders who identified themselves as "Other" in the stakeholder category options were not included in these comparisons. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY '14 COS report and the non-weighted data presented in this report. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix E (see page 73) in the attached report.
