Sampling

Sampling Procedure

From November to December 2016, 404 stakeholders of the WBG in Uruguay were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey (COS). Participants were drawn from the office of the President/Prime Minister, office of a Minister, office of a Parliamentarian, employees of ministries/ministerial departments/implementation agencies, Project Management Units (PMUs) overseeing implementation of WBG projects or consultants/contractors working on WBG-supported projects/programs, local government officials or staff, bilateral/multilateral agencies, private sector organizations, private foundations, the financial sector/private banks, NGOs/community-based organizations (CBOs), the media, independent government institutions, trade unions, faith-based groups, youth groups, academia/research institutes/think tanks, and the judiciary branch.

Response Rate

51%

Weighting

The results of this year's Country Survey were compared to those of the Country Survey conducted in FY '14 (response rate was 47%, N = 156). The data were weighted to reach similar stakeholder compositions across the two survey years, allowing for more statistically reliable comparisons. Note, there were insufficient numbers of respondents from bilateral/multilateral agencies in FY '14 or local government in either year to be included in these analyses. Also, stakeholders who identified themselves as "Other" in the stakeholder category options were not included in these comparisons. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY '14 COS report and the non-weighted data presented in this report. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix D (see page 81) of FY 2017 Uruguay Country Opinion Survey report.
