Overview

ABSTRACT

The Country Opinion Survey in Nicaragua assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Nicaragua perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Nicaragua on:

- 1) their views regarding the general environment in Nicaragua;
- 2) their overall attitudes toward the WBG in Nicaragua;
- 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Nicaragua; and
- 4) their perceptions of the WBG's future role in Nicaragua.

Sampling

Sampling Procedure

From April to May 2018, 327 stakeholders of the WBG in Nicaragua were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the Office of the President/Prime Minister; office of a Minister; office of a Parliamentarian; employees of ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of a project or consultants/contractors working on WBG-supported projects/programs; local government offices or staff; bilateral and multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs and community-based organizations (CBOs); the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; and the judiciary branch.

Response Rate

45%

Weighting

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'15 (response rate was 44%, N=131). The data were weighted to reach similar stakeholder compositions across both survey years, allowing for more statistically reliable comparisons. Note, there were insufficient numbers of respondents from local government in either year to be included in these analyses. Also, stakeholders who identified themselves as "Other" in the stakeholder category options were not included in these comparisons. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY '15 COS report and the non-weighted data presented in this report. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix D (see page 91) in the Related Materials.
