## Weighting

---

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'15 (response rate was 24%, N=91). As a rule, the COS data are weighted for year comparisons in order to reach the same stakeholder composition in two fiscal years. However, in the case of Angola, due to the small number of respondents in the FY'15 Country Survey, weighting would have been statistically unsound. Therefore, only basic comparisons of the unweighted data from the FY'18 and FY'15 Country Surveys are presented in the report and should be considered provisional. For the FY'18 and FY'15 stakeholder breakdown and year comparison results, please see appendix E (Report, page 94) in the Related Materials.
