INTRODUCTION AND CONSENT

AFTER ASSEMBLING THE INFORMANTS, READ THE FOLLOWING GREETING:

Asalum-o-Alaikum. My name is _____. I am working with National Institute of Population Studies. We are conducting a survey about health and other topics all over Pakistan. The information we collect will help the government to plan health services.

We are collecting information with communities to get a picture of infrastructure available in the community, services available to the communities and to understand the access to the people. I would like to ask you some questions about your community and about sources of health care in it and around it as a way of better understanding how to serve the population. Please be assured that this discussion is strictly confidential. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on this card.

GIVE CARD WITH CONTACT INFORMATION

Do you have any questions?
May I begin the interview now?
