Sampling

Sampling Procedure

From April through May 2019, 1,110 stakeholders of the WBG in Uzbekistan were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey (COS). Participants were drawn from the office of the President/Prime Minister, office of a Minister, office of a Parliamentarian, employees of ministries/ministerial departments/implementation agencies, Project Management Units (PMUs) overseeing implementation of projects or consultants/contractors working on WBG-supported projects/programs, local government officials or staff, bilateral agencies, multilateral agencies, private sector organizations, the financial sector/private banks, private foundations, NGOs/community-based organizations (CBOs), the media, independent government institutions, trade unions, faith-based groups, youth groups, academia/research institutes/think tanks, and the judiciary branch.

Response Rate

32%

Weighting

The results of this year's Country Survey were compared to those of the Country Survey conducted in FY '16 (response rate was 56%, N = 102). The data were weighted to reach similar stakeholder compositions across both survey years, allowing for more statistically reliable comparisons. Note, there were too few respondents from the office of the President/Prime Minister, the office of Minister, or local government in FY '16 for these groups to be included, nor were stakeholders who identified themselves as "Other" in the stakeholder category options included in these comparisons. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY '16 COS report and the non-weighted data presented in this report. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix E (see page 93).
