### ABSTRACT

The Country Opinion Survey in Botswana assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Botswana perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Botswana on:

- 1) their views regarding the general environment in Botswana;
- 2) their overall attitudes toward the WBG in Botswana;
- 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Botswana; and
- 4) their perceptions of the WBG's future role in Botswana.

# Sampling

## Sampling Procedure

---

From January to April 2019, 343 stakeholders of the WBG in Botswana were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the Office of the President, office of a Minister; office of a Parliamentarian; ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/ contractors working on WBG-supported projects/programs; bilateral and multilateral agencies; embassies; private sector organizations; the financial sector/private banks; private foundations; NGOs and community-based organizations; the media; independent government institutions; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; judiciary branch; and other organizations.

## Response Rate

---

88% (n = 303)

## Weighting

---

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'16 (response rate was 85%, N=256). Data were weighted to reach the same stakeholder composition in two years, which allows for year comparisons. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY'16 COS report and the non-weighted data presented in appendices A, B, C, D and F. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix E (page 77).
