ABSTRACT

The Country Opinion Survey in Thailand assists the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Thailand perceive the WBG. It provides the WBG with systematic feedback from national and local governments, multilateral/bilateral agencies, media, academia, the private sector, and civil society in Thailand on 1) their views regarding the general environment in Thailand; 2) their overall attitudes toward the WBG in Thailand; 3) overall impressions of the WBG's effectiveness and results, knowledge work and activities, and communication and information sharing in Thailand; and 4) their perceptions of the WBG's future role in Thailand.

Response Rate

52%

Weighting

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'16 (response rate was 23%, N=108). As a rule, the COS data are weighted for year comparisons in order to reach the same stakeholder composition in two fiscal years. However, in the case of Thailand, due to significant differences between compositions of the FY'19 and FY'16 samples, weighting would have been statistically unsound. Therefore, only basic comparisons of the unweighted data from the FY'19 and FY'16 Country Surveys are presented in the report and should be considered provisional. For the FY'19 and FY'16 stakeholder breakdown and year comparison results, please refer to Appendix E (page 74) of the survey final report.
