Overview

ABSTRACT
From 2 October to 18 November 2018, UNHCR carried out a Water, Sanitation and Hygiene (WASH) sweep assessment on water points, latrines and bathing facilities in 14 refugee camps. These include Kutupalong and Nayapara registered camps, and the Transit Centre. The assessment cover basic information on location, status, quality, the privacy of facilities and issues such as the management of menstrual hygiene and facilities for persons with specific needs.

The dataset contains 3 modules: bathing (12,259 observations), latrine (11,490 observations) and water points (6,767 observations).
