Overview

ABSTRACT

A Knowledge, Attitudes, and Practices (KAP) survey was conducted in Ajuong Thok and Pamir Refugee Camps in November 2018 to determine the current Water, Sanitation, and Hygiene (WASH) conditions as well as hygiene attitudes and practices within the households (HHs) surveyed. The assessment utilized a systematic random sampling method, and a total of 1,040 HHs (520 HHs in each location) were surveyed using mobile data collection (MDC) within a period of 10 days. Data was cleaned and analyzed in Excel. The summary of the results is presented in this report.

The findings showed that the overall average number of liters of water per person per day was 21, in both Ajuong Thok and Pamir Camps, which was slightly higher than the recommended Office of the United Nations High Commissioner for Refugees (UNHCR) minimum standard of at least 20 liters of water available per person per day. This is a slight improvement from the 19.5 liters reported the previous year. The average HH size was six people. Women comprised 83.2% of the surveyed respondents and males 16.8%. Almost all the respondents were refugees, constituting 99.6%. The refugees were aware of the key health and hygiene practices, possibly as a result of routine health and hygiene messages delivered to them by Samaritan's Purse (SP), Africa Humanitarian Action (AHA) and International Rescue Committee (IRC). Most refugees had knowledge about keeping water containers clean, washing hands during critical times, safe excreta disposal and disease prevention.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Households

Scope

NOTES

The survey includes the following topics:

- Household main characteristics
- Sources of drinking and non-drinking water
- Information about water collection
- Hygiene of drinking water

- General hygiene practices
- Hand-washing habits and knowledge
- Defecation habits and latrine types
- Waste disposal
- Diarrhea
- NFI Distribution

TOPICS

| Topic | Vocabulary | URI |
|----------------------------------|------------|-----|
| Health and Nutrition | | |
| Health | | |
| Water Sanitation Hygiene | | |
| Domestic Needs/Household Support | | |
| Basic Needs | | |
| Elderly and Disabled | | |

DDI DOCUMENT VERSION

Version 1 (April 2021). This version is identical to UNHCR DDI ID: UNCHR_SSD_2018_WASHKAPv1.0 except the following edits were made:

- Minor spelling, grammatical, and formatting corrections

- Specified the archive where study is originally stored

DDI DOCUMENT ID

DDI_SSD_2018_WASH-ATP_v01_M

Sampling

Sampling Procedure

Households were selected using systematic random sampling. Enumerators systematically walked through each row in each block of the camps, in such a way as to give each HH a chance to be selected. For each block, the enumerators began at one corner and went row by row, systematically using the sampling interval (SI) to select HHs. The first HH sampled in each block was determined by selecting a random number between 1 and the SI, (6 in Ajuong Thok and 7 in Pamir). After selecting the first HH, the SI was used to identify the next respondent HH. The female head of the household was the preferred respondent. If she was not available, another adult (over 15 years of age) with knowledge of the HH's WASH practices was surveyed. If no one qualified to answer the survey, the HH was replaced systematically using the SI.

Weighting

Sample weights for the household data were computed dividing, for each camp, the population by the sample size

Questionnaires

Overview

The survey questionnaire used to collect the data consists of the following sections:

- Demographics
- Water
- Sanitation
- Hygiene
- NFI Distribution

Data Collection

Data Collection Dates

| Start | End | Cycle |
|------------|------------|-------|
| 2018-11-01 | 2018-11-11 | N/A |

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

Mobile Data Collection (MDC) was used to collect the HH data. Apple iPads fitted out with an iFormBuilder software platform were used by enumerators. All questionnaires were written in English, although the interviews were conducted in Arabic, a language widely spoken by the respondents. During training, question translation was mastered to ensure translation consistency among the enumerators. A questionnaire pretest was done to ascertain that the enumerators had understood the questionnaires; any identified issues were addressed.

Data collection occurred over a period of 10 days. Four FGDs were conducted with a total of 28 participants (13 males and 15 males). The collected data was verified on a daily basis prior to data syncing onto the cloud server, and feedback was given to enumerators before beginning data collection the following day. Random spot checks were made on data that was synced and cleaned, to ensure consistency and accuracy before beginning analysis.

Questionnaires

The survey questionnaire used to collect the data consists of the following sections:

- Demographics
- Water
- Sanitation
- Hygiene
- NFI Distribution

Data Collectors

| Name | Abbreviation | Affiliation |
|-------------------|--------------|-------------|
| Samaritan's Purse | | |

Data Processing

Data Editing

The data collected was uploaded to a server at the end of each day. IFormBuilder generated a Microsoft (MS) Excel spreadsheet dataset which was then cleaned and analyzed using MS Excel.

Given that SP is currently implementing a WASH program in Ajuong Thok and Pamir, the assessment data collected in these camps will not only serve as the endline for UNHCR 2018 programming but also as the baseline for 2019 programming.

Data was anonymized through decoding and local suppression.

Data Appraisal

| V41 | clean_treatment | Number of cleaning treatments used | discrete | numeric |
| V42 | treatment_whynot | If no, is there a reason why you might not treat your water? | discrete | numeric |
| V43 | clean_cont | Do you clean your drinking water containers? | discrete | numeric |
| V44 | cleancont_howoften | If yes how often do you clean drinking water containers? | discrete | numeric |
| V45 | cleancont_how | How do you clean your water containers? | discrete | numeric |
| V46 | latrine_access | Does your household have access to a functional latrine? | discrete | numeric |
| V47 | latrine_type | What type of latrine does your Household have access to? | discrete | numeric |
| V48 | latrine_share | Do you share the latrine with other Households? | discrete | numeric |
| V49 | latrine_sharex | If yes, how many households share the latrine? | discrete | numeric |
| V50 | latrine_use | Do you use the latrine? | discrete | numeric |
| V51 | latrine_whynot | If not, what is the main reason why you don't use a latrine? | discrete | numeric |
| V52 | latrine_prob1 | Problems: Latrines are not functioning or full | discrete | numeric |
| V53 | latrine_prob2 | Problems: Latrines are unclean/ unhygienic | discrete | numeric |
| V54 | latrine_prob3 | Problems: Latrines are not private (no locks/door/walls/lighting etc.) | discrete | numeric |
| V55 | latrine_prob4 | Problems: Latrines are not segregated between men and women | discrete | numeric |
| V56 | latrine_prob5 | Problems: Latrines are too far | discrete | numeric |

| | | | | |
|-----|-------------------------|---|----------|---------|
| V57 | latrine_prob6 | Problems: Going to the Latrine is dangerous/ prone to collapse | discrete | numeric |
| V58 | latrine_prob7 | Problems: Groups (children, women, elderly etc.) do not have access to latrines | discrete | numeric |
| V59 | latrine_prob99 | Problems: Don't know | discrete | numeric |
| V60 | latrine_prob77 | Problems: Other | discrete | numeric |
| V61 | latrine_adapt | How does your household adapt to problems related to the latrines? | discrete | numeric |
| V62 | latrine_adapt1 | Adaptation: Rely on less preferred (unhygienic/unimproved) methods | discrete | numeric |
| V63 | latrine_adapt2 | Adaptation: Rely on communal latrines | discrete | numeric |
| V64 | latrine_adapt3 | Adaptation: Defecate in a plastic bag | discrete | numeric |
| V65 | latrine_adapt4 | Adaptation: Defecate in the open | discrete | numeric |
| V66 | latrine_adapt5 | Adaptation: Going to latrines further than the usual one | discrete | numeric |
| V67 | latrine_adapt6 | Adaptation: Going to latrines in a dangerous place | discrete | numeric |
| V68 | latrine_adapt7 | Adaptation: Going to latrines at night | discrete | numeric |
| V69 | latrine_adapt8 | Adaptation: Nothing | discrete | numeric |
| V70 | latrine_adapt99 | Adaptation: Don't know | discrete | numeric |
| V71 | latrine_adapt77 | Adaptation: Other | discrete | numeric |
| V72 | dig | If you don't have access to a latrine do you dig and cover? | discrete | numeric |
| V73 | defecation_childredu5 | Where do children under 5 living in this household usually go defecate? | discrete | numeric |
| V74 | faeces_childu5 | If children u5 don't use sanitation facilities, what is done with faeces? | discrete | numeric |
| V75 | opendefecation_evidence | OBSERVATION: Is there evidence of faecal matter within 20 meters of the home? | discrete | numeric |
| V76 | disposal_pit | Does your household have access to/use a functional solid waste disposal pit? | discrete | numeric |
| V77 | disposal_garbage | What is the most common way your household disposes off garbage? | discrete | numeric |
| V78 | solidwaste_evidence | OBSERVATION: Evidence of poorly disposed solid waste within 20 meters of home | discrete | numeric |
| V79 | latrine_clean | OBSERVATION: Latrine complete and clean? | discrete | numeric |
| V80 | hygiene_visit | Have you/anyone in hh received hygiene promotion messaging/training this year? | discrete | numeric |
| V81 | diarrhea_prevention1 | Diarrhea prevention: Wash hands | discrete | numeric |
| V82 | diarrhea_prevention2 | Diarrhea prevention: Use soap | discrete | numeric |
| V83 | diarrhea_prevention3 | Diarrhea prevention: Use toilet facility to defecate | discrete | numeric |
| V84 | diarrhea_prevention4 | Diarrhea prevention: Drink clean, treated water | discrete | numeric |
| V85 | diarrhea_prevention5 | Diarrhea prevention: Prepare food hygienically | discrete | numeric |
| V86 | diarrhea_prevention6 | Diarrhea prevention: Cover water storage container | discrete | numeric |
| V87 | diarrhea_prevention77 | Diarrhea prevention: Other | discrete | numeric |
| V88 | diarrhea_preventionx | Numer of mentioned diarrhea prevention methods | discrete | numeric |
| V89 | handwashing_1 | Wash hands: After defecation | discrete | numeric |

| | | | | |
|------|-----------------------|--|----------|---------|
| V90 | handwashing_2 | Wash hands: After cleaning babies bottom | discrete | numeric |
| V91 | handwashing_3 | Wash hands: Before food preparation | discrete | numeric |
| V92 | handwashing_4 | Wash hands: Before eating | discrete | numeric |
| V93 | handwashing_5 | Wash hands: Before feeding children | discrete | numeric |
| V94 | handwashing_77 | Wash hands: Other | discrete | numeric |
| V95 | handwashing_x | Numer of mentioned hand washing times | discrete | numeric |
| V96 | handwashing_what1 | Handwashing with: Water only | discrete | numeric |
| V97 | handwashing_what2 | Handwashing with: Soap or budra | discrete | numeric |
| V98 | handwashing_what3 | Handwashing with: Ash | discrete | numeric |
| V99 | handwashing_what4 | Handwashing with: Sand | discrete | numeric |
| V100 | handwashing_what77 | Handwashing with: Other | discrete | numeric |
| V101 | handwashing_what77_s | Handwashing: Other, specify | discrete | numeric |
| V102 | handwashing_station | Is there specific handwashing device/station in your house? | discrete | numeric |
| V103 | soap | Do you have soap in your household? | discrete | numeric |
| V104 | soap_whynot1 | Why not soap: It is unavailable at the local market | discrete | numeric |
| V105 | soap_whynot2 | Why not soap: We cannot afford it | discrete | numeric |
| V106 | soap_whynot3 | Why not soap: We prefer a substitute | discrete | numeric |
| V107 | soap_whynot4 | Why not soap: We ran out of soap | discrete | numeric |
| V108 | soap_whynot5 | Why not soap: We are waiting for the next distribution | discrete | numeric |
| V109 | soap_whynot6 | Why not soap: Soap is not necessary | discrete | numeric |
| V110 | soap_whynot7 | Why not soap: The market is too far | discrete | numeric |
| V111 | soap_whynot77 | Why not soap: Other (please specify) | discrete | numeric |
| V112 | children_u5_1 | Do any children under the age of five years live in this household? | discrete | numeric |
| V113 | children_waterystool | Did any child less u5 years in the hh have diarrhea in the past two weeks? | discrete | numeric |
| V114 | xchildren_waterystool | If yes, how many children? | discrete | numeric |
| V115 | foodcover | Do you cover food once its prepared? | discrete | numeric |
| V116 | received_wash | Did you receive WASH non-food items (NFIs) from IRC, AHA or Samaritan's Purse? | discrete | numeric |
| V117 | received_wash1 | Item received: Buckets | discrete | numeric |
| V118 | received_wash2 | Items received: Jerry cans | discrete | numeric |
| V119 | received_wash3 | Items received: Soap | discrete | numeric |
| V120 | received_wash77 | Items received: Other | discrete | numeric |
| V121 | distribution_op | How would you judge the distribution method used by IRC, AHA or SP? | discrete | numeric |
| V122 | washitems_satisf | How satisfied is your hh with access to NFIs (soap, jerrycans, buckets)? | discrete | numeric |
| V123 | other_uses | Did you use the non-food item assistance to address other needs | discrete | numeric |
| V124 | other_uses1 | Use as other needs: as tax to local authorities | discrete | numeric |
| V125 | other_uses2 | Use as other needs: Sold for money | discrete | numeric |

| | | | | |
|------|--------------|--|----------|---------|
| V126 | other_uses3 | Use as other needs: Traded for something else | discrete | numeric |
| V127 | other_uses4 | Use as other needs: Gave out to relatives and friends for free | discrete | numeric |
| V128 | other_uses77 | Use as other needs: Other (please specify) | discrete | numeric |
| V129 | weight | Weight | contin | numeric |
