Overview

ABSTRACT

Maratane Refugee Camp is found in Northern Mozambique, Nampula Province, and is located around 35 kms from the capital city Nampula. The camp was established in February 2001, and since 2003, it has become the only reception center and official settlement in Mozambique, where asylum seekers and refugees can be registered and assisted. Currently, Maratane Refugee camp hosts approximately 9,242 refugees, which are mainly from the Democratic Republic of the Congo, Burundi, Rwanda, Somalia and other nationalities.

Maratane Camp is the only refugee camp in the country and is managed by the Instituto Nacional de Apoio aos Refugiados (INAR). INAR is UNHCR's main government counterpart, and operates under the jurisdiction of the Ministry for Internal Affairs. INAR is divided into several units, including Protection/RSD, program, Registration and Logistics and is also UNHCR WASH partner for providing WASH service in the camp.

In order to understand the current status and level of WASH service in the camp, UNHCR had conducted a WASH KAP (Knowledge, Attitudes and Practices) survey through coordination with INAR. Accordingly, a total of 433 households from different zones of the camp were interviewed using UNHCR's standard WASH KAP survey questionnaire which was pre-tested and adapted to local context.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

Households

Scope

NOTES

The KAP survey was conducted to enable and help UNHCR and INAR to better understand the current status and level of WASH service in the camp and also to use the result of the survey as a baseline for planning and implementation of the WASH intervention. The KAP survey has looked at water supply, sanitation and hygiene behaviors practiced in the camp through the lens of community perceptions and it is expected to help on to strengthen the WASH intervention in the camp.

Below are the main objectives of the survey:

a) To establish a baseline of the beneficiaries' knowledge, attitudes, and practices (KAP) regarding water, sanitation and hygiene related behavior.

b) To help as a basis for revising and updating the country WASH strategy and also to recommend on the activities that need to be adjusted or strengthened to improve the WASH intervention in the camp

Sampling

Sampling Procedure

As per the data obtained from UNHCR registration team, there are 9,244 refugees and 2,942 HH in Maratane refugee camp. Accordingly, a total of 365 HH were selected as sample size using UNHCR sample size calculator and consequently allocated proportionally to each zone and transit center based on the size of the zones. Since UNHCR does not have a compiled list of households in excel, the households to be interviewed were selected randomly using the HH address. Accordingly, the enumerators selected every second or third household to interview in their assigned zones to make it more random.

Weighting

Weight was calculated dividing the total number of refugee households in each camp's zone, according to available data, by the number of households in the dataset.

Questionnaires

Overview

The questionnaire included the following sections:

- A. General information and demographics
- B. Water collection and storage
- C. Drinking water hygiene
- D. Hygiene
- E. Sanitation
- F. Health messaging
- G. Distribution of NFI
- H. Diarrhea prevalence, knowledge and health seeking behaviour
- I. Menstrual hygiene

Data Collection

Data Collection Dates

Start	End	Cycle
2019-11-25	2019-12-04	N/A

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

Accordingly each enumerator was given the phone every morning to do the survey and the enumerators were returning the phones at the end of the day to their supervisors which were from UNHCR, INAR and Health center. Since there is no internet connection on the phones and as the auto send setting for sending the finalized forms to the server on the mobile phone was not activated, after being reviewed by the supervisors, the phones were given to UNHCR WASH officer who is responsible for manually sending finalized forms from the phones to the server. The data obtained were checked after each day of data collection and feedback was given to the enumerators the next day to clarify any ambiguities in the data collected the day before.

After uploading the data to the server, analysis was done using the functions on the platform and using UNHCR WASH KAP analyzer and KAP Mapper.

A debriefing discussion was made with the enumerators at the end of each day to hear the feedback from the community, which has assisted in increasing the understanding of the WASH situation in the camp. A one-day workshop was also organized with the WASH partner and UNHCR staffs to discuss on the findings of the survey.

Questionnaires

The questionnaire included the following sections:

- A. General information and demographics
- B. Water collection and storage
- C. Drinking water hygiene
- D. Hygiene
- E. Sanitation
- F. Health messaging
- G. Distribution of NFI
- H. Diarrhea prevalence, knowledge and health seeking behaviour
- I. Menstrual hygiene

V47	latrine_overflow	Is the latrine full/ overflowing?	discrete	numeric
V48	latrine_handwashing	Is there a handwashing station at the latrine?	discrete	numeric
V49	bathing_observation	OBSERVATION: Do they have a designated bathing facility AT HOME?	discrete	numeric
V50	waste_where	Where does your HH usally dispose of domestic waste?	discrete	numeric
V51	hygiene_visit	Did your HH receive visit from Hygiene Promoter/Worker to discuss hygiene	discrete	numeric
V52	children_waterystool	How many children 5- have had 3+ watery stools in a day the last 14 days?	discrete	numeric
V53	adults_waterystool	How many persons 5+ have had 3+ watery stools in a day in the last 14 days?	discrete	numeric
V54	diarrhea_contagion1	Ways people get diarrhea? Contaminated water	discrete	numeric

V55	diarrhea_contagion2	Ways people get diarrhea? Contaminated food	discrete	numeric
V56	diarrhea_contagion3	Ways people get diarrhea? Unpleasant odors	discrete	numeric
V57	diarrhea_contagion4	Ways people get diarrhea? Flies	discrete	numeric
V58	diarrhea_contagion5	Ways people get diarrhea? Contact with sick w diarrhea	discrete	numeric
V59	diarrhea_contagion6	Ways people get diarrhea? From swimming in surface water	discrete	numeric
V60	diarrhea_contagion77	Ways people get diarrhea? Other	discrete	numeric
V61	diarrhea_contagion99	Ways people get diarrhea? Don't know	discrete	numeric
V62	diarrhea_prevention1	How prevent diarrhea: Boil or treat your water/drink clean water	discrete	numeric
V63	diarrhea_prevention3	How prevent diarrhea? Wash hands w/soap and water	discrete	numeric
V64	diarrhea_prevention4	How prevent diarrhea? Cook food well	discrete	numeric
V65	diarrhea_prevention5	How prevent diarrhea? Wash fruits and vegetables	discrete	numeric
V66	diarrhea_prevention6	How prevent diarrhea? Cover food	discrete	numeric
V67	diarrhea_prevention2	How prevent diarrhea? Cleaning cooking utensils	discrete	numeric
V68	diarrhea_prevention15	How prevent diarrhea? Clean home with bleach	discrete	numeric
V69	diarrhea_prevention7	How prevent diarrhea? Use toilet/latrine facility to defecate	discrete	numeric
V70	diarrhea_prevention8	How prevent diarrhea? Dispose of children's faeces in toilet/latrine	discrete	numeric
V71	diarrhea_prevention9	How prevent diarrhea? Bury faeces	discrete	numeric
V72	diarrhea_prevention10	How prevent diarrhea? Receive a vaccine	discrete	numeric
V73	diarrhea_prevention11	How prevent diarrhea? Store water safely	discrete	numeric
V74	diarrhea_prevention12	How prevent diarrhea? Breastfeeding	discrete	numeric
V75	diarrhea_prevention77	How prevent diarrhea? Other	discrete	numeric
V76	diarrhea_prevention99	How prevent diarrhea? Don't know	discrete	numeric
V77	xwomen_repage	Number of women in reproductive age	discrete	numeric
V78	women_repage_answer	Would one of reproductive age answer some questions on menstrual hygiene?	discrete	numeric
V79	consentmenstrual	Do you accept to answer to some questions on menstrual hygiene management?	discrete	numeric
V80	femhyg_materials1	Materials used last period: Disposable pad	discrete	numeric
V81	femhyg_materials2	Materials used last period: Reusable pad	discrete	numeric
V82	femhyg_materials3	Materials used last period: Reusable cloth	discrete	numeric
V83	femhyg_materials4	Materials used last period: Tampon	discrete	numeric
V84	femhyg_materials5	Materials used last period: Cotton	discrete	numeric
V85	femhyg_materials6	Materials used last period: Menstrual cup	discrete	numeric
V86	femhyg_materials7	Materials used last period: Layers of underwear	discrete	numeric
V87	femhyg_materials8	Materials used last period: Nothing/bleed into clothes	discrete	numeric

V88	femhyg_materials77	Materials used last period: Others	discrete	numeric
V89	femhyg_different	Would you have rather used different materials during your period?	discrete	numeric
V90	femhyg_privacyhome	During your last period were you able to wash and change in privacy while at hom	discrete	numeric
V91	femhyg_privacywork	During your last menstrual were you able to wash and change in privacy while at	discrete	numeric
V92	femalehygiene_change_water	Is toilet paper/water available where women change menstrual hygiene products?	discrete	numeric
