SERIES INFORMATION
The baseline ES for the Zambia contains a total of 601 interviews conducted from September, 2019 through March, 2020. The follow-up data can be merged with the baseline data set using the variable idstd. The follow-up surveys re-contact all establishments sampled in the standard ES. The dataset contains all observations from the standard ES with the variable eligibilitycode indicating the outcome after attempting to reach the corresponding firm. Reference to last completed month in data : November/December/January. For more information regarding the ES follow-up surveys on COVID-19, visit: https://www.enterprisesurveys.org/en/covid-19

ABSTRACT
As part of the efforts of the World Bank Group to understand the impact of COVID-19 on the private sector, the Enterprise Analysis unit is conducting follow-up surveys on recently completed Enterprise Surveys (ES) in several countries. These short surveys follow the baseline ES and are designed to provide quick information on the impact and adjustments that COVID-19 has brought about in the private sector.

Sampling

SAMPLING PROCEDURE
The follow-up surveys re-contact all establishments sampled in the standard ES using stratified random sampling. The total sample target was 601. Sample Frame Source : Completed interviews in the Zambia 2019 ES. For more information on sampling methodology, see
https://www.enterprisesurveys.org/content/dam/enterprisesurveys/documents/methodology/Sampling_Note.pdf

RESPONSE RATE
95.1

WEIGHTING
The dataset contains three weight variables. The baseline weights are denoted wmedian_ES and are used to compute the indicators that project to the baseline Universe (e.g. exit rates). To account for non-response in the follow-up, these sampling weights are adjusted by cell of stratification (combination of size, sector, and location). The resulting variable wmedian_COVID — recommended to be used for analysis and used to compute all other indicators — assumes that businesses that could not be re-contacted (unobtainable) have exited the market. The variable wweak_COVID assumes that unobtainable businesses continue to exist. Establishments that have closed permanently are interviewed using a short questionnaire which is also available in the dataset. Figure 1 of the survey report reflects the outcome of attempting to re-contact the entire sample from the baseline ES.

QUESTION PRETEXT
1. READ THE FOLLOWING TO THE TARGET RESPONDENT, IF BY PHONE (mode=1)
Good [morning/afternoon/evening], I'm calling you from Ipsos Zambia to thank you for the participation in the first round of the COVID-19 impact survey for the World Bank that we undertook June/July. I hope you received the brief report of the results. We would like to take this opportunity to ask you a few questions to follow up on the effect of the COVID-19 virus on your establishment since we spoke in June/July.
The information and opinions you provide will be anonymized. Neither your name nor the name of your business will be used in any document based on this survey.

2. SHOW THE FOLLOWING TO RESPONDENT NOT COVERED IN THE PREVIOUS ROUND
Good [morning/afternoon/evening], I'm calling you from Ipsos Zambia on behalf of the World Bank. We are conducting a survey to better understand the effect of the COVID-19 on businesses like yours. Your business is randomly selected to participate in a quick over the phone survey. The information gathered will help to design policy responses for private sector recovery and growth in Zambia.
The information and opinions you provide will be anonymized. Neither your name nor the name of your business will be used in any document based on this survey.

QUESTION PRETEXT
1. READ THE FOLLOWING TO THE TARGET RESPONDENT, IF BY PHONE (mode=1)
Good [morning/afternoon/evening], I'm calling you from Ipsos Zambia to thank you for the participation in the first round of the COVID-19 impact survey for the World Bank that we undertook June/July. I hope you received the brief report of the results. We would like to take this opportunity to ask you a few questions to follow up on the effect of the COVID-19 virus on your establishment since we spoke in June/July.
The information and opinions you provide will be anonymized. Neither your name nor the name of your business will be used in any document based on this survey.

2. SHOW THE FOLLOWING TO RESPONDENT NOT COVERED IN THE PREVIOUS ROUND
Good [morning/afternoon/evening], I'm calling you from Ipsos Zambia on behalf of the World Bank. We are conducting a survey to better understand the effect of the COVID-19 on businesses like yours. Your business is randomly selected to participate in a quick over the phone survey. The information gathered will help to design policy responses for private sector recovery and growth in Zambia.
The information and opinions you provide will be anonymized. Neither your name nor the name of your business will be used in any document based on this survey.
