

Argentina - National Population and Housing Census 1980 - IPUMS Subset

Argentine National Institute of Statistics and Censuses, Minnesota Population Center - University of Minnesota

Report generated on: April 18, 2019

Visit our data catalog at: <http://microdata.worldbank.org>

Sampling

Sampling Procedure

MICRODATA SOURCE: Argentine National Institute of Statistics and Censuses (INDEC)

SAMPLE DESIGN: In locations where the sample fraction is 10 percent, 100 percent of households are chosen. In locations where the sample fraction is 20 percent, every 2nd household is chosen with a random start. For the remaining locations where there is not a sample, every 10th household is chosen. In group quarters, the sample was not applied in the enumeration. They are chosen as a systematic sample of every 10th person with a random start. The sample was elaborated by INDEC.

SAMPLE UNIT: Household

SAMPLE FRACTION: 10%

SAMPLE UNIVERSE: 100% of the population and households enumerated. The 1980 census used a sample for the application of the long questionnaire form. The fraction of the sample varies according to the size of location.

SAMPLE SIZE (person records): 2,667,714

Response Rate

COVERAGE: 98.99%

Weighting

Computed by census agency and should be used for most types of analysis.

Questionnaires

Overview

Short form questionnaire: (1) Dwelling questionnaire (2) Population questionnaire (both questionnaires made up a single booklet). Long form questionnaire: (1) Dwelling questionnaire (2) Population questionnaire (both questionnaires make up a single booklet).

Data Collection

Data Collection Dates

Start	End	Cycle
1980-10-22	1980-10-23	N/A

Time Periods

Start	End	Cycle
1980-10-22	1980-10-22	N/A

Data Collection Mode

Face-to-face [f2f]

DATA COLLECTION NOTES

De facto, CENSUS DAY: October 22, 1980, FIELD WORK PERIOD: The interviews take place on the expected census day. In some areas the enumeration took place the following day because of access problems due to heavy rains.

Variable List

ARG1980-H-H

Content	Household record
Cases	0
Variable(s)	60
Structure	Type: relational Keys: SERIAL(Household serial number)
Version	Version 6.4, IPUMS sample
Producer	Minnesota Population Center
Missing Data	

Variables

ID	Name	Label	Type	Format	Question
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	UNREL	Number of unrelated persons	discrete	numeric	
V9	URBAN	Urban-rural status	discrete	numeric	
V10	REGIONW	Continent and region of country	discrete	numeric	
V11	WATSUP	Water supply	discrete	numeric	
V12	SEWAGE	Sewage	discrete	numeric	
V13	ROOMS	Number of rooms	discrete	numeric	
V14	TOILET	Toilet	discrete	numeric	
V15	BATH	Bathing facilities	discrete	numeric	
V16	FLOOR	Floor material	discrete	numeric	
V17	WALL	Wall or building material	discrete	numeric	
V18	ROOF	Roof material	discrete	numeric	
V19	HHTYPE	Household classification	discrete	numeric	
V20	NFAMS	Number of families in household	discrete	numeric	
V21	HEADLOC	Head's location in household	contin	numeric	
V22	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V23	AR1980A_0001	Dwelling number	contin	numeric	Dwelling number
V24	AR1980A_0006	Number of persons in household	discrete	numeric	Number of persons in household
V25	AR1980A_0016	Dwelling created by splitting apart a large dwelling or household	discrete	numeric	Dwelling created by splitting apart a large dwelling or household
V26	AR1980A_0018	Number of persons in large household before it was split	discrete	numeric	Number of persons in large household before it was split
V27	AR1980A_0033	Urban-rural	discrete	numeric	Urban-rural

ID	Name	Label	Type	Format	Question
V28	AR1980A_0035	Dwelling type	discrete	numeric	B. Dwelling 3. Type <input type="checkbox"/> House <input type="checkbox"/> Apartment <input type="checkbox"/> Rented room <input type="checkbox"/> Rural dwelling rancho <input type="checkbox"/> Precarious dwelling <input type="checkbox"/> Other
V29	AR1980A_0036	Floor material	discrete	numeric	B. Dwelling 4. Principle construction materials A. The floors: <input type="checkbox"/> Tile or similar <input type="checkbox"/> Wood <input type="checkbox"/> Cement or permanent brick <input type="checkbox"/> Dirt <input type="checkbox"/> Other (loose brick, discarded materials, etc.)
V30	AR1980A_0037	Exterior wall material	discrete	numeric	B. Dwelling 4. Principle construction materials A. The floors: <input type="checkbox"/> Tile or similar <input type="checkbox"/> Wood <input type="checkbox"/> Cement or permanent brick <input type="checkbox"/> Dirt <input type="checkbox"/> Other (loose brick, discarded materials, etc.)
V31	AR1980A_0038	Outer covering of the roof	discrete	numeric	B. Dwelling 4. Principle construction materials A. The floors: <input type="checkbox"/> Tile or similar <input type="checkbox"/> Wood <input type="checkbox"/> Cement or permanent brick <input type="checkbox"/> Dirt <input type="checkbox"/> Other (loose brick, discarded materials, etc.)
V32	AR1980A_0039	Number of rooms excluding the bathroom or kitchen	discrete	numeric	B. Dwelling 5. Number of rooms excluding the bathroom or kitchen: <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input type="checkbox"/> 6 <input type="checkbox"/> 7 <input type="checkbox"/> 8 or more
V33	AR1980A_0040	Water supply	discrete	numeric	B. Dwelling 6. Water service:
V34	AR1980A_0041	Water source	discrete	numeric	B. Dwelling 6. Water service:
V35	AR1980A_0042	Cooking fuel	discrete	numeric	B. Dwelling 7. Combustible used for cooking <input type="checkbox"/> Gas from a network <input type="checkbox"/> Gas from a tank <input type="checkbox"/> Other
V36	AR1980A_0043	Electricity service	discrete	numeric	B. Dwelling 8. Electrical service <input type="checkbox"/> With electricity from a public network <input type="checkbox"/> With electricity generated by household <input type="checkbox"/> No electricity
V37	AR1980A_0044	Toilet	discrete	numeric	B. Dwelling 9. Sanitary service
V38	AR1980A_0045	Shower or bathtub	discrete	numeric	B. Dwelling 9. Sanitary service
V39	AR1980A_0046	Age of construction	discrete	numeric	B. Dwelling 10. Approximate age of the original dwelling construction <input type="checkbox"/> Up to 5 years <input type="checkbox"/> 6 to 10 years <input type="checkbox"/> 11 to 20 <input type="checkbox"/> 21 to 30 <input type="checkbox"/> 31 to 50 <input type="checkbox"/> More than 50
V40	AR1980A_0047	Type of tenancy	discrete	numeric	B. Dwelling 11. Tenancy <input type="checkbox"/> Owner <input type="checkbox"/> Renter <input type="checkbox"/> Other dependant relationship <input type="checkbox"/> Free occupancy <input type="checkbox"/> Other
V41	AR1980A_0048	Persons per room	discrete	numeric	Persons per room
V42	AR1980A_0049	Household type	discrete	numeric	Household type
V43	AR1980A_0051	Basic needs covered	discrete	numeric	Basic needs covered
V44	AR1980A_0052	Household weight	discrete	numeric	Household weight
V45	AR1980A_0053	Strata	contin	numeric	Strata
V46	HHWT	Household weight	contin	numeric	
V47	GEOLEV2	2nd subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V48	GEO1_AR	Argentina, Province 1970 - 2010 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V49	GEO1_AR1980	Argentina, Province 1980 [Level 1, GIS]	discrete	numeric	
V50	GEO2_AR	Argentina, Department 1970 - 2010 [Level 2; consistent boundaries, GIS]	discrete	numeric	
V51	GEO2_AR1980	Argentina, Department 1980 [Level 2, GIS]	discrete	numeric	

ID	Name	Label	Type	Format	Question
V52	NCOUPLES	Number of married couples in household	discrete	numeric	
V53	NMOTHERS	Number of mothers in household	discrete	numeric	
V54	NFATHERS	Number of fathers in household	discrete	numeric	
V55	COUNTRY	Country	discrete	numeric	
V56	ELECTRIC	Electricity	discrete	numeric	
V57	AGESTRUCT2	Age of structure, coded from intervals	discrete	numeric	
V58	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V59	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V60	STRATA	Strata identifier	contin	numeric

V89	YRIMM	Year of immigration	discrete	numeric	
V90	YRSIMM	Years since immigrated	discrete	numeric	
V91	YRSIMM2	Years since immigrated, categorized	discrete	numeric	
V92	SCHOOL	School attendance	discrete	numeric	
V93	LIT	Literacy	discrete	numeric	
V94	EDUCAR	Educational attainment, Argentina	discrete	numeric	
V95	EMPSTAT	Activity status (employment status) [general version]	discrete	numeric	
V96	EMPSTATD	Activity status (employment status) [detailed version]	discrete	numeric	
V97	OCCISCO	Occupation, ISCO general	discrete	numeric	
V98	OCC	Occupation, unrecoded	contin	numeric	
V99	INDGEN	Industry, general recode	discrete	numeric	
V100	IND	Industry, unrecoded	contin	numeric	
V101	CLASSWK	Status in employment (class of worker) [general version]	discrete	numeric	
V102	CLASSWKD	Status in employment (class of worker) [detailed version]	discrete	numeric	
V103	ESTABSZ	Size of work establishment	discrete	numeric	
V104	MIGAR	Province of residence 5 years ago, Argentina	discrete	numeric	
V105	AR1980A_0003	Person number (within household)	discrete	numeric	Person number (within household)
V106	AR1980A_0400	Relation to the head of household	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 1. What is your relationship with the head of household? [] Head of household [] Spouse [] Son/daughter [] Son-in-law/ daughter-in-law [] Grandson/daughter [] Parent or parent-in-law [] Other relative [] Domestic servant [] Other non-relative
V107	AR1980A_0401	Sex	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 2. Is the person a man or a woman? [] Man [] Woman

ID	Name	Label	Type	Format	Question
V108	AR1980A_0402	Age	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 3. What is his or her age? __ Mark the age in completed years at the date of the census for those younger than one year old mark 00. For those younger than 10 years old, mark 01, 02, 03, etc. For those older than 99 years old, mark 99.
V109	AR1980A_0403	Place of birth recode	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 4. Where was he or she born? [] In this province [] In another province [] In a neighboring country [] In another country
V110	AR1980A_0404	Place of residence	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 5. What is the locality and province, or foreign country [of his or her birth or residence]? In each case if it is the locality or place where the person is answering the census mark only the box "here." Otherwise, write the name of the locality or place and the province. If it is in another country, write only the name of the country.
V111	AR1980A_0405	Place of residence 5 years ago	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 5. What is the locality and province, or foreign country [of his or her birth or residence]? In each case if it is the locality or place where the person is answering the census mark only the box "here." Otherwise, write the name of the locality or place and the province. If it is in another country, write only the name of the country.
V112	AR1980A_0406	Year arrived in Argentina	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 6. [Immigration status] Only for persons who have usual residence in Argentina and were born in another country. [Questions 6A and 6B asked only of persons born outside Argentina and who currently reside in Argentina.] A. When did you arrive in the country to stay? Year 18 __ Year 19 __
V113	AR1980A_0407	Citizenship	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 6. [Immigration status] Only for persons who have usual residence in Argentina and were born in another country. [Questions 6A and 6B asked only of persons born outside Argentina and who currently reside in Argentina.] B. Are you a naturalized citizen of Argentina? [] Yes [] No [] Unanswered
V114	AR1980A_0408	Literacy	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 7. Do you know how to read and write? If he or she only reads or only writes, mark no. [] Yes [] No [] Unanswered
V115	AR1980A_0409	School attendance	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 8. Do you attend or have you attended some educational establishment? [] Attend [] Never attended [] Attended but does not attend [] Unanswered
V116	AR1980A_0410	Highest educational level	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 9. [Educational attainment] If the person answered "Attend" or "Attended but does not attend": [Questions 9A-9D asked of those who had ever attended an educational institution.]
V117	AR1980A_0411	Completed highest level of education	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 9. [Educational attainment] If the person answered "Attend" or "Attended but does not attend": [Questions 9A-9D asked of those who had ever attended an educational institution.]
V118	AR1980A_0412	Highest grade completed	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 9. [Educational attainment] If the person answered "Attend" or "Attended but does not attend": [Questions 9A-9D asked of those who had ever attended an educational institution.]

ID	Name	Label	Type	Format	Question
V119	AR1980A_0413	University major	discrete	numeric	C. Population For all of the persons 5 years old and more [Questions 7-8 were asked of persons age 5 years or older.] 9. [Educational attainment] If the person answered "Attend" or "Attended but does not attend": [Questions 9A-9D asked of those who had ever attended an educational institution.]
V120	AR1980A_0414	Employment status	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] 10. What did you do last week? Ask the questions one at a time in the indicated order (worked, didn't work but had a job etc.) when you get an affirmative answer, mark the corresponding box. <input type="checkbox"/> Worked <input type="checkbox"/> Didn't work but had a job <input type="checkbox"/> Looked for work having worked before <input type="checkbox"/> Looked for work for the first time <input type="checkbox"/> Retired and didn't work <input type="checkbox"/> Received rental income and didn't work <input type="checkbox"/> Studied and didn't work <input type="checkbox"/> Took care of their home <input type="checkbox"/> Other situation <input type="checkbox"/> Unanswered
V121	AR1980A_0415	Occupation	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census. [Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.] 11. What is the occupation, job or type of work that you do? _____. Write for example: chemist, artist, accounting assistant, sales manager, salesman, administrative employee, teacher, machine shearer weaver, tow truck driver, taxi driver, construction assistant.
V122	AR1980A_0416	Class of worker	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census. [Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.] 12. What position did you have in this occupation? Ask the questions one at a time in the indicated order when you get an affirmative answer mark the corresponding box. <input type="checkbox"/> Employee or worker in the public sector <input type="checkbox"/> Employee or worker in the private sector <input type="checkbox"/> Domestic employee <input type="checkbox"/> Self-employed (does not have employer) <input type="checkbox"/> Owner or partner (has employees) <input type="checkbox"/> Family worker without regular income <input type="checkbox"/> Unanswered
V123	AR1980A_0417	Type of establishment	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census. [Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.] 13. [Place of work]
V124	AR1980A_0418	Industry	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census. [Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.] 13. [Place of work]

ID	Name	Label	Type	Format	Question
V125	AR1980A_0419	Establishment size	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census. [Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.] 13. [Place of work]
V126	AR1980A_0420	Marital status	discrete	numeric	C. Population For all of the persons 14 years and more [Questions 10-15 were asked of persons age 14 and older.] 15. What is your current civil status? [] Married [] Consensual union [] Separated or divorced [] Widowed [] Single [] Unanswered
V127	AR1980A_0421	Have children born alive	discrete	numeric	C. Population For women 14 years old and more [Questions 16-17 were asked of women age 14 and older.] 16. Have you had children born alive [] Yes [] No [] Unanswered
V128	AR1980A_0422	Children born alive	discrete	numeric	C. Population For women 14 years old and more [Questions 16-17 were asked of women age 14 and older.] 17. [Children] If answered affirmatively to 16, [Questions 17A-17C were asked of those who answered affirmatively to question 16.]
V129	AR1980A_0423	Children born alive currently living	discrete	numeric	C. Population For women 14 years old and more [Questions 16-17 were asked of women age 14 and older.] 17. [Children] If answered affirmatively to 16, [Questions 17A-17C were asked of those who answered affirmatively to question 16.]
V130	AR1980A_0424	Children born alive in the last year	discrete	numeric	C. Population For women 14 years old and more [Questions 16-17 were asked of women age 14 and older.] 17. [Children] If answered affirmatively to 16, [Questions 17A-17C were asked of those who answered affirmatively to question 16.]
V131	AR1980A_0426	Person weight	discrete	numeric	Person weight
V132	AR1980A_0427	Place of birth	discrete	numeric	C. Population For all of the persons [Questions 1-6 were asked of all persons] 5. What is the locality and province, or foreign country [of his or her birth or residence]? In each case if it is the locality or place where the person is answering the census mark only the box "here." Otherwise, write the name of the locality or place and the province. If it is in another country, write only the name of the country.
V133	PERWT	Person weight	contin	numeric	
V134	YRSCHOOL	Years of schooling	discrete	numeric	
V135	MIGRATE5	Migration status, 5 years	discrete	numeric	
V136	EDATTAIN	Educational attainment, international recode [general version]	discrete	numeric	
V137	EDATTAIND	Educational attainment, international recode [detailed version]	discrete	numeric	
V138	BPLCOUNTRY	Country of birth	discrete	numeric	
V139	BIRTHSLYR	Number of births last year	discrete	numeric

V146	RECTYPEP	Record type [person version]	discrete	character	

Record type (RECTYPE)

File: ARG1980-H-H

Overview

Type: Discrete

Format: character

Width: 1

Valid cases: 0

Invalid: 0

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Year (YEAR)

File: ARG1980-H-H

Overview

Type: Discrete

Format: numeric

Width: 4

Decimals: 0

Range: 1960-2011

Valid cases: 0

Invalid: 0

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)

File: ARG1980-H-H

Overview

Type: Discrete

Format: numeric

Width: 9

Decimals: 0

Range: 32197001-894201001

Valid cases: 0

Invalid: 0

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g., 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Household serial number (SERIAL)

File: ARG1980-H-H

Household serial number (SERIAL)

File: ARG1980-H-H

Overview

Type: Continuous
Format: numeric
Width: 10
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
Colombia 1993, 2005
Costa Rica 1984, 2000
Cuba 2002

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Number of person records in the household (PERSONS)

File: ARG1980-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)

File: ARG1980-H-H

Subsample number (SUBSAMP)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Number of unrelated persons (UNREL)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Urban-rural status (URBAN)

File: ARG1980-H-H

Overview

Urban-rural status (URBAN)

File: ARG1980-H-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

URBAN indicates whether the household was located in a place designated as urban or as rural.

Continent and region of country (REGIONW)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 11-54

Valid cases: 0
Invalid: 0

Description

REGIONW identifies the continent and region of each country.

Water supply (WATSUP)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

Sewage (SEWAGE)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SEWAGE indicates whether the household has access to a sewage system or septic tank.

Number of rooms (ROOMS)

File: ARG1980-H-H

Overview

Number of rooms (ROOMS)

File: ARG1980-H-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

ROOMS indicates the number of rooms occupied by the housing unit.

Toilet (TOILET)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Bathing facilities (BATH)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

BATH indicates whether the household had access to bathing facilities and, in most cases, whether it had exclusive access.

Floor material (FLOOR)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

FLOOR indicates the dwelling's predominant flooring material.

Wall or building material (WALL)

File: ARG1980-H-H

Overview

Wall or building material (WALL)

File: ARG1980-H-H

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

This variable indicates the primary material used in the construction of the dwelling, particularly the dwelling's exterior walls.

Roof material (ROOF)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the dwelling's predominant roofing material.

Household classification (HHTYPE)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

HHTYPE is a constructed variable that describes the composition of households.

HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Number of families in household (NFAMS)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

Head's location in household (HEADLOC)

File: ARG1980-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 32002-894010

Valid cases: 0
Invalid: 0

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Dwelling number (AR1980A_0001)

File: ARG1980-H-H

Overview

Literal question

B. Dwelling

3. Type

- ☐ House
- ☐ Apartment
- ☐ Rented room
- ☐ Rural dwelling rancho
- ☐ Precarious dwelling
- ☐ Other

Interviewer instructions

Dwelling type (AR1980A_0035)

File: ARG1980-H-H

B. Dwelling

It is any housing fixed or mobile that has been built or adapted for housing persons. A house, apartment, trailer, tenant room, shack, hospital, and a room are all considered dwellings.

3. Type of Dwelling: The characteristics that correspond to each type of dwelling mentioned in the questionnaire are the following:

House: A construction with an independent exit to a public street, which generally constitutes a single dwelling unit.

Apartment: A room or group of rooms that within a building constitute a single dwelling, occupying only a part of it.

In an apartment building, each one of them constitutes a dwelling unit. The "flat" is a special case in which an apartment occupies a whole floor of a building.

[The instructions refer to a graphic of the census form.]

Tenant room: Tenant is a dwelling where 4 or more census homes are lodged. Each one of them occupies one or more rooms, lacking hygienic facilities and or kitchen of exclusive use. Each room or group of rooms occupied by a census home, should be considered an independent dwelling.

Floor material (AR1980A_0036)

File: ARG1980-H-H

Overview

Type: Discrete

Description

This variable indicates the predominant material used in the dwelling's floor.

Universe

Private dwellings

Literal question

B. Dwelling

4. Principle construction materials

A. The floors:

- ☐ Tile or similar
- ☐ Wood
- ☐ Cement or permanent brick
- ☐ Dirt
- ☐ Other (loose brick, discarded materials, etc.)

Interviewer instructions

Floor material (AR1980A_0036)

File: ARG1980-H-H

B. Dwelling

It is any housing fixed or mobile that has been built or adapted for housing persons. A house, apartment, trailer, tenant room, shack, hospital, and a room are all considered dwellings.

4. Predominant Material in the Construction: You will specify the predominant material employed in the construction of the floors, walls and roofs.

In case of doubt, you will consult with the occupants of the dwelling.

If in a section of the construction more than one material exists, you will only make reference to that used in the largest proportion. For example: If the roof is covered asphalt and metal sheets, only mark "metal sheets".

a) Of the floors: You will indicate the material that predominates, considering all the floors of the dwelling.

[The instructions refer to a graphic of the census form.]

b) Of the outside walls: Follow the instructions from part a).

[The instructions refer to a graphic of the census form.]

c) Of the outside cover of the roof: In constructions of more than one floor, you will indicate the covering that corresponds to the top floor only.

Invalid: 0

Description

This variable indicates whether the basic needs of the household are covered.

Universe

Private dwellings

Literal question

Basic needs covered

Household weight (AR1980A_0052)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the weight for household.

Universe

Private dwellings

Literal question

Household weight

Strata (AR1980A_0053)

File: ARG1980-H-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. Strata is a constructed variable that captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

Universe

All households

Literal question

Strata

Household weight (HHWT)

File: ARG1980-H-H

Overview

Household weight (HHWT)

File: ARG1980-H-H

Type: Continuous
Format: numeric
Width: 8
Decimals: 2

Valid cases: 0
Invalid: 0

Description

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

2nd subnational geographic level, world [consistent boundaries over time] (GEOLEV2)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 32002001-88888888

Valid cases: 0
Invalid: 0

Description

GEOLEV2 indicates the second major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. Second administrative units in GEOLEV2 have been spatio-temporally harmonized to provide spatially consistent boundaries across samples in each country.

Argentina, Province 1970 - 2010 [Level 1; consistent boundaries, GIS] (GEO1_AR)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 32002-239094

Valid cases: 0
Invalid: 0

Description

GEO1_AR identifies the household's province within Argentina in all sample years. Provinces are the first level administrative units of the country. GEO1_AR is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1_AR can be downloaded from the GIS Boundary Files page in the IPUMS International web site.

The full set of geography variables for Argentina can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Argentina, Province 1980 [Level 1, GIS] (GEO1_AR1980)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 2-94

Valid cases: 0
Invalid: 0

Description

GEO1A_AR1980 identifies the household's province within Argentina in 1980. Provinces are the first level administrative units of the country. A GIS map (in shapefile format), corresponding to GEO1A_AR1980 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Argentina can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Argentina, Department 1970 - 2010 [Level 2; consistent boundaries, GIS] (GEO2_AR)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 32002001-239094003

Valid cases: 0
Invalid: 0

Description

GEO2_AR identifies the household's department within Argentina in all sample years. Departments are the second level administrative units of the country, after provinces. GEO2_AR is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO2_AR can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Argentina can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Argentina, Department 1980 [Level 2, GIS] (GEO2_AR1980)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 2001-94002

Valid cases: 0
Invalid: 0

Description

GEO2_AR1980 identifies the household's department within Argentina in 1980. Departments are the second level administrative units of the country, after provinces. A GIS map (in shapefile format), corresponding to GEO2_AR1980 can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Argentina can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level of any country refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Number of married couples in household (NCOUPLES)

File: ARG1980-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)

File: ARG1980-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)

File: ARG1980-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)

File: ARG1980-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 32-894	

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

ELECTRIC indicates whether the household had access to electricity.

Age of structure, coded from intervals (AGESTRUCT2)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

AGESTRUCT2 gives the estimated age of the structure.

Ownership of dwelling [general version] (OWNERSHIP)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)

File: ARG1980-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Strata identifier (STRATA)

File: ARG1980-H-H

Overview

Type: Continuous
Format: numeric
Width: 12
Decimals: 0

Valid cases: 0
Invalid: 0

Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

Person number (PERNUM)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Mother's location in household (MOMLOC)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Father's location in household (POPLOC)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Spouse's location in household (SPLOC)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Rule for linking parent (PARRULE)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-52

Valid cases: 0
Invalid: 0

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Rule for linking spouse (SPRULE)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Probable stepmother (STEPMOM)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

- 0 = Biological mother or no mother of this person present in household.
- 1 = Mother has no children borne or surviving.
- 2 = Child reports mother is deceased.
- 3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
- 4 = Mother reports no children in the home.
- 5 = Age difference between mother and child was less than 12 or greater than 54 years.
- 6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Probable stepfather (STEPPOP)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-3

Valid cases: 0
Invalid: 0

Description

STEPPOP indicates whether a person's father, as identified by POPLOC, was most probably not the person's biological father. Non-zero values of STEPPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPPOP are as follows:

- 0 = Biological father or no father of this person present in household.
- 1 = Child reports father is deceased.
- 2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
- 3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPPOP will always under-represent their actual number in the population.

Man with more than one wife linked (POLYMAL)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Woman is second or higher order wife (POLY2ND)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Family unit membership (FAMUNIT)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 0
Invalid: 0

Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)

File: ARG1980-P-H

Overview

Number of own family members in household (FAMSIZE)

File: ARG1980-P-H

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Age of eldest own child in household (ELDCH)

File: ARG1980-P-H

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Relationship to household head [general version] (RELATE)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1000-9999

Valid cases: 0
Invalid: 0

Description

RELATED describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Age (AGE)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Age, grouped into intervals (AGE2)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-98

Valid cases: 0
Invalid: 0

Description

AGE2 gives computed years of age grouped into intervals.

Sex (SEX)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

SEX reports the sex (gender) of the respondent.

Marital status [general version] (MARST)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

[program universe for et,mz samples.

MARSTD describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Consensual union (CONSENS)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

CONSENS indicates whether the respondent was in a consensual union -- a de facto marriage.

Children ever born (CHBORN)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

CHBORN reports the number of children ever born to each woman of whom the question was asked. In most samples, women were to report all live births by all fathers, whether or not the child was still living.

Children surviving (CHSURV)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

CHSURV reports the number of children born to a woman who were still living at the time of the census.

Province of birth, Argentina (BPLAR)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 2-99

Valid cases: 0
Invalid: 0

Description

BPLAR indicates the person's province of birth within Argentina.

Citizenship (CITIZEN)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

CITIZEN indicates the person's citizenship status within the country in which they were enumerated.

Year of immigration (YRIMM)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 0-9999

Valid cases: 0
Invalid: 0

Description

YRIMM indicates the calendar year that a foreign-born person came to live in the country in which they were enumerated.

Years since immigrated (YRSIMM)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YRSIMM indicates the number of years since a foreign-born person immigrated to their country of enumeration.

Years since immigrated, categorized (YRSIMM2)

File: ARG1980-P-H

Years since immigrated, categorized (YRSIMM2)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

YRSIMM2 indicates the number of years since a foreign-born person immigrated to the country. The number of years is grouped into intervals.

School attendance (SCHOOL)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

SCHOOL indicates whether or not the person attended school at the time of the census or within some specified period of time prior to the census.

Literacy (LIT)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

Educational attainment, Argentina (EDUCAR)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EDUCAR indicates the person's educational attainment in Argentina in terms of the level of schooling completed.

Activity status (employment status) [general version] (EMPSTAT)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Occupation, ISCO general (OCCISCO)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

Occupation, unrecoded (OCC)

File: ARG1980-P-H

Occupation, unrecoded (OCC)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 4
Decimals: 0

Valid cases: 0
Invalid: 0

Description

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

Industry, general recode (INDGEN)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

Industry, unrecoded (IND)

File: ARG1980-P-H

Overview

Type: Continuous
Format: numeric
Width: 5
Decimals: 0

Valid cases: 0
Invalid: 0

Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

Status in employment (class of worker) [general version] (CLASSWK)

File: ARG1980-P-H

Overview

Status in employment (class of worker) [general version] (CLASSWK)

File: ARG1980-P-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Status in employment (class of worker) [detailed version] (CLASSWKD)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0

Relation to the head of household (AR1980A_0400)

File: ARG1980-P-H

C. Population

For all of the persons

[Questions 1-6 were asked of all persons]

1. What is your relationship with the head of household?

- ☐ Head of household
- ☐ Spouse
- ☐ Son/daughter
- ☐ Son-in-law/ daughter-in-law
- ☐ Grandson/daughter
- ☐ Parent or parent-in-law
- ☐ Other relative
- ☐ Domestic servant
- ☐ Other non-relative

Interviewer instructions

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

1. What is the relationship or relation with the head of the home?

Each private dwelling should necessarily have a head, who is the person recognized as such by the rest of the members of the household.

In the case of a group of non related persons someone should be recognized as head by the rest of the group. In the case of absence, the head of the household will not be enumerated in this household, another member should occupy their place (spouse, oldest child, sibling, etc.). The relationship of the rest of the members will be established with respect to the substitute.

[The instructions refer to a graphic of the census form.]

The spouse of the head will be enumerated second whether they are legally married or not.

In "other family member" register siblings, aunt/uncles, niece/nephews, cousins, brother/sister-in-laws of the head of the household.

Persons employed in domestic service will be enumerated as members of the census home when they coexist and sleep in the dwelling.

In "other non family member," consider other persons who coexist in the home for example pensioners, guests, etc.

[p. 9]

In collective households this question should not be asked. The enumerator will determine the order for enumerating, beginning with the one at the top of the hierarchy, but will not fill out any cell for question No. 1.

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

9. If they answered "attends" or "does not attend but attended."

You will ask:

a) for the highest level advanced at the moment of the census.

b) if they passed or not, this level.

c) about the last year or grade passed.

Take into account, that in the primary level there was a change in names with 1st grade superior becoming 2nd grade, 2nd becoming 3rd, 6th becoming 7th fill in the cell that corresponds to the current name.

[To the right of the text are two forms.]

[p. 11]

d) about the major or university career that is or was studied, writing the name of the major or career.

Vague positions or titles like: Graduate, Doctor, Engineer, etc, should not be put down.

[The instructions refer to a graphic of the census form.]

Possible educational levels

Preschool

Primary: Common primary schools, boarding schools, schools for adults, schools for children with special needs, centers of adult literacy, schools in hospitals, schools in prisons, schools annexed to the Armed Forces.

[The instructions refer to a graphic of the census form.]

Secondary: National secondary schools, high schools, specialized preparatory schools.

Commercial: Business schools.

Teacher training: Teacher training schools, regional teaching schools.

Technical or industrial: Industrial schools, advanced night school, regional and coeducational industrial schools, professional schools for women, factory schools, schools of worker training, schools of professional training for women, institutes of electrical technology, agricultural technical school, schools of medical aids. In all the cases they should be courses that require having completed the primary cycle.

Other middle educational: Institutes of middle specialized education: Military School, Navel School, Police and Firefighter school, Penitentiary Schools, Schools of Sub-officials of the Armed Forces, rural and domestic cultural missions [misiones de cultura rural y domstica], schools of artistic education, Nautical School.

Higher not university: Professors of: History, Physical Education, Pedagogy, Languages, etc. Teachers specialized in: kindergarten, children with special needs, deaf mutes, the blind, etc. Specialized not teaching: courses for graduates of industrial schools, journalists, librarians and museum curators. Higher Military Schools: Military Secondary School, Naval School, Higher School of War, etc. University: Departments of Medicine, Engineering, Architecture, Law, etc.

File: ARG1980-P-H

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the person's employment status the week before the census.

Universe

Persons age 14+

Literal question

C. Population

For all of the persons 14 years and more

[Questions 10-15 were asked of persons age 14 and older.]

10. What did you do last week?

Ask the questions one at a time in the indicated order (worked, didn't work but had a job etc.) when you get an affirmative answer, mark the corresponding box.

- ☐ Worked
- ☐ Didn't work but had a job
- ☐ Looked for work having worked before
- ☐ Looked for work for the first time
- ☐ Retired and didn't work
- ☐ Received rental income and didn't work
- ☐ Studied and didn't work
- ☐ Took care of their home
- ☐ Other situation
- ☐ Unanswered

Interviewer instructions

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

You will ask the following questions to all persons 14 years old or older.

10. What did you do last week?

The questions should refer to the activity done during the period known between the Sunday of the week previous to the day of the census. As it is expressed in the questionnaire, you will ask a question once in the order indicated, until obtaining an affirmative response. You will ask questions 11, 12 and 13, only if you obtained a response to one of the first three alternatives of this question.

If you obtained a response starting with the fourth alternative, you will go directly to question 14.

Description

This variable indicates the person's occupation.

Universe

Persons age 14+ with a job or experienced unemployed

Literal question

C. Population

For all of the persons 14 years and more

[Questions 10-15 were asked of persons age 14 and older.]

Questions 11, 12, and 13 should be asked only of the person that responded to one of the first three choices in question 10. The answer should refer to the activity carried out between Monday and the Sunday before the day of the census.

[Question 11, 12 and 13 were asked of persons who responded to one of the first three choices in question 10: worked, didn't work but had a job, or looked for work having worked before.]

11. What is the occupation, job or type of work that you do? _____

Write for example: chemist, artist, accounting assistant, sales manager, salesman, administrative employee, teacher, machine shearer weaver, tow truck driver, taxi driver, construction assistant.

Interviewer instructions

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

You will ask the following questions to all persons 14 years old or older.

11. What is the occupation, craft, or class of work that you do?

You will write down the name of the occupation, giving a precise idea as in the examples that are shown in the questionnaire.

You will avoid imprecise names like: agricultural worker, aid, employee, etc.

If the enumerated person has more than one occupation, you will write down what is considered as principle.

File: ARG1980-P-H

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

You will ask the following questions to all persons 14 years old or older.

12. What position do you have in the running of this occupation?

Employee or worker of the public sector: a person who works for daily wages or salary for a centralized or decentralized or autonomous organism of national, provincial, or municipal administration; government employees, or companies under governmental control.

Employee or worker of the private sector: a person who works for daily wages or salary for an employer, company or private employer.

Domestic employee: a person who works for daily wages or salary for an employer doing domestic duties (cook, nanny, butler, maid, gardener, etc.).

Self-employed (does not have employers): a person who without depending on a employer, exploits their own economic company, or who runs for their own account a profession or craft, without employing any remunerated worker.

Employer or partner (has employees): a person who exploits their own economic company or runs by their own account a profession or craft, and who has one or more workers for salary or daily wages.

Family worker without remuneration: a person who works in a company or business whose owner is a relative and does not receive a fixed remuneration.

Literal question

Place of birth (AR1980A_0427)

File: ARG1980-P-H

C. Population

For all of the persons

[Questions 1-6 were asked of all persons]

5. What is the locality and province, or foreign country [of his or her birth or residence]?

In each case if it is the locality or place where the person is answering the census mark only the box "here." Otherwise, write the name of the locality or place and the province. If it is in another country, write only the name of the country.

Interviewer instructions

C. Population

Census home is a person or group of persons, related or not, who occupy the same dwelling. You will write down first the name and surname of the head of the household, then ask all the corresponding questions.

5. What is the location or province or foreign country

a) where you were born?

[The instructions refer to a graphic of the census form.]

b) where you live usually?

[The instructions refer to a graphic of the census form.]

[p. 10]

c) where you lived in 1975?

In each case, if it is a location or place where enumerated, only fill out the cell "here". If not, write down the name of the location or place and the province.

If it is abroad, only write down the country.

You should consider a person who lives in the place where enumerated for six months or more a usual resident, or who not being one, has decided to permanently reside in this place.

Person weight (PERWT)

File: ARG1980-P-H

Overview

Type: Continuous

Format: numeric

Width: 8

Decimals: 2

Valid cases: 0

Invalid: 0

Description

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Years of schooling (YRSCHOOL)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YRSCHOOL indicates the highest grade/level of schooling the person had completed, in years. Only formal schooling is counted. YRSCHOOL accounts for the number of years of study, regardless of the track or kind of study. Information on degree and/or technical track is available in EDATTAIN. Years of schooling for Israel, categorized into intervals, are given in YRSCHOOL2.

Users should pay close attention to the top-codes in each sample, as discussed in the comparability section.

Migration status, 5 years (MIGRATE5)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

MIGRATE5 indicates the person's place of residence 5 years ago. The first digit records movement across major administrative divisions and countries. The second digit reports movement across minor administrative divisions, for samples in which that detail is available.

Educational attainment, international recode [general version] (EDATTAIN)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIN)

File: ARG1980-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999
