### TITLE

Post-Distribution Monitoring of Non-Food Items, Soap 2020

### COUNTRY/ECONOMY

Name	Country code
Uganda	UGA

### STUDY TYPE

Other Household Survey [hh/oth]

### ABSTRACT

UNHCR uses Post Distribution Monitoring (PDM) as a mechanism to collect refugees' feedback on the quality, sufficiency, utilization and effectiveness of the assistance items they receive. The underlying principle behind the process is linked to accountability, as well as a commitment to improve the quality and relevance of support provided, and related services. Usually, the surveys that form the basis of the assessment are conducted soon after the distribution of relief items is completed. For this assessment of non-food items, 2623 individuals' recipients of soap kits were interviewed, and were asked questions about quality, sufficiency of quantity and usefulness of such kits. The survey also includes questions on other preferred items and use of negative coping mechanisms for livelihoods.
