### TITLE

Multi-sector Rapid Needs Assessment and Post-Distribution Monitoring of Cash-Based Intervention October 2020

### SUBTITLE

Round 2

### COUNTRY/ECONOMY

Name	Country code
Thailand	THA

### STUDY TYPE

Other Household Survey [hh/oth]

### ABSTRACT

The second round in 2020 of the Rapid Needs Assessment (RNA)/Cash-Based Intervention Post-Distribution (CBI PDM) Monitoring Household Survey was conducted in Thailand from October to November 2020. The RNA and PDM were designed as a phone-based survey targeting urban refugees and asylum seekers in Thailand to assess their needs and evaluate the effectiveness of the CBI program in light of COVID-19.

UNHCR Thailand and its partners work to ensure that the protection needs of urban refugees and asylum seekers are met during the COVID-19 pandemic. Having observed increased levels of vulnerability relating to restrictions on movement, loss of livelihood opportunities and access to healthcare, the RNA aims to strengthen the understanding of the situation, need and vulnerabilities of the forced displaced population. This survey focuses on COVID-19 knowledge, experience, behavior and norms, health, education, employment, and access to basic necessities. The findings aim to provide evidence to evaluate and design protection and programme interventions.

Since May 2016, UNHCR Thailand has been using multi-purpose CBI PDM to provide protection, assistance, and services to the most vulnerable refugees in the urban areas. The number of urban refugees approaching UNHCR for financial support has more than doubled since the onset of the COVID-19 pandemic. To ensure that UNHCR's multi-purpose CBI framework for urban refugees in Thailand is effective, the monitoring was conducted simultaneously with the RNA. PDM is a mechanism to collect and understand refugees' feedback on the quality, sufficiency, utilization, and effectiveness of the cash assistance. The findings of the PDM support the assessment of the impact of CBI for urban refugees in Thailand affected by the COVID-19 pandemic and the appropriateness of funding levels, distribution modalities and the use of cash to support refugees.

### KIND OF DATA

Sample survey data [ssd]

### UNIT OF ANALYSIS

Households

## Version

### VERSION DESCRIPTION

Edited, anonymous dataset for licensed distribution.

## Scope

### NOTES

The survey was designed as a multi-sectoral assessment to be administered as a phone-based interview to be completed in 60-90 minutes. The rapid assessment was not designed with the intention of producing comprehensive and detailed

information on the various topics included.

The household survey covers the following parts and sections:

#### PART 1: Rapid Needs Assessment

1. Household demographics
2. Knowledge and experience of COVID-19
3. COVID-19 Behaviour/Social Norm
4. Health
5. Education
6. Employment
7. Markets and prices, coping strategies and expenditure
8. Receiving assistance and support (non-CBI)

#### PART 2: Post-Distribution Monitoring

1. Receiving and spending the cash assistance (basic facts)
2. Risks and problems: Did people face problems with the CBI? Did the CBI put POCs at additional risk?
3. Markets and prices: Can POCs find what they need, and at a price they can afford, in the markets?
4. Expenditure: What did people spend the money on?
5. Outcomes: What changes is the cash assistance contributing to in POC households?
6. Longer-Term Outcomes: Has the cash assistance helped put POC on the pathway to sustainable solutions?
7. Accountability to Affected Persons: Is the CBI intervention accountable to persons of concern? (What preferences do people have over how assistance is delivered?)

POC = Persons of Concern to UNHCR

#### TOPICS

Topic
Livelihood & Social cohesion
Cash Assistance
Domestic Needs/Household Support
Income Generation
Solutions
Basic Needs

## Coverage

#### GEOGRAPHIC COVERAGE

The survey covers all urban refugees and asylum seekers.

## Producers and sponsors

#### PRIMARY INVESTIGATORS

Name	Affiliation
UN Refugee Agency (UNHCR)	UN

## Sampling

#### SAMPLING PROCEDURE

The two parts of the survey were sampled differently as their sampling universe differs. Both samples were drawn from UNHCR's registration database:

1. Post-Distribution Monitoring: The total number of beneficiaries households of Cash-Based Interventions in April 2020 was 5,124. For this part of the survey (CBI PDM), a random sample of 122 refugee households was drawn from all vulnerable urban refugee households registered to receive cash assistance.
2. Rapid Needs Assessment: In addition to the 89 sampled households, who were also answering this part of the survey, a random sample of 91 households, who were not receiving cash assistance, was selected from all urban refugees and asylum seekers registered with UNHCR (5,286).

#### DEVIATIONS FROM THE SAMPLE DESIGN

There were some language barriers for some groups that were intended to survey during the RNA/PDM, in particular Vietnamese Montagnard refugees, who could not speak Vietnamese. Also, a Jarai interpreter, who has experience in translating surveys for UNHCR in Thailand was not able to translate the survey. Eventually, these sampled households were dropped and replaced with respondents, who could speak Vietnamese. It is worth noting that there is a large portion of Vietnamese Montagnard, who cannot speak Vietnamese among the urban refugee and asylum seeker population in Thailand (up to 30%). In addition to the described language barriers, few Vietnamese Montagnard refugees also were not able to respond to interview questions due to health issues.

#### RESPONSE RATE

The number of cases that could not be reached was slightly higher (18%) in comparison to what was initially planned (10-15%), which was attributed to the COVID-19 situation. Among the cases which refused to be surveyed, half of them cited that they had already been interviewed during the May 2020 RNA-PDM exercise and could not foresee any benefits of participating in a second survey. Others reported that the interview duration was too long and in a few isolated cases, that they could not participate due to work commitments.

#### WEIGHTING

Sample weights were calculated for each of the two parts of the survey differently, as the inverse of the probability of selection of the household.

## Data Collection

#### DATES OF DATA COLLECTION

Start	End
2020-05-15	2020-05-26

#### DATA COLLECTION MODE

Computer Assisted Telephone Interview [cati]

#### DATA COLLECTION NOTES

The questionnaire was first designed based on core components of the pre-existing CBI PDM questionnaire in addition to questions for the Rapid Needs Assessment. The questionnaire was coded in UNHCR's data collection tool (Kobo). UNHCR trained its enumerators, and the questionnaire was piloted.

Value	Category
1	Because of being locked in the house + return of debt (disagreements on how to return the money)
2	Because of increased pressure due to loss of job as a result of COVID-19
3	Because of lockdown
4	Because she is outside more often to work.
5	because their lives confined to one place which it can increase anger more than ever.
6	Because we are foreigners
7	Believe local communities are targeting the Chinese people
8	everyone needs to pay more attention on the way they live. Not enough money. These reasons cause people get angry easier than earlier.
9	Financial crisis
10	Financial situation getting worst, Restriction increasing
11	I don't know about that
12	if s/o in family got infected, everyone will be put in the quarantine
13	Lack of resources + No support
14	Lack of work + unsafe
15	Locals think that foreigners bring COVID19 and discriminated against me
16	Locked inside + No work
17	Mental concerns + Irritation
18	Mental pressure + Old age
19	Mental pressure + Stress because of children
20	Mental stress + lack of employment + lack of financial resources
21	more financial and health issues among people
22	No employment
23	No solutions in life + Mental stress
24	No work + Nothing to do
25	No work available + Mental pressure
26	Observed verbal argument between neighbors.
27	ongoing economic crisis, discrimination against foreigners
28	people are more sensitive: stigmatization/discrimination
29	People are unable to survive due to lack of economic opportunities

30	people fears of getting infected by Coronavirus and will be spread to the family members
31	People more scared each other because of Covid19 outbreak.
32	Persisting stress without a job, and fear about foreigners
33	quarantine and financial issue may lead to domestic violence
34	Suffering from different issue and the family fighting with each other
35	Thai people may discriminate foreigners because of Covid19.
36	the criminal has come to my house for several time. I need help from UNHCR .
37	violence from Chinese party in her community.
38	xenophobia
