## SOLOMON ISLANDS

## I. Objectives

This survey was designed to assist the World Bank Group (WBG) in gaining a better understanding of how stakeholders in Solomon Islands perceive the WBG. The survey explored:

- *Overall Context*
- *Overall Attitudes toward the World Bank Group*
- *World Bank Group's Work and Engagement on the Ground*
- *World Bank Group's Support in Development Areas*
- *World Bank Group's Knowledge Work and Activities*
- *The Future Role of the World Bank Group in Solomon Islands*
- *Communication and Information Sharing*
- *Background Information*

## II. Methodology

From February 2021 to April 2021, 120 stakeholders of the WBG in Solomon Islands were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the Office of the President, Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; independent government institutions; the judicial system; state-owned enterprises; bilateral and multilateral agencies; private sector organizations; the financial sector/private banks; private foundations; NGOs and community based organizations; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the media; and other organizations.

A total of 84 stakeholders participated in the survey (70% response rate). Respondents completed the questionnaire with a representative from the local fielding agency, received the questionnaire via a courier and returned it accordingly, or they completed the questionnaire online.

Every country that engages in the Country Opinion Survey (COS) must include specific indicator questions that will be aggregated for the World Bank Group's annual Corporate Scorecard. These questions are identified throughout the survey report.

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY 2018 (response rate was 73%, N=66). The FY 2018 and FY 2021 samples have similar stakeholder composition and thus are comparable without requiring additional weighting. Moreover, because of the small sample size, weighting of the samples would be unreliable. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY 2018 COS report and the non-weighted data presented in appendices A, B, C and E. For the stakeholder breakdown and year comparison results, please refer to Appendix D (page 86).

Note that the body of the report presents data on selected questions of the survey questionnaire. Please refer to Appendix A for data on all survey questions. Appendices B, C, D, and E present data on selected questions. Additional data breakdowns are available upon request.

### III. Demographics of the Sample

#### Current Position

- Note that for further analyses, some respondent groups were combined.<sup>1</sup>

**“Which of the following best describes your current affiliation?”**  
(Respondents chose from a list.)

<sup>1</sup> Employees of ministries were combined with respondents from PMUs/consultants working on WBG-supported projects; respondents from the office of Parliamentarian, local government, independent government institutions, and state-owned enterprises were combined into an “Other Government Organizations” category; respondents from youth groups, academia, media, and NGOs/CBOs were combined into a “NGO/Youth Group/Academia/Media” category; respondents from the financial sector/private banks were combined with those from private sector organizations. The few respondents from bilateral agencies and multilateral agencies were included in the “Other” category. There were no respondents from the office of the Prime Minister, the office of Cabinet or Government Minister, judicial system, trade unions, or faith-based groups.

### III. Demographics of the Sample (continued)

#### Area of Primary Specialization

**“Please identify the primary specialization of your work.”**  
(Respondents chose from a list.)

### III. Demographics of the Sample (continued)

#### Geographic Locations

"Which best represents your geographic location?"  
(Respondents chose from a list.)

---

#### Exposure to Agencies within the World Bank Group

"Which of the following agencies of the World Bank Group do you primarily collaborate/work with in Solomon Islands?"  
(Respondents chose from a list.)

### III. Demographics of the Sample (continued)

#### Familiarity with the World Bank Group

- **Year comparison:** Respondents in this year's Country Survey had significantly higher levels of familiarity with the WBG compared to respondents in the FY 2018 Country Survey (mean in FY 2021 = 6.3; mean in FY 2018 = 5.2).
- **Impact of familiarity:** Respondents' ratings of familiarity<sup>2</sup> with the WBG were significantly, moderately correlated with their ratings for the WBG's overall effectiveness<sup>3</sup> in Solomon Islands, with their agreement that the WBG plays a relevant role in Solomon Islands' development, and with their ratings of the extent to which the WBG's work helps achieve development results in Solomon Islands.

"How familiar are you with the work of the World Bank (IDA) in Solomon Islands?"  
(1-"Not familiar at all", 10-"Extremely familiar")

<sup>2</sup> In FY 2021, the question about familiarity was asked separately about the World Bank and the IFC (B1\_1 and B1\_2). Only variable B1\_1 (World Bank) was used in this calculation.

<sup>3</sup> In FY 2021, the question about effectiveness was asked separately about the World Bank and the IFC (B4\_1 and B4\_2). Only variable B4\_1 (World Bank) was used in this calculation.

## Appendix E: Solomon Islands FY21 COS Questionnaire

### **World Bank Group Country Survey FY 2021 – Solomon Islands**

The World Bank Group is interested in gauging the views of clients and partners who are either involved in development in Solomon Islands or who observe activities related to social and economic development. The following survey will give the World Bank Group’s team that works in Solomon Islands, greater insight into how the Bank’s work is perceived. This is one tool the World Bank Group uses to assess the views of its stakeholders, and to develop more effective strategies that support development in Solomon Islands.

A local independent firm has been hired to oversee the logistics of this survey. This ensures anonymity and confidentiality. We hope you’ll be candid.

Finally, the survey relates to the World Bank Group’s work. The World Bank Group consists of IBRD, IDA, IFC, MIGA, and ICSID. When responding to the survey, please consider the area of the World Bank Group with which you are most familiar.

**To complete the survey, please circle/check the response that most accurately reflects your opinion. If you prefer not to answer a question, please leave it blank. If you feel that you do not have an adequate amount of information on a subject, please check “Don’t know”.**

**PLEASE NOTE: IN SOME CASES THE SURVEY WILL ASK FOR A SPECIFIC NUMBER OF RESPONSES. PLEASE DO NOT CHOOSE ANY MORE THAN REQUESTED. IF MORE RESPONSES ARE CHOSEN, DATA CANNOT BE INCLUDED IN ANALYSIS.**
