## Overview

### Identification

---

#### ID NUMBER

COL\_1973\_PHC\_v01\_M\_v03\_A\_IPUMS

### Version

---

#### VERSION DESCRIPTION

Version 6.4. The datasets contain selected variables from the original census microdata plus harmonized variables from the IPUMS-International database.

In v6.4, the research team continued to carry out improvements to geography, providing harmonized geographic units for the second administrative level for roughly half the countries. More information about IPUMS geography variables is available [here](https://international.ipums.org/international/geography_variables.shtml). Also, approximately 100 integrated variables were renamed. Affected variables with their current and previous names are listed [here](https://international.ipums.org/international/resources/misc_docs/renamed_variables_sept2015.pdf). Geography variable also underwent wholesale renaming.

In this update, IPUMS added 19 new samples for Armenia, Austria, Costa Rica, Ethiopia, France, Ghana, Mozambique, Paraguay, Portugal, Puerto Rico, South Africa, and Spain. Ethiopia, Mozambique, and Paraguay were newly added countries to IPUMS. Samples for other countries extend pre-existing series for those countries.

#### PRODUCTION DATE

2016-04-25

### Overview

---

#### ABSTRACT

IPUMS-International is an effort to inventory, preserve, harmonize, and disseminate census microdata from around the world. The project has collected the world's largest archive of publicly available census samples. The data are coded and documented consistently across countries and over time to facilitate comparative research. IPUMS-International makes these data available to qualified researchers free of charge through a web dissemination system.

The IPUMS project is a collaboration of the Minnesota Population Center, National Statistical Offices, and international data archives. Major funding is provided by the U.S. National Science Foundation and the Demographic and Behavioral Sciences Branch of the National Institute of Child Health and Human Development. Additional support is provided by the University of Minnesota Office of the Vice President for Research, the Minnesota Population Center, and Sun Microsystems.

#### KIND OF DATA

Census/enumeration data [cen]

#### UNITS OF ANALYSIS

Dwelling

#### UNITS IDENTIFIED:

- Dwellings: Not available in microdata sample
- Vacant units: Available but not included in current microdata version
- Households: Yes
- Individuals: Yes

- Group quarters: Available but not included in current microdata version
- Special populations: People in transit, available but not included in current microdata version.

## UNIT DESCRIPTIONS:

- Dwellings: Separated space with independent access that serves as a human lodging
- Group quarters: Group of persons who share a common roof and food because of work, health, religion, etc.

## TOPICS

Topic	Vocabulary	URI
Technical Household Variables -- HOUSEHOLD	IPUMS	
Group Quarters Variables -- HOUSEHOLD	IPUMS	
Geography: Global Variables -- HOUSEHOLD	IPUMS	
Geography: A-L Variables -- HOUSEHOLD	IPUMS	
Utilities Variables -- HOUSEHOLD	IPUMS	
Dwelling Characteristics Variables -- HOUSEHOLD	IPUMS	
Constructed Household Variables -- HOUSEHOLD	IPUMS	
Technical Person Variables -- PERSON	IPUMS	
Constructed Family Interrelationship Variables -- PERSON	IPUMS	
Demographic Variables -- PERSON	IPUMS	
Fertility and Mortality Variables -- PERSON	IPUMS	
Nativity and Birthplace Variables -- PERSON	IPUMS	
Education Variables -- PERSON	IPUMS	
Work Variables -- PERSON	IPUMS	
Income Variables -- PERSON	IPUMS	
Migration Variables -- PERSON	IPUMS	
Other Household Variables -- HOUSEHOLD	IPUMS	
Household Economic Variables -- HOUSEHOLD	IPUMS	
Work: Occupation Variables -- PERSON	IPUMS	
Work: Industry Variables -- PERSON	IPUMS

### DDI DOCUMENT VERSION

- v6.4 April 2016

Documentation of census data and harmonized variables as found in IPUMS-International. The International Household Survey Network (IHSN) contracted IPUMS International for generating DDI and Dublin Core-compliant metadata related to population and housing census datasets from developing countries. The objective was to provide countries with detailed metadata in a format compatible with the DDI standard used by most of these countries, with a view to guarantee the preservation of the data and metadata, and the publishing of metadata.

The intellectual rights (including copyright) for the data and metadata in IPUMS are retained by the countries under a Memorandum of Understanding with the contributing countries. IPUMS-International has distribution rights to the metadata and data. The XML documents generated by this process are viewed as a distribution of the metadata.

Fields edited by the World Bank are: DDI ID and study ID to match World Bank study naming convention, as well as DDI Document Version and Version Description to reflect changes included in version 6.4.

Previous version documented in the World Bank Microdata Library:

- v6.3 (August 2014)

### DDI DOCUMENT ID

DDI\_COL\_1973\_PHC\_v01\_M\_v03\_A\_IPUMS

## Sampling

### Sampling Procedure

---

MICRODATA SOURCE: Universidad de los Andes

SAMPLE DESIGN: Systematic sample of every tenth private household, after a random start, adjusted for households with illogical household structures (<1%). Drawn by the Minnesota Population Center from 100% microdata tapes of private dwellings.

SAMPLE UNIT: Household

SAMPLE FRACTION: 10%

SAMPLE SIZE (person records): 1,988,831

### Response Rate

---

COVERAGE: 92.8%

# Questionnaires

## Overview

---

3 enumeration forms were used: (f1) population in private households with household and dwelling information; (f2) indigenous population, enumerated at the level of the dwelling, not the individual (slightly modified for the enumeration of National Territories); (f3) only age and sex was requested for individuals in group quarters and transients.

## Data Collection

### Data Collection Dates

---

Start	End	Cycle
1973-06-24	1973-12-24	N/A

### Time Periods

---

Start	End	Cycle
1973-10-24	1973-10-24	N/A

### Data Collection Mode

---

Face-to-face [f2f]

### Data Collection Notes

---

De facto, CENSUS DAY: October 24, 1973, FIELD WORK PERIOD: Population in urban areas was enumerated on census day, during which the population was "immobilized." Enumeration in rural areas continued for one month. The operation began four months earlier in National Territories and ended on census day. Unusually heavy rains caused the enumeration to be extended in some remote areas.

### Questionnaires

---

3 enumeration forms were used: (f1) population in private households with household and dwelling information; (f2) indigenous population, enumerated at the level of the dwelling, not the individual (slightly modified for the enumeration of National Territories); (f3) only age and sex was requested for individuals in group quarters and transients.

### Supervision

---

Direct enumeration

ID	NAME	LABEL	TYPE	FORMAT	QUESTION
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	UNREL	Number of unrelated persons	discrete	numeric	
V9	URBAN	Urban-rural status	discrete	numeric	
V10	REGIONW	Continent and region of country	discrete	numeric	
V11	REGNCO	Colombia, Region	discrete	numeric	
V12	METROCO	Colombia, Metropolitan area	discrete	numeric	
V13	MUNHDCO	Colombia, Municipality head town	discrete	numeric	
V14	WATSUP	Water supply	discrete	numeric	
V15	SEWAGE	Sewage	discrete	numeric	
V16	ROOMS	Number of rooms	discrete	numeric	
V17	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V18	TOILET	Toilet	discrete	numeric	
V19	FLOOR	Floor material	discrete	numeric	
V20	WALL	Wall or building material	discrete	numeric	
V21	ROOF	Roof material	discrete	numeric	
V22	HHTYPE	Household classification	discrete	numeric	
V23	NFAMS	Number of families in household	discrete	numeric	

V24	HEADLOC	Head's location in household	contin	numeric	
V25	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	
V26	Z_MUNICO	Colombia, Municipality recode	discrete	numeric	
V27	CO1973A_0001	Department	discrete	numeric	1 Department, Administration, Precinct ___ 2 Municipality ___ 3 Administrative unit a. Name of town ___ b. Type or class of town [] 1 Head town [] 2 Administrative center [] 3 Small village [] 4 Other 4 Zone [] 1 Urban [] 2 Rural 5 Sector number ___ 6 Section number ___ 7 Block number ___ 8 Enumeration area ___
V28	CO1973A_0006	Type of area	discrete	numeric	1 Department, Administration, Precinct ___ 2 Municipality ___ 3 Administrative unit a. Name of town ___ b. Type or class of town [] 1 Head town [] 2 Administrative center [] 3 Small village [] 4 Other 4 Zone [] 1 Urban [] 2 Rural 5 Sector number ___ 6 Section number ___ 7 Block number ___ 8 Enumeration area ___
V29	CO1973A_0007	Urban-rural	discrete	numeric	1 Department, Administration, Precinct ___ 2 Municipality ___ 3 Administrative unit a. Name of town ___ b. Type or class of town [] 1 Head town [] 2 Administrative center [] 3 Small village [] 4 Other 4 Zone [] 1 Urban [] 2 Rural 5 Sector number ___ 6 Section number ___ 7 Block number ___ 8 Enumeration area ___
V30	CO1973A_0012	Dwelling type	discrete	numeric	1. Type of dwelling [] 1 Independent house [] 2 Apartment [] 3 Room(s) [] 4 Tenant quarters [] 5 Dwelling made out of waste materials [] 6 Structure not meant for habitation [] 7 Shack, hut, cabin [] 8 Tent, cave [] 9 Dwelling under construction
V31	CO1973A_0014	Predominant roof material	discrete	numeric	3. Predominant material in the roof [] 1 Concrete or cement slab [] 2 Zinc or synthetic [asbestos] tile [] 3 Clay tile [] 4 Straw or grass, palm or similar [] 5 Discarded materials [] 6 Other
V32	CO1973A_0015	Outside wall material	discrete	numeric	4. Predominant material in the exterior walls [] 1 Brick or tile [] 2 Adobe [] 3 Prefabricated [] 4 Pressed mud [similar to adobe] [] 5 Cane with earth (Bahareque) [] 6 Bamboo or cane [] 7 Wood [] 8 Discarded materials [] 9 Other
V33	CO1973A_0016	Floor material	discrete	numeric	5. Predominant material in the floors [] 1 Wood [] 2 Cement or brick tiles [] 3 Synthetic material [] 4 Dirt
V34	CO1973A_0017	Access to water utility	discrete	numeric	6. Connection to public services Is this house connected to: a) Running water? [] 1 yes [] 2 no b) Sewer? [] 1 yes [] 2 no c) Electricity? [] 1 yes [] 2 no
V35	CO1973A_0018	Sewage access	discrete	numeric	6. Connection to public services Is this house connected to: a) Running water? [] 1 yes [] 2 no b) Sewer? [] 1 yes [] 2 no c) Electricity? [] 1 yes [] 2 no
V36	CO1973A_0019	Residence has electricity	discrete	numeric	6. Connection to public services Is this house connected to: a) Running water? [] 1 yes [] 2 no b) Sewer? [] 1 yes [] 2 no c) Electricity? [] 1 yes [] 2 no

V37	CO1973A_0020	Number of rooms	discrete	numeric	2. Rooms How many total rooms does this household have? (Do not include the kitchen or bathroom) __ __
V38	CO1973A_0021	Everyone generally eats together	discrete	numeric	8. Number of households in the dwelling Do all of the people who live in the house generally eat together? [] 1 Yes, consider this one household [] 2 No
V39	CO1973A_0022	Number of households or groups	discrete	numeric	9. How many groups of persons (households) that eat separately are there in this dwelling? __ __
V40	CO1973A_0023	Household order in structure	discrete	numeric	IV. Identification of the household 1. Name of the head of household: ____ 2. Number of the household in the house []
V41	CO1973A_0024	Number of persons in household	discrete	numeric	1. Persons in the household How many people spent the night here on the night of 23 to 24 October? (Include only the persons who belong to the census household) __ __
V42	CO1973A_0026	Number of rooms used for sleeping	discrete	numeric	3. Bedrooms In how many rooms do the persons of this household sleep? __ __
V43	CO1973A_0027	Room dedicated to cooking	discrete	numeric	4. Kitchen Does this household have a room that serves only as a kitchen? Yes [] 1 For this household exclusively? [] 2 Shared with other households? [] 3 No
V44	CO1973A_0028	Water source	discrete	numeric	5. Water What type of water service is available to this household? By pipe [] 1 Exclusively for this household [] 2 Shared with others [] 3 River or spring [] 4 Well or cistern, reservoir [] 5 Public trough [] 6 Tanked in by car or truck [] 7 Rainwater [] 8 Other
V45	CO1973A_0029	Toilet	discrete	numeric	6. Toilet What type of toilet is available to this household? [] 1 Toilet connected to a sewage system [] 2 Toilet connected to septic tank [] 3 Latrine [] 4 No toilet
V46	CO1973A_0030	Toilet exclusively for household	discrete	numeric	7. Use of toilet Is the toilet for the exclusive use of the household or is it shared with other households? [] 1 Exclusively for household [] 2 Shared with others
V47	CO1973A_0031	Location of toilet	discrete	numeric	8. Location of toilet Where is the toilet located? [] 1 Inside the house [] 2 Away from the house
V48	CO1973A_0032	How lighting is provided	discrete	numeric	9. Lighting What type of lighting does the household have? [] 1 By electricity [] 2 By gasoline [] 3 By candle
V49	CO1973A_0033	Ownership	discrete	numeric	10. Occupancy What is the means of occupancy? By owner [] 1 Totally paid [] 2 Still paying on it [] 1 Renting [] 2 Subletting [] 3 Occupied de facto (invader) [] 4 Usufruct (is not owner and does not pay rent)
V50	CO1973A_0034	How dwelling was acquired	discrete	numeric	11. Financing (only for owners) How did you acquire this house? Loan [] 1 Credit institution [] 2 Lending/mortgage institution [] 3 Other official entity [] 4 Private body [] 5 Private resources (inheritance, pension etc.) [] 6 Other
V51	CO1973A_0035	Household makes items at home to sell	discrete	numeric	12. Family industry Does the household in this house produce any article or articles to sell? [] 1 Yes (continue with 13 and 14) [] 2 No (continue with the population section)
V52	CO1973A_0037	Workers employed in household production	discrete	numeric	14. Employed personnel How many persons are usually occupied in the production of these articles? Total __ __

V53	CO1973A_0054	Strata	contin	numeric	Strata
V54	HHWT	Household weight	contin	numeric	
V55	GEO1_CO	Colombia, Department 1964 - 2005 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V56	GEO1_COX	Colombia, Department 1964 - 2005 [Level 1; inconsistent boundaries, harmonized by name]	discrete	numeric	
V57	GEO2_COX	Colombia, Municipality 1964 - 2005 [Level 2; inconsistent boundaries, harmonized by name]	discrete	numeric	
V58	NCOUPLES	Number of married couples in household	discrete	numeric	
V59	NMOTHERS	Number of mothers in household	discrete	numeric	
V60	NFATHERS	Number of fathers in household	discrete	numeric	
V61	COUNTRY	Country	discrete	numeric	
V62	ELECTRIC	Electricity	discrete	numeric	
V63	BEDROOMS	Number of bedrooms	discrete	numeric	
V64	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V65	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V66	STRATA	Strata identifier	contin	numeric

V112	CO1973A_0400	Person number of household member	discrete	numeric	[The information displayed in the part of the form is in table form. The column headers are listed below, followed by the questions] Questions Number First Person 01 Second Person 02 Third Person 03
V113	CO1973A_0401	Relationship to household head	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 2. What is his/her relationship to the head of the household? [ <input type="checkbox"/> ] 1 For the first person, the only answer is head of household For persons 2-9, the answers are: [ <input type="checkbox"/> ] 2 Spouse [ <input type="checkbox"/> ] 3 Son (daughter) [ <input type="checkbox"/> ] 4 Parent or parent-in-law [ <input type="checkbox"/> ] 5 Grandchild [ <input type="checkbox"/> ] 6 Other relative [ <input type="checkbox"/> ] 7 Domestic employee [ <input type="checkbox"/> ] 8 Pensioner [ <input type="checkbox"/> ] 9 Other unrelated person
V114	CO1973A_0402	Sex	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 3. Man or woman? [ <input type="checkbox"/> ] 1 Man [ <input type="checkbox"/> ] 2 Woman
V115	CO1973A_0403	Age	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 4. How old is the person? (For children under one, write 00) Years completed __ __
V116	CO1973A_0404	Marital status	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 5. What is his/her current marital status? [ <input type="checkbox"/> ] 1 Consensual union [ <input type="checkbox"/> ] 2 Married [ <input type="checkbox"/> ] 3 Separated or divorced [ <input type="checkbox"/> ] 4 Single [ <input type="checkbox"/> ] 5 Widowed
V117	CO1973A_0405	Whether born in this municipality	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 6. In which municipality was he/she born? -If he/she was born in this municipality, make an X in the box that says "here" -If he/she was not born here, write the name of the municipality and department where he/she was born. -If he/she was born outside of Colombia, write the name of the country. [ <input type="checkbox"/> ] 1 Here Municipality ____ Department or country: ____
V118	CO1973A_0407	Department of birth	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 6. In which municipality was he/she born? -If he/she was born in this municipality, make an X in the box that says "here" -If he/she was not born here, write the name of the municipality and department where he/she was born. -If he/she was born outside of Colombia, write the name of the country. [ <input type="checkbox"/> ] 1 Here Municipality ____ Department or country: ____
V119	CO1973A_0431	Country of birth	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 6. In which municipality was he/she born? -If he/she was born in this municipality, make an X in the box that says "here" -If he/she was not born here, write the name of the municipality and department where he/she was born. -If he/she was born outside of Colombia, write the name of the country. [ <input type="checkbox"/> ] 1 Here Municipality ____ Department or country: ____
V120	CO1973A_0408	Current residence	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 7. In which municipality does he/she live currently? -If he/she currently lives in this municipality, make an X in the box that says "here" -If he/she does not currently live here, write the name of the municipality and department where he/she lives. -If he/she lives outside of Colombia, write the name of the country. [ <input type="checkbox"/> ] 1 Here Municipality ____ Department or country: ____

V121	CO1973A_0410	Department of current residence	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 7. In which municipality does he/she live currently? -If he/she currently lives in this municipality, make an X in the box that says "here" -If he/she does not currently live here, write the name of the municipality and department where he/she lives. -If he/she lives outside of Colombia, write the name of the country. [] 1 Here Municipality ___ Department or country: ___
V122	CO1973A_0411	How long has lived here	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 8. How long has he/she lived in this municipality? (Where the person is answering the census) [] 99 Always (all of his/her life) If more than one year: how many? ___ [] 00 Less than one year
V123	CO1973A_0412	Always lived here	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 9. In which municipality did he/she live before moving to the current municipality? -If he/she lived in this municipality, make an X in the box that says "here" -If he/she did live here, write the name of the municipality and department where he/she lived. -If he/she lived outside of Colombia, write the name of the country. [] 1 Here Municipality ___ Department or country: ___
V124	CO1973A_0414	Previous residence, department	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 9. In which municipality did he/she live before moving to the current municipality? -If he/she lived in this municipality, make an X in the box that says "here" -If he/she did live here, write the name of the municipality and department where he/she lived. -If he/she lived outside of Colombia, write the name of the country. [] 1 Here Municipality ___ Department or country: ___
V125	CO1973A_0432	Previous residence, country	discrete	numeric	A. General characteristics (for all the persons in the household). [Applies to questions 1 - 9] 9. In which municipality did he/she live before moving to the current municipality? -If he/she lived in this municipality, make an X in the box that says "here" -If he/she did live here, write the name of the municipality and department where he/she lived. -If he/she lived outside of Colombia, write the name of the country. [] 1 Here Municipality ___ Department or country: ___
V126	CO1973A_0415	Knowshow to read and write	discrete	numeric	B. Educational characteristics (for persons five years old or more). [Applies to questions 10 - 13] 10. Do you know how to read and write? [] 1 Yes [] 2 No
V127	CO1973A_0416	School attendance	discrete	numeric	B. Educational characteristics (for persons five years old or more). [Applies to questions 10 - 13] 11. Do you currently attend an elementary school, secondary school, or higher? [] 1 Yes [] 2 No
V128	CO1973A_0417	Highest level of education attained	discrete	numeric	B. Educational characteristics (for persons five years old or more). [Applies to questions 10 - 13] 12. What is the highest level of education reached? [] 1 None [] 2 Primary Secondary [] 1 Bachelor (bachillerato) [] 2 Technical/vocational [] 3 Normal (teaching) school [] 4 College or university [] 5 Other

V129	CO1973A_0418	Last grade completed at level	discrete	numeric	B. Educational characteristics (for persons five years old or more). [Applies to questions 10 - 13] 12. What is the highest level of education reached? [] 1 None [] 2 Primary Secondary [] 1 Bachelor (bachillerato) [] 2 Technical/vocational [] 3 Normal (teaching) school [] 4 College or university [] 5 Other 13. What is the highest year completed at this level? Last year completed ___ [] 0 None
V130	CO1973A_0419	Employment status	discrete	numeric	C. Economic characteristics (For persons 10 years old or more) [Applies to questions 14 - 19] 14. What did you do the week before the census (14 to 20 October) [] 1 Work [] 2 Did not work but has a job [] 3 Looking for work and has worked before [] 4 Looking for work for the first time [] 5 Lives on rent payments [] 6 Has a pension [] 7 In school [] 8 Home business, self-employed [] 9 No work If the answer is 1, 2, or 3, continue with question 15. If the answer is 4, 5, 6, 7, 8, or 9, continue with question 18.
V131	CO1973A_0420	Occupation last week	discrete	numeric	C. Economic characteristics (For persons 10 years old or more) [Applies to questions 14 - 19] 15. What was your occupation, profession, or work during this week? ____

## Record type (RECTYPE)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: character	Invalid: 0
Width: 1	

### Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

## Year (YEAR)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 4	
Decimals: 0	
Range: 1960-2011	

### Description

YEAR gives the year in which the census was taken.

## IPUMS sample identifier (SAMPLE)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 9	
Decimals: 0	
Range: 32197001-894201001	

### Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

## Household serial number (SERIAL)

File: COL1973-H-H

### Overview

Type: Continuous  
 Format: numeric  
 Width: 10  
 Decimals: 0

Valid cases: 0  
 Invalid: 0

### Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002  
 Colombia 1993, 2005  
 Costa Rica 1984, 2000  
 Cuba 2002  
 Dominican Republic 1981, 2002, 2010  
 Ecuador 1990, 2001  
 Germany 1971  
 Hungary 1980, 1990, 2001  
 Jamaica 1982, 1991, 2001  
 Malaysia 1970, 1991, 2000  
 Mexico 1995, 1990, 2000, 2005  
 Nigeria 2006  
 Panama 2000  
 Peru 1993, 2007  
 Portugal 1981, 1991, 2001  
 Spain 1991  
 Uruguay 2011  
 Venezuela 1990, 2001  
 Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

## Number of person records in the household (PERSONS)

File: COL1973-H-H

### Overview

Type: Continuous  
 Format: numeric  
 Width: 3  
 Decimals: 0

Valid cases: 0  
 Invalid: 0

### Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

## Subsample number (SUBSAMP)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

**Description**

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

## Group quarters (collective dwelling) status (GQ)

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

**Description**

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

## Number of unrelated persons (UNREL)

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-9

Valid cases: 0  
Invalid: 0

**Description**

UNREL indicates the number of persons in the household who are unrelated to the head.

## Urban-rural status (URBAN)

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

**Description**

URBAN indicates whether the household was located in a place designated as urban or as rural.

## Continent and region of country (REGIONW)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 11-54

Valid cases: 0  
 Invalid: 0

#### Description

REGIONW identifies the continent and region of each country.

## Colombia, Region (REGNCO)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

REGNCO indicates the metropolitan region within Colombia in which the household was enumerated. REGNCO is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

## Colombia, Metropolitan area (METROCO)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

#### Description

METROCO indicates the metropolitan area in Colombia in which the household was enumerated for the 1964 - 1993 sample years. METROCO is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

## Colombia, Municipality head town (MUNHDCO)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 10-99

Valid cases: 0  
 Invalid: 0

#### Description

MUNHDCO indicates the municipality head town in Colombia in which the household was enumerated. MUNHDCO is harmonized solely based on the names of the geographical unit. It does not take into account the changes that may have occurred in the political boundaries of the units.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

## Water supply (WATSUP)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

### Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

## Sewage (SEWAGE)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

### Description

SEWAGE indicates whether the household has access to a sewage system or septic tank.

## Number of rooms (ROOMS)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

### Description

ROOMS indicates the number of rooms occupied by the housing unit.

## Kitchen or cooking facilities (KITCHEN)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-99	

**Description**

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

**Toilet (TOILET)**

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

**Description**

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

**Floor material (FLOOR)**

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

**Description**

FLOOR indicates the dwelling's predominant flooring material.

**Wall or building material (WALL)**

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

**Description**

This variable indicates the primary material used in the construction of the dwelling, particularly the dwelling's exterior walls.

**Roof material (ROOF)**

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

**Description**

This variable indicates the dwelling's predominant roofing material.

## Household classification (HHTYPE)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

### Description

HHTYPE is a constructed variable that describes the composition of households.

HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

## Number of families in household (NFAMS)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-9

Valid cases: 0  
Invalid: 0

### Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

## Head's location in household (HEADLOC)

File: COL1973-H-H

### Overview

Type: Continuous  
Format: numeric  
Width: 3  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

## 1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 6  
Decimals: 0  
Range: 32002-894010

Valid cases: 0  
Invalid: 0

### Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

## Colombia, Municipality recode (Z\_MUNICO)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 1-998	

### Description

Z\_MUNICO is an internal variable that indicates the location of the household within Colombia in terms of recoded municipality. The municipality recode combines the original Colombian municipalities, as necessary, into units with at least 20,000 population in 2005. Approximately half of the codes identify individual municipalities that met the 20,000 population requirement in 2005.

## Department (CO1973A\_0001)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 5-97	

### Description

This variable indicates the department.

### Universe

All records

### Literal question

1 Department, Administration, Precinct \_\_\_\_  
 2 Municipality \_\_\_\_  
 3 Administrative unit

a. Name of town \_\_\_\_  
 b. Type or class of town

1 Head town  
 2 Administrative center

Section I. Geographic location

[Below the text is a form.]

To fill out this Section you should take the information from the "Identification of the area of enumeration card" Form DANE CP 10-89 for urban areas and Form DANE CP 10-91 for Rural Areas; that you will find in your materials bag. Register them in all the Forms you fill out.

## Dwelling type (CO1973A\_0012)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

### Description

This variable indicates the type of dwelling.

### Universe

All households

### Literal question

## 1. Type of dwelling

- 1 Independent house
- 2 Apartment
- 3 Room(s)
- 4 Tenant quarters
- 5 Dwelling made out of waste materials
- 6 Structure not meant for habitation
- 7 Shack, hut, cabin
- 8 Tent, cave
- 9 Dwelling under construction

**Interviewer instructions**

Question No. 1 Type of dwelling

[Below the text is a form.]

[P. 22]

1. Mark "x" in the box corresponding to the type of dwelling visited.
2. Do not forget that types of dwelling of question No. 1 are exclusive and therefore you cannot mark more than a single box.
3. Take into account the following definitions:

Independent house is a dwelling that is separated from other buildings by walls that go from the floor to the roof, built with materials in good state, has an independent entrance and generally is inhabited by a household. It can be located in continuous urbanizations or separated from other buildings by gardens, meadows, lots with walls, or fences.

Apartment is a dwelling that forms part of a large building and is separated from other dwellings by walls; has independent access and some exclusive facilities.

Room or rooms, is a closed and separated space, with walls from the floor to the roof and with a door that is independent from the rest of the construction. They do not have exclusive facilities, but they do have an independent entrance for its inhabitants.

Examples of this category are local store without facilities, a garage adapted for living.

Tenant quarters is a building adapted or transferred for lodging many households that share facilities.

Each household lives, generally, in one or two rooms. The facilities are not exclusive and in the majority of cases they are located in the patio, site and corridors. The kitchen can be shared, or not exist.

Dwelling made out of waste materials is every form of lodging constructed with waste materials; cardboard, cloth, planks, tin, or with second hand materials or in a bad state of demolition.

Dwellings in buildings not meant for habitation. In this definition buildings that have not been built for lodging persons, but that at the moment of the Census have been found inhabited are included, such as factories, offices, stores, laboratories, granaries, stores, workshops, etc.

Shack, hut or cabin. They are buildings characteristic of the rural area; built with natural materials of the region: bamboo (guadua), cane with earth (bahareque), pressed mud or adobe; with roofs of palm or straw and generally with earthen floors. This class of dwellings can have facilities outside of the principal construction, or lack them.

Tent, cave. They are improvised and not permanent dwellings. All dwellings formed by camping tents, gypsy tents and lodgings within rocks or hills are entered in this definition, that lodge persons on the day of the Census.

Dwelling under construction. It is a dwelling not completely finished, that is inhabited or not.

## Predominant roof material (CO1973A\_0014)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

### Description

This variable indicates the predominant roof material of the dwelling/structure.

### Universe

All households

### Literal question

3. Predominant material in the roof

- 1 Concrete or cement slab
- 2 Zinc or synthetic [asbestos] tile
- 3 Clay tile
- 4 Straw or grass, palm or similar
- 5 Discarded materials
- 6 Other

### Interviewer instructions

Question No. 3. Predominant material in the roof

[Below the text is a form.]

Mark with an "x" the box corresponding to the material with which the roof or exterior covering of the building is built.

In case of different types of material, mark the one used in the largest proportion.

If in these alternatives you do not find the material with which the roof is built, mark the box "others".

## Outside wall material (CO1973A\_0015)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

### Description

This variable indicates the outside wall material of the dwelling/structure.

### Universe

All households

### Literal question

4. Predominant material in the exterior walls

- 1 Brick or tile
- 2 Adobe
- 3 Prefabricated
- 4 Pressed mud [similar to adobe]
- 5 Cane with earth (Bahareque)
- 6 Bamboo or cane
- 7 Wood
- 8 Discarded materials
- 9 Other

### Interviewer instructions

Question No. 4. Predominant material in the exterior walls

[Below the text is a form.]

Mark with an "x" the box corresponding to the material with which the outside walls of the dwelling are built.

In case of different types of material, mark the one used in the largest proportion.

If in these alternatives you do not find the material with which the walls are built, mark the box "others".

## Floor material (CO1973A\_0016)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the floor material of the dwelling/structure.

### Universe

All households

### Literal question

5. Predominant material in the floors

- 1 Wood
- 2 Cement or brick tiles
- 3 Synthetic material
- 4 Dirt

### Interviewer instructions

Question No. 5. Predominant material in the floors.

[Below the text is a form.]

Mark with an "x" the box corresponding to the material with which the outside walls of the dwelling are built.

In case of different types of material, mark the one used in the largest proportion.

## Access to water utility (CO1973A\_0017)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-2

Valid cases: 0  
Invalid: 0

### Description

This variable indicates whether the household has access to water utility (running water).

### Universe

All households

### Literal question

## 6. Connection to public services

Is this house connected to:

a) Running water?

- 1 yes  
 2 no

b) Sewer?

- 1 yes  
 2 no

c) Electricity?

- 1 yes  
 2 no

### Interviewer instructions

Question No. 6 Connection to public services.

[Below the text is a form.]

Read each one of the three parts that the question is composed of and wait each time for the response of the person.

a) Does this dwelling have a connection to a water system?

Mark "x" in the box yes, when a dwelling is connected to a system of pipes of water, whether property of the State or private. In the contrary case mark "x" in the box no.

[p. 26]

b) Does this dwelling have a connection with a sewer system?

Mark "x" in the box yes when a dwelling is connected to a drainage sewer system that permits the elimination of residues and sewage. In the contrary case mark "x" in the box no.

c) Does this dwelling have a connection to electric energy?

Mark "x" in the box yes when a dwelling is connected to a public or privately owned electrical system. In the contrary case, mark "x" in the box no.

## Sewage access (CO1973A\_0018)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0

Number of rooms (CO1973A\_0020)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

### Description

This variable indicates the total number of rooms in the dwelling.

### Universe

All households

### Literal question

2. Rooms

How many total rooms does this household have?

(Do not include the kitchen or bathroom) \_\_ \_\_

### Interviewer instructions

Question No. 2. Rooms.

[Below the text is a form.]

Write down clearly the number of rooms (without including kitchen, bath or corridors) that only the household being enumerated uses.

If in the dwelling rooms exists (living rooms, dining rooms, etc.) that are shared by more than one household, include them in the number of rooms that the principal household uses (this can be that of the owner, the one responsible for the dwelling, etc.) If there is no principal household, award it to the first census household interviewed.

## Everyone generally eats together (CO1973A\_0021)

File: COL1973-H-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

### Description

This variable indicates whether everyone in the household generally eats together.

### Universe

All households

### Literal question

8. Number of households in the dwelling

Do all of the people who live in the house generally eat together?

1 Yes, consider this one household

2 No

### Interviewer instructions

Question No. 8. Number of households in the dwelling

[Below the text is a form.]

Ask the enumerated person if: all the persons who live in this dwelling, generally eat together? Make clear that "eat together" means sharing food even if the persons are not of the same family, do not pay for their food, or are not present at the time of the meals.

If the response is affirmative, mark "x" in the box "yes" and consider this as a single census household. Do not fill out question 9 and go to the section IV.

If the response is negative, mark "x" in the box no, and ask question 9.

## Number of households or groups (CO1973A\_0022)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-98

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the number of households or groups in the dwelling, identified by whether or not they share food.

### Universe

All households

### Literal question

9. How many groups of persons (households) that eat separately are there in this dwelling?

— —

### Interviewer instructions

Question No. 9. How many groups of persons (households) that eat separately are there in this dwelling?

This question is only asked if no was answered in question No. 8.

[Below the text is a form.]

Clarify, that there are as many census households as groups of persons who eat separately.

Register in the corresponding space the number of existing census households in the dwelling.

## Household order in structure (CO1973A\_0023)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-42

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the household order in the dwelling/structure.

### Universe

All households

### Literal question

IV. Identification of the household

1. Name of the head of household: \_\_\_\_
2. Number of the household in the house [ ]

### Interviewer instructions

## Section IV. Identification of the household

[Below the text is a form.]

1. In space No. 1 put the name of the head of household who you are going to enumerate.
2. In box No. 2 "order number of the household within the dwelling", put the order number that corresponds to the census household within the dwelling.
3. The number of the census household within the dwelling corresponds to the order in which the interviews are done in the different census households.
4. Interview the households in the order that you consider most adequate.

## Number of persons in household (CO1973A\_0024)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-39	

### Description

This variable indicates the number of persons in the household.

### Universe

All households

### Literal question

1. Persons in the household

How many people spent the night here on the night of 23 to 24 October?

(Include only the persons who belong to the census household) \_\_ \_\_

### Interviewer instructions

Question No. 1. Persons in the household

[Below the text is a form.]

[p. 31]

Write down the number of persons that forms this census household and that spent the night of October 23 to 24 in the dwelling. Remember that you should take into account those not related to the head of the household, young children, newborns and elderly persons.

The number of persons registered in this question should be equal to the number of persons registered in part VI: Population information.

## Number of rooms used for sleeping (CO1973A\_0026)

File: COL1973-H-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-98	

### Description

This variable indicates the number of rooms used for sleeping.

### Universe

All households

### Literal question

3. Bedrooms

In how many rooms do the persons of this household sleep? \_\_ \_\_

### Interviewer instructions

Question No. 3. Bedrooms.

[Below the text is a form.]

1 - Of the number of rooms registered as exclusive use of a household, determine how many are used by members of the household for sleeping, even if other functions are also carried out like cooking, working etc.

2 - Clearly write down the number of rooms in the corresponding space.

## Room dedicated to cooking (CO1973A\_0027)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

### Description

This variable indicates whether there is a room that is used solely as a kitchen.

### Universe

All households

### Literal question

4. Kitchen

Does this household have a room that serves only as a kitchen?

Yes

1 For this household exclusively?

2 Shared with other households?

3 No

### Interviewer instructions

Question No. 4. Kitchen

[Below the text is a form.]

Read the question and wait for a response:

When the interviewed person answers that "yes it has" ask the question "Is it of exclusive use of the household?"

If the response is affirmative, mark "x" in box 1. In the contrary case mark "x" in box 2: "Of use shared with other households".

When a household does not have an independent room for cooking, mark "x" in box 3: "Does not have".

Kitchen quarters: is an independent space, meant for the preparation of food.

Corridors, passageways, patios, food supply rooms, in which a stove [or "reverbero" small stove] or any other kitchen appliance is placed are not considered kitchen quarters.

Also rooms for sleeping in which a small stove or portable oven are put are not considered kitchen quarters.

## Water source (CO1973A\_0028)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates the type of water source.

**Universe**

All households

**Literal question**

5. Water

What type of water service is available to this household?

By pipe

1 Exclusively for this household  
 2 Shared with others

3 River or spring  
 4 Well or cistern, reservoir  
 5 Public trough  
 6 Tanked in by car or truck  
 7 Rainwater  
 8 Other

**Interviewer instructions**

Question No. 5. Water

[Below the text is a form.]

Read the question with the alternatives that the form presents. Mark "x" in the square corresponding to the obtained information

[p. 33]

Only when a household has water facilities through a pipe, determine the use of this service, that is, if it is of exclusive use of the household, or is it is shared by other households.

If it is exclusive use mark "x" in box No. 1.

If it is shared mark "x" in box 2.

In the case that a household gets water from a source different than the alternatives named in the form, mark "x" in the box "others".

## Toilet (CO1973A\_0029)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates the type of sewage system.

### Universe

All households

### Literal question

6. Toilet

What type of toilet is available to this household?

- 1 Toilet connected to a sewage system
- 2 Toilet connected to septic tank
- 3 Latrine
- 4 No toilet

### Interviewer instructions

Question No. 6. Toilet facilities

[Below the text is a form.]

Toilet facilities are understood to be any system that permits the elimination of residues, sewage, etc.

Mark "x" in box No. 1, when the toilet service is connected to a sewer system. Mark "x" in box 2 when the toilet facilities are connected to a septic well.

Mark "x" in box No. 3 when a household has a latrine. Mark "x" in box no. 4, when a household does not have toilet facilities; in this case, omit questions 7 and 8 and continue.

## Toilet exclusively for household (CO1973A\_0030)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

### Description

This variable indicates whether the toilet is exclusively for use by one household or shared with other households.

### Universe

All households

### Literal question

7. Use of toilet

Is the toilet for the exclusive use of the household or is it shared with other households?

- 1 Exclusively for household
- 2 Shared with others

### Interviewer instructions

Question No. 7. Use of toilet

Fill out this question only at households where they have toilet facilities; who answered 1, 2 or 3 to question 6.

[Below the text is a form.]

[p. 34]

Determine if the facilities are of exclusive use of the household and mark "x" in box 1.

When a Household has to share the facilities with other households, mark "x" in box 2.

## Location of toilet (CO1973A\_0031)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates the location of the toilet.

**Universe**

All households

**Literal question**

8. Location of toilet

Where is the toilet located?

- 1 Inside the house  
 2 Away from the house

**Interviewer instructions**

Question No. 8. Location of toilet

Fill out this question only for households that have toilet facilities: who answered 1, 2 or 3 to question 6.

[Below the text is a form.]

Determine if toilet facilities are found within or outside of a dwelling and mark "x" in the corresponding box.

## How lighting is provided (CO1973A\_0032)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates the type of lighting.

**Universe**

All households

**Literal question**

9. Lighting

What type of lighting does the household have?

- 1 By electricity  
 2 By gasoline  
 3 By candle

**Interviewer instructions**

## Question No. 9. Lighting

[Below the text is a form.]

Read to the interviewed person the question with its alternatives and mark "x" in the corresponding box.

Electric lighting facilities can come from the public system of energy, or from a plant exclusively for the use of a dwelling, or for various dwellings.

Remember that you should mark a single box. If a person responds that they use candle and petroleum lighting, mark what they use most frequently.

## Ownership (CO1973A\_0033)

File: COL1973-H-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

**Description**

This variable indicates the means of occupancy: owning, renting, subletting, occupied de facto or usufruct.

**Universe**

All households

**Literal question**

10. Occupancy

What is the means of occupancy?

By owner

- 1 Totally paid
- 2 Still paying on it

- 1 Renting
- 2 Subletting
- 3 Occupied de facto (invader)
- 4 Usufruct (is not owner and does not pay rent)

**Interviewer instructions**

## Question No. 10. Occupancy

[Below the text is a form.]

Read the question and the alternatives in their order and wait for the response of the person and mark "x" in the corresponding box. Take into account that the question makes reference to the Dwelling in which the interview is carried out.

In case of doubt be guided by the following definitions

**Owner: totally paid.** It is the situation of a household in which any of its members is owner of the dwelling and has totally paid for its value.

**Owner: it is being paid for.** It is the situation of a household in which any of its members acquired the dwelling and is paying for it at the moment of the Census.

**Rented:** when the members of a household pay a periodic sum (weekly, monthly), only for the right of living in this dwelling.

**Sub-rented:** when members of a household have rented part of a dwelling or other household, that is rented at the same time.

**De facto occupant (invader, holder):** when a household without having ownership over a lot builds a dwelling, owning only the construction or improvements, but not the land.

**Usufruct.** It is a situation of a census household, that with previous authorization of the owner or administrator, occupies a dwelling without being the owner of it, nor paying rent.

## How dwelling was acquired (CO1973A\_0034)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

### Description

This variable indicates how the dwelling was acquired.

### Universe

Households where the dwelling is owned by the occupants

### Literal question

11. Financing (only for owners)

How did you acquire this house?

Loan

- 1 Credit institution
- 2 Lending/mortgage institution
- 3 Other official entity
- 4 Private body

- 5 Private resources (inheritance, pension etc.)
- 6 Other

### Interviewer instructions

## Question No. 11. Financing

Fill out this question only when 1 or 2 were answered in question 10.

[Below the text is a form.]

- 1) Read the question and its alternatives in their order; wait for the response of the interviewed person and mark "x" in the corresponding box.
- 2) If you find that a dwelling was financed with loans of more than one entity, mark "x" in the box corresponding to the entity that contributes the largest resources.
- 3) When the contribution has been from loans from two entities in equal parts, mark "x" in the box of the alternative that corresponds to the entity that the person considers most important.
- 4) When a dwelling was financed with loans of any entity and with their own resources mark "x" in the box corresponding to the alternative that has contributed the most capital. If it was financed in equal parts between loans and their own resources, mark "x" in the box corresponding to the information that the person considers most important.
- 5) When a dwelling has been acquired by other means different than the alternatives of the form, mark "x" in the box "others".
- 6) In no case mark two alternatives.

Loan: is contribution of money of any entity, awarded above a wage, savings, payments, or inheritance, to buy a dwelling. In this case the buyer acquires a debt of mortgage with which the loan is paid.

Own resources: When a person contributes directly from their capital, savings, payments, etc. to buy a dwelling.

## Household makes items at home to sell (CO1973A\_0035)

### File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

#### Description

This variable indicates whether the household produces any item(s) to sell (family industry).

#### Universe

All households

#### Literal question

12. Family industry

Does the household in this house produce any article or articles to sell?

- 1 Yes (continue with 13 and 14)  
 2 No (continue with the population section)

#### Interviewer instructions

## Question No. 12. Family industry

[Below the text is a form.]

Read the question and wait for the response of the person.

Mark "x" in box yes, when a household produces within the dwelling articles or objects for sale. If the response is yes continue with question No. 13.

Mark "x" in box no when a household uses the dwelling for habitation purposes without producing, manufacturing or baking articles.

When the response is no, go to Section VI: Population information.

The production of articles can be handcrafted, manufactured or industrial.

Do not consider within this category, markets in which articles not produced within the Household are sold: stores, department stores, cigar stores, beauty salons, workshops, etc.

## Workers employed in household production (CO1973A\_0037)

File: COL1973-H-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the number of workers employed in household production.

### Universe

Households that make items to sell at home

### Literal question

14. Employed personnel

How many persons are usually occupied in the production of these articles?

Total \_\_ \_\_

### Interviewer instructions

Question No. 14. Employed personnel

[Below the text is a form.]

Write down in the corresponding space the number of persons who usually work in the manufacture of article(s) that are produced within a dwelling, if they are members of the Household or not.

## Strata (CO1973A\_0054)

File: COL1973-H-H

### Overview

Type: Continuous  
Format: numeric  
Width: 5  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

This variable is the strata identifier for the sample. Strata is a constructed variable that captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

### Universe

All households

**Literal question**

Strata

## Household weight (HHWT)

File: COL1973-H-H

**Overview**

Type: Continuous  
 Format: numeric  
 Width: 8  
 Decimals: 2

Valid cases: 0  
 Invalid: 0

**Description**

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

## Colombia, Department 1964 - 2005 [Level 1; consistent boundaries, GIS] (GEO1\_CO)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 6  
 Decimals: 0  
 Range: 170005-170095

Valid cases: 0  
 Invalid: 0

**Description**

GEO1\_CO identifies the household's department within Colombia for all sample years. Departments are the first level administrative units of the country. GEO1\_CO is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1\_CO can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level, refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found here.

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

## Colombia, Department 1964 - 2005 [Level 1; inconsistent boundaries, harmonized by name] (GEO1\_COX)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

**Description**

GEO1\_COX identifies the household's department within Colombia in all sample years. Departments are the first level administrative units of the country. GEO1\_COX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

## Colombia, Municipality 1964 - 2005 [Level 2; inconsistent boundaries, harmonized by name] (GEO2\_COX)

File: COL1973-H-H

**Overview**

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 5001-99999	

**Description**

GEO2\_COX identifies the household's municipality within Colombia in all sample years. Municipalities are the second level administrative units of the country, after departments. GEO2\_COX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

## Number of married couples in household (NCOUPLES)

File: COL1973-H-H

**Overview**

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

**Description**

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

## Number of mothers in household (NMOTHERS)

File: COL1973-H-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

## Number of fathers in household (NFATHERS)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

## Country (COUNTRY)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 32-894

Valid cases: 0  
 Invalid: 0

#### Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

## Electricity (ELECTRIC)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

ELECTRIC indicates whether the household had access to electricity.

## Number of bedrooms (BEDROOMS)

File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

#### Description

BEDROOMS indicates the number of rooms available to members of the household for sleeping.

## Ownership of dwelling [general version] (OWNERSHIP) File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

## Ownership of dwelling [detailed version] (OWNERSHIPD) File: COL1973-H-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 0-999

Valid cases: 0  
 Invalid: 0

#### Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

## Strata identifier (STRATA) File: COL1973-H-H

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 12  
 Decimals: 0

Valid cases: 0  
 Invalid: 0

#### Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

## Person number (PERNUM)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 3  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

## Mother's location in household (MOMLOC)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 3  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

## Father's location in household (POPLOC)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 3  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPPOP is designed to identify some of these social relationships.

## Spouse's location in household (SPLOC)

File: COL1973-P-H

### Overview

Type: Continuous	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	

### Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

## Rule for linking parent (PARRULE)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-52	

### Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

## Rule for linking spouse (SPRULE)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 0-6	

### Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

## Probable stepmother (STEPMOM)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-6

Valid cases: 0  
Invalid: 0

### Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

- 0 = Biological mother or no mother of this person present in household.
- 1 = Mother has no children borne or surviving.
- 2 = Child reports mother is deceased.
- 3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
- 4 = Mother reports no children in the home.
- 5 = Age difference between mother and child was less than 12 or greater than 54 years.
- 6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

## Probable stepfather (STEPPOP)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-3

Valid cases: 0  
Invalid: 0

### Description

STEPPOP indicates whether a person's father, as identified by POPLOC, was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

- 0 = Biological father or no father of this person present in household.
- 1 = Child reports father is deceased.
- 2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
- 3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

## Man with more than one wife linked (POLYMAL)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-1

Valid cases: 0  
Invalid: 0

### Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

## Woman is second or higher order wife (POLY2ND)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-1

Valid cases: 0  
Invalid: 0

### Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

## Family unit membership (FAMUNIT)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 2  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

## Number of own family members in household (FAMSIZE)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

## Number of own children in household (NCHILD)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

## Number of own children under age 5 in household (NCHLT5)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

## Age of eldest own child in household (ELDCH)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

#### Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

## Age of youngest own child in household (YNGCH)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

### Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

## Relationship to household head [general version] (RELATE)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

### Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

## Relationship to household head [detailed version] (RELATED)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 4  
Decimals: 0  
Range: 1000-9999

Valid cases: 0  
Invalid: 0

### Description

RELATED describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

## Age (AGE)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 0-999

Valid cases: 0  
 Invalid: 0

#### Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

## Age, grouped into intervals (AGE2)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-98

Valid cases: 0  
 Invalid: 0

#### Description

AGE2 gives computed years of age grouped into intervals.

## Sex (SEX)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

#### Description

SEX reports the sex (gender) of the respondent.

## Marital status [general version] (MARST)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

## Marital status [detailed version] (MARSTD)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 0-999

Valid cases: 0  
 Invalid: 0

**Description**

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

## Consensual union (CONSENS)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 1-9

Valid cases: 0  
 Invalid: 0

**Description**

CONSENS indicates whether the respondent was in a consensual union -- a de facto marriage.

## Children ever born (CHBORN)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

**Description**

CHBORN reports the number of children ever born to each woman of whom the question was asked. In most samples, women were to report all live births by all fathers, whether or not the child was still living.

## Children surviving (CHSURV)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

**Description**

CHSURV reports the number of children born to a woman who were still living at the time of the census.

## Department of birth, Colombia (BPLCO1)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 2	
Decimals: 0	
Range: 1-99	

### Description

BPLCO1 indicates the person's department of birth within Colombia.

## Municipality of birth recode, Colombia (BPLCO2)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 1-998	

### Description

BPLCO2 indicates the person's recoded municipality of birth within Colombia. The geographic units identified in BPLCO2 are combinations of municipalities totaling 20,000 or more population in 1993 (see MUNICO).

## Born in this municipality, Colombia (BPLCO3)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 1-9	

### Description

BPLCO3 indicates whether the person was born in a different municipality in which they were enumerated in the census, and if so, whether they were born in a different department.

## School attendance (SCHOOL)

File: COL1973-P-H

### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

### Description

SCHOOL indicates whether or not the person attended school at the time of the census or within some specified period of time prior to the census.

## Literacy (LIT)

### File: COL1973-P-H

#### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

#### Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

## Educational attainment, Colombia (EDUCCO)

### File: COL1973-P-H

#### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

#### Description

EDUCCO indicates the person's educational attainment in terms of the level of schooling completed and the number of years completed at that level.

## Activity status (employment status) [general version] (EMPSTAT)

### File: COL1973-P-H

#### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

#### Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

## Activity status (employment status) [detailed version] (EMPSTATD)

### File: COL1973-P-H

#### Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 3	
Decimals: 0	
Range: 0-999	

**Description**

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

## Occupation, ISCO general (OCCISCO)

### File: COL1973-P-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-99

Valid cases: 0  
Invalid: 0

**Description**

OCCISCO records the person's primary occupation, coded according to the major categories in the International Standard Classification of Occupations (ISCO) scheme for 1988. For someone with more than one job, the primary occupation is typically the one in which the person had spent the most time or earned the most money.

## Occupation, unrecoded (OCC)

### File: COL1973-P-H

**Overview**

Type: Continuous  
Format: numeric  
Width: 4  
Decimals: 0

Valid cases: 0  
Invalid: 0

**Description**

OCC records the person's primary occupation, classified according to the system used by the respective national census office at the time. For someone with more than one job, the primary occupation is usually the one in which the person spent the most time or earned the most money, although this may not have been explicit in the instructions for a specific census.

To ensure confidentiality, very small occupations are recoded to a residual category indicating the persons had an occupation, but the job title is not identified. The number of cases recoded should be too small to affect analyses.

## Industry, general recode (INDGEN)

### File: COL1973-P-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

**Description**

INDGEN recodes the industrial classifications of the various samples into twelve groups that can be fairly consistently identified across all available samples. The groupings roughly conform to the International Standard Industrial Classification (ISIC). The third digit of INDGEN retains important detail among the service industries that could not be consistently distinguished in all samples.

"Industry" refers to the activity or product of the establishment or sector in which a person worked.

## Industry, unrecoded (IND)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 5  
Decimals: 0

Valid cases: 0  
Invalid: 0

### Description

"Industry" refers to the activity or product of the establishment or sector in which the person worked. IND is classified according to the system used by the respective national census office at the time, and is not recoded by IPUMS-International.

## Status in employment (class of worker) [general version] (CLASSWK)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 0-9

Valid cases: 0  
Invalid: 0

### Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

## Status in employment (class of worker) [detailed version] (CLASSWKD)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

### Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

## Months worked last year (WRKMTHS)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

#### Description

WRKMTHS gives the number of months that the respondent worked for profit, pay, or as an unpaid family worker during the previous year.

## Total income (INCTOT)

File: COL1973-P-H

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 7  
 Decimals: 0

Valid cases: 0  
 Invalid: 0

#### Description

INCTOT reports the person's total personal income from all sources in the previous month or year.

## Department of previous residence, Colombia (MIGCO1)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

MIGCO1 indicates the person's department of previous residence within Colombia. Persons who never migrated across departments are coded to their department of current residence.

## Municipality of previous residence, Colombia (MIGCO3)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 1-998

Valid cases: 0  
 Invalid: 0

#### Description

MIGCO3 indicates the person's recoded municipality of previous residence within Colombia. The municipality recodes identify groupings of municipalities whose population totaled at least 20,000 in 1993 (see MUNICO). Persons who did not migrate between municipalities are coded to their current municipality of residence.

## Occupation, ISCO-1968, 3-digit (ISCO68A)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 11-999

Valid cases: 0  
 Invalid: 0

#### Description

ISCO68A provides the 3-digit occupation code for the respondent using the ISCO-1968 occupation classification.

## Person number of household member (CO1973A\_0400) File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

This variable indicates the person number of the household member.

#### Universe

All persons

#### Literal question

[The information displayed in the part of the form is in table form. The column headers are listed below, followed by the questions]

Questions

Number

First Person 01

Second Person 02

Third Person 03

## Relationship to household head (CO1973A\_0401) File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

This variable indicates the relationship to the head of the household.

#### Universe

All persons

#### Literal question

A. General characteristics (for all the persons in the household).  
[Applies to questions 1 - 9]

2. What is his/her relationship to the head of the household?

1 For the first person, the only answer is head of household  
For persons 2-9, the answers are:

- 2 Spouse
- 3 Son (daughter)
- 4 Parent or parent-in-law
- 5 Grandchild
- 6 Other relative
- 7 Domestic employee
- 8 Pensioner
- 9 Other unrelated person

**Interviewer instructions**

## Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.  
[Applies to questions 1 - 9]

## Question No. 2. Relationship

In the first column mark the box "head" with an "x".

[Below the text is a form.]

[p. 40]

In the remaining columns, mark with an "x" the box that corresponds to the relation or relationship of each one of the members of the census household, with the head of the household.

[Below the text is a form.]

[Note: the Spanish explicitly refers to both male and female grammatical endings in this section.]

Spouse: Refers to the companion of the person who appears as head of the household, united by matrimonial ties or not.

Child: Includes both children of the current union as well as those of other unions and also adoptive or brought up, especially when they are recognized by the head of the household and are present at the moment of the Census.

Parents and in-laws: Refers to the blood related or adopted parents of the head of the household and the parents of the companion.

Grandchildren: Refers to children of the children of the head of the household.

Other Relatives: They are all persons related to the head of the household and that do not appear in any of the previous alternatives, niece/nephew, cousins, aunt/uncles, brother/sister-in-laws, etc. In this category guests are included especially when they do not pay to eat and sleep.

Domestic employees: They are persons who dedicate their job to the service of the household in exchange for remuneration in money and /or in kind; nanny, housekeeper, cook, chauffeur, gardener, etc.

Pensioner: Is a person who pays for sharing meals with the Household and for occupying a space in the dwelling.

Other unrelated: Includes all persons who have no relationship with the head of the household and who are not included in the previous definitions: Example: spouse or companion of domestic employees, children of domestic employees, minors in guardianship, etc.

## Sex (CO1973A\_0402)

All persons

#### Literal question

A. General characteristics (for all the persons in the household).  
[Applies to questions 1 - 9]

4. How old is the person? (For children under one, write 00)

Years completed \_\_ \_\_

#### Interviewer instructions

## Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.  
[Applies to questions 1 - 9]

## Question No. 4. Age in complete years

[Below the text is a form.]

The information that should be obtained for each person is the number of completed years on the last birthday and not the age a person is about to be.

When a person declares that they do not know their age, try to help them, making reference to historical or personal deeds. For example if married, the current age can be estimated, on the basis of the age when married and the amount of time married; or based on their age when the first child was born and the child's age now. In the last case, the collector should estimate the age related with any national, international or local event: the wars of One Thousand Days (1899-1902), (1939-1945), the death of Gaitán (1948), June 13. Only for persons from whom it is not possible to obtain information, should the space be left blank.

Write down in the corresponding space the age of the person in completed years.

Do not write down approximate ages in any case.

If the informed age is 99 years or more, always write down 99.

For persons younger than 1 year, write down in the corresponding space 00 (zero, zero).

If the informed age is between 1 and 9 years, write it down with a zero to the left.

## Marital status (CO1973A\_0404)

File: COL1973-P-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 1  
Decimals: 0  
Range: 1-9

Valid cases: 0  
Invalid: 0

**Description**

This variable indicates the marital status.

**Universe**

All persons

**Literal question**

A. General characteristics (for all the persons in the household).  
[Applies to questions 1 - 9]

5. What is his/her current marital status?

- 1 Consensual union
- 2 Married
- 3 Separated or divorced
- 4 Single
- 5 Widowed

#### **Interviewer instructions**

Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.  
[Applies to questions 1 - 9]

Question No. 5. Current marital state

[Below the text is a form.]

Mark with an "x" the box that corresponds to the civil state of the person at the moment of the Census. Remember that the different alternatives are exclusive; therefore, you should not mark more than one of them.

[p. 42]

Read the question and the alternatives in their order until obtaining an affirmative response.

For minors mark with an "x" the box "single".

Consensual union: Persons are found in free union who without existing civil or religious matrimonial ties, live in marital union and are a family.

Married: They are persons who have been civilly or religiously legally married and live in this state at the moment of the census.

Single: Persons are considered single who never have married and do not live in free union.

Widowed: They are persons who were married or in free union and have not married again and do not live in free union after the death of their companion.

Separated or divorced: In this category are included:

- a. - Persons who having lived in free union, at the moment of the census do not live with their companion.
- b. - Persons married civilly and/or religiously, but who at the moment of the Census do not live with their companion
- c. - Persons whose marriage was dissolved by legal means and have not married again or live in free union.

Do not write down as separate of divorced persons who have to separate occasionally for reasons of work, vacation, sickness, etc.

## Whether born in this municipality (CO1973A\_0405)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric

**Interviewer instructions**

Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.  
 [Applies to questions 1 - 9]

Question No. 6. Place of birth

[Below the text is a form.]

Mark with an "X" the box "here" if a person was born in the same municipality where enumerated. If a person was born in a different municipality from where enumerated, write the name of the municipality and the corresponding department.

[p. 43]

Do not register administrative units, administrative sections, hamlets or sites as places of birth.

In case a person gives as place of birth the name of an administrative unit, administrative section, hamlet or site, ask what municipality it belongs to and write down the name of the municipality and corresponding department.

If a person was born in another country, ask and write down the name of the country.

Fill out this question to all persons. Do not suppose that the place of birth of the children is the same as their parents.

Write clearly the names of the municipality and the department and do not use the shaded space.

Always keep in mind the instructions of the form. Consult them.

## Current residence (CO1973A\_0408)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates whether the person's current residence is in the place where being enumerated or elsewhere.

**Universe**

All persons

**Literal question**

A. General characteristics (for all the persons in the household).  
 [Applies to questions 1 - 9]

7. In which municipality does he/she live currently?

-If he/she currently lives in this municipality, make an X in the box that says "here"

-If he/she does not currently live here, write the name of the municipality and department where he/she lives.

-If he/she lives outside of Colombia, write the name of the country.

[ ] 1 Here

Municipality \_\_\_\_\_

Department or country: \_\_\_\_\_

**Interviewer instructions**

Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.

[Applies to questions 1 - 9]

Question No. 7. Current place of usual residence

[Below the text is a form.]

Mark an "x" in the box "here" if a person currently lives in the municipality where enumerated.

If a person currently lives in a different municipality than where enumerated, write the name of the municipality and corresponding department.

If a person currently lives away from Colombia ask and register only the name of the country.

Keep in mind the instructions given in the form. Consult them.

Living currently in the municipality is understood to mean the fact that a person is settled down in it, for reasons of work, business, family life, etc. for a period of three months or more or for a period less, especially when the person has arrived with the intention of settling down in the municipality.

## Department of current residence (CO1973A\_0410)

## How long has lived here (CO1973A\_0411)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 3  
 Decimals: 0  
 Range: 0-999

Valid cases: 0  
 Invalid: 0

**Description**

This variable indicates how long the person has lived in the current residence.

**Universe**

All persons

**Literal question**

A. General characteristics (for all the persons in the household).  
 [Applies to questions 1 - 9]

8. How long has he/she lived in this municipality?

(Where the person is answering the census)

[ ] 99 Always (all of his/her life)

If more than one year: how many? \_\_ \_\_

[ ] 00 Less than one year

**Interviewer instructions**

Section A. General characteristics

[Below the text is a form.]

Section A. General characteristics will be filled out for all the persons of a census household who spent the night of October 23 to 24 in the dwelling.

Do not forget to include newborns, minors and the elderly.  
 [Applies to questions 1 - 9]

Question No. 8. Time of residence

[Below the text is a form.]

Mark with an "x" the box "always (all life)", when a person has lived their whole life, in the municipality where enumerated, without moving for large periods and without having ever lived in another place.

When the time that a person lived in another municipality other than where enumerated is more than one year, write down the years in the corresponding box.

Take into account that years of residence until the moment of the Census should be registered as time left.

When the time that a person lived in another municipality other than where enumerated is less than one year, mark with an "x" the box "less than 1 years". In this category persons in transit are included.

Always put a zero to the left, when the number of years that a person lives in the municipality is less than 10 years.

Time left is considered living in a place, from the date in which a person lived for the last time in the place where enumerated, until the day of the census.

For persons in transit, it will be taken as time of residence in which they lived in the municipality in which enumerated.

## Always lived here (CO1973A\_0412)

File: COL1973-P-H

Question No. 12. Highest educational level that they have reached

[Below the text is a form.]

Always pick a single alternative.

Mark "x" in the box none, when a person does not attend nor has attended any establishment of primary, secondary or superior education.

[p. 47]

Also mark "x" in the box none, in the case of persons who only took literacy classes, or attended children's schools or kindergartens.

Mark "x" in the box primary in the case of persons who take or took classes for one year or many years of primary education but did not continue to secondary.

When a person has advanced to a higher educational level, secondary, "x" is marked in box three (3).

When the highest educational level reached by a person has been secondary in the technical or vocational branch, "x" is marked in box four (4).

When the highest educational in secondary is the normal branch, mark box five (5).

Mark "x" in box six (6) when a person takes or has taken classes for any years of superior or university education or has taken post-graduate classes.

When a person has taken classes of other studies that do not correspond to the concepts of primary, secondary or superior, mark "x" in box seven (7).

Primary is understood to be the first cycle of regular education, during which basic knowledge is imparted to continue to a secondary level of education. It consists of five courses or years.

Secondary is understood to be the second level of regular education, in which those who passed the first five years of primary can enter and who have the objective of being provided the necessary knowledge to continue to superior studies or to develop an occupation, art or craft.

Secondary education has many branches: secondary; technical or vocational and normal.

Bachelor is understood to be the branch of secondary education that has as its objective providing the necessary knowledge for the continuation of superior studies. This branch of secondary is called, generally, classic bachelor and has a duration of six (6) years when it is during the day and seven (7) when is it during the night.

[p. 48]

Technical or vocational is understood to be the branch of secondary education that looks to prepare students for the development of an occupation, art or craft in industry, arts and crafts, agriculture business, administration, etc. This branch is understood to be commercial, industrial and technical agricultural and livestock bachelors; poly-technical, vocational, artistic and diversified media (INEM). It has a duration of six (6) years.

Normal is understood to be the branch of secondary education that has as its objective the formation of teachers for pre-school or primary education or for continuing studies of superior level. Its duration is six (6) years.

Superior or University is understood to be professional formation whether in intermediate careers whose initiation is required, as a minimum, the passing of four years of bachelor, or in professional careers, that require having the grade of bachelor or normal.

The alternative of others means educational modalities like special (for high gifted children or with physical or mental deficiencies), the primary functional of adults, etc.

Question No. 13. Highest year completed

[Below the text is a form.]

This question refers to the last classes taken and passed by a person in the highest educational level reached: primary, secondary or superior.

Write down the last year passed in the corresponding space.

Point out with "x" the box "none".

a) When a person does not attend, and did not attend classes of primary, secondary or superior education.

b) When a person attends or attended classes of primary, secondary or superior education but has not passed any year in the highest educational level reached. So, for example, for a person who is in the first year of Primary, Secondary, or Superior and has not passed it, "x" will be marked in the box "none".

[p. 49]

Take into account the following

For educational levels that are divided by semesters, make the annotation in complete years: two semesters equal one year.

For persons who take or have taken more classes of a career of superior education, the year of the highest passed level should be registered.

## Section B. Educational characteristics

Fill out this section for all persons 5 years old or more.  
[Applies to questions 10 - 13]

## Question No. 12. Highest educational level that they have reached

[Below the text is a form.]

Always pick a single alternative.

Mark "x" in the box none, when a person does not attend nor has attended any establishment of primary, secondary or superior education.

[p. 47]

Also mark "x" in the box none, in the case of persons who only took literacy classes, or attended children's schools or kindergartens.

Mark "x" in the box primary in the case of persons who take or took classes for one year or many years of primary education but did not continue to secondary.

When a person has advanced to a higher educational level, secondary, "x" is marked in box three (3).

When the highest educational level reached by a person has been secondary in the technical or vocational branch, "x" is marked in box four (4).

When the highest educational in secondary is the normal branch, mark box five (5).

Mark "x" in box six (6) when a person takes or has taken classes for any years of superior or university education or has taken post-graduate classes.

When a person has taken classes of other studies that do not correspond to the concepts of primary, secondary or superior, mark "x" in box seven (7).

Primary is understood to be the first cycle of regular education, during which basic knowledge is imparted to continue to a secondary level of education. It consists of five courses or years.

Secondary is understood to be the second level of regular education, in which those who passed the first five years of primary can enter and who have the objective of being provided the necessary knowledge to continue to superior studies or to develop an occupation, art of craft.

Secondary education has many branches: secondary; technical or vocational and normal.

Bachelor is understood to be the branch of secondary education that has as its objective providing the necessary knowledge for the continuation of superior studies. This branch of secondary is called, generally, classic bachelor and has a duration of six (6) years when it is during the day and seven (7) when is it during the night.

[p. 48]

Technical or vocational is understood to be the branch of secondary education that looks to prepare students for the development of an occupation, art or craft in industry, arts and crafts, agriculture business, administration, etc. This branch is understood to be commercial, industrial and technical agricultural and livestock bachelors; poly-technical, vocational, artistic and diversified media (INEM). It has a duration of six (6) years.

Normal is understood to be the branch of secondary education that has as its objective the formation of teachers for pre-school or primary education or for continuing studies of superior level. Its duration is six (6) years.

Superior or University is understood to be professional formation whether in intermediate careers whose initiation is required, as a minimum, the passing of four years of bachelor, or in professional careers, that require having the grade of bachelor or normal.

The alternative of others means educational modalities like special (for high gifted children or with physical or mental deficiencies), the primary functional of adults, etc.

## Question No. 13. Highest year completed

[Below the text is a form.]

This question refers to the last classes taken and passed by a person in the highest educational level reached: primary, secondary or superior.

Write down the last year passed in the corresponding space.

Point out with "x" the box "none".

a) When a person does not attend, and did not attend classes of primary, secondary or superior education.

b) When a person attends or attended classes of primary, secondary or superior education but has not passed any year in the highest educational level reached. So, for example, for a person who is in the first year of Primary, Secondary, or Superior and has not passed it, "x" will be marked in the box "none".

[p. 49]

Take into account the following

For educational levels that are divided by semesters, make the annotation in complete years: two semesters equal one year.

For persons who take or have taken more classes of a career of superior education, the year of the highest passed level should be registered.

## Employment status (CO1973A\_0419)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-99

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the activity status during the week prior to the day of the census.

This variable is used to define the universe for subsequent employment questions. In the labor force is defined as those who answered yes they were working the week prior to the census, no they were not working but have a job, or those with no job but were looking for work. Those not in the labor force are defined as those who answered no they were not working and it was their first time looking for work, those living on rent payments, those with a pension, those in school, those with a home business or self-employed, and those not working.

### Universe

Persons age 10+

### Literal question

C. Economic characteristics (For persons 10 years old or more)  
[Applies to questions 14 - 19]

14. What did you do the week before the census (14 to 20 October)

- 1 Work
- 2 Did not work but has a job
- 3 Looking for work and has worked before
- 4 Looking for work for the first time
- 5 Lives on rent payments
- 6 Has a pension
- 7 In school
- 8 Home business, self-employed
- 9 No work

If the answer is 1, 2, or 3, continue with question 15. If the answer is 4, 5, 6, 7, 8, or 9, continue with question 18.

### Interviewer instructions

## Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.

[Applies to questions 14 - 19]

Question No. 14. Activity during the week previous to the day of the census.

[Below the text is a form.]

[P. 50]

Take into account the following:

The question refers to what a person did during the week understood to be October 14 to 20.

Mark an "x" in the box corresponding to the obtained information.

Two or more alternatives will never be marked for the same person. If someone had two activities, only pick the alternative that is put first, in the form.

1. Mark "x" in the box "worked" when a person did any labor during one or more hours during the week in exchange for remuneration. In this category persons who without receiving remuneration for their work are included, working in family businesses or exploitations for 15 or more hours in the week.
2. Mark "x" in the box "did not work but had a job", when a person had employment during the week of October 14 to 20, but did not work for any temporary reason like sickness, passage, vacation, on leave, work conflict, machine injury, bad weather, etc.
3. Mark "x" in the box "looked for work but worked before", in the case of persons who worked some time in their life, but did not have employment during the week of October 14 to 20, and spent this week looking for new employment.
4. Mark "x" in the box "looked for work for the first time", when a person looked for work the week before the Census day, but had not worked previously.
5. Mark "x" in the box "lived by their investments", when a person did not do any job, or did not look for employment during the week before the Census day and periodically receives income provided from interest on loaned money, participation in earnings of a business, stocks (dividends) or leasing of buildings, houses, lands, machinery or equipment.

[p. 51]

6. Mark "x" in the box "retired or pensioned", when a person does not work or look for work during the week of October 14 to 20 and receives pensions of widow, physical incapacity, etc., or retirement by leaving a job after becoming a certain age or certain number of years of service.
7. Mark "x" in the box "studied" when a person did not work, or look for work in the week before the Census, and attended educational classes of any type.
8. Mark "x" in the box "domestic duties", when a person did not work or did not look for work in the week of October 14 to 20, and did domestic activities (washing, cooking, taking care of children, etc.) in their own household without receiving remuneration.
9. Mark "x" in the box "without activity", for persons who are not located in any of the previous alternatives.

How to continue the filling out of the form

For persons who are in the alternatives 1 (worked), in 2 (did not work but looked for work) or 3 (Looked for work but worked before) ask all the other questions in section C. about economic characteristics.

For persons who are in the other alternative (4, 5, 6, 7, 8 or 9) go directly to questions 18 and 19, without filling out questions 15, 16 and 17.

## Occupation last week (CO1973A\_0420)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric

### Universe

Persons with a job

### Literal question

C. Economic characteristics (For persons 10 years old or more)  
[Applies to questions 14 - 19]

15. What was your occupation, profession, or work during this week? \_\_\_\_\_

### Interviewer instructions

Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.  
[Applies to questions 14 - 19]

Question No. 15. Occupation

[Below the text is a form.]

[p. 52]

This question refers to the occupation, craft, profession or type of work that was done during the week of October 14 to 20 by persons who worked in that week.

For persons who did not work but had a job and for those who worked before and looked for work during the week before the Census, the occupation or trade refers to the last job worked.

If a person had more than one job write down only the principal occupation. Principal occupation is understood to be one that provides the largest quantity of income.

Do not accept responses like "employee", "office worker", "laborer", "operator", "farmer", "commercial worker", etc. Always write down the responses that completely specify the occupation that the person had.

Write down the responses clearly and without writing the in the shaded square.

## Industry (CO1973A\_0421)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the principal economic function of the business, factory, or agricultural business where the person worked (industry of employment).

### Universe

Persons with a job

### Literal question

C. Economic characteristics (For persons 10 years old or more)  
[Applies to questions 14 - 19]

16. What is the principal economic function of the business, factory, or agricultural business where you worked? \_\_\_\_

### Interviewer instructions

Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.  
[Applies to questions 14 - 19]

Question No. 16. Activity of the company

[Below the text is a form.]

Fill out this question for persons 10 years old or older who belong in the alternatives 1, 2 or 3 of question 14.

Write down clearly and without writing in the shaded space, the activity of the business, factory, exploitation, or establishment in which a person did their principal job, craft or profession.

To fill out this question correctly take into account the following criteria:

If the company where a person works their principal occupation has many branches, agencies or establishments that do different activities that which the establishment does where the person works will be written down. So, if someone worked in the store of a company that produces dresses, "wholesale commerce of dresses" will be written down.

[p. 53]

If an establishment does many activities, write down only the principal activity.

Do not accept vague responses like "exploitation", "business", "company", "factory", "agency", or simply write down the name of a product or company. When they give you this type of response ask for more details.

Examples of correct responses are: livestock worker, exploitation of sugar cane, coal mine, wooden furniture factory, retail furniture commerce, passenger transportation.

## Class of worker (CO1973A\_0422)

17. What position or category did you have at work?

-Read all the choices in order until you get an affirmative response.

- 1 Laborer or journeyman
- 2 Employee
- 3 Employer/Boss
- 4 Independent worker
- 5 Unpaid family worker
- 61 Domestic worker
- 7 Other

**Interviewer instructions**

## Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.  
[Applies to questions 14 - 19]

## Question No. 17. Occupational position

[Below the text is a form.]

Fill out this form for persons 10 years old or older who belong in alternatives 1, 2 or 3 of question 14.

This question refers to the work position that a worker had in carrying out their principal occupation

Mark with "x" only one of the boxes in accordance with the following definitions:

1 Worker or day laborer: is a worker who is occupied directly in the production of goods or services under the dependence of an employer (or their representative) from whom they receive a salary in money or in kind.

2 Employee: A person who carries out functions in the direction, administration, organization, planning or vigilance of a company and receives remuneration in the form of a salary, wage, commissions, etc.

3 Employer: A person who works and has under their dependence one or more salaried persons, for carrying out an economic activity, in a company of which they are owner.

[p. 54]

Those not considered employers:

Heads of household who have domestic employees in their private dwelling.

Persons who manage a family company in which no- remunerated family members work exclusively.

Persons who have directive positions in the companies (managers, bosses of personnel, etc.) if they are not owners of the company where they work.

4 Independent worker: is a person who works in their own company or who runs a profession or craft for their own account, with help or not from non-remunerated family workers, but without using any salaried worker (office worker or manual laborer).

Persons who work with associates, in equal conditions, without relations of dependence with an employer are also considered independent workers.

5 Family worker without remuneration: is a person who helped at a job in a family agricultural or livestock exploitation or business, without obtaining a salary, for 15 hours or more a week.

A person who works in a family company and receives any amount of money that could be considered salary should be classified as "office worker" or "manual laborer".

6 Domestic Employee is a person who works on their own activities in the service of the household, in a private house and receives for their work a salary in money or in kind. They are understood to be servants, private chauffeurs, gardeners, superintendents of houses, nannies, housekeeper, etc.

Persons dedicated to the care of a private household, without receiving remuneration should not be classified in this or any other alternative of this question.

7 Others. This box will be marked with "x" for persons who have an occupational position different than those previously defined. For example, members of religious cults.

## Months of paid work (CO1973A\_0423)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0

### Universe

Persons age 10+

### Literal question

C. Economic characteristics (For persons 10 years old or more)  
[Applies to questions 14 - 19]

18. How many months did you work for pay or in a family business this year (1973)?

[ ] 00 Didn't work  
Months worked \_\_ \_\_

### Interviewer instructions

Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.  
[Applies to questions 14 - 19]

Question No. 18. Months worked

[Below the text is a form.]

This question refers to the months worked by a person during the year 1973, from January 1 to October 24.

[p. 55]

A month worked is considered during which a person carried out a trade that reported earnings or worked in a family business, during 15 days of the week or more, together or in intervals.

Mark "x" in the box "did not work" when a person worked less than 15 days during this year or did not work at all.

If a person claims to have worked more than 15 days during this year write down the number of months worked. The minimum to write down is 01 and the maximum 10.

As time worked also those who correspond to vacations, temporary absence due to sickness and other causes should be considered, especially a person who had received remuneration in money and/or kind.

When the information is given in months or fractions of months, specify if the days worked were 15 or more and write the entire number of months. If a person worked less than 15 days of the month it will not count as a month worked.

In the case of persons who did not work 15 days during a single month but who from January to October worked more than 15 days, the days worked will be calculated and the months that are equal to those days will be written down.

## Income in pesos last month (CO1973A\_0424)

File: COL1973-P-H

### Overview

Type: Continuous  
Format: numeric  
Width: 5  
Decimals: 0

Valid cases: 0  
Invalid: 0

**Description**

This variable indicates income in pesos in the month prior to the census (September).

**Universe**

Persons age 10+

**Literal question**

C. Economic characteristics (For persons 10 years old or more)  
[Applies to questions 14 - 19]

19. How much did you earn - in pesos - last month?

\$ \_\_\_\_\_

0 No income

1 No information

**Interviewer instructions**

## Section C. Economic characteristics

This section should be filled out only for persons 10 years old or older.  
[Applies to questions 14 - 19]

## Question No. 19. Monthly income in pesos

[Below the text is a form.]

The wage of a person during last month (September) is asked.

What a person receives as income includes:

1) Income by concept of salaried work received during the month.

Wages and salaries, premiums, vacations, bonuses, incentives, extra hours, subsidies, gratuities, traveling expenses, payments, etc.

[p. 56]

Deductions that are taken out because of taxes (retention in the source), Social Security or Prevision Fund, union dues, employee or cooperative funds are included.

2) Income from independent work:

That which is obtained by private jobs, professional fees or earnings by the sale of domestic products. Of these incomes the expenses that cause these activities should be deducted.

3) Income by capital:

Interests received by money loaned, utility profits of owned businesses, dividends, etc.

4) Income by leases:

Of buildings, lands, equipment or machines.

5) Income by other manners, like:

Retirement payments, pensions, raffles, etc.

Do not include as income of the person:

1) What is received in kind (food, cloths, dwelling, products, etc.).

2) Do not consider as income the amounts of money that a person receives by way of gifts, donations, presents, without having given any work or service in exchange. The sum of money received from a family member for expenses of food, clothing dwelling, education, transportation, etc. and that does not correspond to salary should not be considered income.

3) Moneys that persons receive for their care or administration which they cannot have also should not be considered income.

[p. 57]

After asking the question, write down in the corresponding space the number that the interviewed person gives to you.

Always write down the response in pesos. If they give you a responses with "centavos", discard the fraction and write down whole numbers.

For persons who do not have income mark an "x" in the box "does not have income".

When a person does not know the information, explain to them that the census information has a confidential character. If they persist in not answering mark an "x" in the box "no answer".

[p. 57]

After asking the question, write down in the corresponding space the number that the interviewed person gives to you.

Always write down the response in pesos. If they give you a responses with "centavos", discard the fraction and write down whole numbers.

For persons who do not have income mark an "x" in the box "does not have income".

When a person does not know the information, explain to them that the census information has a confidential character. If they persist in not answering mark an "x" in the box "no answer".

## Children ever born (CO1973A\_0426)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the number of live births the person had during her entire life.

### Universe

Females age 15+

### Literal question

D. Fertility characteristics (only for females fifteen years old or more)  
[Applies to questions 20 -22]

20. How many live births have you had (during your entire life)?

[ ] 00 none  
number \_\_ \_\_

### Interviewer instructions

Section D. Fertility characteristics

These questions will be asked to all women 15 years old or older. It does not matter if they are single, married, united, widowed or separated.  
[Applies to questions 20 -22]

Question No. 20. Total number of children born alive

[Below the text is a form.]

Mark with an "x" the box corresponding to "none" when a woman has not had any children born alive.

Write down in the box corresponding to "number" the total number of children born alive that the woman has had during her whole life. It does not matter if they live or not in the Household that is being enumerated or if they have died.

When for a particular woman one does not know or has no idea of the number of children born alive that she has had, leave the space blank. These cases are presented as an exception.

[p. 58]

Born alive: is a child who when being born breathes, cries or moves. If it showed any of these signs of life and then died it is a life birth. If upon being born that child does not show any of the signs mentioned previously, it is a still birth.

## Children still alive (CO1973A\_0427)

### Description

This variable indicates the number of children that are still alive.

### Universe

Females age 15+

### Literal question

D. Fertility characteristics (only for females fifteen years old or more)  
[Applies to questions 20 -22]

21. How many of your children are still alive?

[ ] 00 none  
number \_\_ \_\_

### Interviewer instructions

Section D. Fertility characteristics

These questions will be asked to all women 15 years old or older. It does not matter if they are single, married, united, widowed or separated.  
[Applies to questions 20 -22]

Question No. 21 Number of children currently alive

[Below the text is a form.]

Mark "x" in the box "none" when the woman says that she has no children currently alive.

Write down the number of children currently alive in the corresponding box.

When she does not say or know the number of children currently alive, leave the space blank. These cases are presented as an exception.

Children currently alive: Are those who on the day of the Census, were found with life, they live or not with their parents either in another part of the country or abroad.

## Month of last live birth (CO1973A\_0428)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 1-99

Valid cases: 0  
Invalid: 0

### Description

This variable indicates the month of last live birth.

### Universe

Females age 15 to 49 who have had a live birth

### Literal question

D. Fertility characteristics (only for females fifteen years old or more)  
[Applies to questions 20 -22]

22. When did you have your last child (live birth)?

(Only for women who are 15 to 49)

Month \_\_\_\_\_

Year: 19 \_\_ \_\_

#### Interviewer instructions

Section D. Fertility characteristics

These questions will be asked to all women 15 years old or older. It does not matter if they are single, married, united, widowed or separated.

[Applies to questions 20 -22]

Question No. 22. Date of birth of the last child

This question will be asked to all women, understood to be between 15 and 49 years of age, it does not matter if they are single, married, united, widowed or separated.

[Below the text is a form.]

Write down the number of the month and year in which the woman had her last child born alive, in the corresponding spaces.

When the woman has not had children or is older than 50 years, leave the corresponding spaces blank.

## Year of last live birth (CO1973A\_0429)

### File: COL1973-P-H

#### Overview

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 7-99

Valid cases: 0  
Invalid: 0

#### Description

This variable indicates the year of last live birth.

## Person weight (PERWT)

File: COL1973-P-H

**Overview**

Type: Continuous  
Format: numeric  
Width: 8  
Decimals: 2

Valid cases: 0  
Invalid: 0

**Description**

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

## Years residing in current locality (MIGYRS1)

File: COL1973-P-H

**Overview**

Type: Discrete  
Format: numeric  
Width: 2  
Decimals: 0  
Range: 0-99

Valid cases: 0  
Invalid: 0

**Description**

MIGYRS1 indicates how many years the person has resided in their current locality of residence.

## Year of last birth (LASTBYR)

File: COL1973-P-H

**Overview**

Type: Discrete  
 Format: numeric  
 Width: 4  
 Decimals: 0  
 Range: 1900-9999

Valid cases: 0  
 Invalid: 0

### Description

LASTBYR indicates the year of birth of the last child borne by the respondent. The data refer to live births.

## Years of schooling (YRSCHOOL)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

### Description

YRSCHOOL indicates the highest grade/level of schooling the person had completed, in years. Only formal schooling is counted. YRSCHOOL accounts for the number of years of study, regardless of the track or kind of study. Information on degree and/or technical track is available in EDATTAIN. Years of schooling for Israel, categorized into intervals, are given in YRSCHOOL2.

Users should pay close attention to the top-codes in each sample, as discussed in the comparability section.

## Migration status, previous residence (MIGRATEP)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 0-99

Valid cases: 0  
 Invalid: 0

### Description

MIGRATEP indicates whether the person's most recent move (if any) was between minor administrative units, major units, or countries.

## Educational attainment, international recode [general version] (EDATTAIN)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

### Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

## Educational attainment, international recode [detailed version] (EDATTAIND)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 3  
Decimals: 0  
Range: 0-999

Valid cases: 0  
Invalid: 0

### Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

## Country of birth (BPLCOUNTRY)

File: COL1973-P-H

### Overview

Type: Discrete  
Format: numeric  
Width: 5  
Decimals: 0  
Range: 0-99999

Valid cases: 0  
Invalid: 0

### Description

BPLCOUNTRY indicates the person's country of birth.

## Month of last birth (LASTBMO)

File: COL1973-P-H

### Overview

Type: Discrete  
 Format: numeric  
 Width: 2  
 Decimals: 0  
 Range: 1-99

Valid cases: 0  
 Invalid: 0

#### Description

LASTBMO indicates the month of birth of the last child borne by the respondent. The data refer to live births.

## Country of previous residence (MIGCTRYP)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 5  
 Decimals: 0  
 Range: 0-99999

Valid cases: 0  
 Invalid: 0

#### Description

MIGCTRYP indicates the country of previous residence of international migrants. Persons who never lived abroad are coded to the "non-migrant" category.

## Nativity status (NATIVITY)

File: COL1973-P-H

#### Overview

Type: Discrete  
 Format: numeric  
 Width: 1  
 Decimals: 0  
 Range: 0-9

Valid cases: 0  
 Invalid: 0

#### Description

NATIVITY indicates whether the person was native- or foreign-born.

## Year [person version] (YEARP)

File: COL1973-P-H

#### Overview

Type: Continuous  
 Format: numeric  
 Width: 4  
 Decimals: 0

Valid cases: 0  
 Invalid: 0

#### Description

[This file is just a placeholder. See the household version of the variable.]

## IPUMS sample identifier [person version] (SAMPLEP)

File: COL1973-P-H

#### Overview
