Version

VERSION DESCRIPTION

Version 6.4. The datasets contain selected variables from the original census microdata plus harmonized variables from the IPUMS-International database.

In v6.4, the research team continued to carry out improvements to geography, providing harmonized geographic units for the second administrative level for roughly half the countries. More information about IPUMS geography variables is available [here](https://international.ipums.org/international/geography_variables.shtml). Also, approximately 100 integrated variables were renamed. Affected variables with their current and previous names are listed [here](https://international.ipums.org/international/resources/misc_docs/renamed_variables_sept2015.pdf). Geography variable also underwent wholesale renaming.

In this update, IPUMS added 19 new samples for Armenia, Austria, Costa Rica, Ethiopia, France, Ghana, Mozambique, Paraguay, Portugal, Puerto Rico, South Africa, and Spain. Ethiopia, Mozambique, and Paraguay were newly added countries to IPUMS. Samples for other countries extend pre-existing series for those countries.

PRODUCTION DATE

2016-04-25

Overview

ABSTRACT

IPUMS-International is an effort to inventory, preserve, harmonize, and disseminate census microdata from around the world. The project has collected the world's largest archive of publicly available census samples. The data are coded and documented consistently across countries and over time to facilitate comparative research. IPUMS-International makes these data available to qualified researchers free of charge through a web dissemination system.

The IPUMS project is a collaboration of the Minnesota Population Center, National Statistical Offices, and international data archives. Major funding is provided by the U.S. National Science Foundation and the Demographic and Behavioral Sciences Branch of the National Institute of Child Health and Human Development. Additional support is provided by the University of Minnesota Office of the Vice President for Research, the Minnesota Population Center, and Sun Microsystems.

KIND OF DATA

Census/enumeration data [cen]

UNITS OF ANALYSIS

Dwelling

UNITS IDENTIFIED:

- Dwellings: Yes
- Vacant units: Yes
- Households: Yes
- Individuals: Yes

- Group quarters: No
- Special populations: Not defined

UNIT DESCRIPTIONS:

- Dwellings: Separated space with independent access that serves as a human lodging
- Households: Individuals living in the same dwelling. For indigenous population definition of household requires sharing at least one meal.
- Group quarters: Group of persons who share a common roof and food because of work, health, religion, etc.

TOPICS

Topic	Vocabulary	URI
Technical Household Variables -- HOUSEHOLD	IPUMS	
Group Quarters Variables -- HOUSEHOLD	IPUMS	
Geography: Global Variables -- HOUSEHOLD	IPUMS	
Geography: A-L Variables -- HOUSEHOLD	IPUMS	
Utilities Variables -- HOUSEHOLD	IPUMS	
Dwelling Characteristics Variables -- HOUSEHOLD	IPUMS	
Constructed Household Variables -- HOUSEHOLD	IPUMS	
Technical Person Variables -- PERSON	IPUMS	
Constructed Family Interrelationship Variables -- PERSON	IPUMS	
Demographic Variables -- PERSON	IPUMS	
Fertility and Mortality Variables -- PERSON	IPUMS	
Nativity and Birthplace Variables -- PERSON	IPUMS	
Education Variables -- PERSON	IPUMS	
Work Variables -- PERSON	IPUMS	
Migration Variables -- PERSON	IPUMS	
Household Economic Variables -- HOUSEHOLD	IPUMS

DDI DOCUMENT VERSION

- v6.4 April 2016

Documentation of census data and harmonized variables as found in IPUMS-International. The International Household Survey Network (IHSN) contracted IPUMS International for generating DDI and Dublin Core-compliant metadata related to population and housing census datasets from developing countries. The objective was to provide countries with detailed metadata in a format compatible with the DDI standard used by most of these countries, with a view to guarantee the preservation of the data and metadata, and the publishing of metadata.

The intellectual rights (including copyright) for the data and metadata in IPUMS are retained by the countries under a Memorandum of Understanding with the contributing countries. IPUMS-International has distribution rights to the metadata and data. The XML documents generated by this process are viewed as a distribution of the metadata.

Fields edited by the World Bank are: DDI ID and study ID to match World Bank study naming convention, as well as DDI Document Version and Version Description to reflect changes included in version 6.4.

Previous version documented in the World Bank Microdata Library:

- v6.3 (August 2014)

Sampling

Sampling Procedure

MICRODATA SOURCE: DANE

SAMPLE DESIGN: Systematic sample of dwellings pre-selected before fieldwork based on pre-census enumeration. In rural areas selection was determined in the field by the enumerator.

SAMPLE UNIT: Dwelling

SAMPLE FRACTION: 10%

SAMPLE SIZE (person records): 2,643,125

Response Rate

COVERAGE: 91.2%

Weighting

Computed by census agency and should be used for most types of analysis.

Questionnaires

Overview

5 enumeration forms applied to 5 different target populations: (f1) short form for private dwellings (90%) of the population, requested information on age, sex, and relationship to householder; (f2) long form for private dwellings (10%); (f3) group quarters, 0.17% of dwellings; (f4) indigenous private dwellings (100%), representing 0.95% of dwellings; and (f5) indigenous group-quarters, 0.01% of dwellings.

Data Collection

Data Collection Dates

Start	End	Cycle
1985-10-15	1986-03-15	N/A

Time Periods

Start	End	Cycle
1985-10-15	1985-10-15	N/A

Data Collection Mode

Face-to-face [f2f]

Data Collection Notes

De jure, CENSUS DAY: October 15, 1985, FIELD WORK PERIOD: Urban population was not "immobilized" and the enumeration continued over a period of two weeks starting October 15. In rural areas enumeration continued for one month. In the National Territories (intendances and commissaries) fieldwork continued from October through March and, for some remote areas, fieldwork was timed to avoid the rainy season.

Questionnaires

5 enumeration forms applied to 5 different target populations: (f1) short form for private dwellings (90%) of the population, requested information on age, sex, and relationship to householder; (f2) long form for private dwellings (10%); (f3) group quarters, 0.17% of dwellings; (f4) indigenous private dwellings (100%), representing 0.95% of dwellings; and (f5) indigenous group-quarters, 0.01% of dwellings.

Supervision

Direct enumeration for both short and long form. For the short form, some areas were designated for self-enumeration.

Missing Data	

Variables

ID	NAME	LABEL	TYPE	FORMAT	QUESTION
V1	RECTYPE	Record type	discrete	character	
V2	YEAR	Year	discrete	numeric	
V3	SAMPLE	IPUMS sample identifier	discrete	numeric	
V4	SERIAL	Household serial number	contin	numeric	
V5	PERSONS	Number of person records in the household	contin	numeric	
V6	SUBSAMP	Subsample number	discrete	numeric	
V7	GQ	Group quarters (collective dwelling) status	discrete	numeric	
V8	UNREL	Number of unrelated persons	discrete	numeric	
V9	URBAN	Urban-rural status	discrete	numeric	
V10	REGIONW	Continent and region of country	discrete	numeric	
V11	REGNCO	Colombia, Region	discrete	numeric	
V12	METROCO	Colombia, Metropolitan area	discrete	numeric	
V13	MUNHDCO	Colombia, Municipality head town	discrete	numeric	
V14	WATSUP	Water supply	discrete	numeric	
V15	SEWAGE	Sewage	discrete	numeric	
V16	ROOMS	Number of rooms	discrete	numeric	
V17	KITCHEN	Kitchen or cooking facilities	discrete	numeric	
V18	TOILET	Toilet	discrete	numeric	
V19	FLOOR	Floor material	discrete	numeric	
V20	WALL	Wall or building material	discrete	numeric	
V21	HHTYPE	Household classification	discrete	numeric	
V22	NFAMS	Number of families in household	discrete	numeric	
V23	HEADLOC	Head's location in household	contin	numeric	
V24	GEOLEV1	1st subnational geographic level, world [consistent boundaries over time]	discrete	numeric	

V25	Z_MUNICO	Colombia, Municipality recode	discrete	numeric	
V26	CO1985A_0001	Department	discrete	numeric	I. Geographic location Fill this section with the information from the form "assignment and identification of the census area". 1. Department, Intendancy, Commissary, or Special District __ 2. Municipality __ 3. Population Center __ 4. Sector __ 5. Section _ 6. Block __ 7. Number of the enumerator __
V27	CO1985A_0009	Type of housing	discrete	numeric	III. Information about the dwelling Complete 11, 12, 13, and 14 by observation (in case of doubt, ask). 11. Type of dwelling [] 1 House, shack, hut or dwelling of discarded material [] 3 Apartment, rooms [] 5 Mobil home, natural refuge, bridge [] 7 Dwelling in a structure destined for use other than housing
V28	CO1985A_0010	Occupancy status	discrete	numeric	III. Information about the dwelling Complete 11, 12, 13, and 14 by observation (in case of doubt, ask). 12. Condition of occupancy of the dwelling [] 2 Occupied, persons present, continue with 13 [] 4 Occupied, persons absent, stop here and come back [] 6 Unoccupied, finish here
V29	CO1985A_0011	Wall material	discrete	numeric	III. Information about the dwelling Complete 11, 12, 13, and 14 by observation (in case of doubt, ask). 13. Principal material in the exterior walls. [] 1 Brick, tile, adobe, prefabricated, stone, marble [] 2 Cane with earth (bahareque) [] 3 Bamboo or cane [] 4 Wood [] 5 Fabric or discarded material [] 6 No walls
V30	CO1985A_0012	Floor material	discrete	numeric	III. Information about the dwelling Complete 11, 12, 13, and 14 by observation (in case of doubt, ask). 14. Principal material in the floors. [] 2 Wood [] 4 Cement or brick tiles, synthetic material [] 6 Dirt
V31	CO1985A_0013	Total number of rooms	discrete	numeric	15. How many total rooms are there in the dwelling, including the living room, dining room, bedrooms, and servants' rooms (do not include kitchen, bathroom, or garage) __
V32	CO1985A_0014	Housing has electricity	discrete	numeric	16. Does this dwelling have electricity? [] 1 Yes [] 3 No
V33	CO1985A_0015	Housing has access to a water utility	discrete	numeric	17. Does this dwelling have a water connection? [] 2 Yes [] 4 No
V34	CO1985A_0016	Type of sanitary service	discrete	numeric	18. What type of sanitary service is available to the household? [] 1 Toilet connected to a sewage system (continue with number 19) [] 3 Toilet connected to septic tank (continue with number 19) [] 5 Latrine (continue with number 19) [] 7 Not available (continue with number 20)
V35	CO1985A_0017	Exclusive use of toilet	discrete	numeric	19. The toilet is [] 2 Exclusively for household [] 4 Shared with others
V36	CO1985A_0018	Where kitchen is situated	discrete	numeric	20. Where do the persons of this household cook? (Answers 1, 2, 3, and 4: continue with number 21) [] 1 In a bedroom or living room without a sink [] 2 In a bedroom or living room with sink [] 3 In a room designated as a kitchen [] 4 In a patio, hallway (Answer 5: continue with number 23) [] 5 Nowhere

V37	CO1985A_0019	Exclusive use of kitchen	discrete	numeric	21. Is the kitchen [] 2 For the exclusive use of the persons in the household? [] 4 Shared with other units?
V38	CO1985A_0020	Type of fuel or energy used in kitchen	discrete	numeric	22. The persons in this household cook with (Mark the most used) [] 1 Electricity [] 2 Cocinol [local subsidized cooking fuel] [] 3 Petroleum, gasoline, or kerosene [] 4 Propane gas [] 5 Charcoal [] 6 Firewood [] 7 Discarded material
V39	CO1985A_0021	How residence is occupied	discrete	numeric	23. This dwelling is [] 1 Owned (even if mortgaged) [] 3 Rented [] 5 Loan or other
V40	CO1985A_0022	Water source	discrete	numeric	24. What is the source of the drinking water for this dwelling? (Mark only the main source) [] 1 Aqueduct, public pipe [] 2 Well, cistern [] 3 From a river, spring, canal [] 4 Tanked in by car or truck [] 5 From rainwater
V41	CO1985A_0023	Number of persons in residence	discrete	numeric	Summary of persons When you finish the form, complete the following data. ____ Total ____ Men ____ Women If you used two or more forms, write the totals on the first form only.
V42	CO1985A_0027	Household weight	discrete	numeric	Household weight
V43	CO1985A_0029	Strata	contin	numeric	Strata
V44	HHWT	Household weight	contin	numeric	
V45	GEO1_CO	Colombia, Department 1964 - 2005 [Level 1; consistent boundaries, GIS]	discrete	numeric	
V46	GEO1_COX	Colombia, Department 1964 - 2005 [Level 1; inconsistent boundaries, harmonized by name]	discrete	numeric	
V47	GEO2_COX	Colombia, Municipality 1964 - 2005 [Level 2; inconsistent boundaries, harmonized by name]	discrete	numeric	
V48	NCOUPLES	Number of married couples in household	discrete	numeric	
V49	NMOTHERS	Number of mothers in household	discrete	numeric	
V50	NFATHERS	Number of fathers in household	discrete	numeric	
V51	COUNTRY	Country	discrete	numeric	
V52	ELECTRIC	Electricity	discrete	numeric	
V53	OWNERSHIP	Ownership of dwelling [general version]	discrete	numeric	
V54	OWNERSHIPD	Ownership of dwelling [detailed version]	discrete	numeric	
V55	FUELCOOK	Cooking fuel	discrete	numeric	
V56	STRATA	Strata identifier	contin	numeric

V92	EMPSTAT	Activity status (employment status) [general version]	discrete	numeric	
V93	EMPSTATD	Activity status (employment status) [detailed version]	discrete	numeric	
V94	CLASSWK	Status in employment (class of worker) [general version]	discrete	numeric	
V95	CLASSWKD	Status in employment (class of worker) [detailed version]	discrete	numeric	
V96	WRKMTHS	Months worked last year	discrete	numeric	
V97	MIGCO2	Department of residence 5 years ago, Colombia	discrete	numeric	
V98	MIGURCO	Lived in urban center 5 years ago, Colombia	discrete	numeric	
V99	CO1985A_0400	Person number of housing member	discrete	numeric	[] Person Number
V100	CO1985A_0401	Relationship to household head	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 27. What is your relationship to the head of dwelling? [] 1 Head of household [] 2 Spouse/companion [] 3 Child or stepchild [] 4 Son-in-law or daughter-in-law [] 5 Grandson/daughter [] 6 Parents or parents-in-law [] 7 Other relative [] 8 Employee [] 9 Other unrelated person
V101	CO1985A_0402	Sex	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 28. Man or woman? [] 2 Man [] 4 Woman

V102	CO1985A_0403	Age	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 29. Age in complete years. (For minors less than one, write 00, for persons more than 99, write 99) __
V103	CO1985A_0404	Mother is alive	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 30. Is your mother still alive? [] 1 Alive [] 3 Dead [] 5 Do not know
V104	CO1985A_0405	School attendance	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 31. Do you attend an educational center--preschool, elementary, secondary, university? [] 2 Yes [] 4 No
V105	CO1985A_0406	Born in this municipality	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 32. Were you born in this municipality? [] 1 Yes (continue with 35) [] 3 No (continue with 33)
V106	CO1985A_0407	Department where born	discrete	numeric	A. For all of the persons in the dwelling [Applies to questions 26 - 33] 33. In which department were you born? (Write the name of the department where the person was born and the corresponding code according to the table on the first page. If the person was born in another country, write an X in the "other country" box and write the name of the other country) Name of the department, intendancy, or precinct ____ (Code) __ Other country (name of other country) ____ _ 01
V107	CO1985A_0408	Year came to Colombia	discrete	numeric	B. For persons born in a different country. 34. What year did you arrive in Colombia? Year of arrival 19 __
V108	CO1985A_0409	Where resided in October 1980	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 35. Where did you live in October 1980? [] 1 In this municipality (continue with 38) [] 2 In another municipality (continue with 36) (Answers 3, 4, 5, and 6, continue with 39) [] 3 In Venezuela [] 4 In Ecuador [] 5 In the United States [] 6 Other country
V109	CO1985A_0410	Department lived in October 1980	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 36. In which department did you live in 1980? (Write the name of the department and the corresponding code according to the table on the first page.) Name of the department, intendancy, or precinct ____ (Code) __
V110	CO1985A_0411	Lived in department capital October 1980	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 37. Did you live in the capital of the department? [] 2 Yes [] 4 No
V111	CO1985A_0412	Living situation October 1980	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 38. In October of 1980, did you live in [] 1 Magistracy, streets, country-side (no shelter) [] 3 in an urban center with a municipal mayor
V112	CO1985A_0413	Can read and write	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 39. Do you know how to read and write? [] 2 Yes [] 4 No
V113	CO1985A_0414	Last year completed at highest educational level	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 40. What is the last year of education you completed? (If the person did not complete any years of schooling, write 0) _

V114	CO1985A_0415	Highest level of education attained	discrete	numeric	C. For persons five years old or more. [Applies to questions 35 - 41] 41. What education level does the last year correspond to? [] 1 None [] 3 Primary [] 5 Secondary [] 7 College or university
V115	CO1985A_0416	Marital status	discrete	numeric	D. For persons ten years old or more. [Applies to questions 42 - 45] 42. Actually you are: [] 1 Consensually united [] 2 Separated or divorced [] 3 Married [] 4 Widowed [] 5 Single
V116	CO1985A_0417	Number of months had paid work in 1985	discrete	numeric	D. For persons ten years old or more. [Applies to questions 42 - 45] 43. How many months was he/she occupied in paid work or a family business this year (1985)? [] 00 Did not work Months worked _ _
V117	CO1985A_0418	Employment status	discrete	numeric	D. For persons ten years old or more. [Applies to questions 42 - 45] 44. Read all of the options in order and as soon as you get an affirmative response, make an X in the box Last week: [] 1 Worked [] 2 Did not work but had a job [] 3 Looked for work and have worked before (Answers 1, 2, and 3 continue with 45) [] 5 Looked for work for the first time [] 6 Lived from investments and did not work or look for work [] 7 Lived on a pension and did not work or look for work [] 7 In school and did not work or look for work [] 8 Did domestic work in the home and did not work or look for work [] 9 Was without activity (Answers 4, 5, 6, 7, 8, and 9 continue with question 46)
V118	CO1985A_0419	Class of worker	discrete	numeric	D. For persons ten years old or more. [Applies to questions 42 - 45] 45. In the work, you were: [] 1 Laborer or journeyman [] 2 Employee [] 3 Boss or employer [] 4 Independent worker or self-employed [] 5 Unpaid family worker [] 6 Domestic worker
V119	CO1985A_0420	Children ever born	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 46. How many children (live-births) have you had? [] 00 None (continue with the next person) Number of live births (continue with number 47) _ _ [] 98 Does not know (continue with number 47)
V120	CO1985A_0421	Number of children living	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 47. How many of your children are still alive? [] 00 None (continue with number 50) Number of live births (continue with number 48) _ _ [] 98 Does not know (continue with number 48)
V121	CO1985A_0422	Number of male children living in other countries	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 48. Of the children that are still alive, how many live in another country? (If none, write '0' in both spaces) Men _ Women _ _
V122	CO1985A_0423	Number of female children living in other countries	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 48. Of the children that are still alive, how many live in another country? (If none, write '0' in both spaces) Men _ Women _ _
V123	CO1985A_0424	Status of last live birth	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 49. The last child born alive is now : [] 1 Dead [] 3 Alive [] 5 Does not know

V124	CO1985A_0425	Month of the last live birth	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 50. When was your last child born (live-birth)? Month __ Year 19 __ [] 98 Does not know
V125	CO1985A_0426	Year of the last live birth	discrete	numeric	E. For women fifteen years old or older. [Applies to questions 46 - 50] 50. When was your last child born (live-birth)? Month __ Year 19 __ [] 98 Does not know
V126	CO1985A_0428	Person weight	discrete	numeric	Person weight
V127	PERWT	Person weight	contin	numeric	
V128	LASTBYR	Year of last birth	discrete	numeric	
V129	MIGCAPCO	Department capital 5 years ago, Colombia	discrete	numeric	
V130	YRSCHOOL	Years of schooling	discrete	numeric	
V131	MIGRATE5	Migration status, 5 years	discrete	numeric	
V132	EDATTAIN	Educational attainment, international recode [general version]	discrete	numeric	
V133	EDATTAIND	Educational attainment, international recode [detailed version]	discrete	numeric	
V134	LASTBMO	Month of last birth	discrete	numeric	
V135	LASTBMORT	Mortality status of last birth	discrete	numeric	
V136	ABROADFEM	Number of own female children living abroad	discrete	numeric	
V137	ABROADMALE	Number of own male children living abroad	discrete	numeric	
V138	ABROADCHD	Number of children living abroad	discrete	numeric	
V139	MIGCTRY5	Country of residence 5 years ago	discrete	numeric	
V140	NATIVITY	Nativity status	discrete	numeric	
V141	YEARP	Year [person version]	contin	numeric	
V142	SAMPLEP	IPUMS sample identifier [person version]	contin	numeric	
V143	SERIAL	Household serial number [person version]	contin	numeric	
V144	COUNTRYP	Country [person version]	contin	numeric	
V145	RECTYPEP	Record type [person version]	discrete	character	

Record type (RECTYPE)

File: COL1985-H-H

Overview

Type: Discrete
Format: character
Width: 1

Valid cases: 0
Invalid: 0

Description

RECTYPE identifies the type of record for the case: household or person.

NOTE: RECTYPE is an alphabetic (character string) variable with a value of 'H' for household records and 'P' for person records. RECTYPE will not appear as a variable in the default rectangular extracts produced by the data extract system. It is only available in hierarchical extracts, to distinguish between the two record types.

Year (YEAR)

File: COL1985-H-H

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1960-2011

Valid cases: 0
Invalid: 0

Description

YEAR gives the year in which the census was taken.

IPUMS sample identifier (SAMPLE)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 9
Decimals: 0
Range: 32197001-894201001

Valid cases: 0
Invalid: 0

Description

SAMPLE identifies the IPUMS sample from which the case is drawn. Each sample receives a unique 9-digit code. The code is structured as follows:

The first 3 digits are the ISO/UN codes used in COUNTRY

The next 4 digits are the year of the census/survey

The final 2 digits identify the sample within the year. For the last two digits, censuses or large census-like surveys have a value "0" (e.g, 01) in the second-to-last digit, household surveys have a value of "2" (e.g., 21), and employment surveys have a value of "4" (e.g., 41).

Household serial number (SERIAL)

File: COL1985-H-H

Overview

Type: Continuous
 Format: numeric
 Width: 10
 Decimals: 0

Valid cases: 0
 Invalid: 0

Description

SERIAL is an identifying number unique to each household in a given sample. All person records are assigned the same serial number as the household record that they follow. (Person records also have their own unique identifiers -- see PERNUM.) The combination of SAMPLE and SERIAL provides a unique identifier for every household in the IPUMS-International database; SAMPLE, SERIAL and PERNUM uniquely identify every person in the database.

SERIAL can be used to identify dwellings in some samples. In these samples, the first 7 digits of SERIAL provide the dwelling number common to all households that were sampled from the same structure. The last three digits give the sequence of the household within the dwelling. The following is a list of samples in which dwellings can be inferred:

Chile 1970, 1992, 2002
 Colombia 1993, 2005
 Costa Rica 1984, 2000
 Cuba 2002
 Dominican Republic 1981, 2002, 2010
 Ecuador 1990, 2001
 Germany 1971
 Hungary 1980, 1990, 2001
 Jamaica 1982, 1991, 2001
 Malaysia 1970, 1991, 2000
 Mexico 1995, 1990, 2000, 2005
 Nigeria 2006
 Panama 2000
 Peru 1993, 2007
 Portugal 1981, 1991, 2001
 Spain 1991
 Uruguay 2011
 Venezuela 1990, 2001
 Vietnam 1989

In all other samples, the last 3 digits are always zeroes.

SERIAL was constructed for IPUMS-International, and has no relation to the serial number in the original datasets.

Number of person records in the household (PERSONS)

File: COL1985-H-H

Overview

Type: Continuous
 Format: numeric
 Width: 3
 Decimals: 0

Valid cases: 0
 Invalid: 0

Description

PERSONS indicates how many person records are included in the household (i.e., the number of person records associated with the household record in the sample). These person records will all have the same serial number (SERIAL) as the household record. The information contained in the household record will normally apply to all of these persons.

Subsample number (SUBSAMP)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

SUBSAMP allocates each case to one of 100 subsample replicates, randomly numbered from 0 to 99. Each subsample is nationally representative and preserves any stratification of the sample from which it is drawn. Users who need a representative subset of a sample can use SUBSAMP to select their cases. For example, to randomly extract 10% of the cases from a sample, select any 10 of the 100 subsamples.

Group quarters (collective dwelling) status (GQ)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

GQ identifies households as vacant dwellings, group quarters, or private households. Group quarters -- collective dwellings -- are generally institutions and other group living arrangements such as rooming houses and boarding schools.

Institutions often retain persons under formal supervision or custody, such as correctional institutions, military barracks, asylums, or nursing homes. Educational and religious group dwellings (e.g., boarding schools, convents, monasteries, etc.) are also included in the institutional classification.

Group quarter designations are often useful for understanding the universe of households that answered questions about household characteristics. Censuses will often exclude group quarters from such questions.

Number of unrelated persons (UNREL)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

UNREL indicates the number of persons in the household who are unrelated to the head.

Urban-rural status (URBAN)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

URBAN indicates whether the household was located in a place designated as urban or as rural.

Continent and region of country (REGIONW)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 11-54

Valid cases: 0
 Invalid: 0

Description

REGIONW identifies the continent and region of each country.

Colombia, Region (REGNCO)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 1-99

Valid cases: 0
 Invalid: 0

Description

REGNCO indicates the metropolitan region within Colombia in which the household was enumerated. REGNCO is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Colombia, Metropolitan area (METROCO)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

METROCO indicates the metropolitan area in Colombia in which the household was enumerated for the 1964 - 1993 sample years. METROCO is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Colombia, Municipality head town (MUNHDCO)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 10-99

Valid cases: 0
 Invalid: 0

Description

MUNHDCO indicates the municipality head town in Colombia in which the household was enumerated. MUNHDCO is harmonized solely based on the names of the geographical unit. It does not take into account the changes that may have occurred in the political boundaries of the units.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1 and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

Water supply (WATSUP)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

WATSUP describes the physical means by which the housing unit receives its water. The primary distinction is whether or not the household had piped (running) water.

Sewage (SEWAGE)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

SEWAGE indicates whether the household has access to a sewage system or septic tank.

Number of rooms (ROOMS)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

ROOMS indicates the number of rooms occupied by the housing unit.

Kitchen or cooking facilities (KITCHEN)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

KITCHEN indicates whether the household had a kitchen, cooking facilities, or room dedicated to food preparation.

Toilet (TOILET)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

TOILET indicates whether the household had access to a toilet and, in most cases, whether it was a flush toilet or other type of installation.

Floor material (FLOOR)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

FLOOR indicates the dwelling's predominant flooring material.

Wall or building material (WALL)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

This variable indicates the primary material used in the construction of the dwelling, particularly the dwelling's exterior walls.

Household classification (HHTYPE)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

HHTYPE is a constructed variable that describes the composition of households.

HHTYPE is constructed from information in RELATE (relationship to head), from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father), and from information on group quarters status, GQ.

Number of families in household (NFAMS)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

NFAMS is a constructed variable that indicates the number of families within each household. A "family" is any group of persons related by blood, adoption, or marriage. An unrelated individual within the household is considered a separate family. Thus, a household consisting of a widow and her servant contains two families; a household consisting of a large, multiple-generation extended family with no lodgers or servants would count as a single family.

NFAMS is constructed from information in RELATE (relationship to head) and from the constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father). See those variable descriptions for more detail.

Head's location in household (HEADLOC)

File: COL1985-H-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

HEADLOC gives the person number of the head of household in samples in which persons are organized into households.

1st subnational geographic level, world [consistent boundaries over time] (GEOLEV1)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 6
Decimals: 0
Range: 32002-894010

Valid cases: 0
Invalid: 0

Description

GEOLEV1 indicates the major administrative unit in which the household was enumerated. The variable incorporates the geographies for every country, to enable cross-national geographic analysis over time. First administrative units in GEOLEV1 have been spatiotemporally harmonized to provide spatially consistent boundaries across samples in each country.

Colombia, Municipality recode (Z_MUNICO)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 1-998

Valid cases: 0
 Invalid: 0

Description

Z_MUNICO is an internal variable that indicates the location of the household within Colombia in terms of recoded municipality. The municipality recode combines the original Colombian municipalities, as necessary, into units with at least 20,000 population in 2005. Approximately half of the codes identify individual municipalities that met the 20,000 population requirement in 2005.

Department (CO1985A_0001)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 5-97

Valid cases: 0
 Invalid: 0

Description

This variable indicates the department (state).

Universe

All records

Literal question

I. Geographic location

Fill this section with the information from the form "assignment and identification of the census area".

1. Department, Intendancy, Commissary, or Special District __
2. Municipality __
3. Population Center __
4. Sector ____
5. Section _
6. Block __
7. Number of the enumerator __

Interviewer instructions

Section I. Geographic location

[Below the text is a filled out form.]

The information that you should write is in the Identification Form of the Area of Enumeration, that the head of the group will give you. Copy it exactly in the lines and boxes of the form.

In front of number 7 (number of the enumerator), write the number or code that the head of the group assigned to you. This number is what corresponds to you as enumerator.

If you have any doubt, or if any information is incomplete or not filled out in the identification form of the area of enumeration, consult with the head of the group.

Type of housing (CO1985A_0009)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-4

Valid cases: 0
 Invalid: 0

Description

This variable indicates the type of housing.

Universe

All households

Literal question

III. Information about the dwelling

Complete 11, 12, 13, and 14 by observation (in case of doubt, ask).

11. Type of dwelling

- ☐ 1 House, shack, hut or dwelling of discarded material
- ☐ 3 Apartment, rooms
- ☐ 5 Mobil home, natural refuge, bridge
- ☐ 7 Dwelling in a structure destined for use other than housing

Interviewer instructions

Section III. Dwelling information

The first four questions (numbers 11, 12, 13 and 14) are responded to by observation, the remaining should be asked to the interviewed person.

In case of doubt, ask.

Question No. 11 Type of dwelling (filled out by observation)

[Below the text is a form.]

Mark "x" in the corresponding box, taking into account the following definitions:

House, shack, hut or dwelling of discarded material. Fixed dwelling (affixed to the ground), whose construction is independent of other constructions, although it can share some of its walls.

Apartment or room(s). Fixed dwelling, whose construction forms part of a bigger construction, in which other dwellings are found.

Mobile dwelling. That which can be transported, like camping tents, vessels, coaches, cars, etc.

Natural refugees or bridges. They are forms of lodging in caves, rocks, hills, bridges, used as a place of residence by its occupants.

Dwelling within a building meant for uses different than habitation. They are dwellings that are found within buildings that do not have as their purpose the lodging of persons; for example, inside boarding schools, factories, stores, wine stores, etc.

Occupancy status (CO1985A_0010)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates whether or not the house is occupied.

Universe

All households

Literal question

III. Information about the dwelling

Complete 11, 12, 13, and 14 by observation (in case of doubt, ask).

12. Condition of occupancy of the dwelling

- ☐ 2 Occupied, persons present, continue with 13
- ☐ 4 Occupied, persons absent, stop here and come back
- ☐ 6 Unoccupied, finish here

Interviewer instructions

Section III. Dwelling information

The first four questions (numbers 11, 12, 13 and 14) are responded to by observation, the remaining should be asked to the interviewed person.

In case of doubt, ask.

Question No. 12 Condition of occupancy of the dwelling

(Filled out by observation)

[Below the text is a form.]

Mark an "x" in the corresponding box, taking into account the following definitions:

Occupied, with persons present. It is a dwelling that is inhabited and in which persons are found in any visit. If you mark this box, continue filling out the form.

Occupied with all persons absent. It is a dwelling that is inhabited and which, after multiple visits, no person is found. If you mark this box, count the interview terminated. The form of this class of dwellings should remain filled out until this question.

[p. 33]

Take into account the instructions about visits and interviews.

Unoccupied. It is a dwelling that is not inhabited by any person. If you mark this box, count the interview terminated. The form of this class of dwellings should remain filled out until this question.

Wall material (CO1985A_0011)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates the type of exterior wall material.

Universe

Occupied households with people present

Literal question

III. Information about the dwelling

Complete 11, 12, 13, and 14 by observation (in case of doubt, ask).

13. Principal material in the exterior walls.

- ☐ 1 Brick, tile, adobe, prefabricated, stone, marble
- ☐ 2 Cane with earth (bahareque)
- ☐ 3 Bamboo or cane
- ☐ 4 Wood
- ☐ 5 Fabric or discarded material
- ☐ 6 No walls

Interviewer instructions

Section III. Dwelling information

The first four questions (numbers 11, 12, 13 and 14) are responded to by observation, the remaining should be asked to the interviewed person.

In case of doubt, ask.

Question No. 13 Predominant material in the exterior walls

(Filled out by observation)

[Below the text is a form.]

Mark "x" in the corresponding box.

Take into account that the question refers to the outside walls and that if a dwelling has materials of many classes, the predominant should be marked.

Floor material (CO1985A_0012)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates the type of floor material.

Universe

Occupied households with people present

Literal question

III. Information about the dwelling

Complete 11, 12, 13, and 14 by observation (in case of doubt, ask).

14. Principal material in the floors.

☐ 2 Wood

☐ 4 Cement or brick tiles, synthetic material

☐ 6 Dirt

Interviewer instructions

Section III. Dwelling information

The first four questions (numbers 11, 12, 13 and 14) are responded to by observation, the remaining should be asked to the interviewed person.

In case of doubt, ask.

Question No. 14 Predominant material in the floors

(Filled out by observation)

[Below the text is a form.]

Mark "x" in the corresponding box.

If the floors of a dwelling are made of materials of many classes, mark the one that predominates (for example, the class of material that exists in the majority of the rooms).

Examples of synthetic materials are rubber and vinyl.

If the floors are covered, ask if the rug that is placed over a floor is of wood, cement, tile, rubber, etc and mark the alternative that corresponds.

Total number of rooms (CO1985A_0013)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the total number of rooms, excluding the kitchen(s) and bathroom(s).

Universe

Occupied households with people present

Literal question

15. How many total rooms are there in the dwelling, including the living room, dining room, bedrooms, and servants' rooms (do not include kitchen, bathroom, or garage) _ _

Interviewer instructions

Question No. 15 Number of rooms

[Below the text is a form.]

[p. 34]

Write the number of rooms or sleeping quarters that a dwelling has in total.

Count the living room, dining room and the bedrooms. Do not count the kitchen, bathroom or garage.

Housing has electricity (CO1985A_0014)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the housing unit has electricity.

Universe

Occupied households with people present

Literal question

16. Does this dwelling have electricity?

☐ 1 Yes

☐ 3 No

Interviewer instructions

Question No. 16 Electric energy in the dwelling

[Below the text is a form.]

Mark "x" in the corresponding box.

Housing has access to a water utility (CO1985A_0015)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates whether the house has access to a water system.

Universe

Occupied households with people present

Literal question

17. Does this dwelling have a water connection?

☐ 2 Yes

☐ 4 No

Interviewer instructions

Question No. 17 Connection of the dwelling with a water system

[Below the text is a form.]

Mark "x" in the corresponding box, taking into account that a dwelling is considered to have a connection with a water system when running water from a water system is brought into its interior, that is to say, from a system of pipes, property of the State or private.

Type of sanitary service (CO1985A_0016)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the type of sanitary services available.

Universe

Occupied households with people present

Literal question

18. What type of sanitary service is available to the household?

☐ 1 Toilet connected to a sewage system (continue with number 19)

☐ 3 Toilet connected to septic tank (continue with number 19)

☐ 5 Latrine (continue with number 19)

☐ 7 Not available (continue with number 20)

Interviewer instructions

Question No. 18 Toilet facilities of the dwelling

[Below the text is a form.]

Toilet facilities are understood to be any system that permits the elimination of excreta and excrement. This system receives different names according to the regions of the country and according to the type of facilities; for example toilet, lavatory, toilet bowl, taza campesina, latrine, etc.

Mark "x" in the corresponding box taking into account the following definitions.

Toilet connected to a sewer system is a toilet bowl connected to a system of pipes that collect the sewage of the city.

[p. 35]

Toilet connected to a septic tank is a toilet bowl connected by means of a pipe with a subterranean well or hole where excreta is deposited.

Latrine is a well or hole into which excrements directly fall from the bowl or seat.

Bajamar, when excrements fall directly from a bowl or seat to a site from which they are taken away by water.

Exclusive use of toilet (CO1985A_0017)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates whether the toilet is exclusively used by the household or is shared with others.

Universe

Occupied households with people present and that has a sanitary service

Literal question

19. The toilet is

- ☐ 2 Exclusively for household
- ☐ 4 Shared with others

Interviewer instructions

Question No. 19 Use of toilet facilities

[Below the text is a form.]

Take into account that a dwelling is a census dwelling. For example, if a dwelling is a room, the persons of the dwelling are those who live in this room.

Mark "x" in box 2 when the facilities are used only by the persons of the dwelling, where the interview is being done.

Mark "x" in box 4, when the services of the persons of the dwelling where the interview is being done, are used also by persons of other dwellings.

Where kitchen is situated (CO1985A_0018)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates where the kitchen is situated.

Universe

Occupied household with people present

Literal question

20. Where do the persons of this household cook?

(Answers 1, 2, 3, and 4: continue with number 21)

- ☐ 1 In a bedroom or living room without a sink
- ☐ 2 In a bedroom or living room with sink
- ☐ 3 In a room designated as a kitchen
- ☐ 4 In a patio, hallway

(Answer 5: continue with number 23)

- ☐ 5 Nowhere

Interviewer instructions

Question No. 20 Place to cook

[Below the text is a form.]

Mark "x" in box 1, when persons of this dwelling cook within a room that they also use as bedroom or living room, but in which a dishwasher or toilet bowl ["poceta"] does not exist.

Mark "x" in box 2, when persons of this dwelling have a kitchen that is in a space used as living room or as bedroom and in which exists a dishwasher or recipient with drain used to clean dishes.

Mark "x" in box 3 when persons of this dwelling have a kitchen that is found in a room dedicated only for cooking.

[p. 36]

Mark "x" in box 4, when persons of this dwelling have a kitchen that is found in a hall, corridor, patio or shelter.

Mark "x" in box 5, if a dwelling does not have a place to cook. If you mark this box, go to question 23.

Exclusive use of kitchen (CO1985A_0019)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the exclusivity of a kitchen.

Universe

Occupied households with people present and that has a kitchen

Literal question

21. Is the kitchen

☐ 2 For the exclusive use of the persons in the household?

☐ 4 Shared with other units?

Interviewer instructions

Question No. 21 Use of the site for cooking

[Below the text is a form.]

Take into account that a dwelling is a census dwelling.

Mark "x" in box 2, if the site for cooking is only used by persons of the dwelling.

Mark "x" in box 4, if the site for cooking is also used by persons of other dwellings.

Type of fuel or energy used in kitchen (CO1985A_0020)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the type of fuel or energy used in the kitchen.

Universe

Occupied households with people present and that has a kitchen

Literal question

22. The persons in this household cook with

(Mark the most used)

- ☐ 1 Electricity
- ☐ 2 Cocinol [local subsidized cooking fuel]
- ☐ 3 Petroleum, gasoline, or kerosene
- ☐ 4 Propane gas
- ☐ 5 Charcoal
- ☐ 6 Firewood
- ☐ 7 Discarded material

Interviewer instructions

Question No. 22 What do they cook with in this dwelling?

[Below the text is a form.]

Mark "x" in the corresponding box. For it take into account the following:

If in a dwelling there are persons who cook in a manner [blank space] (example, electricity) and persons who cook with another (example, gasoline), accept as a response what the group that is considered as principal in the dwelling uses.

If in a dwelling many fuels are used, mark only what is used the most.

Cocinol is a fuel used only in Colombia.

Coal is understood to be mineral coal, vegetal coal or from firewood and charcoal briquettes.

[p. 37]

Discarded materials are cardboard, paper, clothes, tires, car batteries, etc.

How residence is occupied (CO1985A_0021)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates ownership status of the residence.

Universe

Occupied households with people present

Literal question

23. This dwelling is

- ☐ 1 Owned (even if mortgaged)
- ☐ 3 Rented
- ☐ 5 Loan or other

Interviewer instructions

Question No. 23 Ownership of the dwelling

[Below the text is a form.]

Take into account that the question refers to a census dwelling.

Mark "x" in box 1, when any of the persons of a dwelling is the proprietor or owner of it, although the rest pay rent.

Mark "x" in box 3, when the members of a dwelling pay rent and none of them is the owner of the dwelling.

Mark "x" in box 5, when the inhabitants occupy a dwelling in loan or as de facto occupants (invader, holder) of any other form different than owned or rented.

Water source (CO1985A_0022)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates how the residence gets water.

Universe

Occupied households with people present

Literal question

24. What is the source of the drinking water for this dwelling?

(Mark only the main source)

- ☐ 1 Aqueduct, public pipe
- ☐ 2 Well, cistern
- ☐ 3 From a river, spring, canal
- ☐ 4 Tanked in by car or truck
- ☐ 5 From rainwater

Interviewer instructions

Question No. 24 Where does drinking water come from?

[Below the text is a form.]

Mark the corresponding box.

If many sources exist mark only the principal.

Number of persons in residence (CO1985A_0023)

File: COL1985-H-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the total number of persons in the residence (household).

Universe

Occupied households with people present

Literal question

Summary of persons

When you finish the form, complete the following data.

____ Total
 ____ Men
 ____ Women

If you used two or more forms, write the totals on the first form only.

Interviewer instructions

Once the interview of every one of the persons of the dwelling is finished, make sure that the number of pages of persons is equal to the number of persons written down in the square of question 25. If you find any difference, revise the form until you find the error and correct it.

Fill out then the "Summary of persons" that appears in the first page of the form, making sure that the total number of persons of the dwelling is equal to the number of men plus the number of women.

If you used two forms, the total numbers should only appear on the first, but all persons registered on the second should be included.

Check that the total number written down is equal to the number of persons written down in the square of page 25.

Write your name and the head of the group or supervisor.

Household weight (CO1985A_0027)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 4-69

Valid cases: 0
 Invalid: 0

Description

This variable indicates the weight of expansion.

Universe

All households

Literal question

Household weight

Strata (CO1985A_0029)

File: COL1985-H-H

Overview

Type: Continuous
 Format: numeric
 Width: 5
 Decimals: 0

Valid cases: 0
 Invalid: 0

Description

This variable is the strata identifier for the sample. Strata is a constructed variable that captures implicit geographic stratification resulting from the sample design. It is created by assigning a unique identifier to groups of between 10 and 19 adjacent households. Additional documentation is available on the Variance Estimation page.

Universe

All households

Literal question

Strata

Household weight (HHWT)

File: COL1985-H-H

Overview

Type: Continuous
 Format: numeric
 Width: 8
 Decimals: 2

Valid cases: 0
 Invalid: 0

Description

HHWT indicates the number of households in the population represented by the household in the sample.

For the samples that are truly weighted (see the comparability discussion), HHWT must be used to yield accurate household-level statistics.

NOTE: HHWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Colombia, Department 1964 - 2005 [Level 1; consistent boundaries, GIS] (GEO1_CO)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 6
 Decimals: 0
 Range: 170005-170095

Valid cases: 0
 Invalid: 0

Description

GEO1_CO identifies the household's department within Colombia for all sample years. Departments are the first level administrative units of the country. GEO1_CO is spatially harmonized to account for political boundary changes across census years. Some detail is lost in harmonization; see the comparability discussion. A GIS map (in shapefile format), corresponding to GEO1_CO can be downloaded from the GIS Boundary files page in the IPUMS International web site.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level, refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Colombia, Department 1964 - 2005 [Level 1; inconsistent boundaries, harmonized by name] (GEO1_COX)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

GEO1_COX identifies the household's department within Colombia in all sample years. Departments are the first level administrative units of the country. GEO1_COX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Colombia, Municipality 1964 - 2005 [Level 2; inconsistent boundaries, harmonized by name] (GEO2_COX)

File: COL1985-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 5	
Decimals: 0	
Range: 5001-99999	

Description

GEO2_COX identifies the household's municipality within Colombia in all sample years. Municipalities are the second level administrative units of the country, after departments. GEO2_COX is harmonized by name and does not account for boundary changes over time.

The full set of geography variables for Colombia can be found in the IPUMS International Geography variables list. For cross-national geographic analysis on the first and second major administrative level refer to GEOLEV1, and GEOLEV2. More information on IPUMS-International geography can be found [here](#).

At the present moment, IPUMS International is only releasing integrated geography for the first level of geography for Colombia. Year specific geography and maps along with variables that are spatially harmonized at the second level of geography and account for political boundary changes across census years will become available in the near future.

Number of married couples in household (NCOUPLES)

File: COL1985-H-H

Overview

Type: Discrete	Valid cases: 0
Format: numeric	Invalid: 0
Width: 1	
Decimals: 0	
Range: 0-9	

Description

NCOUPLES is a constructed variable indicating the number of married/in-union couples within a household.

NCOUPLES is constructed using the IPUMS-International pointer variable SPLOC (spouse's location in the household).

Number of mothers in household (NMOTHERS)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

NMOTHERS is a constructed variable indicating the number of mothers -- of persons of any age -- within a household.

NMOTHERS is constructed using the IPUMS-International pointer variable MOMLOC (mother's location in the household).

Number of fathers in household (NFATHERS)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

NFATHERS is a constructed variable indicating the number of fathers -- of persons of any age -- within a household.

NFATHERS is constructed using the IPUMS-International pointer variable POPLOC (father's location in the household).

Country (COUNTRY)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 32-894

Valid cases: 0
 Invalid: 0

Description

COUNTRY gives the country from which the sample was drawn. The codes assigned to each country are those used by the UN Statistics Division and the ISO (International Organization for Standardization).

Electricity (ELECTRIC)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

ELECTRIC indicates whether the household had access to electricity.

Ownership of dwelling [general version] (OWNERSHIP)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Ownership of dwelling [detailed version] (OWNERSHIPD)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 0-999

Valid cases: 0
 Invalid: 0

Description

OWNERSHIP indicates whether a member of the household owned the housing unit. Households that acquired their unit with a mortgage or other lending arrangement were understood to "own" their unit even if they had not yet completed repayment. For those that did not own their housing unit, several options were possible: renting (from various types of owners), subletting, usufruct, and de facto occupation.

Cooking fuel (FUELCOOK)

File: COL1985-H-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

FUELCOOK indicates the predominant type of fuel or energy used for cooking.

Strata identifier (STRATA)

File: COL1985-H-H

Overview

Type: Continuous
 Format: numeric
 Width: 12
 Decimals: 0

Valid cases: 0
 Invalid: 0

Description

This variable is the strata identifier for the sample. The STRATA variable provides information about the sample design that can be used to improve estimation.

Person number (PERNUM)

File: COL1985-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

PERNUM numbers all persons within each household consecutively (starting with "1" for the first person record of each household). When combined with SAMPLE and SERIAL, PERNUM uniquely identifies each person in the IPUMS-International database.

Mother's location in household (MOMLOC)

File: COL1985-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

MOMLOC is a constructed variable that indicates whether or not the person's mother lived in the same household and, if so, gives the person number of the mother (see PERNUM). MOMLOC makes it easy for researchers to link the characteristics of children and their (probable) mothers.

The method by which probable child-mother links are identified is described in PARRULE.

The general design of MOMLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: MOMLOC identifies social relationships (such as stepmother and adopted mother) as well as biological relationships. The variable STEPMOM is designed to identify some of these social relationships.

Father's location in household (POPLOC)

File: COL1985-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

POPLOC is a constructed variable that indicates whether or not the person's father lived in the same household and, if so, gives the person number of the father (see PERNUM). POPLOC makes it easy for researchers to link the characteristics of children and their (probable) fathers.

The method by which probable child-father links are identified is described in PARRULE.

The general design of POPLOC and other constructed variables follows the methods developed for IPUMS-USA "Family Interrelationships," but the details vary significantly.

Note: POPLOC identifies social relationships (such as stepfather and adopted father) as well as biological relationships. The variable STEPPOP is designed to identify some of these social relationships.

Spouse's location in household (SPLOC)

File: COL1985-P-H

Overview

Type: Continuous
Format: numeric
Width: 3
Decimals: 0

Valid cases: 0
Invalid: 0

Description

SPLOC is a constructed variable that indicates whether or not the person's spouse lived in the same household and, if so, gives the person number (PERNUM) of the spouse. SPLOC makes it easy for researchers to link the characteristics of (probable) spouses.

The method by which probable spouse-spouse links are identified is described in SPRULE.

The general design of SPLOC and other constructed variables is modeled on the methods developed for IPUMS-USA "Family Interrelationships", but the details vary significantly.

Rule for linking parent (PARRULE)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-52

Valid cases: 0
Invalid: 0

Description

PARRULE describes the criteria by which the IPUMS-International variables MOMLOC and POPLOC linked the person to a probable mother and/or father.

IPUMS-International establishes child-parent links according to five basic rules, and PARRULE gives the number of the rule that applied to the link in question. A link to any parent automatically generates a second link to that parent's spouse or partner, so only one rule is needed to describe both MOMLOC and POPLOC.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Rule for linking spouse (SPRULE)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

SPRULE explains the criteria by which the IPUMS-International variable SPLOC linked the person to his/her probable spouse.

IPUMS-International establishes spouse-spouse links according to five basic rules, and SPRULE gives the number of the rule that applied to the link in question. A sixth rule identifies sample-specific linking procedures only imposed in selected instances.

The design of the interrelationship variables is described in this paper on IPUMSI family linking methodology.

Probable stepmother (STEPMOM)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-6

Valid cases: 0
Invalid: 0

Description

STEPMOM indicates whether a person's mother, as identified by MOMLOC, was most probably not the person's biological mother. Non-zero values of STEPMOM explain why it is probable that the person's mother was a step- or adopted mother. A value of 0 indicates no likely stepmother because (1) the mother identified in MOMLOC was probably the biological mother or (2) there is no mother of this person present in the household.

The codes for STEPMOM are as follows:

- 0 = Biological mother or no mother of this person present in household.
- 1 = Mother has no children borne or surviving.
- 2 = Child reports mother is deceased.
- 3 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner, stepchild/child-in-law).
- 4 = Mother reports no children in the home.
- 5 = Age difference between mother and child was less than 12 or greater than 54 years.
- 6 = Child exceeds known fertility of mother.

See PARRULE for a description of the linking process.

Users should note that there are many stepmothers and adopted mothers in the population that cannot be identified with information available in the censuses. Therefore, STEPMOM will always under-represent their actual number in the population.

Probable stepfather (STEPPOP)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-3

Valid cases: 0
Invalid: 0

Description

STEPPOP indicates whether a person's father, as identified by POPLOC, was most probably not the person's biological father. Non-zero values of STEPPOP explain why it is probable that the person's father was a step- or adopted father. A value of 0 indicates no likely stepfather because (1) the father identified in POPLOC was probably the biological father or (2) there is no father of this person present in the household.

The codes for STEPPOP are as follows:

- 0 = Biological father or no father of this person present in household.
- 1 = Child reports father is deceased.
- 2 = Explicitly identified relationship (stepchild, adopted child, child of unmarried partner; stepchild/child-in-law).
- 3 = Age difference between father and child was less than 12 or greater than 54 years.

See PARRULE for a description of the linking process.

Users should note that there are many stepfathers and adopted fathers in the population that cannot be identified with information available in the censuses. Therefore, STEPPOP will always under-represent their actual number in the population.

Man with more than one wife linked (POLYMAL)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLYMAL indicates if a man had more than one wife linked to him in the constructed IPUMS variable SPLOC -- Spouse's Location in Household.

The point of POLYMAL is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Woman is second or higher order wife (POLY2ND)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-1

Valid cases: 0
Invalid: 0

Description

POLY2ND indicates if a woman was the second or higher order wife linked to a husband in the constructed IPUMS variable SPLOC -- Spouse's Location in Household. The variable does not suggest the actual marital order of wives, only their relative positions in the person order of the household as it was enumerated.

The point of POLY2ND is to facilitate using SPLOC in samples that identify polygamy. Some statistical matching procedures expect to find only one matching record for each subject record.

Family unit membership (FAMUNIT)

File: COL1985-P-H

Overview

Type: Continuous
Format: numeric
Width: 2
Decimals: 0

Valid cases: 0
Invalid: 0

Description

FAMUNIT is a constructed variable indicating to which family within the household a person belongs.

All persons related to the household head receive a 1 (see RELATE). Each secondary family or secondary individual receives a higher code. For purposes of FAMUNIT, secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own family members in household (FAMSIZE)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 1-99

Valid cases: 0
 Invalid: 0

Description

FAMSIZE counts the number of the person's own family members living in the household with her/him, including the person her/himself. These include all persons related to the person by blood, adoption, or marriage as indicated by the census forms or inferred from them.

FAMSIZE is calculated from the units identified in the IPUMS constructed variable FAMUNIT (family unit membership). The primary family is defined as all persons related to the head in the RELATE variable. Secondary families are individuals or groups of persons linked together by the IPUMS constructed pointer variables SPLOC, MOMLOC, and POPLOC (location of spouse, mother, and father).

Number of own children in household (NCHILD)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

NCHILD provides a count of the person's own children living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Number of own children under age 5 in household (NCHLT5)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

NCHLT5 provides a count of the person's own children under age five living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

Age of eldest own child in household (ELDCH)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

ELDCH gives the age of the person's oldest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

ELDCH is top-coded at age 50 or older.

Age of youngest own child in household (YNGCH)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

YNGCH gives the age of the person's youngest own child living in the household with her or him. These include all children linked to the person via the constructed IPUMS pointer variables MOMLOC or POPLOC -- mother's and father's location in the household.

YNGCH is top-coded at age 50 or older.

Relationship to household head [general version] (RELATE)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Relationship to household head [detailed version] (RELATED)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 1000-9999

Valid cases: 0
Invalid: 0

Description

RELATE describes the relationship of the individual to the head of household (sometimes called the householder or reference person).

Age (AGE)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 0-999

Valid cases: 0
 Invalid: 0

Description

AGE gives age in years as of the person's last birthday prior to or on the day of enumeration.

Age, grouped into intervals (AGE2)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 1-98

Valid cases: 0
 Invalid: 0

Description

AGE2 gives computed years of age grouped into intervals.

Sex (SEX)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

SEX reports the sex (gender) of the respondent.

Marital status [general version] (MARST)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Marital status [detailed version] (MARSTD)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 0-999

Valid cases: 0
 Invalid: 0

Description

[program universe for et,mz samples.

MARST describes the person's current marital status according to law or custom. Individuals who remarried should report the status relevant to their most recent marriage. Census instructions rarely explicitly limit marital status to strictly legal unions.

Note regarding universe: The lowest age at which a person can be anything but "never married" varies among samples.

Consensual union (CONSENS)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

CONSENS indicates whether the respondent was in a consensual union -- a de facto marriage.

Children ever born (CHBORN)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

CHBORN reports the number of children ever born to each woman of whom the question was asked. In most samples, women were to report all live births by all fathers, whether or not the child was still living.

Children surviving (CHSURV)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

CHSURV reports the number of children born to a woman who were still living at the time of the census.

Mortality status of mother (MORTMOT)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

MORTMOT indicates whether the person's biological mother was still living at the time of the census.

Department of birth, Colombia (BPLCO1)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-99

Valid cases: 0
Invalid: 0

Description

BPLCO1 indicates the person's department of birth within Colombia.

Born in this municipality, Colombia (BPLCO3)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

BPLCO3 indicates whether the person was born in a different municipality in which they were enumerated in the census, and if so, whether they were born in a different department.

Year of immigration (YRIMM)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 4
Decimals: 0
Range: 0-9999

Valid cases: 0
Invalid: 0

Description

YRIMM indicates the calendar year that a foreign-born person came to live in the country in which they were enumerated.

Years since immigrated (YRSIMM)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

YRSIMM indicates the number of years since a foreign-born person immigrated to their country of enumeration.

Years since immigrated, categorized (YRSIMM2)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

YRSIMM2 indicates the number of years since a foreign-born person immigrated to the country. The number of years is grouped into intervals.

School attendance (SCHOOL)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

SCHOOL indicates whether or not the person attended school at the time of the census or within some specified period of time prior to the census.

Literacy (LIT)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

LIT indicates whether or not the respondent could read and write in any language. A person is typically considered literate if he or she can both read and write. All other persons are illiterate, including those who can either read or write but cannot do both.

Educational attainment, Colombia (EDUCCO)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 0-999

Valid cases: 0
 Invalid: 0

Description

EDUCCO indicates the person's educational attainment in terms of the level of schooling completed and the number of years completed at that level.

Activity status (employment status) [general version] (EMPSTAT)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

EMPSTAT indicates whether or not the respondent was part of the labor force -- working or seeking work -- over a specified period of time. Depending on the sample, EMPSTAT can also convey further information.

The first digit of EMPSTAT is fully comparable, and classifies the population into three groups: employed, unemployed, and inactive. The combination of employed and unemployed yields the total labor force. The second and third digits of EMPSTAT preserve additional information available for some countries and census years but not for others.

Employment status is sometimes referred to in other sources as "activity status".

Activity status (employment status) [detailed version] (EMPSTATD)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 3
 Decimals: 0
 Range: 0-999

Valid cases: 0
 Invalid: 0

Status in employment (class of worker) [general version] (CLASSWK)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

CLASSWK refers to the status of an economically active person with respect to his or her employment -- that is, the type of explicit or implicit contract of employment with other persons or organizations that the person has in his/her job. In general, the variable indicates whether a person was self-employed, or worked for someone else, either for pay or as an unpaid family worker. CLASSWK is related to EMPSTAT, which is used to define the universe in many samples.

Class of worker is often referred to as "status in employment" in other sources.

Status in employment (class of worker) [detailed version] (CLASSWKD) File: COL1985-P-H

Relationship to household head (CO1985A_0401)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the person's relationship to the head of the household.

Universe

All persons

Literal question

A. For all of the persons in the dwelling
[Applies to questions 26 - 33]

27. What is your relationship to the head of dwelling?

- ☐ 1 Head of household
- ☐ 2 Spouse/companion
- ☐ 3 Child or stepchild
- ☐ 4 Son-in-law or daughter-in-law
- ☐ 5 Grandson/daughter
- ☐ 6 Parents or parents-in-law
- ☐ 7 Other relative
- ☐ 8 Employee
- ☐ 9 Other unrelated person

Interviewer instructions

Head. It is a person recognized as such by members of the dwelling, by reason of authority, age or economic role. The head of the dwelling can be man or woman, married or single.

In each dwelling a head must exist.

Spouse or companion: It is a person who lives with the head of the dwelling and is united by matrimony or freely.

Child - stepchild: It includes both children of the current union as well as those of previous unions and also those adopted or raised.

Son - daughter-in-law. Son-in-law is the spouse or companion of the daughter. Daughter-in-law is the spouse or companion of the son.

Grandchild. They are children of the children of the head of the home.

Parents and in-laws. They are the parents by blood or by raising of the head of the home and parents of the spouse or companion.

Other relative. It is a person related to the head of the dwelling or to the spouse or companion and does not appear in any of the previous alternatives, such as niece/nephew, siblings, brother/sister-in-law, aunt/uncle, etc.

Employee. It is a person who lives in the dwelling working at the service of its inhabitants and who receives remuneration in money or in kind (food clothes) as nannies, cooks, domestic employees, chauffeurs, gardeners, etc.

Other non-relative. They are all persons who do not have any relationship with the head of the home. Examples: pensioned (persons who pay for their dwelling and their meals to another member of the dwelling), tenants (persons who only pay for the dwelling), guests (persons who are lodged without pay in a dwelling in the case of spending more than six months living in it), children of domestic employees, etc.

Question No. 27 Relationship with the head of the dwelling

[Below the text is a form.]

Take into account the person No. 1 is always the head and because of this is the only box corresponding to head. Mark it.

Starting with person No. 2 many boxes appear. Mark the corresponding box, taking into account the relationship written down in the square of question 25.

Sex (CO1985A_0402)

Universe

All persons

Literal question

A. For all of the persons in the dwelling
 [Applies to questions 26 - 33]

29. Age in complete years.

(For minors less than one, write 00, for persons more than 99, write 99)

--

Interviewer instructions

Question No. 29 Age in complete years

[Below the text is a form.]

The information that is obtained is the number of years that a person became on their last birthday and not the age that they are going to be.

When a person does not remember their age, request an identification document where their date of birth appears; in case they do not have one, help establish the age making reference to personal deeds such as their age when they were married, age of the oldest child, etc. In the last case, the enumerator should calculate the age related with any national, international or local event whose date is well known.

For minors under one year write 00; Examples: If a child is 11 months old write 00, if 4 months old write 00; if 15 days old write 00.

For those older than 99 write 99; Example: if a person is 103 write down 99.

Mother is alive (CO1985A_0404)

File: COL1985-P-H

Overview

Type: Discrete

Invalid: 0

Description

This variable indicates if the person's mother is still alive.

Universe

All persons

Literal question

A. For all of the persons in the dwelling
[Applies to questions 26 - 33]

30. Is your mother still alive?

- ☐ 1 Alive
- ☐ 3 Dead
- ☐ 5 Do not know

Interviewer instructions

Question No. 30 Is your mother still alive?

[Below the text is a form.]

This question refers to the mother of each person. Be careful that the interviewed person is responding in relation to the person about whom they giving the information and not in relation with themselves or any other person.

Mark "x" in the corresponding box.

School attendance (CO1985A_0405)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-2

Valid cases: 0
 Invalid: 0

Description

This variable indicates whether or not the person is attending an educational center such as a preschool, elementary/secondary school or a university.

Universe

All persons

Literal question

A. For all of the persons in the dwelling
 [Applies to questions 26 - 33]

31. Do you attend an educational center--preschool, elementary, secondary, university?

☐ 2 Yes
☐ 4 No

Interviewer instructions

Question No. 31 Attendance in any education center

[Below the text is a form.]

Mark "x" in box 2, if a person attends any center of formal education at any level (preschool, primary, secondary, classic bachelor, technical, pedagogical,) or university (intermediate, professional or post-graduate careers). Include here also those who attend schools of special education.

Mark "x" in box 4, if a person does not attend any education center previously mentioned, although they are attending another class or course.

Born in this municipality (CO1985A_0406)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1

 Range: 1-2

Valid cases: 0
 Invalid: 0

Description

This variable indicates whether the person was born in the municipality they are enumerated in.

Universe

All persons

Literal question

A. For all of the persons in the dwelling
 [Applies to questions 26 - 33]

32. Were you born in this municipality?

☐ 1 Yes (continue with 35)
☐ 3 No (continue with 33)

Interviewer instructions

Question No. 32 Were you born in this municipality?

[Below the text is a form.]

This question has as its purpose knowing if a person was born in the same municipality where they are being enumerated. If they tell you that a person was born in a site where you do not know if it corresponds or not to the municipality being enumerated, resolve the doubt by requesting an identification document or by consulting other persons.

Mark "x" in box 1, if a person whose information you are discovering was born in this municipality. If you marked this box and the person that it concerns is less than 5 years old finish the interview for this person. If you marked this box and the person it concerns is 5 years old or older, go to question 35.

Mark "x" in box 3, if born in another municipality. If you marked this box, continue the interview with question 33.

This variable indicates where the person resided in October 1980.

Universe

Persons age 5+

Literal question

C. For persons five years old or more.
 [Applies to questions 35 - 41]

35. Where did you live in October 1980?

[] 1 In this municipality (continue with 38)
 [] 2 In another municipality (continue with 36)

(Answers 3, 4, 5, and 6, continue with 39)

[] 3 In Venezuela
 [] 4 In Ecuador
 [] 5 In the United States
 [] 6 Other country

Interviewer instructions

C. For persons 5 years old or older

(Question 35 to 41)

Take care to fill out this part C of Section V, only for persons who are 5 years old or older.

Question No. 35 Where did you live in October 1980?

[Below the text is a form.]

Mark "x" in box 1, if a person lived in the same municipality where they are being enumerated. And go to question No. 38.

Mark "x" in box 2, if a person answers that they lived in another municipality that is in a municipality different from the one they are being enumerated in. And continue the interview asking question No. 36.

If a person was born outside of Colombia, mark as such:

If they were in Venezuela, mark "x" in box 3,

If they were in Ecuador, mark "x" in box 4,

If they were in the United States, mark "X" in box 5,

If they were in a country different than the three previous, mark "x" in box 6.

If a person responds that they were outside of Colombia, go to question No. 39.

Take care to fill out this part C of Section V, only for persons who are 5 years old or older.

Question No. 39 Do you know how to read and write?

[Below the text is a form.]

Mark "x" in box 2, if a person knows how to read and write a paragraph or a simple section in their first language, even if it is done slowly.

Mark "x" in box 4, if a person does not know how to read or write a paragraph or a simple section, if they know how to read but not write or if they only know how to write their name.

Last year completed at highest educational level (CO1985A_0414)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the last year completed of highest education level attained.

Universe

Persons age 5+

Literal question

C. For persons five years old or more.
[Applies to questions 35 - 41]

40. What is the last year of education you completed?

(If the person did not complete any years of schooling, write 0) _

Interviewer instructions

C. For persons 5 years old or older

(Question 35 to 41)

Take care to fill out this part C of Section V, only for persons who are 5 years old or older.

Question No. 40 Number of years of study passed

[Below the text is a form.]

Write in the box the last year of study passed. Take into account that the level (primary, bachelor, etc) is marked in the following question (No. 41). If a person has passed no year, write 0.

If they are taking university classes take into account that many careers are done by semesters and should be written down only in years passed; so, for example, if anyone is in their third semester of engineering school, they have passed a year of their career and consequently should be written down 1, not 3.

In some cases the information about education can be supplied in accordance with Decree 088 of 1976, which divides basic and medium education into 11 grades, equivalent to five of primary and six of secondary. In these cases use the table of conversions and write down the information according to old regulations. Example: If a person answers that the last year passed is 9 of basic education, write four of bachelor.

[p. 45]

6th grade = 1st Bachelor
 7th grade = 2nd Bachelor
 8th grade = 3rd Bachelor
 9th grade = 4th Bachelor
 10th grade = 5th Bachelor
 11th grade = 6th Bachelor

In cases of persons who have done two university careers or who are doing post graduate work, all the years passed should be added up and the total should be written down.

Highest level of education attained (CO1985A_0415)

- ☐ 5 Single

Interviewer instructions

D. For persons 10 years old or older
[Applies to questions 42 - 45]

Question No. 42 Civil or conjugal state

[Below the text is a form.]

Mark "x" in the corresponding box.

If necessary explain the following definitions:

[p. 46]

Consensual union. A person who lives in marital union without being married by the law or the church.

Separated. It is a person who, having been married or in free union, at the moment of the census now does not live with the spouse or companion.

A person who has to be absent occasionally for reasons of work, vacation, sickness etc. should not be considered separated.

Divorced. It is a person whose wedding was dissolved for legal or religious means and did not marry again or does not live in free union.

Married. It is a person who was legally married according to the Civil Law (before a Judge) or according to the religious rites of any creed (catholic, baptist, jewish, etc.) and continues living with their spouse.

Widowed. It is a person whose wife or companion died and has not married again and does not live in free union.

Single. It is a person who has not married and does not live in free union.

- ☐ 7 In school and did not work or look for work
- ☐ 8 Did domestic work in the home and did not work or look for work
- ☐ 9 Was without activity

(Answers 4, 5, 6, 7, 8, and 9 continue with question 46)

Interviewer instructions

D. For persons 10 years old or older
[Applies to questions 42 - 45]

Question No. 44 Condition of activity

[Below the text is a form.]

Read the alternatives in order, if the response is negative, do not make any mark in the boxes. If the response is affirmative mark "x" in the corresponding box and follow the instructions you have at the front, in the square, that is to say:

If you marked boxes 1, 2 or 3, go to question 45.

If you marked boxes 4, 5, 6, 7, 8 or 9 and the person that it concerns is a man or woman younger than 15, go to the other person.

If you marked boxes 4, 5, 6, 7, 8 or 9 and the person that it concerns is a man or woman 15 years old or older, go to question 46.

Help the person found the pertinent response, taking into account the following definitions:

Worked. A person worked during the indicated week.

If they carried out any activity in the production of goods (food, drugs, clothes, etc.) or services (of education, guarding, etc.) in exchange for income, for a time not shorter than 1 hour (or not less than 15 hours if it is a family helper worker without pay. In this case the duties of "key persons" ["amas de casa"] in a home are not considered jobs.

If they received income from two or more pensioners (persons who pay because they prepare meals for them).

Did not work but had a job. If a person had employment during the week indicated, but was temporarily absent for it for any reason like passing sickness, on leave or with permission, vacations, labor conflict, machines in repair, suspended, etc.

[p. 48]

Looked for work but had worked before. If a person has worked any time in their life and in the indicated week did not have a job but was looking for work, that is to say was taking steps to get it or was waiting for results of applications.

Looked for work for the first time. If a person never has worked before but in the indicated week looked for work for the first time.

Lived from investments and did not work or look for work. If a person did not work or look for work during the indicated week but receives income or investments for their goods (interest, participation in company benefits, lease, renting of land, etc.)

Lived on retirement benefits or pension and did not work or look for work. If a person did not work or look for work during the indicated week but lived on pensions (widow, physical incapacity, etc.) or on retirement benefits (by retirement from work because of becoming a certain age or number of years of service).

Studied and did not work or look for work. If a person, during the indicated week, spent the largest amount of time in any school, secondary school, university, or academy or was dedicated to studying in their own house and were not working or looking for work.

This box also should be marked is a person is dedicated to studying, even if in the indicated week has not studied because of sickness or vacation.

If a person worked and studied they should not be marked in this box, but rather in front of box 1 (worked).

If a person, along with studying, carried out household duties, mark the box corresponding to studied.

Did domestic duties and did not work or look for work. Duties of the home are understood to be the care of children and chores of the dwelling like cooking, washing, cleaning, repairing the dwelling, arranging the gardens of the dwelling, etc. when these duties are not carried out by an employee.

Take into account that persons who do these labors are not necessarily women.

Mark this box if a person, during the indicated week, was dedicated to directing their home or carrying out household duties and did not work or look for work. This box should also be marked if a person is dedicated to the home even if during the indicated week, for temporary reasons (trip, sickness, etc.) did not do this activity.

Take into account that persons who do household duties and non remunerated family workers are different in that family workers work in companies of any family member and not in household duties.

Was without activity. Is a person, during the indicated week, who did not carry out a paid or remunerated job and did not look for work.

[p. 49]

Persons who worked without pay (for friendship, for charity, for solidarity, etc.) and persons who, because of permanent disability or old age, now cannot carry out any class of job and do not have an income should be included here.

Class of worker (CO1985A_0419)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 1-9

Valid cases: 0
 Invalid: 0

Description

This variable indicates the person's type of work.

Universe

Persons age 10+ with a job or seeking work

Literal question

D. For persons ten years old or more.
 [Applies to questions 42 - 45]

45. In the work, you were:

- ☐ 1 Laborer or journeyman
- ☐ 2 Employee
- ☐ 3 Boss or employer
- ☐ 4 Independent worker or self-employed
- ☐ 5 Unpaid family worker
- ☐ 6 Domestic worker

Interviewer instructions

D. For persons 10 years old or older
[Applies to questions 42 - 45]

Question No. 45 Occupational position

[Below the text is a form.]

Mark "x" in the corresponding box, taking into account the following definitions.

Manual laborer or day laborer. It is a person who is directly employed in the production of goods and services under the direction of an employer (or their representative), from whom they receive a fixed salary or a produced unit.

Office worker. It is a salaried worker who works in a company that produces goods and services, without working directly in the production of tasks, doing functions of direction, administration, organization or guarding.

Patron or employer. It is a person who, to run an economic activity, has one or more salaried employees, that is to say, workers who receive remuneration or payment in money or in kind (food, clothes, services, etc.). Make clear that heads of the home are not employers by the fact of having domestic servants in their private house, nor persons who only help as non paid family workers.

Directors of entities or companies are considered office workers.

Independent or for their own account. It is a person who runs their own economic company or who manages for their own account a profession or trade with the help or not of non remunerated family workers, but without using any salaried worker (office worker or manual laborer). These persons can work alone or be associated with others, in equal conditions.

Family worker without remuneration It is a person who helped the work in a family economic company for 15 hours or more a week without getting a salary.

If by any work done they received money that can be considered salary, you should qualify them as office worker or manual laborer.

[p. 50]

Habitation or clothes received is not considered salary.

Domestic employment. It is a person who works on domestic chores of the dwelling where they live or in other dwellings in exchange for remuneration in money or in kind (food, clothes, services, etc.).

Persons who are dedicated to the care of their house without receiving payment or remuneration should not be classified in this alternative.

Children ever born (CO1985A_0420)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the number of live births.

Universe

Females age 15+

Literal question

E. For women fifteen years old or older.
[Applies to questions 46 - 50]

46. How many children (live-births) have you had?

[] 00 None (continue with the next person)
Number of live births (continue with number 47) _ _
[] 98 Does not know (continue with number 47)

Interviewer instructions

E. Only for women 15 years old or older

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 46 Children born alive

[Below the text is a form.]

Take into account the following:

Born alive is the child who upon being born, breathes, cries or moves.

If a child, upon being born, shows any of these signs of life and later dies, it is a live birth, and therefore, should be registered in the form. This is clarified because frequently the interviewed mother declares as still born children who, having been born alive, die during their first hours or months of their life.

Mark "x" in box 00 (none), when a mother has not had any children born alive in her life and go to the next person.

Write in the box "number of children born alive" the total number of children born alive that a mother has had during her whole life, even if they are dead.

Mark "x" in box 98 (does not know), when a woman or the interviewed person does not remember or know the number of children born alive that she has had.

Number of children living (CO1985A_0421)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the number of children still living.

Universe

Females age 15+ who ever gave birth

Literal question

E. For women fifteen years old or older.
[Applies to questions 46 - 50]

47. How many of your children are still alive?

[] 00 None (continue with number 50)

Number of live births (continue with number 48) _ _

[] 98 Does not know (continue with number 48)

Interviewer instructions

E. Only for women 15 years old or older

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 47 Children currently alive

[Below the text is a form.]

[p. 50]

Take into account the following:

Children currently alive are those that on the date of the interview are found with life, even if they do not live with the mother.

Mark "x" in box 00 (none) when on the date of the interview none of her children are found with life. Go to question 50.

Write in the box "number of children alive" the total number of children alive that the woman has at the moment of the interview.

Mark "x" in box 98 (does not know), when a woman or the interviewed person does not know the total number of children alive at the moment of the census.

Number of male children living in other countries (CO1985A_0422)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

This variable indicates the number of male children living in other countries.

Universe

Females age 15+ with at least one child still living

Literal question

E. For women fifteen years old or older.
[Applies to questions 46 - 50]

48. Of the children that are still alive, how many live in another country?

(If none, write '0' in both spaces)

Men __
Women __

Interviewer instructions

E. Only for women 15 years old or older

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 48 Children alive in another country

[Below the text is a form.]

Write the number of children currently alive who reside or live in another country. Write the total number of male children in the corresponding box and the total number of female children in the corresponding box; if none of the sons or daughters who are alive currently lives abroad, write 0 in both boxes.

Number of female children living in other countries (CO1985A_0423) File: COL1985-P-H

Overview

Type: Discrete

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 48 Children alive in another country

[Below the text is a form.]

Write the number of children currently alive who reside or live in another country. Write the total number of male children in the corresponding box and the total number of female children in the corresponding box; if none of the sons or daughters who are alive currently lives abroad, write 0 in both boxes.

Status of last live birth (CO1985A_0424)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 1-9

Valid cases: 0
Invalid: 0

Description

This variable indicates the status of the person's last live birth.

Universe

Females age 15+ with at least one child still living

Literal question

E. For women fifteen years old or older.
[Applies to questions 46 - 50]

49. The last child born alive is now :

- ☐ 1 Dead
- ☐ 3 Alive
- ☐ 5 Does not know

Interviewer instructions

E. Only for women 15 years old or older

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 49 The last child born alive is:

[Below the text is a form.]

Mark "x" in box 1, if the last child that was born alive is dead.

Mark "x" in box 3, if the last child born alive is currently alive.

Mark "x" in box 5, if a woman does not know if her last child born alive, is dead or alive.

Month of the last live birth (CO1985A_0425)

File: COL1985-P-H

Overview

(Questions 46 to 50)

Take into account that this part of the form is directed only to women and that it should only be filled out for women who are 15 years old or older, even if they are single.

Question No. 50 Date in which the last child born alive was born

[Below the text is a form.]

[p. 52]

Write in the open boxes the number of the month in which the last child born alive was born, taking into account the following table that you find on the first page of the form.

[Below the text is a form with numbers corresponding to months of the year. January 01, February 02, etc.]

Write in the open boxes the last two numbers of the year in which the last child born alive was born, since the first two numbers are already written.

Person weight (CO1985A_0428)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 1-97

Valid cases: 0
Invalid: 0

Description

This variable indicates the person weight of the sample.

Universe

All persons

Literal question

Person weight

Person weight (PERWT)

File: COL1985-P-H

Overview

Type: Continuous
 Format: numeric
 Width: 8
 Decimals: 2

Valid cases: 0
 Invalid: 0

Description

PERWT indicates the number of persons in the actual population represented by the person in the sample.

For the samples that are truly weighted (see the comparability discussion), PERWT must be used to yield accurate statistics for the population.

NOTE: PERWT has 2 implied decimal places. That is, the last two digits of the eight-digit variable are decimal digits, but there is no actual decimal in the data.

Year of last birth (LASTBYR)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 4
 Decimals: 0
 Range: 1900-9999

Valid cases: 0
 Invalid: 0

Description

LASTBYR indicates the year of birth of the last child borne by the respondent. The data refer to live births.

Department capital 5 years ago, Colombia (MIGCAPCO)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 1
 Decimals: 0
 Range: 0-9

Valid cases: 0
 Invalid: 0

Description

MIGCAPCO indicates whether the persons lived in the capital of another department 5 years ago.

Years of schooling (YRSCHOOL)

File: COL1985-P-H

Overview

Type: Discrete
 Format: numeric
 Width: 2
 Decimals: 0
 Range: 0-99

Valid cases: 0
 Invalid: 0

Description

YRSCHOOL indicates the highest grade/level of schooling the person had completed, in years. Only formal schooling is counted. YRSCHOOL accounts for the number of years of study, regardless of the track or kind of study. Information on degree and/or technical track is available in EDATTAIN. Years of schooling for Israel, categorized into intervals, are given in YRSCHOOL2.

Users should pay close attention to the top-codes in each sample, as discussed in the comparability section.

Migration status, 5 years (MIGRATE5)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 2
Decimals: 0
Range: 0-99

Valid cases: 0
Invalid: 0

Description

MIGRATE5 indicates the person's place of residence 5 years ago. The first digit records movement across major administrative divisions and countries. The second digit reports movement across minor administrative divisions, for samples in which that detail is available.

Educational attainment, international recode [general version] (EDATTAIN)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 1
Decimals: 0
Range: 0-9

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States). As always, users can refer to the original education source variables for each sample, if they wish.

Many samples also give single years of schooling completed, recorded in YRSCHOOL. Some samples provide educational information in a form that could not be incorporated into EDATTAIN.

Educational attainment, international recode [detailed version] (EDATTAIND)

File: COL1985-P-H

Overview

Type: Discrete
Format: numeric
Width: 3
Decimals: 0
Range: 0-999

Valid cases: 0
Invalid: 0

Description

EDATTAIN records the person's educational attainment in terms of the level of schooling completed (degree or other milestone). The emphasis on level completed is critical: a person attending the final year of secondary education receives the code for having completed lower secondary only -- and in some samples only primary.

EDATTAIN does not necessarily reflect any particular country's definition of the various levels of schooling in terms of terminology or the number of years of schooling. EDATTAIN is an attempt to merge -- into a single, roughly comparable variable -- samples that provide degrees, ones that provide actual years of schooling, and those that have some of both. In addition to EDATTAIN, a country-specific education classification is provided which loses no information and reflects the particular educational system of that country (for example EDUCBR for Brazil, EDUCCL for Chile, and EDUCUS for the United States).
